AMENDED BILL TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for fiscal year 2008 provided in the amended bill, with comparisons to the fiscal year 2007 amount, the 2008 budget estimates, and the House and Senate bills for 2008 follows:

(In thousands of dollars)

New budget (obligational) authority, fiscal year 2007	$32,562,190
Budget estimates of new (obligational) authority, fiscal year 2008	30,887,338
House bill, fiscal year 2008	32,138,521
Senate bill, fiscal year 2008	32,791,321
Amended bill, fiscal year 2008	31,465,890
Amended bill compared with:	
New budget (obligational) authority, fiscal year 2007	−1,096,300
Budget estimates of new (obligational) authority, fiscal year 2008	+578,552
House bill, fiscal year 2008	−672,631
Senate bill, fiscal year 2008	−1,325,431

DIVISION D—FINANCIAL SERVICES AND GENERAL GOVERNMENT APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Financial Services and General Government Appropriations Act, 2008 (H.R. 2829) passed by the House of Representatives and reported by the Senate Appropriations Committee.

REPORT LANGUAGE

Report language included by the House (House Report 110–207) or the Senate (Senate Report 110–129) that is not changed herein is approved. This explanatory statement, while repeating some report language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

TITLE I

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $248,360,000 for departmental offices salaries and expenses, instead of $250,591,000 as proposed by the House and $251,641,000 as proposed by the Senate. Of the funds provided, not more than $3,000,000 is available until September 30, 2009 for information technology modernization, $258,000 is for emergencies or activities of a confidential nature, $5,114,000 is available until September 30, 2009 for Treasury-wide financial audits, $3,000,000 is available until September 30, 2009 for secure space requirements, $2,300,000 is available until September 30, 2009 for the hiring of personnel whose work will require a security clearance investigation, $2,100,000 is available until September 30, 2009 for critical infrastructure protection activities, and not more than $150,000 is allowed for reception and representation expenses.

For the activities under this heading, the amended bill provides the following funding levels:

Executive Direction	$10,840,000
General Counsel	9,909,000
Economic Policies and Programs	44,242,000
Financial Policies and Programs	29,464,000
Terrorism and Financial Intelligence	56,775,000
Treasury-wide Management	18,505,000
Administration	78,625,000

The amended bill provides an increase of $618,000, as requested and provided in the House and Senate bills, for enhanced international economic policy coordination. The Appropriations Committees expect the Department to increase its efforts to implement currency reforms in China.

Of the funds provided for the Executive Direction budget activity, the Department is directed to provide $1,500,000 for a study on energy externalities directed by section 1352 of Public Law 109–58. The Senate version of the bill included these funds.

Within the funds provided for the Financial Policies and Programs budget activity, the Department is directed to provide $1,000,000 to the Center for Resilient Financial Services e-Cavern Partnership. These funds are intended to be the final Federal payment for this project.

The Department is directed to fund Treasury's Office of Financial Education at a level not less than $1,100,000, an increase of approximately $400,000 above the amount requested. Within this amount, (1) not less than $200,000 is directed to be used to further the office's outreach and education activities focused on elementary schools and high schools, and (2) not less than $200,000 is directed to be used for the development of tailored, targeted materials and dissemination strategies to protect consumers against predatory lending and encourage the use of mainstream financial services. Additionally, the Department is directed to report to the Committees on Appropriations, within 60 days of enactment of this Act, on progress made in implementing the recommendations of the Government Accountability Office regarding the National Strategy for Financial Literacy.

Within the funds provided for the Terrorism and Financial Intelligence budget activity, the Department is directed to provide $300,000 to Treasury's Office of Terrorism and Financial Intelligence (TFI) to create a permanent position which will be responsible for managing and overseeing all TFI information technology operations, activities, and needs, as proposed by the Senate. In addition, within the funds provided, the Department is directed to provide $250,000 to the Office of Foreign Assets Control (OFAC) for efforts to reduce OFAC's backlog of Freedom of Information Act requests, as proposed by the House.

The amended bill includes a provision allowing the Department to transfer up to 2 percent of funds available between budget activities upon notification to the Committees on Appropriations. Transfers in excess of 2 percent may be made upon approval of the Committees on Appropriations.

DEPARTMENT-WIDE SYSTEMS AND CAPITAL INVESTMENTS PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $18,710,000 for systems and capital investments as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The amended bill provides $18,450,000 for salaries and expenses of the Office of Inspector General as proposed by both the House and the Senate. Of the funds provided, up to $2,000,000 may be used for travel, $100,000 may be used for emergencies or activities of a confidential nature, and up to $2,500 may be used for reception and representation expenses.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides $140,533,000 for salaries and expenses as proposed by both the House and the Senate. Of the funds provided, up to $6,000,000 is for travel expenses, $500,000 may be used for emergencies or activities of a confidential nature, and up to $1,500 may be used for reception and representation expenses.

AIR TRANSPORTATION STABILIZATION PROGRAM ACCOUNT

(INCLUDING RESCISSION)

The amended bill includes language terminating the program and rescinding $3,600,000 in remaining unobligated balances, as proposed by both the House and the Senate.

FINANCIAL CRIMES ENFORCEMENT NETWORK

SALARIES AND EXPENSES

The amended bill provides $85,844,000 for salaries and expenses as proposed by the Senate, instead of $83,344,000 as proposed by the House. Of the funds provided, not more than $14,000 is for reception and representation expenses, $16,340,000 is available until September 30, 2010, and $8,955,000 is available until September 30, 2009.

The Department is directed to report to the Committees on Appropriations on the Department's analysis of developing a cross-border electronic funds transfer reporting system. If the Department supports proceeding with this project, the report shall identify the revised estimated future year costs by fiscal year of developing a cross-border system.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

The amended bill provides $234,423,000 for salaries and expenses as proposed by the House, instead of $235,191,000 as proposed by the Senate. Of the funds provided, $9,220,000 is available until September 30, 2010 for information technology modernization initiatives and up to $2,500 is for reception and representation expenses.

ALCOHOL AND TOBACCO TAX AND TRADE BUREAU

SALARIES AND EXPENSES

The amended bill provides $93,515,000 for salaries and expenses as proposed by the House, instead of $97,015,000 as proposed by the Senate. Of the funds provided, not more than $6,000 is for reception and representation expenses and $50,000 is for cooperative research. The Department is encouraged to utilize funds from the Treasury Forfeiture Fund to address the replacement of obsolete information technology equipment in the Alcohol and Tobacco Tax and Trade Bureau.

UNITED STATES MINT

UNITED STATES MINT PUBLIC ENTERPRISE FUND

The amended bill provides that not more than $33,200,000 in new liabilities and obligations may be incurred during fiscal year 2008 for circulating coinage and protective service capital investments of the U.S. Mint, as proposed by both the House and the Senate.

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

The amended bill provides $182,871,000 for costs associated with administering the public debt, as proposed by both the House and the Senate. Of the funds provided, not more than $2,500 is allowed for reception and representation expenses and $2,000,000 is available until September 30, 2010 for systems modernization. The amended bill includes $10,000,000 in user fees to offset the appropriated amounts and $70,000 from the Oil Spill Liability Trust Fund to reimburse the Bureau for various administrative expenses.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND PROGRAM ACCOUNT

The amended bill provides $94,000,000 for the Community Development Financial Institutions (CDFI) Fund program, instead of $100,000,000 as proposed by the House and $90,000,000 as proposed by the Senate. Of the funds provided, up to $13,500,000 is for administrative costs, up to $7,500,000 is for the cost of direct loans, up to $250,000 is for administrative expenses of the direct loan program, and $8,000,000 is for technical assistance and other purposes for Native American, Native Hawaiian, and Alaskan Native communities. The amended bill includes language that limits loan obligations to $16,000,000, as proposed by the Senate, instead of $15,000,000 as proposed by the House.

The Department is directed to fund the Bank Enterprise Award program at a level not less than $20,000,000.

The Appropriations Committees note that poverty, lack of economic opportunity, and lack of low-cost financial services continue to be problems across much of the Nation, particularly in many Hispanic-American, African-American, and Native American communities. The Committees appreciate the ongoing efforts of the CDFI Fund to work to remedy the particular problems in these communities and strongly encourage the CDFI Fund to continue to place a heavy emphasis on these efforts.

INTERNAL REVENUE SERVICE

TAXPAYER SERVICES

The amended bill includes $2,150,000,000 for Taxpayer Services, instead of $2,155,000,000 as proposed by the House and $2,149,200,000 as proposed by the Senate. The amended bill provides an overall increase of $46,911,000 above the budget request. It is the intent of the Appropriations Committees that the increase above the request is in addition to, and not a substitute for, the $94,500,000 in user fee collections that the Internal Revenue Service (IRS) estimated in its fiscal year 2008 budget request would be available to supplement the Taxpayer Services account.

Of the increase above the budget request, $31,200,000 is directed to be targeted toward the following activities: (1) increasing IRS outreach and education activities, for individuals, businesses, and tax-exempt entities, above the levels assumed in the fiscal year 2008 budget request, and (2) increasing the number of tax returns prepared at IRS Taxpayer Assistance Centers. The Department is directed to include, in its fiscal year 2008 operating plan, a specific plan for increasing these activities above the levels assumed in the budget request. For purposes of comparison, the plan should include: (1) details on the funding levels and full-time equivalents (FTEs) assumed in the fiscal year 2008 budget request for these activities, and (2) funding levels and FTEs for these activities as funded by this Act.

Within the overall funds provided, the amended bill provides not less than $3,000,000 for Tax Counseling for the Elderly and not less than $9,000,000 for low-income taxpayer clinic grants. In addition, not less than $177,000,000 is provided for operating expenses of the IRS Taxpayer Advocate Service (TAS). The Appropriations Committees note that previous IRS budget requests have recognized that a portion of the TAS budget is enforcement-related, due to the increases in TAS caseload resulting from stepped-up IRS enforcement activity. The Committees urge the Department, in future year budget requests, to include a portion of the TAS operating expenses budget in the IRS Enforcement account.

The amended bill also provides $8,000,000, to be available until September 30, 2009, to establish a matching grant demonstration program for Community Volunteer Income Tax Assistance (VITA) programs, instead of $10,000,000 as proposed by the Senate and no funding as proposed by the House. The Appropriations Committees direct that the matching grant program be administered by the IRS in consultation with the Taxpayer Advocate Service. The program shall provide direct funds to enable VITA programs to extend services to underserved populations and hardest-to-reach areas, both urban and non-urban, as well as to increase the capacity to file returns electronically, heighten quality control, enhance training of volunteers, and significantly improve the accuracy rate of returns prepared by VITA sites. The Appropriations Committees direct the IRS, in consultation with the National Taxpayer Advocate, to submit to the Committees, within 90 days of enactment, a proposed design plan for the matching grant program, including the scope of eligibility, an equitable selection methodology which takes into account geographic diversity, and an evaluation component to measure the overall effectiveness of the program and the results achieved.

The IRS is directed to strengthen, improve, and expand taxpayer service overall. If the IRS proposes further reductions in specific taxpayer services, such reductions must be consistent with the budget justification, operating plan, and Taxpayer Assistance Blueprint, and the IRS must demonstrate that such reductions will not result in a decline in voluntary compliance. Where such reductions involve a reduction in face-to-face service, the IRS must demonstrate that the proposed reductions do not adversely impact compliance by taxpayers who are dependent on such services, by showing, through such means as a successful pilot program, survey, or other empirical means, that there is an effective and viable service alternative available.

The Appropriations Committees reiterate and modify House and Senate report language directing the IRS, together with the IRS Oversight Board and the National Taxpayer Advocate, to submit annually to the Committees an update to the Taxpayer Assistance Blueprint, detailing its implementation status and identifying any changes to the strategic plan for taxpayer service, including any research and relevant findings completed to date, and any open issues requiring additional research. The first update shall be submitted 90 days after enactment of this Act.

ENFORCEMENT

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $4,780,000,000 for Enforcement, instead of $4,925,498,000 as proposed by the House and the Senate. Of the funds provided, $57,252,000 is for the Interagency Crime and Drug Enforcement (ICDE) program. The amended bill also permits the transfer of up to $10,000,000 to the Operations Support account for administrative costs of the ICDE program.

The Appropriations Committees reiterate and modify the House report language requiring the IRS to work with the National Taxpayer Advocate and IRS Oversight Board to develop a 5-year strategic plan for research to be submitted to the Committees no later than September 30, 2008. In addition, the Appropriations Committees reiterate the Senate report language: (1) directing the National Taxpayer Advocate and the IRS Office of Research to report to the Committees, by September 30, 2008, on factors that influence taxpayer compliance behavior; (2) directing the IRS to submit to the Committees, no later than March 1, 2008, a detailed research plan to address the shortfalls in the National Research Program (NRP); and (3) directing IRS, in administering its NRP for fiscal year 2008, to work with the National Taxpayer Advocate to collect information on the causes of noncompliance.

OPERATIONS SUPPORT

The amended bill provides $3,680,059,000 for Operations Support, instead of $3,769,587,000 as proposed by the House and the Senate. Of the funds provided, $75,000,000 is available until September 30, 2009 for information technology support and $1,000,000 is available until September 30, 2010 for research. In addition, not less than $2,000,000 is provided for the IRS Oversight Board and not more than $25,000 is for reception and representation expenses.

The Appropriations Committees modify the Senate directive that the IRS include in its operating plan details on any planned reorganization, job reductions, or increases to offices or activities within the agency, or modifications to any service or enforcement activity. The Committees direct the IRS to obtain comments on the operating plan from the IRS Oversight Board and to provide a summary of the comments as part of the operating plan submission.

The Appropriations Committees reiterate and modify the Senate directive that the IRS review its entire non-Business Systems Modernization information technology portfolio to ensure performance efficiencies that support tax administration activities. The Committees expect the IRS to make any changes necessary to ensure that each project has: (1) been properly classified for investment decision and management purposes, (2) the appropriate governance structure in place, (3) a risk management plan, (4) a contingency plan, (5) adequate provisions in the contracts to ensure penalties and repayment to the agency if performance is not met, (6) adequate contractor staffing and management in place to fulfill the contract terms and deliverables, and (7) been certified by the head of the relevant IRS business unit that the project is deemed necessary for its operations and meets its requirements. The Committees direct the IRS Chief Information Officer to submit a report within 120 days of enactment to the IRS Oversight Board, the Treasury Department, the Office of Management and Budget, the House and Senate Appropriations Committees, the House Ways and Means Committee, and the Senate Finance Committee that certifies that the review has been completed, summarizes the findings, and describes actions being taken to address any problems identified. The Appropriations Committees further direct the IRS to provide quarterly briefings to the IRS Oversight Board and the Treasury Inspector General for Tax Administration on the status of its information technology portfolio and to report immediately if any project experiences significant cost variances or milestone delivery date slippages. In addition, the Committees direct the IRS to review all critical systems and report to the Committees no later than 45 days after enactment of this Act on any actual or potential systems problems or risks impacting the 2008 filing season.

BUSINESS SYSTEMS MODERNIZATION

The amended bill provides $267,090,000 for Business Systems Modernization (BSM), instead of $282,090,000 as proposed by the House and the Senate. Language is included requiring approval by the Appropriations Committees of a GAO-reviewed spending plan for BSM prior to the obligation of the funds, except in the case of funds for IRS labor costs.

HEALTH INSURANCE TAX CREDIT ADMINISTRATION

The amended bill provides $15,235,000 for administration of the Health Insurance Tax Credit program as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes the following administrative provisions that were proposed by both the House and the Senate:

Section 101 providing transfer authority;

Section 102 requiring IRS to maintain training in taxpayer rights;

Section 103 requiring IRS to safeguard taxpayer information;

Section 104 permitting funding for 1-800 help line services and directing the Commissioner to make improving phone service a priority;

Section 105 extending the authority of the Secretary of the Treasury to exercise streamlined critical pay authority with respect to certain IRS professional positions;

Section 106 extending the authority of the Secretary of the Treasury with respect to certain IRS personnel flexibilities relating to recruitment, retention, relocation incentives, and performance awards; and

Section 107 transferring from the Office of Management and Budget to the Office of Personnel Management the authority to fix the rate of basic pay for IRS positions that have been designated by the Secretary of the Treasury under streamlined critical pay authority.

In addition, the amended bill includes the following administrative provision:

Section 108 provides that not less than $7,350,000 shall be available for increasing, above fiscal year 2007 levels, the number of IRS personnel and related support activities performing IRS Automated Collection System functions. The Appropriations Committees are concerned that the IRS is not adequately utilizing the Automated Collection System (ACS) to maximize its in-house capacity to collect outstanding tax debt despite the $13 to $1 return on investment these positions deliver. The Appropriations Committees modify the House report language regarding retraining of employees and direct the IRS, as it increases ACS FTEs, to give preference and provide any necessary training to submission processing employees who have been subject to a reduction in force within the last two years or who will face the loss of their current position within the next two years. The Committees believe that this increase in ACS collection capacity will help to close the tax gap by bringing in more revenue at less cost than using private collection agencies and strongly urge the IRS to look to funding made available for administration of the private collection program to fund this increase in ACS positions.

The amended bill does not include the following administrative provisions:

Section 105 of the Senate bill regarding the Taxpayer Advocate Service;

Section 105 of the House bill and Section 106 of the Senate bill, relating to funding for enforcement;

Section 107 of the Senate bill relating to additional transfer authority to implement the restructuring of the IRS accounts;

Section 108 of the Senate bill directing IRS to develop a strategic plan to increase the voluntary tax compliance rate to 85 percent in fiscal year 2009; however, the Appropriations Committees note that on August 2, 2007, the IRS issued a report on improving voluntary compliance, and the Committees direct the IRS to consult with the Taxpayer Advocate and the IRS Oversight Board to develop proposals for continued growth in the voluntary compliance rate;

Section 112 of the Senate bill limiting funding in support of tax collection contracts;

Section 113 of the Senate bill precluding the use of funds to expand the number of qualified tax collection contracts while the IRS is eliminating processing center employees, mandating a cost comparison study and report, and requiring a disability preference program for any additional qualified tax collection contracts; and

Section 114 of the Senate bill restricting the use of funds to ramp down or eliminate submission processing activities until the IRS issues a report on the potential for employee reassignments.

ADMINISTRATIVE PROVISIONS—DEPARTMENT OF THE TREASURY

(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes the following administrative provisions that were proposed by both the House and the Senate:

Section 109 allowing Treasury to purchase uniforms, lease vehicles, and engage in other activities pursuant to title 5 U.S.C. 5901;

Section 110 allowing for the transfer of up to 2 percent of funds between Departmental Offices and the various Treasury bureaus, except the IRS;

Section 111 allowing for the transfer of up to 2 percent from the IRS accounts to TIGTA;

Section 112 directing that the purchase of vehicles be consistent with vehicle management principles;

Section 113 prohibiting funding to redesign the $1 note;

Section 114 allowing for the transfer of funds from Financial Management Service, Salaries and Expenses' to the Debt Collection Fund conditional on future reimbursement;

Section 115 extending the pay demonstration program for one year;

Section 116 prohibiting funds to build a United States Mint museum without the approval of the authorizing committees of jurisdiction; and

Section 117 prohibiting funding for consolidating functions of the United States Mint and the Bureau of Engraving and Printing without the approval of the House and Senate Appropriations Committees and the authorizing committees of jurisdiction.

The amended bill includes the following administrative provisions that were proposed by the Senate:

Section 118 specifying that funds for Treasury intelligence activities are deemed to be specifically authorized until enactment of the fiscal year 2008 intelligence authorization act; and

Section 119 clarifying that the Check Forgery Insurance Fund is the appropriate funding source for disbursing errors for which relief has been granted under 31 U.S.C. 3527.

TITLE II

EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

COMPENSATION OF THE PRESIDENT

The amended bill provides $450,000 for compensation of the President as proposed by both the House and Senate.

WHITE HOUSE OFFICE

SALARIES AND EXPENSES

The amended bill provides $51,656,000 as proposed by the Senate, instead of $53,156,000 as proposed by the House. The amended bill provides funding for the Privacy and Civil Liberties Oversight Board under a separate heading.

EXECUTIVE RESIDENCE AT THE WHITE HOUSE

OPERATING EXPENSES

The amended bill provides $12,814,000 as proposed by both the House and the Senate.

WHITE HOUSE REPAIR AND RESTORATION

The amended bill provides $1,600,000 as proposed by both the House and the Senate.

COUNCIL OF ECONOMIC ADVISERS

SALARIES AND EXPENSES

The amended bill provides $4,118,000 as proposed by both the House and the Senate.

OFFICE OF POLICY DEVELOPMENT

SALARIES AND EXPENSES

The amended bill provides $3,482,000 as proposed by both the House and the Senate.

NATIONAL SECURITY COUNCIL

SALARIES AND EXPENSES

The amended bill provides $8,640,000 as proposed by both the House and the Senate.

PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD

SALARIES AND EXPENSES

The amended bill provides $2,000,000 for the Privacy and Civil Liberties Oversight Board (PCLOB) as proposed by the Senate. The House provided $1,500,000 for the PCLOB under the "White House Office, Salaries and Expenses" account. The amended bill modifies language proposed by the Senate regarding the citation of authorities.

OFFICE OF ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides $91,745,000, instead of $92,829,000 as proposed by both the House and the Senate.

OFFICE OF MANAGEMENT AND BUDGET

SALARIES AND EXPENSES

The amended bill provides $78,000,000 for the Office of Management and Budget (OMB) instead of $78,394,000 as proposed by both the House and the Senate.

The amended bill includes a provision, as proposed by the House, requiring that appropriations be applied only to the objects for which appropriations were made and shall be allocated in accordance with the terms and conditions set forth in the relevant explanatory statement, except as otherwise provided by law. The Senate did not propose similar language.

The amended bill continues prior-year restrictions on the review of agricultural marketing orders, as well as restrictions and congressional notification requirements for the review of water resource matters, as proposed by both the House and the Senate. The amended bill also continues language that restricts OMB from evaluating or determining if Water Resources Project reviews are in compliance with laws, regulations, and requirements relevant to the Civil

Works water resource planning process, as proposed by the Senate. The House did not propose similar language.

The Federal Government has had a history of poorly managed and failed information technology projects, unfortunately resulting in expensive burdens to taxpayers. OMB can do more to better identify and track the causes for performance failure. OMB shall publish in the annual budget submission the specific reasons why a project is on OMB's High Risk List or OMB's Management Watch List. This information will allow GAO and Congress to spot trends, track progress and recommend corrective action.

OFFICE OF NATIONAL DRUG CONTROL POLICY

SALARIES AND EXPENSES

The amended bill provides $26,402,000 for Office of National Drug Control Policy (ONDCP) salaries and expenses, instead of $26,636,000 as proposed by the House and $25,152,000 as proposed by the Senate. Of this amount, $250,000 is for policy research and evaluation as proposed by the Senate, instead of $1,316,000 as proposed by the House. Also provided within the overall amount is $1,250,000 for an independent study and analysis of ONDCP's organization and management, instead of $1,500,000 as proposed by the Senate.

Within the total amount provided, the amended bill provides the following funding levels:

	Amount	FTE
Office of the Director	$4,150,000	18
Office of the Deputy Director	....	(vacant)
Office of Management and Administration	3,072,000	15
Office of Legal Counsel	1,100,000	6
Office of Public Affairs	1,950,000	7
Office of Legislative Affairs	1,015,000	7
Major Cities	....	....
CTAC[1]	....	....
Office of Planning and Budget	3,272,000	17
Office of Demand Reduction	1,780,000	11
Office of National Youth Anti-Drug Media Campaign	825,000	6
Office of State, Local, & Tribal Affairs	2,125,000	14
Office of Supply Reduction	2,860,000	17
Policy Research	250,000	....
Rental payments to GSA	2,753,000	....
Organization and management study	1,250,000	....

[1] The amended bill includes $1,000,000 for counter-narcotics research and development projects under the "Counterdrug Technology Assessment Center" heading. ONDCP is expected to administer this program using resources and FTE available in other ONDCP offices.

Senate report language regarding policy research and evaluation is adopted, and the Appropriations Committees reiterate that the use of policy research funds was never intended to be used for primary data collection. Funding for policy research shall be used as it was originally intended, and ONDCP shall report to the Committees on Appropriations on its policy research plans for using these funds within 30 days after the enactment of this Act.

The amended bill assumes that not more than $600,000 shall be provided for travel by ONDCP officials, and although travel amounts are not allocated by office as proposed in the Senate report, the Appropriations Committees note the extensive travel conducted by ONDCP officials at taxpayer expense. The Committees are aware of investigations of travel by ONDCP that may have occurred for political purposes and caution the Director and other high-ranking officials that travel should occur for official business reasons only, not for political gain, and that travel should occur only when absolutely necessary in order to fulfill the ONDCP mission.

Senate report language that requires the Director of ONDCP to provide to the Committees on Appropriations quarterly reports on travel expenditures, summarized by office, program, and individual, including dates and purpose of travel is adopted. The Director shall provide to the Committees on Appropriations quarterly reports on staffing levels and plans for future hirings. The staffing report shall include office, position title, salary, and job classifications of all persons employed by ONDCP, including contractors.

The Appropriations Committees remain concerned about methamphetamine production, trafficking, and abuse. ONDCP should continue and strengthen its efforts to combat this problem. Such efforts should include working with other Federal agencies, as well as with state and local governments, to develop and implement strategies to reduce the demand for and supply of methamphetamine. The Appropriations Committees concur with Senate report language requiring the Director to report to the Committees on Appropriations within 30 days after enactment of this Act on its efforts to meet the requirements of House Report 109-307, the conference report to accompany H.R. 3058 (109th Congress). As part of that report, the Director shall also report on additional options for how ONDCP, in conjunction with other Federal agencies if appropriate, can reduce methamphetamine use, particularly in rural communities. The consideration of options that result in the expansion of methamphetamine treatment for pregnant and parenting women offenders is encouraged.

COUNTERDRUG TECHNOLOGY ASSESSMENT CENTER

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $1,000,000 for the Counterdrug Technology Assessment Center, instead of $10,000,000 as proposed by the House. The Senate did not include funding. The amended bill provides this funding for counter-narcotics research and development and requires that a spending plan for the use of these funds be submitted no later than 90 days after enactment of this Act.

FEDERAL DRUG CONTROL PROGRAMS

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides $230,000,000 for the High Intensity Drug Trafficking Areas (HIDTA) Program, instead of $226,000,000 as proposed by the House and $235,000,000 as proposed by the Senate. Funds shall be available until September 30, 2009, as proposed by the Senate. Of the funds provided, no less than $2,000,000 shall be for new counties; $2,100,000 is provided for audit activities; and up to $400,000 shall be for the final year of development and implementation of a data collection system to measure performance.

The amended bill requires ONDCP to submit recommendations for approval to the Committees on Appropriations for both the initial HIDTA allocation funding within 90 days after the enactment of this Act and the discretionary HIDTA funding, according to the framework proposed jointly by the HIDTA Directors and ONDCP, within 120 days after the enactment of this Act.

While many positive steps have been made by the Lake County HIDTA, continued Federal management is needed to ensure the HIDTA's ability to meet its program goals. The Lake County HIDTA board is encouraged to select a highly-qualified Federal official to chair the Executive Board of the Lake County HIDTA for fiscal years 2008 through 2011.

OTHER FEDERAL DRUG CONTROL PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $164,300,000 for Other Federal Drug Control Programs, instead of $197,800,000 as proposed by the House and $204,735,000 as proposed by the Senate. Within the amount provided, the bill provides the following allocations:

(In thousands of dollars)	
National Youth Anti-Drug Media Campaign	$60,000
Drug Free Communities Support Program	90,000
National Drug Court Institute	1,000
National Alliance for Model State Drug Laws ..	1,250
Demonstration programs for chronic hard drug users under community supervision	500
U.S. Anti-Doping Agency ..	9,600
World Anti-Doping Agency Membership Dues	1,700
Performance Measures Development	250

UNANTICIPATED NEEDS

The amended bill provides $1,000,000 as proposed by both the House and the Senate.

SPECIAL ASSISTANCE TO THE PRESIDENT

SALARIES AND EXPENSES

The amended bill provides $4,432,000 as proposed by both the House and the Senate, and adopts the account header as proposed by the Senate.

OFFICIAL RESIDENCE OF THE VICE PRESIDENT

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $320,000 as proposed by both the House and the Senate, and adopts the account header as proposed by the Senate.

ADMINISTRATIVE PROVISIONS—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

(INCLUDING TRANSFER OF FUNDS)

Section 201 provides transfer authority between "White House Office", "Executive Residence at the White House", "White House Repair and Restoration", "Council of Economic Advisers", "National Security Council", "Office of Administration", "Office of Policy Development", "Special Assistance to the President", and "Official Residence of the Vice President" as proposed by the House. The Senate proposed transfer authority between "White House Office", "Executive Residence at the White House", "White House Repair and Restoration", "Office of Management and Budget", "Special Assistance to the President", and "Official Residence of the Vice President".

Section 202 requires a financial plan by ONDCP by program, project, and activity as proposed by the Senate. The House bill required a similar plan on a project-by-project basis.

Section 203 specifies that not to exceed 2 percent of ONDCP appropriations may be transferred between appropriated programs upon advance approval of the Committees. The Senate bill proposed 3 percent. The House bill did not include a similar provision.

Section 204 specifies that not to exceed $1,000,000 of ONDCP appropriations may be reprogrammed upon advance approval of the Committees as proposed by the Senate. The House bill did not include a similar provision.

The amended bill does not include section 205 of the Senate bill concerning the availability of funds for any program, project, or activity in excess of the budget estimates.

The Appropriations Committees emphasize the importance of ONDCP adhering to the requirements of this Act with regard to transfers and reprogrammings. Timely notification of proposed transfers and reprogrammings to the Committees on Appropriations must be made, and such transfers and reprogrammings may not be implemented without the advance approval of the Committees. Sections 203 and 204 establish benchmarks for ONDCP transfers and reprogrammings, and section 610 contains approval requirements for the creation or elimination of programs or activities, including the reorganization of offices.

TITLE III

THE JUDICIARY

Supreme Court of the United States

SALARIES AND EXPENSES

The amended bill includes $66,526,000 for the salaries and expenses of the Supreme Court as proposed by the House, instead of $66,522,000 as proposed by the Senate.

CARE OF THE BUILDING AND GROUNDS

The amended bill includes $12,201,000 for care of the Supreme Court building and grounds as proposed by both the House and the Senate.

United States Court of Appeals for the Federal Circuit

SALARIES AND EXPENSES

The amended bill includes $27,072,000 for the United States Court of Appeals for the Federal Circuit, instead of $27,976,000 as proposed by the House and $27,438,000 as proposed by the Senate.

United States Court of International Trade

SALARIES AND EXPENSES

The amended bill includes $16,632,000 as proposed by the Senate for the United States Court of International Trade, instead of $16,544,000 as proposed by the House.

Courts of Appeals, District Courts, and Other Judicial Services

SALARIES AND EXPENSES

The amended bill provides $4,604,762,000 for the salaries and expenses of the Courts of Appeals, District Courts, and Other Judicial Services, instead of $4,660,590,000 as proposed by the House and $4,709,991,000 as proposed by the Senate. The amended bill provides an additional $14,500,000 in emergency funding for a homeland security border initiative to address the critically understaffed workload associated with increased immigration enforcement along the Southwest border. In addition, the amended bill includes $4,099,000 for the Vaccine Injury Compensation Trust Fund as proposed by both the House and the Senate.

DEFENDER SERVICES

The amended bill provides $835,601,000 for Defender Services, instead of $830,499,000 as proposed by the House and $840,601,000 as proposed by the Senate. The amended bill provides a cost of living adjustment from $94 to $96 an hour for non-capital panel attorneys and an adjustment from $166 to $170 an hour for attorneys associated with capital cases. The bill further provides a pay raise from $96 to $100 an hour for non-capital panel attorneys. In addition, the amended bill provides $10,500,000 in emergency funding to address the expected increased workload of attorneys appointed to represent persons under the Criminal Justice Act of 1964 as a result of increased immigration enforcement along the Southwest border.

FEES OF JURORS AND COMMISSIONERS

The amended bill provides $63,081,000 for fees of jurors and commissioners as proposed by the Senate, instead of $62,350,000 as proposed by the House.

COURT SECURITY

(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes $410,000,000 for court security, instead of $396,476,000 as proposed by the House and $412,720,000 as proposed by the Senate.

Administrative Office of the United States Courts

SALARIES AND EXPENSES

The amended bill provides $76,036,000 for the salaries and expenses of the Administrative Office of the United States Courts, instead of $75,667,000 as proposed by the House and $78,536,000 as proposed by the Senate. The amended bill includes $8,500 for official reception and representation purposes. The Administrative Office of the U.S. Courts is directed to include, as an addendum to the annual budget submission, a detailed five-year plan for courthouse construction projects with a yearly update of total projected future funding needs for associated rent payments and construction costs.

Federal Judicial Center

SALARIES AND EXPENSES

The amended bill provides $24,187,000 for salaries and expenses of the Federal Judicial Center, instead of $23,994,000 as proposed by the House and $24,475,000 as proposed by the Senate. The amended bill includes $1,800,000 to be available until September 30, 2009. The Federal Judicial Center is directed to keep the House and Senate Committees on Appropriations informed of new staff hires throughout fiscal year 2008.

Judicial Retirement Funds

PAYMENT TO JUDICIARY TRUST FUNDS

The amended bill provides $65,400,000 for payments for various judicial retirement funds as proposed by both the House and the Senate.

United States Sentencing Commission

SALARIES AND EXPENSES

The amended bill provides $15,477,000 for the salaries and expenses of the United States Sentencing Commission, as proposed by both the House and the Senate.

Administrative Provisions—The Judiciary

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes the following administrative provisions for this Act that were proposed by both the House and the Senate:

Section 301 allowing the Judiciary to expend funds for the employment of expert and consultative services;

Section 302 providing transfer authority in compliance with reprogramming guidelines set forth in sections 605 and 610 of this Act;

Section 303 authorizing not to exceed $11,000 to be available for official reception and representation; and

Section 304 requiring a financial plan from the Judiciary allocating the sources and uses of all funds within 90 days of enactment of this Act.

In addition, the amended bill includes the following general provisions:

Section 305 authorizes a cost of living adjustment for fiscal year 2008 for Federal judges, similar to language proposed by the Senate.

Section 306 extends the authority to contract for repairs of less than $100,000 to the Judiciary for fiscal year 2008, similar to language proposed by the Senate.

Section 307 authorizes a pilot program to allow the Administrative Office of the United States Courts to reimburse the United States Marshals Service for some services currently being performed by the Federal Protective Service as proposed by the Senate.

Section 308 adds Vancouver as an eligible place of holding court for the Western District of Washington, as proposed by the Senate.

Section 309 extends the term of temporary judgeships in Kansas and Northern Ohio for one year.

TITLE IV

DISTRICT OF COLUMBIA

Federal Funds

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

The amended bill includes $33,000,000 for a Federal payment for tuition support as proposed by the Senate instead of $35,100,000 as proposed by the House. The District of Columbia is expected to adhere to the authorizing statute with regard to the administrative expenses associated with operation of this program.

FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS IN THE DISTRICT OF COLUMBIA

The amended bill provides $3,352,000 as proposed by both the House and the Senate for a Federal payment to the District of Columbia for the costs associated with emergency planning and security. Within the amount provided, $352,000 is for the District of Columbia National Guard for a tuition assistance program.

District of Columbia Courts

FEDERAL PAYMENT FOR THE DISTRICT OF COLUMBIA COURTS

The amended bill provides $223,920,000 as a Federal payment to the District of Columbia Courts, instead of $256,395,000 as proposed by the House and $217,318,000 as proposed by the Senate. Within this amount, $10,800,000 is for the District of Columbia Court of Appeals, $98,359,000 is for the District of Columbia Superior Court, $52,170,000 is for the District of Columbia Court System and $62,591,000 is for capital improvements to Court facilities. The Committees on Appropriations continue to be concerned with substandard working conditions at the Moultrie Courthouse cellblock. The District of Columbia Courts are directed to incorporate upgrades to the cellblock as a priority among the other capital improvements and to submit a plan to upgrade the cellblock conditions to the Committees on Appropriations within 60 days of enactment of this Act.

DEFENDER SERVICES IN DISTRICT OF COLUMBIA COURTS

The amended bill includes $47,975,000 for Defender Services in the District of Columbia, instead of $52,475,000 as proposed by the House, and $43,475,000 as proposed by the Senate. This amount is intended to provide an increase in the hourly rate for attorneys at half of the requested amount.

FEDERAL PAYMENT TO THE COURT SERVICES AND OFFENDER SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA

The amended bill provides $190,343,000 for the Court Services and Offender Supervision Agency for the District of Columbia as proposed by the House, instead of $190,791,000 as proposed by the Senate.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA PUBLIC DEFENDER SERVICE

The amended bill includes $32,710,000 for a Federal payment to the District of Columbia Public Defender Service as proposed by both the House and the Senate.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA WATER AND SEWER AUTHORITY

The amended bill provides $8,000,000 for a Federal payment for the District of Columbia Water and Sewer Authority (WASA), instead of $12,000,000 as proposed by both the House and the Senate. WASA is directed to provide matching funds in the amount of $6,000,000 and the District of Columbia is directed to provide $2,000,000 in matching funds.

FEDERAL PAYMENT TO THE CRIMINAL JUSTICE COORDINATING COUNCIL

The amended bill provides $1,300,000 to the Criminal Justice Coordinating Council (CJCC), as proposed by both the House and the Senate. The CJCC is directed to report annually on performance measures and individual initiatives to the Committees on Appropriations.

FEDERAL PAYMENT TO THE OFFICE OF THE CHIEF FINANCIAL OFFICER OF THE DISTRICT OF COLUMBIA

The amended bill provides $5,453,000 instead of $6,148,000 as proposed by the House for a Federal payment to the Office of the Chief Financial Officer of the District of Columbia. The Senate did not include funding for this account. The funding is for grants to the following organizations with the requirement that the funds be spent primarily in the District of Columbia to benefit District residents:

Project name	Amount
ARISE Foundation, Life-Management Skills Intervention/Reentry Program for High Risk Youth	$282,000
Barracks Row	500,000
Bright Beginnings, Inc.	100,000
Catalyst, Eastgate HOPE VI project	132,000
Center for Inspired Teaching	52,500
Earth Conservation Corps	282,000
East Capitol Center for Change, the Capital Area Asset Building Corporation, and the National Center for Fatherhood to administer Marriage Development Accounts in the District of Columbia	1,800,000
Eastern Market	131,000
Everybody Wins!	100,000
Excel Institute, Automotive Workforce Development Training Program	300,000
Historic Congressional Cemetery	625,000
Howard University College of Dentistry, Community Based Dental Education	52,500
International Youth Service and Development Corps	600,000
MenzFit, Career Development and Interview Preparation Program	23,500
Sitar Arts Center, Arts for Teens Initiative	22,500
Southeastern University	300,000
STEEED Youth Program	150,000

FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

The amended bill includes $40,800,000 for a Federal payment for school improvement, as proposed by both the House and the Senate. Within this amount, $13,000,000 is for public schools, $13,000,000 is for public charter schools, and $14,800,000 is to provide opportunity scholarships.

FEDERAL PAYMENT FOR CONSOLIDATED LABORATORY FACILITY

The amended bill provides $5,000,000 for a Federal payment for a consolidated laboratory facility in the District of Columbia, instead of $10,000,000 as proposed by both the House and the Senate. The District of Columbia is directed to submit a spending plan describing the capital needs of this project.

FEDERAL PAYMENT FOR CENTRAL LIBRARY AND BRANCH LOCATIONS

The amended bill provides $9,000,000 for a Federal payment to the District of Columbia for a central library and branch locations, instead of $10,000,000 as proposed by both the House and the Senate.

FEDERAL PAYMENT TO REIMBURSE THE FEDERAL BUREAU OF INVESTIGATION

The amended bill provides a Federal payment of $4,000,000 as proposed by the House, instead of $5,000,000 as proposed by the Senate, to:

Reimburse the Federal Bureau of Investigation for laboratory services for District of Columbia cases for the sole purpose of:

Evidence examination and subsequent DNA analysis for the District of Columbia cold case DNA backlog; and

Expansion of resources dedicated to the processing of District of Columbia cases, including personnel, after October 1, 2007; and

Data entry and analysis for District of Columbia cold cases.

FEDERAL PAYMENT TO THE EXECUTIVE OFFICE OF THE MAYOR OF THE DISTRICT OF COLUMBIA

The amended bill provides $5,000,000 for a Federal payment to the Executive Office of the Mayor of the District of Columbia instead of $14,000,000 as proposed by the Senate, to enhance the quality of life for District residents. Of this amount $1,000,000 is to enhance local efforts for improving water quality of the Anacostia River, $1,000,000 is for historic preservation, $2,000,000 is for support of the Mayor's new public education initiative, and $1,000,000 is to expand pediatric health care. The Mayor of the District of Columbia is directed to submit a detailed spending plan to the Committees on Appropriations, including performance measures, before these funds may be expended within 30 days of enactment of this Act. The Mayor is further directed to submit a progress report on these activities no later than June 1, 2008 and a final report describing outcomes achieved no later than November 1, 2009.

HIV/AIDS IN THE DISTRICT OF COLUMBIA

It is noted that the President requested over $5,000,000,000 for prevention, care and treatment of HIV/AIDS overseas. Yet an epidemic has developed in Washington, DC, our Nation's capital. While on average the United States has 14 cases of HIV per 100,000 people, there are 128 cases per 100,000 in Washington, DC. The Committees on Appropriations expect that given the billions of dollars that is appropriated each year for HIV/AIDS programs overseas, the President in his fiscal year 2009 budget submission will request specific Federal funds for the District of Columbia to combat the City's health crisis.

DISTRICT OF COLUMBIA FUNDS

The amended bill provides authority for the District of Columbia to spend $9,773,775,000 from the General Fund of the District of Columbia. Of the funds provided, $6,111,623,000 is from local funds, of which $339,989,000 is from the general fund balance; $2,015,854,000 is from the Federal grant funds; $1,637,736,000 is from other funds; and $8,562,000 is from private funds. In addition, the District may use $114,905,000 from funds previously appropriated in this Act.

For capital construction, the amended bill provides an additional $1,607,703,000. Of the funds provided, $1,042,712,000 is from local funds, $38,523,000 is from the Highway Trust Fund, $73,260,000 is from the Local Street Maintenance Fund, $75,000,000 is from revenue bonds, $150,000,000 is from financing for the consolidated laboratory facility, $42,200,000 is for stadium construction, and $186,008,000 is from Federal grant funds. In addition, $212,696,000 of prior year local funds are rescinded. In total, $1,395,007,000 is provided.

TITLE V

INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

The amended bill includes no funding for the Commodity Futures Trading Commission (CFTC), instead of $116,000,000 as proposed by the Senate. Funding for the CFTC will be addressed in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2008.

CONSUMER PRODUCT SAFETY COMMISSION

SALARIES AND EXPENSES

The amended bill includes $80,000,000 for the Consumer Product Safety Commission (CPSC), instead of $70,000,000 as proposed by the Senate or $66,838,000 as proposed by the House. The amended bill also allows $1,000 for official reception and representation expenses as proposed by the Senate, instead of $500 as proposed by the House.

Increases in the CPSC's budget are to be directed toward increased staff, workspace, and information technology resources, with the objective of considerably improving the CPSC's ability to safeguard consumers against dangerous products. In particular, the CPSC shall hire in the areas of hazard identification and reduction, as well as compliance and field operations. With these additional resources, the CPSC shall intensify monitoring of children's products and redouble its efforts to keep dangerous toys and other products out of children's hands.

The Appropriations Committees emphasize the importance of replacing and upgrading the CPSC's testing laboratory and expect the fiscal year 2009 budget request to include sufficient funding to provide for a new facility.

House report language directing CPSC to include a full report on its information technology modernization requirements in its fiscal year 2009 budget request is reiterated.

ELECTION ASSISTANCE COMMISSION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $16,530,000 for salaries and expenses of the Election Assistance Commission (EAC), instead of $15,467,000 as proposed by the House and $16,517,000 as proposed by the Senate. Senate report language directing that $750,000 be provided for the Help America Vote Act College Program, a competitive grant program administered by the EAC, is adopted. The House included $750,000 for this program under the heading "Election Reform Programs".

The amended bill also includes $200,000 for a competitive award program for mock elections for students in secondary education programs. The Senate bill included $300,000 for this purpose, and the House bill included (under "Election Reform Programs") $200,000 for a mock election program authorized under the Help America Vote Act. Funds may be used for eligible grantees for operating a nationwide program of simulated elections, and may support other activities including, but not limited to, forums, speeches, debates, student competitions, mock press conferences, and efforts to increase voter turnout. Senate report language is adopted directing that before funding is awarded, any grantee shall explain in detail how the mock elections are to be conducted, the number of students participating, guidelines that the program employs, internal fiscal controls used, and a statement attesting to the non-partisanship of the program.

In addition, the overall amount provided to this account includes $112,500 for administrative costs related to the mock election competitive award program and the election data collection grants program.

The Appropriations Committees concur with House and Senate report language regarding the public release of research reports funded through the EAC. While the EAC may issue its own final reports and present its own conclusions on commissioned research, Federally-funded draft research reports presented to the EAC shall be available to the public without substantial edits. Researchers contracted to prepare those reports shall also be free to discuss their research following conclusion of the contract.

ELECTION REFORM PROGRAMS

The amended bill provides $115,000,000 for election reform programs, instead of $300,950,000 as proposed by the House. The Senate did not propose funding this account. This funding will be available to states for assistance in meeting the requirements of the Help America Vote Act of 2002.

The amended bill does not include language proposed by the House regarding the Help America Vote College Program or the mock election program, which are addressed instead under "Salaries and Expenses". The amended bill also does not include language proposed by the House requiring states to file new state plans.

Election Data Collection Grants

The amended bill includes $10,000,000 to carry out a pilot program, as specified in section 501 of this Act, relating to the collection of Federal election data at the state and precinct levels. To improve the administration of future elections, policy makers need accurate information on voter registration, ballots and ballot requests, election returns, voting error rates, election infrastructure and election policies and practices. However, the record has been poor with respect to state and local jurisdictions participating in, and providing meaningful data in response to, the EAC's voluntary Election Day Survey. This pilot program would enable five states to expand and improve the collection of election data to be provided to the EAC. The EAC shall report to Congress no later than June 30, 2009 on the impact of the pilot program.

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $313,000,000 for the salaries and expenses of the Federal Communications Commission as proposed by the House and the Senate. Of the amounts provided, $312,000,000 is to be derived from offsetting fee collections, resulting in a net direct appropriation of $1,000,000. The amended bill transfers $21,480,000 from the Universal Service Fund to the Office of Inspector General, instead of $20,980,000 as proposed by the House and $20,480,000 as proposed by the Senate.

The amended bill provides for $2,500,000 for the digital television consumer education and outreach initiative, an increase of $1,000,000 above the budget request. The Appropriations Committees encourage the maximum possible effort in preparing consumers for the digital television transition scheduled for February 2009.

ADMINISTRATIVE PROVISIONS—FEDERAL COMMUNICATIONS COMMISSION

Section 510 extends an exemption for the Universal Service Fund as proposed by the Senate. The House did not include a similar provision.

Section 511 prohibits the Federal Communications Commission from changing rules governing the Universal Service Fund regarding single connection or primary line restrictions as proposed by the Senate. The House did not include a similar provision.

FEDERAL DEPOSIT INSURANCE CORPORATION

OFFICE OF INSPECTOR GENERAL

The amended bill includes a transfer of $26,848,000 to fund the Office of Inspector General as proposed by both the House and the Senate.

FEDERAL ELECTION COMMISSION

SALARIES AND EXPENSES

The amended bill includes $59,224,000 for salaries and expenses of the Commission as proposed by the House and the Senate.

FEDERAL LABOR RELATIONS AUTHORITY

SALARIES AND EXPENSES

The amended bill includes $23,641,000 for the Federal Labor Relations Authority as proposed by the House, instead of $23,718,000 as proposed by the Senate.

FEDERAL TRADE COMMISSION

SALARIES AND EXPENSES

The amended bill includes $243,864,000 for the Federal Trade Commission (FTC), instead of $247,489,000 as proposed by the House and $240,239,000 as proposed by the Senate. Of the amounts provided, $139,000,000 is derived from Hart-Scott-Rodino premerger filing fees as proposed by the House, instead of $144,600,000 as proposed by the Senate. Further, not to exceed $23,000,000 is derived from Do-Not-Call fees, instead of $20,000,000 as proposed by the House or $19,000,000 as proposed by the Senate. This results in a net discretionary appropriation of $81,864,000.

The FTC shall allocate the increase above the President's request to high-priority activities, including subprime lending investigations, the implementation of the US SAFE WEB Act, actions to fight identity theft, activities relating to maintaining competition, and training and technical assistance to developing nations.

The Appropriations Committees recognize and support the FTC's international programs. The FTC should continue competition policy and consumer protection efforts, including training and technical assistance, in developing countries.

The amended bill does not include language, proposed by the Senate, to prohibit funds for removing the FTC from its headquarters building. The Appropriations Committees are not aware of any current, formal plan to relocate the FTC. However, the Committees would oppose such a plan and would support efforts to prevent any future proposal to relocate the FTC from moving forward. Moving the Commission out of its current location could raise rent costs and therefore unnecessarily increase must-pay bills. In addition, the FTC building, which was originally designed and built for the agency in 1938, is well-suited for the Commission's essential functions. In particular, the three large ceremonial courtrooms continue to serve the needs of the Commission to meet and adjudicate competition and consumer protection cases.

Senate report language requiring the FTC to submit a report on childhood obesity and food marketing is adopted. This report shall be submitted to the Committees on Appropriations no later than 60 days after enactment of this Act.

The FTC shall submit a report to the Committees on Appropriations every six months summarizing its activities relating to ongoing reviews of mergers, acquisitions and other transactions in the oil and natural gas industries, the investigation of pricing behavior or any potential anticompetitive actions in those industries, and the resources that the Commission has devoted to such reviews and investigations during that period.

The FTC is encouraged to continue and strengthen activities in the area of consumer privacy protection, particularly with regard to Internet commerce. The Appropriations Committees are aware that this issue has been raised in the context of a recent FTC review of a proposed merger of Internet companies. The FTC should promote and, whenever possible, require adequate privacy safeguards for Internet users. This includes giving consumers knowledge and control over whether data may be collected from them by third parties as a result of their Internet activities. The FTC should also aggressively promote improved consumer awareness and education on Internet privacy matters, including requirements that Internet companies disclose on websites, in an obvious and consistent manner, what information they collect and how that information could be used.

Senate report language directing the FTC to submit reports relating to the antitrust implications of collective setting of debit and credit card interchange rates is not adopted. This issue is under the purview of the Department of Justice.

GENERAL SERVICES ADMINISTRATION

REAL PROPERTY ACTIVITIES

FEDERAL BUILDINGS FUND

LIMITATIONS ON THE AVAILABILITY OF REVENUE

The amended bill provides resources from the Federal Buildings Fund in the aggregate of $7,830,414,000 instead of $7,834,612,000 as proposed by the House and $8,370,706,000 as proposed by the Senate.

CONSTRUCTION AND ACQUISITION

The amended bill limits funds for construction to $531,448,000 instead of $524,540,000 as proposed by the House and $894,992,000 as proposed by the Senate. Within this total, the amended bill includes $225,000,000 in emergency funding as part of a homeland security border initiative. These funds will expedite construction at select land ports of entry, including one of the nation's most congested sites. The amended bill modifies the projects proposed by the House and Senate bills and provides funds for the following projects:

Project name	Amount
Arizona: San Luis, Land Port of Entry I	$7,053,000
California: San Ysidro, Land Port of Entry	199,179,000
Illinois: Rockford, United States Courthouse	58,792,000
Maine: Madawaska, Land Port of Entry	17,160,000
Maryland: Montgomery County, Food and Drug Administration Consolidation	57,749,000
Minnesota: Warroad, Land Port of Entry	43,628,000
Missouri: Jefferson City, United States Courthouse	66,000,000
New York: Alexandria Bay, Land Port of Entry	11,676,000
Texas: El Paso, Tornillo-Guadalupe Land Port of Entry	4,290,000
Texas: Donna/Rio Bravo International Bridge, Land Port of Entry	23,384,000
Vermont: Derby Line, Land Port of Entry	33,139,000

The Committees on Appropriations reiterate the concern of the Committees regarding the progress of the courthouse project in Los Angeles and direct the General Services Administration (GSA) to work collaboratively with the Administrative Office of the United States Courts and report to the Committees on Appropriations on the status of the project within 90 days of enactment of this Act.

The Appropriations Committees are supportive of the construction of the Tuscaloosa Federal Building and urge GSA to request funding for this important project.

GSA is directed to perform a cost benefit analysis of building a Federal courthouse in Harrisburg, Pennsylvania at both the current courthouse site, as well as the site at 6th and Reilly Streets. The GSA is directed to report its finding to the Committees on Appropriations, the House Transportation and Infrastructure and the Senate Environment and Public Works Committees within 60 days of enactment of this Act. GSA is further directed that no funding, in excess of what is necessary to support this analysis, may be spent to design or begin construction of a courthouse at either site until after the findings are reported to the Committees.

REPAIRS AND ALTERATIONS

The amended bill limits resources for repairs and alterations to $722,161,000 instead of $733,267,000 as proposed by the House and $804,483,000 as proposed by the Senate. The amended bill provides funding for repairs and alterations of the following projects:

Project name	Amount
District of Columbia: Eisenhower Executive Office Building, Phase III	$121,204,000
District of Columbia: Joint Operations Center	12,800,000
District of Columbia: Nebraska Avenue Complex	27,673,000
Nevada: Reno, C. Clifton Young Federal Building and Courthouse	12,793,000
New York: New York, Thurgood Marshall United States Courthouse	170,544,000
West Virginia: Martinsburg, Internal Revenue Service Enterprise Computing Center	35,822,000

INSTALLMENT ACQUISITION PAYMENTS

The amended bill includes a limitation of $155,781,000 as proposed by both the House and the Senate for installment acquisition payments.

RENTAL OF SPACE

The amended bill provides a limitation of $4,315,534,000 for payments of rental of space as proposed by the House, instead of $4,383,000,000 as proposed by the Senate.

The Committees on Appropriations have become aware that GSA's National Capital Region has decided to reverse a long-standing policy and begin to charge rent to the National Aquarium—DC, which is located in the Herbert C. Hoover Building (HCHB). The Aquarium, built in 1931, has inspired visitors and contributed to their understanding of the importance of aquatic ecosystems. The Committees are concerned that the "market rate" used by the GSA to determine the rental rate does not equitably reflect the unique history and mission of the Aquarium, nor does it adequately reflect the current state of conditions in the basement of the HCHB. Given these factors, GSA is directed to work with the National Aquarium—DC to reach an equitable agreement regarding rent either through waiver, deferral, or reduction. The GSA is directed to report back to the Committees on Appropriations no later than 90 days after the enactment of this Act on the progress of this agreement.

BUILDING OPERATIONS

The amended bill includes a limitation of $2,105,490,000 for building operations as proposed by the House instead of $2,132,450,000 as proposed by the Senate. Language is included, requested in the President's budget, which designates $500,000 to be used for a competitive contribution to entities which coordinate long term siting of Federal buildings and employment in the National Capital Region.

The Committees on Appropriations are concerned about recent increases in charges from other agencies for security, especially for vacant space. The agencies are encouraged to develop an equitable agreement regarding such charges.

GENERAL ACTIVITIES

GOVERNMENT-WIDE POLICY

The amended bill provides $52,891,000, instead of $64,791,000 as proposed by the Senate and follows the account structure of the Senate bill. The House bill did not reflect this account structure. The Committees on Appropriations understand GSA has achieved savings in this account of $1,900,000 and have therefore reduced the funding in this account accordingly.

The Committees on Appropriations are supportive of the Senate language regarding environmental and energy efficiency, but due to funding constraints, did not provide $10,000,000 for the use of photovoltaic energy in public buildings as authorized by the Energy Policy Act of 2005. However, GSA is encouraged to continue such efforts and is directed to report to the Committees on Appropriations as stipulated in the Senate report.

The Administrator of the GSA is directed to report back to the Committees on Appropriations no later than 120 days after enactment of this Act on proposed and ongoing measures taken by the GSA to reduce Federal consumption of conventional diesel fuel through the use of blended renewable fuels and biofuels, in compliance with Executive Order 13423.

GSA should encourage Federal agencies to consider procurement of products, which when compared to similar products possess a technological improvement or other added value at the same or lower cost. Added value includes, but is not limited to, the protection of public health, the environment, or public safety, for example, rodent control.

OPERATING EXPENSES

The amended bill provides $85,870,000 for Operating Expenses, instead of $89,547,000 as proposed by the Senate. The House did not propose funding for this account. The amended bill does not include the Policy and Operations account as proposed by the House, which had consolidated the funding and activities of the Operating Expenses and Government-wide Policy accounts, as proposed by the President.

OFFICE OF INSPECTOR GENERAL

The amended bill includes $48,382,000 for the Office of Inspector General (OIG), instead of $53,382,000 as proposed by the House and $52,682,000 as proposed by the Senate. The amended bill provides $15,000 for payment of information and detection of fraud.

The following language from the Senate report with modifications, is included:

> Neither GSA personnel nor associated contractors, subcontractors, or private attorneys will attempt to impede through intimidation or obfuscation, or in any other way, thwart an audit or investigation undertaken by the OIG under the Inspector General (IG) Act and may not access emails from or to the OIG for such purposes without permission;
>
> GSA will not automatically obligate and disburse the funds appropriated for the OIG without prior OIG consent;
>
> GSA will not attempt to impose any unwarranted or unexplained charges from OIG's appropriated funds. The OIG will, however, continue to be responsible for contributing to agencywide support functions;
>
> All budget submissions from OIG will be transmitted by GSA without any alteration to OMB, and all comments and passbacks from OMB on such submissions will be conveyed accurately to OIG;
>
> GSA will not impose any freeze on hiring in OIG at any level, including the Senior Executive Service (SES), in order to facilitate the OIG's ability to implement the IG Act;
>
> OIG shall exercise authority independent of GSA for processing the announcement and filling of all SES vacancies, including the processing of all personnel functions associated with those positions, allocated by GSA to OIG personnel functions within the OIG; OIG shall retain its authorization to perform all personnel functions for non-SES positions; and
>
> The Administrator shall consider lapsed balance requests from the OIG in a timely manner before termination of the lapsed balance period. The OIG is directed to include lapsed balances in the annual budget submission.

ELECTRONIC GOVERNMENT FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $3,000,000 for the electronic government fund, instead of $2,970,000 as proposed by the House and $5,000,000 as proposed by the Senate. GSA is directed to evaluate the pricing structure of its services to Federal agencies to determine if GSA is overcharging its Federal clients and report back to the Committees on Appropriations its findings no later than 120 days after enactment of this Act.

ALLOWANCES AND OFFICE STAFF FOR FORMER PRESIDENTS

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $2,478,000 for allowances and office staff for former presidents, instead of $2,500,000 as proposed by both the House and the Senate. This reflects the decreased requirement for funding due to the passing of President Johnson's widow, "Lady Bird" Johnson.

FEDERAL CITIZEN INFORMATION CENTER FUND

The amended bill provides $17,328,000 for the Federal Citizen Information Center, instead of $15,796,000 as proposed by the House and $17,790,000 as proposed by the Senate. The amended bill further provides reimbursable authority of up to $42,000,000 to be deposited into the account for fiscal year 2008.

ADMINISTRATIVE PROVISIONS—GENERAL SERVICES ADMINISTRATION

(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes the following administrative provisions for the General

Services Administration that were proposed by both the House and the Senate:

Section 520 authorizing GSA to credit certain accounts with funds received from government corporations;

Section 521 authorizing the use of funds for the hire of motor vehicles;

Section 522 authorizing the transfer of funds from Federal Buildings Fund to other appropriations with the advance approval of Congress;

Section 523 limiting funds for courthouse construction to certain capital improvement plan standards;

Section 524 limiting funds to increase occupiable square feet, cleaning services, security enhancements or other services to agencies which do not pay the requested rent; and

Section 525 permitting GSA to pay small claims against the Government.

In addition, the amended bill includes the following administrative provisions:

Section 526 prohibits the use of funds for GSA to reorganize its organizational structure except through an operating plan change as proposed by the Senate.

Section 527 requires that the Administrator shall ensure that the delineated area of procurement for all lease agreements is identical to the delineated area included in the prospectus unless prior notice is given to the Committees in the form of an explanatory statement.

The Committees on Appropriations are concerned about the allocation of leased GSA office space in the Greater Washington, D.C. Metropolitan area. Evidence indicates that there is a disparity between the leased space awarded in Prince George's County and that of nearby jurisdictions in the Greater Washington, D.C. Metropolitan area. Specifically, the concern is regarding the lack of space awarded around Washington Metropolitan Area Transit Authority stations in Prince George's County, Maryland.

Furthermore, it is noted that lease prospectuses #PMD-01-WA07 and #PDC-05-WA07 have been awaiting procurement and the Committees expect compliance with the provisions authorized in the House Transportation & Infrastructure Committee's fiscal year 2008 lease resolutions.

MERIT SYSTEMS PROTECTION BOARD

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $37,507,000 in direct appropriations and $2,579,000 from appropriate trust funds, for salaries and expenses of the Board as proposed by the House and the Senate.

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $3,750,000 for the Morris K. Udall Scholarship and Excellence in National Environmental Policy Trust Fund as proposed by the Senate, instead of $2,000,000 as proposed by the House.

ENVIRONMENTAL DISPUTE RESOLUTION FUND

The amended bill includes $2,000,000 for the Environmental Dispute Resolution Fund as proposed by both the House and the Senate.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

OPERATING EXPENSES

The amended bill includes $315,000,000 for operating expenses of the National Archives and Records Administration (NARA) as proposed by the House, instead of $313,911,000 as proposed by the Senate. The amount represents an increase of $2,126,000 above the Administration's request. The amount above the request is directed to be targeted first to restore the public research hours that were in place prior to October 2006, and then to provide for increases in NARA's archivist staff, to help reverse staffing reductions that have been made in recent years. NARA is directed to report to the Committees on Appropriations, within 30 days of enactment, on specific steps NARA is taking to restore the research hours and to bolster NARA's archivist workforce.

ELECTRONIC RECORDS ARCHIVES

The amended bill includes $58,028,000 for the Electronic Records Archives (ERA) project, as proposed by both the House and the Senate. The amended bill also retains the directive requiring NARA to submit, and for the Committees on Appropriations to approve, a GAO-reviewed spending plan for ERA prior to the obligation of funds.

The Appropriations Committees are increasingly concerned about the ERA program, NARA's oversight of the program, and the reliability of the work of the ERA contractor. The program has already experienced significant delays, as well as a cost overrun of approximately $15,000,000. Further, there has been no progress toward a cost-sharing agreement whereby NARA would share with the contractor the cost of the overrun. Failure to reach agreement on a cost share will mean that taxpayers will inevitably be left to pay the full amount of the cost overrun, even for delays and failures caused by the contractor.

In addition, the ERA program continues to face significant risks that could jeopardize the ability of NARA to receive the electronic records of the current Administration in time for the January 2009 change in Administrations. Such a delay would be particularly harmful, for example, in the case of electronic national security records that are classified. These records will be needed in an accessible format to facilitate the national security work of the next Administration. While the Appropriations Committees recognize that NARA is now planning to use a separate off-the-shelf system to receive the current Administration's records, this effort is in the early planning stages and its cost and schedule have yet to be fully established.

Further ERA project delays, especially at this important juncture, are unacceptable. NARA is directed to keep the Committees on Appropriations fully informed of the progress on the ERA effort and of efforts to reach a cost share agreement with the contractor on the cost overrun. NARA should also inform the Committees specifically of how the reallocation of funds from the ERA project to acquire a new system for Presidential records will affect the ERA project. In addition, NARA is directed to provide monthly ERA progress reports, beginning no later than 30 days after enactment, to both GAO and to the Committees on Appropriations.

REPAIRS AND RESTORATION

The amended bill includes $28,605,000 for repairs and restoration instead of $16,095,000 as proposed by the House and $25,173,000 as proposed by the Senate. The amended bill provides: (1) $8,663,000 for ongoing repairs and restoration at NARA facilities; (2) $8,000,000 for property acquisition, site preparation, construction, expansion, and renovation work for the John F. Kennedy Presidential Library; (3) $750,000 for design work on renovations to the Franklin D. Roosevelt Presidential Library; (4) $7,432,000 for construction of an archival addition to the Richard M. Nixon Presidential Library; and (5) $3,760,000 to complete the repair and restoration of the plaza that surrounds the Lyndon Baines Johnson Presidential Library.

NARA is directed to update its comprehensive capital needs assessment for its entire infrastructure of presidential libraries and records facilities. The fiscal year 2008 President's Budget provided funding for ongoing repairs only to records facilities, leaving presidential libraries—some of which are in major disrepair—sorely in need of support and at risk for flooding and other potential dangers. The Appropriations Committees urge that the fiscal year 2009 President's Budget include funding for both records facilities and presidential libraries.

NATIONAL HISTORICAL PUBLICATIONS AND RECORDS COMMISSION GRANTS PROGRAM

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $9,500,000 for NARA's grant program, instead of $10,000,000 as proposed by the House and the Senate. Of the amount provided, $2,000,000 is to be transferred to the operating expenses account.

The Appropriations Committees are concerned about the lengthy amount of time currently required to complete the publication of the Founding Fathers historical papers projects. These projects began in the 1960s and are expected to continue two or more decades until completion. Mindful of the technologies and tools currently available, the Committees believe the Archivist should accelerate the process for delivering the papers of the Founding Fathers to the American people. Therefore, the Archivist is directed, as Chairman of the NHPRC, to develop a comprehensive plan for the online electronic publication, within a reasonable timeframe, of the papers of the Founding Fathers and to submit this plan to the Committees on Appropriations no later than 90 days after the enactment of this Act.

ADMINISTRATIVE PROVISION—NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

The amended bill modifies language proposed by the Senate requiring NARA to include, as part of its fiscal year 2009 budget justifications, a prioritized capital needs assessment for NARA facilities.

NATIONAL CREDIT UNION ADMINISTRATION

CENTRAL LIQUIDITY FACILITY

The amended bill provides a limitation of $1,500,000,000 on direct loans as proposed by both the House and the Senate.

COMMUNITY DEVELOPMENT REVOLVING LOAN FUND

The amended bill includes $975,000 for the Community Development Revolving Loan Fund, instead of $1,000,000 as proposed by the House and $950,000 as proposed by the Senate.

OFFICE OF GOVERNMENT ETHICS

SALARIES AND EXPENSES

The amended bill provides $11,750,000 for salaries and expenses of the Office of Government Ethics as proposed by both the House and the Senate.

OFFICE OF PERSONNEL MANAGEMENT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The amended bill includes $101,765,000 for salaries and expenses as proposed by the House and the Senate. In addition, the amended bill transfers $123,901,000 from the

Office of Personnel Management (OPM) trust funds for salaries and expenses, instead of $123,401,000 as proposed by the House and $124,401,000 as proposed by the Senate. Of this amount, $26,965,000 shall be for the cost of automating the retirement recordkeeping systems, instead of $26,465,000 as proposed by the House and $27,465,000 as proposed by the Senate.

As proposed by both the House and the Senate, the Appropriations Committees agree to provide up to $2,500 for reception and representation costs, $5,991,000 to remain available until expended for the enterprise human resources integration project, $1,351,000 to remain available until expended for the human resources line of business project, $340,000 to remain available until expended for the e-payroll project, and $170,000 to remain available until expended for the e-training project.

The Federal Prevailing Rate Advisory Committee (FPRAC) has created a working group to consider new regulatory criteria for defining wage areas and to make recommendations to OPM. These criteria and recommendations will affect certain wage areas of interest to the Committees on Appropriations, including the Boston, Massachusetts, and the Narragansett Bay, Rhode Island, wage areas. The FPRAC shall report to the Committees on Appropriations on the working group's wage area criteria recommendations no later than April 30, 2008.

The Appropriations Committees understand that the Government Accountability Office (GAO) has concerns about whether OPM is effectively managing the Retirement Systems Modernization (RSM) program, particularly regarding whether OPM is taking necessary actions to ensure that system tests are successfully executed and that all critical system defects are addressed prior to system deployment. Accordingly, not later than February 20, 2008, OPM shall submit a report to the Committees on Appropriations and GAO that includes RSM system test results and describes the status of system defect resolution. The report should also describe OPM's progress toward developing a reliable program cost estimate and instituting reliable earned value management for the RSM program. GAO shall provide the Committees on Appropriations and OPM with comments on the report.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The amended bill provides $1,519,000 for salaries and expenses as proposed by the House and the Senate. In addition, $17,081,000 is provided from the OPM trust funds as proposed by the Senate, instead of $16,981,000 as proposed by the House. Funding above the budget request is provided to support audits and investigations.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES HEALTH BENEFITS

The amended bill provides such sums as necessary for health benefits payments as proposed by both the House and the Senate.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES LIFE INSURANCE

The amended bill provides such sums as necessary for life insurance payments as proposed by both the House and the Senate.

PAYMENT TO THE CIVIL SERVICE RETIREMENT AND DISABILITY FUND

The amended bill provides such sums as necessary for retirement and disability payments as proposed by both the House and the Senate.

OFFICE OF SPECIAL COUNSEL

SALARIES AND EXPENSES

The amended bill includes $17,468,000 for salaries and expenses for the Office of Special Counsel (OSC), instead of $16,368,000 as proposed by both the House and the Senate. Additional funding of $1,100,000 is included to assist OSC with computer forensics in connection with its Special Task Force investigations.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

The amended bill includes $906,000,000 for the Securities and Exchange Commission (SEC), instead of $908,442,000 as proposed by the House and $905,330,000 as proposed by the Senate.

The amended bill includes $20,000 to fund a permanent secretariat for the International Organization of Securities Commissions as proposed by the House, instead of $13,000 as proposed by the Senate.

The amended bill permits not to exceed $3,500 for official reception and representation expenses as proposed by the House, instead of $3,000 as proposed by the Senate.

The amended bill provides that $63,262,000 shall be derived from prior year unobligated balances, instead of $41,397,000 as proposed by both the House and the Senate.

Smaller public companies deserve their own advocate within the SEC to help them face the joint challenge of meeting section 404 compliance deadlines with untested risk-based regulation. The Appropriations Committees recognize the important role of the Commission's Office of Small Business Policy and direct it to act as the Commission's Small Business Ombudsman. The Office is encouraged to maintain an 'open door' policy, regularly soliciting comments from small businesses and publishing their concerns within the Commission, to assure that the needs of small business are reflected in the Commission's rules, and in the interpretations and guidance the SEC provides to the public.

The Appropriations Committees are concerned about costs that may confront small businesses complying with section 404 of the Sarbanes-Oxley Act and related SEC guidance and Public Company Accounting Oversight Board auditing standards. Therefore, the Committees are supportive of the recent decision by the SEC to delay for an additional year the requirement for an auditor's attestation of management's assessment of internal controls. The Committees understand that the SEC is collecting cost data and will assess that data to determine whether the current guidance and standards, approved in May 2007, pose an unreasonable financial burden on small businesses. The SEC is directed to solicit the views of affected small businesses during this process.

SELECTIVE SERVICE SYSTEM

SALARIES AND EXPENSES

The amended bill includes $22,000,000 as proposed by both the House and the Senate. The amended bill also includes language to allow the President to waive provisions of 31 U.S.C. 1341 when it is necessary for the interest of national defense.

SMALL BUSINESS ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides $344,123,000 for the salaries and expenses account of the Small Business Administration (SBA), instead of $346,553,000 as proposed by the House and $412,103,000 as proposed by the Senate. An additional amount for initiatives related to small business development and entrepreneurship is provided under SBA administrative provisions.

Of the amounts provided under this heading, $203,177,000 is for operating expenses of the SBA. In addition, a total of $144,414,000 from other SBA accounts may be transferred to and merged with the salaries and expenses account, resulting in a total availability for salaries and expenses of $347,591,000. The additional amount consists of $135,414,000 from the Business Loans Program account and $9,000,000 (provided as part of Public Law 110–28) from the Disaster Loans Program account for the administrative expenses related to those accounts.

Non-Credit Programs.—No less than the following amounts shall be dedicated to these non-credit programs of the SBA:

(In thousands of dollars)

Veterans Programs	$743
7(j) Technical Assistance Programs	2,300
Small Business Development Centers	97,120
SCORE	4,950
Women's Business Centers	13,000
Women's Business Council	743
Native American Outreach	1,000
Drug-free Workplace Program	990
Microloan Technical Assistance	15,000
PRIME	3,000
HUBZone	2,100
Total, non-credit programs	140,946

In addition, the Appropriations Committees expect that the National Ombudsman; the Office of Advocacy, including support for the Advocacy Database; international trade programs; and the defense transition program receive no less than the fiscal year 2007 level of funding.

The amended bill does not include language proposed by the Senate to designate 41 percent of the total Women's Business Centers funding for centers in sustainability status.

The Appropriations Committees are aware that there are certain rural areas that are underutilized business areas but are excluded from HUBZone designation based on the current program authorization. SBA is encouraged to continue to examine ways to incorporate these areas into any future revisions of the Small Business Act.

OFFICE OF INSPECTOR GENERAL

The amended bill provides $15,000,000 for the Office of Inspector General of the Small Business Administration as proposed by both the House and the Senate.

SURETY BOND GUARANTEES REVOLVING FUND

The amended bill provides $3,000,000 for this account as proposed by both the House and the Senate.

BUSINESS LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides $137,414,000 as proposed by the Senate, instead of $217,944,000 as proposed by the House. The amount includes $2,000,000 for subsidies for direct business loans as proposed by the Senate, instead of $2,530,000 as proposed by the House. The Appropriations Committees note that entrepreneurs who have served on active duty in the military or are currently in the National Guard and Reserve have particular challenges in maintaining the viability of their businesses. The SBA shall give veterans and service members as much support as possible in securing capital through the 7(a) loan guarantee program, including through the Patriot Express Loan Initiative and other SBA programs targeted at veterans.

The amended bill also includes $135,414,000, within the total amount appropriated, for administrative expenses related to business loan programs as proposed by both the House and the Senate. The amount provided for administrative expenses may be transferred to and merged with the appropriation for SBA salaries and expenses to cover the common overhead expenses associated with business loans.

ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

Section 530 of the amended bill allows transfers between accounts as proposed by both the House and the Senate.

Section 531 requires that all loans issued in Alaska or North Dakota be administered by the Small Business Administration and not be sold during fiscal year 2008 as proposed by the Senate.

Section 532 modifies language proposed by the Senate to provide for technical corrections to Public Law 109-108.

Section 533 amends Public Law 110-28 by placing "up to" before $25,000,000 provided for the disaster loan program.

Section 534 provides additional amounts for small business development and entrepreneurship initiatives, including programmatic and construction activities, to be awarded as follows:

Project Name	Amount
Abraham Lincoln National Airport Commission, Minority and Small Business Development and Procurement Opportunities	282,000
Adelante Development Center, Albuquerque, NM	500,000
Advantage West Economic Development Group, Certified Entrepreneurial Community Program	282,000
Alabama A&M Research Institute for Small Business Training and Development	200,000
Alabama Entrepreneurial Research Network, Small Business Incubator, Tuscaloosa, AL	250,000
Alabama Small Business Institute of Commerce, Small Business Incubator, Rainbow City, AL	200,000

Youngstown Warren Regional Chamber, Salute to Success, Business Entrepreneurship Incubator	282,000

UNITED STATES POSTAL SERVICE

PAYMENT TO THE POSTAL SERVICE FUND

The amended bill provides $117,864,000 for payment to the Postal Service Fund as proposed by the Senate, instead of $88,864,000 as proposed by the House. Of the total amount provided, $88,864,000 is provided as an advance appropriation for free mail for the blind and overseas voters to be available on October 1, 2008. The agreement also includes $29,000,000 for repayment for revenue forgone.

The Appropriations Committees are concerned about the findings of a Government Accountability Office (GAO) report released in June 2007, as well as GAO testimony before Congress in July 2007, that raise serious questions about the United States Postal Service's mail realignment efforts. The GAO noted its concerns relating to several issues, including "USPS's unclear criteria for selecting facilities and deciding on [area mail processing (AMP)] consolidations, the use of inconsistent data calculations, limited measures of the effect of changes on delivery performance, and a lack of appropriate stakeholder and public input when considering potential AMP consolidations." The Committees question the efficacy of proceeding with AMP consolidations if decisions are being made with inadequate data analysis and stakeholder input, and also if it is unclear whether such consolidations will adversely affect timely mail delivery. The Committees are particularly concerned about AMP consolidations in Sioux City, Iowa; Aberdeen, South Dakota; Bronx, New York; Pasadena, California; Canton, Ohio; and Detroit/Flint, Michigan. The Committees understand that the Postal Service will be providing updated AMP guidance on communications with the public in March 2008, as well as a Facilities Plan (as required by the Postal Accountability and Enhancement Act) in June 2008. GAO is directed to evaluate these reports to determine whether the Postal Service has implemented GAO's recommendations to strengthen planning and accountability in realignment efforts. GAO is further directed to report its findings to the Committees on Appropriations. The Postal Service is directed not to implement the above-referenced AMP consolidations until after the GAO has reported to the Committees and the Committees have had an opportunity to review the GAO findings.

The Appropriations Committees are also aware of concerns regarding a possible AMP consolidation relating to Alexandria, Louisiana. The Committees understand that there is currently no consolidation planned for Alexandria, and the Committees would oppose any effort to initiate a consolidation.

The Appropriations Committees are concerned about the condition of postal facilities in a number of municipalities in Puerto Rico, including Dorado, Guaynabo, Rincon, San German, Villalba, Yabucoa, and Yauco. The Postal Service, working with local officials and community leaders, should evaluate the needs of these communities and include these facilities in its nationwide priority list to ensure that capital resources are focused on the maintenance and enhancement of existing infrastructure at these facilities. The Postal Service is directed to report on these efforts to the Committees on Appropriations.

The Appropriations Committees are also concerned about the postal facility needs of the City of Indio, California. The current facility is inadequate to meet the City's needs given its rapid population growth. The Postal Service should work with City officials to evaluate the need for a new facility and report its findings to the Committees on Appropriations.

The Appropriations Committees are concerned about mail service delays in Chicago, Illinois. The Postal Service is directed to continue working with city officials and implement management reforms that will secure and maintain a high level of mail delivery service for postal consumers in Chicago. The Postal Service is also directed to regularly update the Committees on Appropriations on these efforts.

UNITED STATES TAX COURT

SALARIES AND EXPENSES

The amended bill includes $45,326,000 for the United States Tax Court as proposed by the Senate, instead of $45,069,000 as proposed by the House.

TITLE VI

GENERAL PROVISIONS—THIS ACT

The amended bill includes the following general provisions for this Act that were proposed by both the House and the Senate:

Section 601 regarding absorption of pay raises within levels provided in this or previous appropriations acts;

Section 602 prohibiting pay and other expenses for non-Federal parties in regulatory or adjudicatory proceedings funded in this Act;

Section 603 prohibiting obligations beyond the current fiscal year and prohibiting transfers of funds unless expressly so provided herein;

Section 604 limiting consulting service expenditures to contracts where such expenditures are a matter of public record, with exceptions;

Section 605 prohibiting funds from being transferred to any department, agency, or instrumentality of the United States without expressed authority;

Section 606 prohibiting the use of funds to engage in activities that would prohibit the enforcement of section 307 of the 1930 Tariff Act;

Section 607 concerning employment rights of Federal employees who return to their civilian jobs after assignment with the Armed Forces by prohibiting payment under certain circumstances to any employee who fills this position;

Section 608 prohibiting funds from being expended unless the recipient agrees to comply with the Buy American Act;

Section 609 prohibiting funding to a person or entity convicted of violating the Buy American Act;

Section 611 providing that not to exceed 50 percent of unobligated balances from salaries and expenses may remain available for certain purposes;

Section 612 providing that no funds may be used by the Executive Office of the President to request any official background investigation from the Federal Bureau of Investigation unless the person has given consent or there are national security circumstances;

Section 613 requiring that cost accounting standards not apply to a contract under the Federal Employees Health Benefits Program;

Section 614 permitting the Office of Personnel Management to accept funds regarding the nonforeign area cost of living allowances; and

Section 618 waiving restrictions on the purchase of non-domestic articles, materials, and supplies in the case of acquisition by the Federal Government of information technology.

In addition, the amended bill includes the following general provisions:

Section 610 specifies reprogramming procedures for all departments, agencies, and offices funded under this Act unless otherwise specified elsewhere in this Act. Reprogramming requirements apply to transfers in excess of $5,000,000 or 10 percent, whichever is less, as proposed by the Senate, instead of $1,000,000 or 10 percent, whichever is less, as proposed by the House. The amended bill also includes modified language that applies the requirements to a reprogramming of funds that creates or reorganizes offices, programs, or activities. Language is also included requiring that agencies consult with the Committees on Appropriations prior to any significant reorganization or restructuring. Agencies are expected to follow the reprogramming procedures even if a reprogramming falls below the $5,000,000 or 10 percent threshold if such reprogramming would significantly change an agency's funding requirements in future years, or if programs or projects specifically cited in the reports of the House or Senate Committees on Appropriations or in this explanatory statement are affected.

Section 615 prohibits the expenditure of funds for abortions under the Federal Employees Health Benefits Program as proposed by the House.

Section 616 provides an exemption from section 615 if the life of the mother is in danger or if the pregnancy is a result of an act of rape or incest as proposed by the House.

Section 617 prohibits the use of funds for a proposed rule relating to the determination that real estate brokerage is a financial activity. This prohibition applies to fiscal years 2008 and 2009, instead of to only fiscal year 2008 as proposed by the House or to fiscal year 2008 and thereafter as proposed by the Senate.

Section 619 requires the Secretary of the Treasury to invest in full the amounts appropriated and contributed to the Harry S Truman Memorial Scholarship Trust Fund, as proposed by the House.

Section 620 establishes a prohibition on the acceptance by agencies or commissions funded by this Act, or by their officers or employees, of payment or reimbursement for travel, subsistence, or related expenses from any person or entity (or their representative) that engages in activities regulated by such agencies or commissions. The Appropriations Committees are troubled by recent reports of senior officers and staff of a regulatory agency accepting gift travel. Accepting such payment or reimbursement from regulated entities raises serious questions about the ability of a regulatory agency to carry out its mission in a fair and unbiased manner.

Section 621 prohibits funds from being used by the Federal Communications Commission to implement the Fairness Doctrine, as proposed by the House.

Section 622 requires quarter dollars issued during 2009 to have designs on the reverse side commemorating the District of Columbia and each of the U.S. territories.

Section 623 directs the Treasury Department, as soon as is practicable, to move the inscription "In God We Trust" on the $1 coin from the edge to the face of the coin.

Section 624 appropriates $600,000 for the Christopher Columbus Fellowship Foundation.

The amended bill does not include section 617 of the Senate bill relating to increased penalties under section 206 of the International Emergency Economic Powers Act.

The amended bill does not include section 618 of the Senate bill relating to reporting on activities of the petroleum industry in Sudan.

The amended bill does not include section 619 of the Senate bill relating to a prohibition on funds to enforce a provision of the

Cuban Assets Control Regulations regarding agricultural and medical sales to Cuba.

The amended bill does not include section 620 of the Senate bill concerning agricultural and medical-related sales to Cuba.

The amended bill does not include section 621 of the House bill relating to additional amounts for small business development and entrepreneurship initiatives. This provision is now under the heading "Administrative Provisions—Small Business Administration".

TITLE VII

GENERAL PROVISIONS—GOVERNMENT-WIDE

DEPARTMENTS, AGENCIES, AND CORPORATIONS

The amended bill includes the following government-wide general provisions that were proposed by both the House and the Senate:

Section 701 allowing, hereafter, payment for travel of families serving overseas to the United States in case of death or life threatening illness;

Section 702 requiring all agencies have a written policy for ensuring a drug free workplace;

Section 703 setting specific limits on the cost of passenger vehicles with exceptions for police, heavy duty, electric hybrid and clean fuels vehicles;

Section 704 making appropriations available for quarters/cost of living allowances;

Section 705 prohibiting the government from employing non-US citizens (with exceptions) whose posts are in the continental United States;

Section 706 ensuring that appropriations made available to any department or agency for space, services and rental charges shall also be available for payment to the GSA;

Section 707 allowing the use of receipts from the sale of materials for acquisition, waste reduction and prevention, environmental management programs and other Federal employee programs as appropriate;

Section 708 permitting that funds for administrative expenses shall also be available for rent in the District of Columbia, services under 5 U.S.C. 3109, and other objects specified in this head;

Section 709 prohibiting, hereafter, funds to pay to hire someone for a position for which they have been rejected by the Senate;

Section 710 prohibiting funds for interagency financing boards (with exception), commissions, councils, committees or similar groups without prior approval to receive multi-agency funding;

Section 711 precluding funds for regulations which have been disapproved by joint resolution;

Section 712 setting ceilings on pay rates for certain Federal employees for fiscal year 2008;

Section 713 limiting the amount of funds that can be used for redecoration of offices under certain circumstances to $5,000, unless approved by the Committees on Appropriations;

Section 714 allowing for interagency funding of national security and emergency preparedness telecommunications initiatives;

Section 715 requiring agencies to certify that a Schedule C appointment was not created solely or primarily to detail the employee to the White House;

Section 716 requiring, hereafter, agencies to administer a policy designed to ensure that all workplaces are free from discrimination and sexual harassment;

Section 717 prohibiting the payment of any employee who prohibits, threatens, prevents or otherwise penalizes another employee from communicating with Congress;

Section 718 prohibiting Federal training not directly related to the performance of official duties;

Section 719 preventing funds from being used to implement or enforce non-disclosure agreement policies unless certain provisions are included;

Section 720 prohibiting propaganda, publicity and lobbying by executive agency personnel in support or defeat of legislative initiatives;

Section 721 prohibiting any Federal agency from disclosing an employee's home address to any labor organization, absent employee authorization or court order;

Section 722 prohibiting funds to be used to provide non-public information such as mailing or telephone lists to any person or organization outside the government without the approval of the Committees on Appropriations;

Section 723 prohibiting the use of funds for propaganda and publicity purposes not authorized by Congress;

Section 724 directing agency employees to use official time in an honest effort to perform official duties;

Section 725 authorizing the use of funds to finance an appropriate share of the Federal Accounting Standards Advisory Board administrative costs;

Section 726 authorizing the transfer of funds to GSA to finance various government-wide boards and commissions;

Section 727 permitting breastfeeding in a Federal building or on Federal property if the woman and child are authorized to be there;

Section 728 permitting interagency funding of the National Science and Technology Council and requiring OMB to provide a report on the budget and resources of the National Science and Technology Council;

Section 729 requiring that the Federal forms that are used in distributing Federal funds must indicate the agency providing the funds, the domestic catalogue information, and the amount provided;

Section 731 prohibiting the use of funds to monitor personal information relating to the use of Federal Internet sites to collect, review, or create any aggregate list that includes personally identifiable information relating to access to or use of any Federal Internet site of such agency;

Section 732 requiring health plans participating in the Federal Employees Health Benefits Program to provide contraceptive coverage and providing exemptions to certain religious plans;

Section 733 providing recognition of the U.S. Anti-Doping Agency as the official anti-doping agency for Olympic, Pan American and Paralympic sport in the United States;

Section 734 allowing funds for official travel to be used by departments and agencies, if consistent with OMB and Budget Circular A-126, to participate in the fractional aircraft ownership pilot program;

Section 735 prohibiting funds for implementation of OPM regulations limiting detailees to the Legislative Branch, and implementing limitations on the Coast Guard Congressional Fellowship Program;

Section 736 restricting the use of funds for Federal law enforcement training facilities with an exception for the Federal Law Enforcement Training Center;

Section 739 precluding the use of funds to convert to contractors, if more than 10 federal employees perform the activity, unless the analysis reveals that savings would exceed 10 percent of the most efficient organization personnel cost or $10,000,000, whichever is less;

Section 740 providing that the adjustment in rates of basic pay for employees under statutory pay systems taking effect in fiscal year 2008 shall be an increase of 3.5 percent;

Section 741 prohibiting executive branch agencies from creating prepackaged news stories that are broadcast or distributed in the United States unless the story includes a clear notification within the text or audio of that news story that the prepackaged news story was prepared or funded by that executive branch agency;

Section 743 requiring agencies to evaluate the creditworthiness of an individual before issuing a government travel charge card and prohibiting agencies from issuing a government travel charge card to individuals who have an unsatisfactory credit history; and

Section 749 concerning references to "this Act".

In addition, the amended bill includes the following general provisions:

Section 730 modifies language proposed by the House and the Senate concerning agency franchise funds. The authorization for franchise funds is extended by modifying subsection (f) of section 403 of Public Law 103-356. The modified subsection would terminate franchise fund authority for only the Department of Homeland Security on October 1, 2008.

Section 737 modifies a provision proposed by the House and the Senate regarding budget information required for E-Government initiatives. The amended bill requires agencies to provide information on E-Government initiatives, including Lines of Business, in their fiscal year 2009 budget justifications so that the Committees on Appropriations can either approve or disapprove funding for those initiatives at the time appropriations bills are being prepared. The Appropriations Committees are concerned over the use of the "pass the hat" method of financing E-Government initiatives and how such financing may divert scarce resources from agencies' primary missions. Approval of the Committees on Appropriations for transfers relating to E-Government initiatives is essential.

Section 738 provides authority to transfer funds between agencies to ensure the uninterrupted, continuous operation of the Midway Atoll Airfield, as proposed by the Senate.

Section 742 prohibits funds in this Act from being used in contravention of the Privacy Act as proposed by the House and the Senate. In addition, this section amends division H of the Consolidated Appropriations Act, 2005 with respect to agency Inspector General reviews of privacy and data protection policies and procedures.

Section 744 requires the Office of Management and Budget to submit a crosscut budget report on Great Lakes restoration activities not later than 30 days after the submission of the budget of the President to Congress, as proposed by the House.

Section 745 prohibits funds in this or any Act to be used for Federal contracts with expatriated entities, as proposed by the Senate. The House included similar language as section 620.

Section 746 requires each agency to establish, on the homepage of its website, a link to the website of its Inspector General, and requires each Office of Inspector General to post public reports and audits within one day of release, allows an individual to request automatic receipt of information relating to any public report or audit, and establishes and maintains a link for individuals to anonymously report waste, fraud and abuse, as proposed by the Senate.

Section 747 prohibits the expenditure of funds on public-private competitions under Office of Management and Budget (OMB) Circular A–76, or direct conversions, related to the Human Resources Lines of Business initiative until 60 days after OMB submits a report to the Committees on Appropriations addressing several specified issues of concern. The section also would require that OMB submit a copy of its report to the Government Accountability Office (GAO) when it is submitted to the Committees. GAO is required to brief the Committees on its views of the OMB report within 45 days of receiving it. OMB shall provide GAO with full and timely access to the documents, analyses, and personnel the GAO determines it needs to conduct a thorough review of the OMB report and provide the Committees with its views.

Section 748 requires the Office of Management and Budget to establish a pilot program to develop and implement an inventory to track the cost and size of service contracts in at least three cabinet-level departments. The program will give particular attention to contracts that have been performed poorly by a contractor because of excessive costs or inferior quality. In conducting the pilot program, the Office of Management and Budget is expected to use the methodology developed by the Department of the Army, pursuant to the Secretary of the Army's January 7, 2005 Memorandum on Accounting for Contract Services. Within 60 days of enactment, the Office of Management and Budget shall provide the Committees on Appropriations with a cost estimate for developing and implementing the pilot program.

TITLE VIII

GENERAL PROVISIONS—DISTRICT OF COLUMBIA

The amended bill includes the following general provisions for the District of Columbia that were proposed by both the House and the Senate:

Section 801 specifying that appropriations are made for particular purposes and shall be considered the maximum for those purposes;

Section 802 authorizing that appropriations are available for travel and dues of organizations;

Section 803 allowing for the use of local funds for making refunds or paying judgments against the District of Columbia government;

Section 805 establishing reprogramming and transfer requirements;

Section 806 providing that appropriations under this Act shall be applied to objects for which the appropriation was made;

Section 808 requiring reporting on the District of Columbia's fiscal year 2008 revenue estimates by the end of the first quarter of fiscal year 2008 for use in the fiscal year 2009 request;

Section 810 prohibiting the use of Federal funds to implement the District of Columbia's Health Care Benefits Act of 1992;

Section 811 allowing the Mayor to accept, obligate and expend Federal, private and other grants received by the District of Columbia not reflected in the amounts appropriated in this Act;

Section 813 prohibiting the use of Federal funds for a petition or civil action which seeks to require voting rights for the District of Columbia in Congress;

Section 814 prohibiting Federal funds to be used for needle distribution, allowing the District of Columbia to utilize local funds for this purpose;

Section 815 requiring the chief financial officers of the District of Columbia agencies to certify that they understand the duties and restrictions applicable as a result of this Act;

Section 816 concerning a "conscience clause" on legislation that pertains to contraceptive coverage by health insurance plans;

Section 818 requiring the District of Columbia to submit an updated budget no later than 30 days after enactment of this Act;

Section 819 prohibiting funds in this Act to be used to pay the fees in excess of $4,000 of an attorney in a suit brought against the District of Columbia under the Individuals with Disabilities Act;

Section 821 allowing for the increase in spending of "Other-Type Funds" under certain conditions;

Section 822 allowing the Chief Financial Officer to conduct short term borrowing;

Section 823 prohibiting the use of funds in this Act to enact or carry out any law that legalizes or reduces the penalty for the use of controlled substances;

Section 824 prohibiting the use of funds in this Act for abortion services;

Section 825 allowing for a separate appropriation for the Public Defenders Service in the District of Columbia; and

Section 828 specifying that references to this Act in this title and title IV are treated as referring only to the provisions of this title and title IV.

In addition, the amended bill includes the following general provisions:

Section 804 prohibits Federal funds from being used for propaganda designed to support or defeat legislation before the Congress as proposed by the Senate, but allows the District of Columbia to use local funds to lobby on any matter.

Section 807 clarifies the application of the District Government Reemployment Annuitant Offset Elimination Act of 2004 to certain employees.

Section 809 prohibits use of Federal funds for the salaries and expenses of a Shadow Senator or U.S. Representative as proposed by the Senate.

Section 812 establishes the parameters for which certain District of Columbia employees may use a vehicle meant for official duties to travel to and from work, and adds the Department of Corrections as proposed by the Senate.

Section 817 requires an annual report on crime, access to substance abuse treatment, management of parolees, education, rat abatement and indicators of child well-being as proposed by the Senate.

Section 820 allows the appropriation to be increased by no more than $100,000,000 from unexpended general funds for certain purposes, instead of $42,000,000 as proposed by the House and $50,000,000 as proposed by the Senate.

Section 826 authorizes the transfer of local operating funds to capital and enterprise funds as proposed by the Senate.

Section 827 modified from the Senate bill, provides for the collection and use of funds under the Student Funding Formula Assessment, Educational Data Warehouse, and Enrollment Fund Establishment Amendment Act of 2007.

The amended bill does not include section 828 of the Senate bill which would authorize the District of Columbia to provide a pay increase for the position of the chief financial officer.

The amended bill does not include section 829 of the Senate bill which would have changed the current law on the transfer of unobligated balances in the Crime Victims Compensation Fund from the District of Columbia Courts to the District's Office of Victim Services. However, the District of Columbia Courts are urged to collaborate with the Office of Victim Services to develop guidelines for consistent and reasonable hourly rates for counselors and other service providers and to address cost-effective and appropriate ways to meet the shelter and transitional housing needs of persons served. The District of Columbia Courts and the Office of Victim Services are directed to inform the Committees on Appropriations on the status of the collaborative efforts within 120 days of enactment.

The amended bill does not include House section 901 prohibiting funds from being used to implement Executive Order No. 13422.

The amended bill does not include House section 902 prohibiting funds for the purchase of light bulbs unless the light bulbs have the "ENERGY STAR" or "Federal Energy Management Program" designation.

The amended bill does not include section 903 of the House bill concerning agricultural and medical-related sales to Cuba.

The amended bill does not include House section 904 prohibiting funds in this Act from being used by the Selective Service System to prepare for, plan, or execute the Area Office Mobilization Prototype Exercise. The amended bill does not provide funding for this exercise.

The amended bill does not include House section 905 prohibiting funds for the Securities and Exchange Commission to be used to enforce the requirements of section 404 of the Sarbanes-Oxley Act with respect to non-accelerated filers under section 210.2–02T of title 17, Code of Federal Regulations. This matter is further addressed in this explanatory statement under the Securities and Exchange Commission heading.

The amended bill does not include House section 906 prohibiting funds for the Small Business Administration to be used for the Mitchell County Development Foundation, Inc. This project has been removed from the list of small business development and entrepreneurship initiatives receiving funding, so the provision is not necessary.

Section 907 of the House bill, prohibiting funds to implement section 5112(n)(2)(C) of title 31, United States Code, is addressed with modified language in title VI of this Act.

Section 908 of the House bill, concerning the Fairness Doctrine, is addressed in title VI of this Act.

Section 909 of the House bill, prohibiting Federal funds from being used to implement or enforce the District of Columbia's Health Care Benefits Expansion Act of 1992, is addressed in title VIII of this Act.

Disclosure of Earmarks and Congressionally Directed Spending Items

Following is a list of earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the committee of jurisdiction for each item so identified. Items which did not appear in the House or Senate versions of H.R. 2829 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

AMENDED BILL TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for fiscal year 2008 provided in the amended bill, with comparisons to the fiscal year 2007 amount, the 2008 budget estimates, and the House and Senate bills for 2008 follow:

(In thousands of dollars)

New budget (obligational) authority, fiscal year 2007	$40,713,323
Budget estimates of new (obligational) authority, fiscal year 2008	43,701,476
House bill, fiscal year 2008	43,863,578
Senate bill, fiscal year 2008	44,109,978
Amended bill, fiscal year 2008	43,280,578
Amended bill compared with:	
New budget (obligational) authority, fiscal year 2007	+2,567,255
Budget estimates of new (obligational) authority, fiscal year 2008	−420,898
House bill, fiscal year 2008	−583,000
Senate bill, fiscal year 2008	−829,400

DIVISION E—DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2008

The following is an explanation of the effects of this division on the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Department of Homeland Security Appropriations Act, 2008 (H.R. 2638 and S. 1644) passed by the House of Representatives and the Senate. The language and allocations contained in House Report 110–181 and Senate Report 110–84 should be complied with unless specifically addressed to the contrary in the amended bill or this explanatory statement. When this explanatory statement refers to the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Homeland Security and the Senate Subcommittee on Homeland Security.

While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House and Senate reports address a particular issue not specifically addressed in the amended bill or explanatory statement, the Committees on Appropriations have determined the House report and the Senate report are not inconsistent and are to be interpreted accordingly.

In cases where the House or Senate report directs the submission of a report, such report is to be submitted to both Committees on Appropriations. In a number of instances, House Report 110–181 and Senate Report 110–84 direct agencies to report to the Committees by specific dates. In those instances, and unless alternative dates are provided in the explanatory statement, agencies are directed to provide these reports to the Committees on Appropriations no later than five months after the date of enactment of this Act. Further, the Committees on Appropriations have attempted to reduce the number of reports required of the Department and in certain instances in lieu of reports have requested briefings. Unless alternative dates are provided in the explanatory statement, agencies are directed to provide these briefings within four months after the date of enactment of this Act.

Last, this explanatory statement refers to the following laws as follows: Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110–53, is referenced as the 9/11 Act; Security and Accountability for Every Port Act of 2006, Public Law 109–347, is referenced as the SAFE Port Act; and the Intelligence Reform and Terrorism Prevention Act of 2004, Public Law 108–458, is referenced as the Intelligence Reform Act.

CLASSIFIED PROGRAMS

Recommended adjustments to classified programs are addressed in a classified annex accompanying this explanatory statement.

TITLE I—DEPARTMENTAL MANAGEMENT AND OPERATIONS

OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

The amended bill provides $97,353,000 for the Office of the Secretary and Executive Management instead of $85,172,000 as proposed by the House and $100,000,000 as proposed by the Senate. A total of $15,000,000 of this amount is unavailable for obligation until the Secretary certifies that DHS has revised Departmental guidance with respect to relations with the Government Accountability Office (GAO) and the Inspector General (IG), similar to bill language proposed by the Senate. The amended bill also limits obligations to seventy-five percent of the amount appropriated until receipt of the first report on progress to improve and modernize efforts to remove criminal aliens judged deportable from the United States.

Reductions are made to the budget request due to a large number of vacancies and unobligated balances within certain offices. Funding shall be allocated as follows:

Immediate Office of the Secretary	$2,540,000
Immediate Office of the Deputy Secretary	1,122,000
Chief of Staff	2,639,000
Office of Counternarcotics Enforcement	2,680,000
Executive Secretary	4,722,000
Office of Policy	33,000,000
Office of Public Affairs	6,650,000
Office of Legislative and Intergovernmental Affairs	4,900,000
Office of General Counsel	13,500,000
Office of Civil Rights and Liberties	14,200,000
Citizenship and Immigration Services Ombudsman	5,900,000
Privacy Officer	5,500,000
Total	$97,353,000

Office of Counternarcotics Enforcement

The Committees on Appropriations provide $2,680,000 for the Office of Counternarcotics Enforcement, instead of $3,000,000 as proposed by the House and $2,360,000 as proposed by the Senate. The Office of Counternarcotics Enforcement is directed to provide a briefing to the Committees on Appropriations on: (1) fiscal year 2007 achievements, including tracking and severing connections between illegal drug trafficking and terrorism; (2) the DHS counternarcotics strategy for the Southwest, Northern, and maritime borders of the United States and for the drug transit zone, to include objectives, coordination, outreach, and resources necessary for each DHS component to implement the strategy; and (3) Office performance goals for fiscal year 2008.

Office of Policy

The Committees on Appropriations provide $33,000,000 for the Office of Policy instead of $32,500,000 as proposed by the House and $31,310,000 as proposed by the Senate. Within this amount, funding is provided for the Committee on Foreign Investments in the United States and REAL ID enhancements, and for the quadrennial homeland security review. No funding is provided for REAL ID "card stock" or common procurement items. The Office of Policy is directed to submit an expenditure plan to the Committees on Appropriations within 45 days from the date of enactment of this Act as detailed in the Senate report. The Office of Policy is also directed to provide a briefing to the Committees on Appropriations no later than 45 days after the date of enactment of this Act on plans to comply with Section 2401 of the 9/11 Act, including staffing and budget requirements.

Secure Border Coordination Office

No funding is provided for the Secure Border Coordination Office, consistent with the budget amendment submitted on November 6, 2007. Oversight of this office is funded within U.S. Customs and Border Protection (CBP). Both the House and Senate funded this office at $4,500,000. The Committees on Appropriations are concerned with the Department's decision to manage the Secure Border Initiative (SBI) within CBP rather than establish a Departmental level coordinating office, as proposed by DHS in fiscal year 2007. A cross-cutting effort such as the SBI, which spans not only multiple agencies within DHS, but other cabinet-level Departments and the Judicial Branch, cannot be effectively coordinated within an operational agency. These concerns are amplified by the fact that CBP's SBI program office is also charged with managing the multi-billion dollar border security fencing, infrastructure, and technology (BSFIT) program, which demands significant and focused managerial attention that should not be dually charged with external coordination of all SBI efforts. DHS is directed to brief the Committees on Appropriations no later than 120 days after the date of enactment of this Act on how the SBI effort is being effectively coordinated across the federal government, including specific details on how funds appropriated to the Secure Border Coordination Office in fiscal year 2007 were obligated and the Department's plans to establish and staff the Department level Secure Border Coordination Council. It is essential the Secure Border Coordination Council receive strong, consistent leadership from the Office of the Secretary.

Office of Public Affairs

The Committees on Appropriations provide $6,650,000 for the Office of Public Affairs, instead of $6,300,000 as proposed by the House and $7,400,000 as proposed by the Senate. Within this amount, $1,500,000 is provided for the "Ready.gov" program. The office is directed to provide a briefing within 60 days after the date of enactment of this Act on its plans for expending these funds.

Office of General Counsel

The Committees on Appropriations provide $13,500,000 for the Office of General Counsel, instead of $14,000,000 as proposed by the House and $12,759,000 as proposed by the Senate. This office has a number of critical requirements that must be fulfilled during the coming year, including those established in the 9/11 Act and SAFE Port Act. The Committees on Appropriations understand that the General Counsel is working on a reorganization whereby the legal staff responsible for the ongoing work of specific DHS entities will be transferred to those entities. The Department is directed to submit a reprogramming to detail fully this proposal. It is essential that this office improve its performance in providing accurate and timely guidance on the execution of appropriations law.

Privacy Officer

The Committees on Appropriations provide $5,500,000 for the Privacy Office instead of $6,000,000 as proposed by the House and $5,111,000 as proposed by the Senate. Funding is provided for additional staffing of this office, given that this office has wide-ranging critical responsibilities that are currently understaffed. GAO is directed to evaluate the operation of DHS' Freedom of Information Act (FOIA) program, its staffing levels, and the adequacy of its resources to determine if the program can be operated in a more efficient and cost-effective manner at the Department. The Senate report requested that the IG conduct this evaluation, but the Committees on Appropriations believe a GAO evaluation is more appropriate to allow DHS' FOIA program to be compared with other executive branch agency FOIA programs.

Comparative Border Control Resources

The Committees on Appropriations agree with the House report directing a report on the number, type and location of DHS facilities, personnel, major assets and technology based or deployed within 100 miles of the United States border with Mexico and Canada. This report is to be provided to the Committees on Appropriations by January 31, 2008. In addition, the Secretary is directed to conduct a study of law enforcement radio communications along the international borders of the United States consistent with the terms and conditions listed in section 569 of the Senate bill.

2010 Vancouver Games Security

The Committees on Appropriations expect the Department to effectively manage security risks associated with the 2010 Vancouver Olympic and Paralympic Games, and direct the Secretary to submit a report as described in section 552 of the Senate bill to the House and Senate Committees listed in that section.

Citizenship and Immigration Services Ombudsman

The Committees on Appropriations provide $5,900,000 for the Citizenship and Immigration Services Ombudsman instead of $6,060,000 as proposed by the House and $6,054,000 as proposed by the Senate. This office lapsed over $1,800,000 in fiscal year 2007, almost one-third of its budget. The Secretary is directed to ensure that this critical office is given the priority it deserves so that all appropriated funding can be effectively obligated in the coming fiscal year.

OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

The amended bill provides $150,238,000 instead of $237,765,000 as proposed by the House and $234,883,000 as proposed by the Senate. The amended bill does not include the $245,525,000 in unspecified reductions contained in the House bill. The amended bill also does not include House bill language withholding funding for the Departmental headquarters project on the Saint Elizabeth's campus until the Department submits certain reports, including detailed expenditure plans for checkpoint and explosives detection technologies. Instead, funding is withheld within the Transportation Security Administration (TSA) until checkpoint support and explosives detection system expenditure plans, as well as the final strategic plan for checkpoint technologies, are delivered to the Committees on Appropriations. Reductions are made to the budget request due to a large number of vacancies and unobligated balances within certain offices. Funding shall be allocated as follows:

Under Secretary for Management	$2,012,000
Office of Security	53,490,000
Office of the Chief Procurement Officer	28,495,000
Office of the Chief Human Capital Officer	8,811,000
Human Resources	10,000,000
MAX–HR	0
Office of the Chief Administrative Officer	41,430,000
Nebraska Avenue Complex Facilities	6,000,000
Total	$150,238,000

Under Secretary for Management

No funding is included in the Under Secretary appropriation for the Federal Law Enforcement Training Accreditation Board, as requested in the budget. This activity is funded within the Federal Law Enforcement Training Center (FLETC) salaries and expenses account. The Under Secretary is directed to provide an expenditure plan briefing to the Committees on Appropriations regarding the Under Secretary for Management's appropriation.

Office of Security

The Committees on Appropriations provide $53,490,000 for the Office of Security instead of $52,990,000 as proposed by the House and $53,990,000 as proposed by the Senate. Funding is provided for fusion center activities as proposed by the Senate.

Office of the Chief Procurement Officer

The Committees on Appropriations provide $28,495,000 for the Office of the Chief Procurement Officer (OCPO) as proposed by the Senate instead of $27,055,000 as proposed by the House. The Under Secretary is directed to provide a briefing to the Committees on Appropriations on its use of the hiring authority provided in PL 109–313 as detailed in the Senate report.

The investment review function, totaling $700,000 and four full-time equivalents (FTEs), is transferred from the Office of the Chief Financial Officer (OCFO) to the OCPO as requested recently by the Department. The OCFO will continue to provide fiscal analysis to the OCPO regarding budget formulation and execution for major investments. Given the size, cost, and complexity of the major procurements across the Department and the often overlapping and integrated needs of Departmental agencies, the Investment Review Board (IRB) must exercise strong leadership in the Department's acquisition process. To date the effectiveness of the IRB has not been readily apparent and it is unclear how DHS effectively formulates and executes acquisition strategies to meet joint mission requirements. The Chief Procurement Officer is directed to brief the Committees on Appropriations on how these concerns are being addressed. In addition the Secretary is directed to report on the authority of the OCPO and adequacy of staffing as detailed in the Senate report. No later than 90 days after the Secretary submits the report to the Committees on Appropriations, GAO shall provide an assessment of the report.

Office of the Chief Human Capital Officer

The Committees on Appropriations provide $18,811,000 for the Office of the Chief Human Capital Officer instead of $13,278,000 as proposed by the House and $13,811,000 as proposed by the Senate. No funding is provided for MAX–HR or any follow-on personnel system. Instead, $10,000,000 is provided to address the Department's dismal results in the 2006 Federal Human Capital Survey. The Department is directed to ensure that these funds are spent on programs that directly address the shortcomings identified in this survey or in a subsequent DHS survey that the Department plans to conduct. Such programs may include the planned DHS survey, gap analysis of mission critical occupations, hiring and retention strategies, robust diversity programs, and Department-wide education and training initiatives. The Secretary is required to submit an expenditure plan for these funds prior to obligation.

Nebraska Avenue Complex Facilities

The Committees on Appropriations provide $6,000,000 for facilities costs at the Nebraska Avenue Complex (NAC), instead of $101,000,000 proposed by the House and $94,000,000 as proposed by the Senate for both the Nebraska Avenue Complex and the consolidated headquarters project. The Under Secretary is directed to submit an expenditure plan on the expected uses of these funds within 30 days after the date of enactment of this Act. The Committees on Appropriations agree with the House report directing the Chief Administrative Officer to minimize investment in the NAC since it will be replaced with a new headquarters campus. The Department is directed to make only those investments absolutely necessary to address pressing operational problems at the NAC. The Department is also directed to submit NAC reports semiannually, as detailed in the Senate report, and further directed that these reports reflect both changes to scheduled projects and activities accomplished. DHS and the Coast Guard are directed to plan a headquarters facility that balances growth and cost as detailed in the House report. DHS is also directed to provide quarterly briefings to the Committees on Appropriations on the headquarters project as detailed in the Senate report.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The amended bill provides $31,300,000 instead of $30,500,000 as proposed by the House and $30,076,000 as proposed by the Senate. The Committees on Appropriations expect the Secretary and Under Secretary for Management to correct problems related to the lack of timely information from the Department as directed in the House report. The Committees on Appropriations agree with the House report regarding the small benefit that has been derived from the appropriations liaison function. The Committees on Appropriations direct the Chief Financial Officer to ensure that communications from CFO employees to the Committees are timely, accurate and thorough. Funding for the Resource Management Transformation Office is provided as proposed by the House instead of through unobligated e-Merge 2 balances as proposed by the Senate. The CFO is directed to provide the Committees on Appropriations a briefing on the detail of past representation fund expenditures throughout the Department.

Annual Appropriations Justifications

The CFO is directed to submit all of its fiscal year 2009 budget justifications (classified and unclassified) concurrent with the submission of the President's budget request and at the level of detail specified in the House and Senate reports. In addition, the annual appropriations justifications should include explicit information by appropriations account, program, project, and activity on all reimbursable agreements and uses of the Economy Act exceeding $50,000; a listing of overdue Committee reports; and a detailed table identifying the last year authorizing legislation was provided by Congress for each appropriation account, the amount of the authorization, and the appropriation in the last year of the authorization.

Reprogramming Requirements

The amended bill continues and modifies a provision regarding reprogramming of funds. The following have been added to the Department's reprogramming requirements: creation of a new program, project or activity; elimination of an office; and, contracting out any function or activity for which funds were requested for Federal employees.

Contract and Grant Notification Requirements

The amended bill continues and modifies a provision regarding contract and grant notification requirements. Information within the notification shall include amount of the award, fiscal year in which the funds were appropriated, and account from which the funds were drawn.

OFFICE OF THE CHIEF INFORMATION OFFICER

The amended bill provides $295,200,000 for the Office of the Chief Information Officer (CIO) instead of $258,621,000 as proposed by the House and $321,100,000 as proposed by the Senate. Funding shall be allocated as follows:

Salaries and Expenses	$81,000,000
Information Technology (IT) Activities	56,200,000
Security Activities	124,900,000
Homeland Secure Data Network	33,100,000
Total	295,200,000

CIO-Led Information Technology Acquisitions

The amended bill continues an existing requirement that the CIO report on all IT acquisitions financed directly or managed by the CIO.

Information Technology Security

The CIO is directed to brief the Committees on Appropriations on plans for improving IT security, and plans to improve compliance with the Federal Information Security Management Act scorecard, as proposed by the Senate.

Coordination of Information Technology Investments

The Committees on Appropriations note that the CIO now exercises significant authority to review and oversee the Department's major IT investments, and direct the CIO to provide a briefing on the process in place to review these procurements, including a listing of all IT investments it plans to review in fiscal year 2008. For each procurement to be reviewed, the briefing should include associated project information such as: the complete budget (including all funding sources), the timelines for development and implementation, and annual and lifecycle costs. Within this briefing, the CIO is also directed to discuss the steps taken to implement the key practices recommended in the Government Accountability Office IT Investment Management Framework.

Integrated Wireless Network

The Committees on Appropriations direct the CIO to limit involvement with the Integrated Wireless Program to only those activities it carries out with other similar agency-managed acquisition projects.

Data Centers

The Committees on Appropriations provide $72,300,000 within security activities for data center development, an increase of $35,500,000 from the budget request level. The additional funds are to be used for construction at the National Center for Critical Information Processing and Storage (NCCIPS) for build out costs to expand data storage capabilities, in accordance with the existing agreement to provide 100,000 square feet of data center space.

The Congress has provided significant resources in this and previous appropriations bills for the consolidation of DHS data centers, both to improve operational efficiency and promote a standardized IT architecture at DHS. It is therefore disappointing to discover that the U.S. Secret Service data center will not be consolidated with other DHS operations, even though other Secret Service projects require the agency to relocate its IT equipment and staff. The Committees on Appropriations direct the CIO to review the location and future plans for every data center operated and managed by DHS agencies and components, and ensure that all future data center relocation projects are first considered for consolidation. The Department is directed to implement its data center consolidation plan in a manner consistent with section 888 of Public Law 107-296, as proposed by the Senate.

Enterprise Architecture

The CIO is directed to provide the Committees on Appropriations with a briefing on efforts planned and underway to make the Department's enterprise architecture comport with GAO-recommended reforms.

ANALYSIS AND OPERATIONS

(INCLUDING RESCISSION OF FUNDS)

The amended bill provides $306,000,000 for Analysis and Operations as proposed by the Senate and instead of $301,619,000 as proposed by the House. Funding shall be allocated as discussed in the classified annex to this explanatory statement.

National Immigration Information Sharing Operation and National Applications Office

The amended bill includes a statutory restriction on the obligation of funds for operation of either the National Immigration Information Sharing Operation or the National Applications Office until the Secretary certifies these programs comply with all existing laws, including all applicable privacy and civil liberties standards, with the certification reviewed by the Government Accountability Office. Further, the Under Secretary for Intelligence and Analysis is required to submit the Standard Operating Procedure documents for these programs to the Committees on Appropriations no later than 60 days after the enactment of this Act.

Intelligence and Analysis Expenditure Plan

The Under Secretary for Intelligence and Analysis is directed to provide the Committees on Appropriations an expenditure plan for the Office of Intelligence and Analysis, as proposed by the Senate. That report is to include an analysis of all new requirements enacted in the 9/11 Act, as well as the estimated costs and available resources to implement those requirements in fiscal year 2008 and subsequent fiscal years.

State and Local Fusion Centers

The Committees on Appropriations provide the Senate level of funding for State and local fusion centers, instead of doubling the requested amount as proposed by the House.

National Operations Center

The Committees on Appropriations do not require information about the relocation of the National Operations Center (NOC), since the reprogramming proposal to affect such a move was denied by the House. The amended bill rescinds $8,700,000 in unobligated balances from prior-year appropriations made for Analysis and Operations, which is an amount equal to the levels that had been proposed for reallocation to fund the NOC move. The Committees on Appropriations encourage rotation of State and local fire service representation at the National Operations Center, as proposed by the Senate.

OFFICE OF THE FEDERAL COORDINATOR FOR GULF COAST REBUILDING

The amended bill provides $2,700,000 for the Office of the Federal Coordinator for Gulf Coast Rebuilding (OFCGC) instead of $3,000,000 as proposed by both the House and Senate. Funding is reduced because the OFCGC lapsed $683,079 at the end of fiscal year 2007. Within the funding provided, $1,000,000 is unavailable for obligation until the Committees on Appropriations receive an expenditure plan for fiscal year 2008 as detailed in the Senate report. The Department is directed to use the reprogramming authority contained in this Act if the office needs additional funding.

OFCGC is directed to provide quarterly briefings outlining progress, factors delaying progress, and goals for rebuilding in the Gulf Coast. The Committees on Appropriations are aware that the OFCGC is working with the Department of Housing and Urban Development (HUD) and the Federal Emergency Management Agency (FEMA) on the Disaster Housing Assistance Program. The Committees on Appropriations expect the program will lead to permanent housing solutions for those remaining in trailers and hotels, and receiving rental assistance. OFCGC is expected to continue to work with HUD and FEMA and focus on all HUD programs including Section 202, Section 811, and rental assistance.

OFFICE OF INSPECTOR GENERAL

The amended bill provides $92,711,000 for the Office of Inspector General (IG) instead of $99,611,000 as proposed by the House and $95,211,000 as proposed by the Senate. Included in this funding is $1,200,000 to conduct U.S. Customs and Border Protection revenue oversight.

Disaster Relief Funding

In addition to the funding provided above, $16,000,000 is available for transfer from the Disaster Relief Fund instead of $13,500,000 as proposed by the Senate. The House proposed no such transfer. These funds are for audits and investigations related to disasters, including uses of the Disaster Relief Fund. The IG is required to notify the Committees on Appropriations no less than 15 days prior to any transfer from the Disaster Relief Fund.

Formaldehyde

The IG is directed to investigate the Federal Emergency Management Agency's (FEMA) policies and processes regarding formaldehyde in trailers purchased by the agency to house disaster victims. The IG shall investigate the process used by FEMA to collect and respond to health and safety concerns of trailer occupants; whether FEMA adequately notified occupants of potential health and safety concerns; and whether FEMA has proper controls and processes in place to deal with health and safety concerns of those living in trailers following disasters. The IG is to report its findings to the Committees on Appropriations, including any recommendations.

Cosco Busan Oil Spill

The IG is directed to investigate Coast Guard's role in the M/V Cosco Busan oil spill in San Francisco Bay on November 7, 2007, including the difficulties faced when ships transit ports in heavy fog; proper standard operating procedures watchstanders at the vessel traffic services San Francisco control center should follow when observing a ship to be on a course that may lead to a collision or allision; whether the Unified Command effectively managed the resources available to Coast Guard related to containment and remediation of the spill; whether the rapid response plan for the treatment of marine resources, wildlife and fisheries required by the Oil Pollution Act of 1990 was followed and was adequate to guide this aspect of the response; and whether the Area Response Plan contains provisions adequate to guide the response to a spill of the type encountered in this allision, and whether these provisions were followed during the response to this incident. The investigation should specifically address unacceptable delays in the reporting of information to local authorities the day of the incident, the impact of those delays on the response and the adequacy of Coast Guard's initial investigation of the allision. In addition, the investigation should review Coast Guard's existing emergency response capabilities in San Francisco Bay and make recommendations regarding needed improvements and should include whether recent reorganizations at Coast Guard contributed to any response delays. The conferees direct the IG to submit a report no later than April 1, 2008, setting forth the conclusions of this investigation.

Pre-Packaged News

The 2007 Continuing Resolution continued the government-wide provision prohibiting an executive branch agency from producing any prepackaged news story intended for broadcast or distribution in the United States, unless the prepackaged news story contains clear notification that the story was produced and funded by the Federal government. Given the recent revelation of a staged press conference in FEMA, the Inspector General is directed to audit DHS' compliance with this provision.

Secure Flight

The Committees on Appropriations are concerned that, even with the Secure Flight program, the Transportation Security Administration plans to continue to screen passenger names against only a subset of the full terrorist watch list. Therefore, the IG is directed to report on the vulnerabilities that exist to our aviation system if the Secure Flight program does not screen against the full terrorism watch list.

Audit Reports

The amended bill requires the IG to withhold from public release for seven days any reports requested by the House and Senate Committees on Appropriations. This is a reduction from the previous years' requirement of 15 days.

TITLE II—SECURITY, ENFORCEMENT, AND INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION

SALARIES AND EXPENSES

The amended bill provides $6,802,560,000 for Salaries and Expenses, instead of $6,629,733,000 as proposed by the House and $6,601,058,000 as proposed by the Senate. Of this amount, $323,000,000 is designated as emergency.

The Committees on Appropriations provide $3,075,232,000 for border security between ports of entry, including funds to support an additional 3,000 Border Patrol Agents, $13,000,000 for additional Border Patrol vehicles, and $75,000,000, 50 percent above the request, to expand the detention transportation contract. The Committees on Appropriations agree U.S. Customs and Border Protection (CBP) should support efforts to eliminate smuggler lookout posts along the Southwest Border, but they do not designate specific resources for this purpose, as proposed by the House.

The Committees on Appropriations provide $1,221,341,000 for Management and Administration, reflecting a realignment of $10,048,000 in information technology costs to the Salaries and Expenses appropriation for U.S. Immigration and Customs Enforcement, a reduction of $10,000,000 for management efficiency, and the impact of fiscal year 2007 reprogramming actions.

The Committees on Appropriations provide $2,279,247,000 for border security inspections and trade facilitation, including $1,854,235,000 for Inspections, Border Security Inspections, and Travel Facilitation at Ports of Entry. Within the latter category is also included an additional $13,000,000 for the competitive procurement of commercially available technology to support the Secure Freight Initiative and the proposed Global Trade Exchange, authorized by the 9/11 Act; $22,000,000 for an additional 200 CBP Officers to comply with Section 403 of the SAFE Port Act and $575,000 for eight additional positions for enhanced duty collection; $6,750,000 for 50 additional supply chain specialists for the Customs-Trade Partnership Against Terrorism (C–TPAT) program, as authorized by section 222 of the SAFE Port Act; $225,000,000 for the Western Hemisphere Travel Initiative (WHTI), of which $100,000 is to promote information and exchange on use of best practices and technology with friendly nations as authorized by section 879 of Public Law 107–296; and $50,000,000 to enable CBP to implement section 535 of this Division establishing Law Enforcement Officer status for new and currently serving CBP Officers beginning July 1, 2008.

Within Border Security Inspections and Trade Facilitation is included $40,000,000 for Model Ports of Entry and 200 additional CBP Officers at the top 20 U.S. international airports pursuant to the 9/11 Act; $45,000,000 for a terrorism prevention system enhancement for passenger screening; and $36,000,000 for electronic travel authorization for the visa waiver program, including 24 additional program management positions.

The Committees on Appropriations provide $226,740,000 for personnel compensation and benefits for the CBP Air and Marine programs, including $14,000,000 for 82 positions to support establishment of 11 new marine enforcement units.

The following table specifies funding by budget program, project, and activity:

Headquarters, Management, and Administration:	
Management and Administration, Border Security Inspections and Trade Facilitation	$619,325,000
Management and Administration, Border Security and Control between Ports of Entry	602,016,000
Subtotal, Headquarters Management and Administration	1,221,341,000
Border Security Inspections and Trade Facilitation: Inspections, Trade, and Travel Facilitation at Ports of Entry	1,854,235,000
Container Security Initiative	156,130,000
Harbor Maintenance Fee Collection (Trust Fund)	3,093,000
Other international programs	10,866,000
Customs Trade Partnership Against Terrorism (C–TPAT)	62,310,000
Free and Secure Trade (FAST)/NEXUS/SENTRI	11,243,000
Inspection and Detection Technology Investments	105,027,000
Automated Targeting Systems	27,580,000
National Targeting Center	23,950,000
Training	24,813,000
Subtotal, Border Security Inspections and Trade Facilitation	2,279,247,000
Border Security and Control between Ports of Entry: Border Security and Control	3,022,443,000
Training	52,789,000
Subtotal, Border Security and Control between POEs	3,075,232,000
Air and Marine Personnel Compensation and Benefits	226,740,000
Total, Salaries and Expenses	6,802,560,000

Workload and Staffing

CBP has developed a Workload Staffing Model (WSM) to generate estimates of staffing needed to meet workload and mission requirements, under unconstrained or constrained budget assumptions. In its letters and briefings to the Committees on Appropriations, CBP has satisfied the requirements to submit a Resource Allocation Model, as directed in House Report 110–181.

Initial WSM applications include assessing staffing needs at airports and seaports based on passenger and cruise ship volumes, as well as assisting in allocation of newly funded CBP positions. The Committees on Appropriations expect the WSM to improve allocation of staffing resources to reduce airport and land port wait times, and to enhance performance in meeting customs revenue collection responsibilities as recommended by the Government Accountability Office (GAO–07–529). CBP is directed to brief the Committees on Appropriations not later than January 31, 2008, on how it is using WSM to achieve these goals.

Western Hemisphere Travel Initiative

The bill amends section 7209(b)(1) of the Intelligence Reform Act, setting a date for WHTI implementation at all ports of entry of either June 1, 2009, or when the Secretary and Secretary of State have certified compliance with Section B of that Act, whichever is later.

The Committees on Appropriations provide $225,000,000 for WHTI; of which $202,816,000 is available for two years for software development, equipment, contract services, and implementation of inbound lanes and modification to vehicle primary lanes. Of these funds, $75,000,000 will be unavailable for obligation until the Committees on Appropriations receive a report, not less than 120 days after enactment of this Act, on preliminary results of federal and State pilot programs to implement WHTI procedures at ports of entry. The report should include: (1) infrastructure and staffing required, with associated costs, by port of entry; (2) updated timetable milestones; (3) information on how requirements of Section 7209(b)(1)(B) of the Intelligence Reform Act, as amended, have been satisfied; (4) confirmation that a vicinity-read radio frequency identification card has been adequately tested to ensure operational success; and (5) a description of steps taken to ensure the integrity of privacy safeguards.

Model Ports of Entry

The Committees on Appropriations have provided $40,000,000 for the Model Ports of Entry program authorized in Section 725 of the 9/11 Act, as proposed by the Senate. This includes the resources necessary to hire at least 200 additional CBP officers at the 20 U.S. international airports with the highest number of foreign visitors arriving annually as determined by the most recent CBP data. The purpose of this program is to provide an international arrival process that better facilitates and promotes business and leisure travel to the U.S., while also improving security.

Commercial Operations and Revenue Collection Positions

The Committees on Appropriations have included $22,575,000 as proposed by the House and Senate for enhanced commercial inspection and duty collection, and direct CBP to brief the Committees on Appropriations semi-annually beginning 30 days after enactment of this Act on progress in hiring for Customs revenue positions. Such briefings may be combined with other briefings to the Committees on CBP hiring progress.

In-bond Cargo and Container Security

CBP is directed to provide the information on its in-bond cargo and container security programs, as directed by the House, in the form of a briefing to the Committees on Appropriations.

The Committees on Appropriations direct CBP to submit the report on southern border supply chain security required by Title VII of the Senate bill.

Automated Targeting System—Passengers

The Committees on Appropriations are aware CBP has agreed to take actions to address gaps or management weaknesses associated with its administration of the Automated Targeting System—Passengers, as recommended by the DHS Inspector General (OIG–08–06), and direct CBP to brief the Committees on Appropriations on progress in implementing those corrective actions.

Northern Border Staffing

The Committees on Appropriations strongly support the legislative requirements contained in the USA PATRIOT Act (Public Law 107–56), section 402 of the Trade Act of 2002 (Public Law 107–210), and the Intelligence Reform Act regarding increasing the number of Border Patrol agents and CBP Officers on the Northern Border. The Committees on Appropriations note threat information continues to point to Northern Border vulnerabilities. As highlighted in House and Senate reports accompanying this bill, the Committees on Appropriations expect CBP to make every effort to achieve these targets and direct that CBP quarterly hiring briefings continue to include data on progress being made in this regard.

Fleet Vehicle Management

The Committees on Appropriations note the receipt of the updated, five-year Vehicle Fleet Management Plan. The Committees on Appropriations expect future budget requests will reflect the needs identified in this plan, and direct CBP to inform the Committees on Appropriations of any deviations from the plan.

Immigration Advisory Program

The Committees on Appropriations direct CBP to include a report on the operations and performance of its Immigration Advisory Program in its fiscal year 2009 budget submission, and to notify the Committees on Appropriations whenever it expands the program to a new international location.

INTERPOL Lost and Stolen Travel Document Database

The Committees on Appropriations support the decision by the Department to use the International Criminal Police Organization (INTERPOL) database as it screens foreign travelers to the United States and request a briefing on the status of this activity.

Law Enforcement Officer Status for CBP Officers

The Committees on Appropriations include $50,000,000, as proposed by the House, to fund the implementation of new section 535, which will convert CBP Officers to Law Enforcement Officer status, and fund the fiscal year 2008 costs of retirement and compensation adjustments required of CBP beginning July 1, 2008.

This change in status will aid in retention of experienced CBP Officers and recruitment of new Officers needed to help CBP meet its expanding inspection, enforcement, and regulatory workload. It will also align compensation and benefits of these Officers with the law enforcement character of their work. The Committees on Appropriations recognize such conversion will require additional agency funding in fiscal year 2009, and request the Department and OMB to include adequate resources for this purpose in the fiscal year 2009 budget submission.

International Registered Traveler and Related Screening Programs

The Committees on Appropriations include a new general provision authorizing the International Registered Traveler (IRT) Program. The IRT program, funded by fees, will incorporate available technologies in coordination with US–VISIT and other pre-screening initiatives of the Department.

The Committees on Appropriations also provide $45,000,000 to develop system infrastructure needed to support a real-time capability to process advanced passenger information for air travelers intending to fly to the United States, as well as $36,000,000 to implement the electronic travel authorization program for visa waiver countries. The Secretary and CBP are directed to report on the DHS plans, staffing, and funding needed to realize these programs, including establishing the IRT program at U.S. airports with the highest volume of international passenger traffic.

National Guard and Border Security

The Committees on Appropriations recognize Public Law 110–116 funds Operation Jump Start through June, 2008, thus obviating the requirement for a briefing as proposed by the Senate on National Guard reductions in force.

Border Tunnel Remediation

The Committees on Appropriations direct the Department to: comply with language contained in Senate Report 110–84 requiring the Department to brief Congress semiannually on border tunnel remediation; include the House Committees on Appropriations, the Judiciary, and Homeland Security among those to be briefed; and provide the first briefing within four months of enactment of this Act.

Trafficking of Illicit Goods from Mexico

The Committees on Appropriations acknowledge the serious law enforcement challenges posed by the manufacture and distribution of methamphetamine, the trafficking of unauthorized assault weapons, and the increased violence of drug gangs as noted in Senate Report 110–84. With the recent announcement of the "Merida Initiative" between the United States and Mexico, the Committees on Appropriations request a briefing on the issues raised in the Senate report.

Anti-Dumping Enforcement

The Committees on Appropriations have ensured that, within the amounts provided for in this account, there will be sufficient funds to administer the ongoing requirements of section 754 of the Tariff Act of 1930, also known as the Continued Dumping and Subsidy Offset Act (CDSOA) (19 U.S.C. 1675c), referenced in subtitle F of title VII of the Deficit Reduction Act of 2005 (Public Law 109–171; 120 Stat. 154).

The Committees on Appropriations direct CBP to continue to work with all relevant U.S. departments and agencies to increase duty collections, and to provide an annual report, within 30 days of each year's distributions under CDSOA, which summarizes CBP's efforts to collect past due amounts and increase current and future collections.

The Committees on Appropriations direct CBP in these annual reports to break out the non-collected amounts for each of the fiscal years 2004, 2005, 2006, and 2007, by order, country, and claimant, along with a description of each of the specific reasons for the non-collection with respect to each order. Further, CBP is once again directed to provide the amounts of antidumping (AD) and countervailing duties (CVD) held by CBP in its Clearing Account for unliquidated entries as of October 1, 2006 (and, now, as of October 1, 2007), segregated by case number and Department of Commerce period of review. In that same report, CBP should explain, with particularity, what other enforcement actions it is taking to collect unpaid duties owed the U.S. Government. CBP is also directed in these annual reports, beginning in 2008 and thereafter, to indicate which liquidated entries resulted in CDSOA vs. non-CDSOA distributions.

The Committees on Appropriations also direct GAO to undertake a thorough investigation of the problem of non-collection of AD/CVD by the U.S. Government. As described in Senate Report 110–84, GAO must report when the problem was first detected; determine the extent of non-collection of AD/CVD duties, by year, since discovery of the problem (or at least the year 2001), and examine how recommendations advanced by either GAO or the U.S. Government would address the problem. The report should be submitted to the Committees on Appropriations by June 30, 2008.

Part-Time and Temporary Positions

The Committees on Appropriations are aware CBP has ended the practice of funding part-time and temporary positions at international air and seaports, such as at Honolulu, Hawaii. Therefore the Committees on Appropriations negate the language on this issue contained in Senate Report 110–84.

CBP Industry Training Programs

The Committees on Appropriations expect CBP Officers, Import Commodity Specialists and other professional staff to have the appropriate training, to include continuing active participation in cooperative efforts such as the joint Steel Industry Training Program, to administer U.S. customs laws. The

Committees on Appropriations believe CBP personnel require a detailed knowledge of industry and technology to ensure that commodities cleared to enter U.S. commerce comply with U.S. law and adhere to import safety requirements with regard to manufactured products, including steel.

INVASIVE SPECIES

The Committees on Appropriations understand there are several invasive plant species that negatively affect the operations of the Border Patrol and support efforts of the Department to provide better tools to control these species. The Committees on Appropriations direct the Secretary to develop and submit a plan, consistent with the terms and conditions listed in section 538 of the Senate bill, which shall specifically address the following species: Arundo donax (Carrizo cane); Tamarix ramosissima (salt cedar); and Elaeagnus angustifolia (Russian olive). Funding to implement this plan should come from within this account, rather than the Border Security, Fencing, Infrastructure, and Technology (BSFIT) account, as proposed by the House.

FOOD AND AGRICULTURAL IMPORT TRAINING AND INSPECTIONS

The Committees on Appropriations are concerned CBP officers require the highest level of training to ensure the safety of the Nation's food supply, and direct the Commissioner to report to the Committees on Appropriations on the training CBP officers receive to effectively assist the Food and Drug Administration in monitoring our Nation's food supply.

The Committees on Appropriations also note that not all ports of entry have equipment necessary for agriculture inspections, and direct CBP to brief the Committees on Appropriations on what equipment, such as microscopes, is available at each port; the age of existing equipment; and the timeline for procuring and deploying replacement or new equipment.

CRANE-MOUNTED DETECTION TECHNOLOGY

The Committees on Appropriations are aware of technology being developed for the detection of nuclear or radiological materials that can be attached to or integrated onto crane spreaders used to lift and move containerized cargo at sea ports. To explore the potential of this technology to be implemented rapidly, and assess its value as an efficient and real-time complement to radiation portal monitors, the Committees on Appropriations include $2,000,000 to permit CBP, in cooperation with relevant port authorities, to test competitively this technology in an operational seaport environment.

AUTOMATION MODERNIZATION

The Committees on Appropriations agree to provide $476,609,000 as proposed by both the House and the Senate. This amount includes $316,969,000 for the Automated Commercial Environment (ACE), of which $16,000,000 is for the International Trade Data System (ITDS); and $159,640,000 for Current Operations Protection and Processing Support.

ACE PROGRAM OVERSIGHT

The Committees on Appropriations are aware of CBP progress in managing the complex acquisition and integration efforts needed to implement ACE, and have determined a formal Government Accountability Office review of ACE expenditure plans is no longer necessary. However, the Committees on Appropriations retain the language requiring submission of an expenditure plan, and have made $216,969,000 unavailable for obligation until 30 days after such plan has been submitted to the Committees on Appropriations. In addition, the Committees on Appropriations direct CBP to continue to submit quarterly reports on ACE implementation progress, and to improve the timeliness of such submissions.

TREASURY ENFORCEMENT COMMUNICATIONS SYSTEM (TECS) MODERNIZATION PROGRAM

The Committees on Appropriations are aware of the importance of the TECS Modernization Program. TECS is a key border enforcement system for DHS and plays an essential role in the screening of travelers entering the U.S. Therefore, CBP is directed to submit the report on the TECS Modernization Program as requested in Senate Report 110–84 in lieu of the request for notification in House Report 110–181.

ACE QUARTERLY REPORTS

The Committees on Appropriations concur with language in Senate Report 110–84 regarding late delivery of these reports, which contain factual, aggregate data on the progress being made with ACE, and direct the Department to deliver them to the Committees on Appropriations as expeditiously as possible.

BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY

The amended bill provides $1,225,000,000 for the Border Security Fencing, Infrastructure, and Technology (BSFIT) account, instead of $1,089,125,000 as proposed by the House and $1,000,000,000 as proposed by the Senate, of which $1,053,000,000 is designated as emergency funding. Funds are available until expended. Within the total provided, $64,000,000 is for program management, $73,000,000 is for operations and maintenance, and $1,088,000,000 is for development and deployment of systems and technology. The Committees on Appropriations do not provide $5,000,000 within this account to remove invasive cover vegetation as proposed by the House, but expect such efforts will be conducted with funding in the Salaries and Expenses account.

The Secretary is directed to submit, within 90 days after enactment of this Act, an expenditure plan for continued implementation of a security barrier along the land borders of the United States to the Committees on Appropriations, as specified in bill language. The Committees on Appropriations withhold $650,000,000 until the expenditure plan is received and approved. The Committees on Appropriations direct the Department to include a description of the methodology used to develop all program and lifecycle costs included in the plan.

Under the Office of the Secretary and Executive Management heading, the Committees on Appropriations note the change in direction proposed by the Department to delay establishment of the Secure Border Coordination Council and to fund coordination of Secure Border Initiative (SBI) efforts from within BSFIT using funds provided to CBP's SBI Program Office. The Committees on Appropriations understand these funds will be used in fiscal year 2008 to coordinate SBI efforts across DHS as well as the U.S. Government.

BORDER SECURITY REQUIREMENTS

As evidenced by the significant increases in border security funding in this bill, the Committees on Appropriations support the goal of obtaining operational control of the nation's borders and coastlines. Specifically, the Committees on Appropriations have included funding to hire additional Border Patrol agents; install vehicle barriers, ground-based radar and cameras; and procure unmanned aerial systems. CBP is directed to include in the quarterly SBI reports the information required in Section 546 of the Senate-passed bill.

REPORTING ON MAJOR TASK ORDER AWARDS

Bill language is included, as proposed by the House, requiring a report to the Committees on Appropriations for any task order in excess of $100,000,000, or task orders that would cause the cumulative level of task orders awarded to exceed $650,000,000 (fifty percent of the annual appropriation).

ENCOURAGEMENT OF BEST PROCUREMENT PRACTICES

Within the total appropriated in the BSFIT account, up to $2,000,000 shall be used to reimburse the Defense Acquisition University for reviewing whether DHS is employing best procurement practices in implementing its Secure Border Initiative network (SBInet) and other contracts under BSFIT.

NORTHERN BORDER SECURITY

The Committees on Appropriations direct the CBP SBI Program Office to brief the Committees on how the Department will use fiscal year 2008 and prior year funding for Northern Border security investments, and to provide a revised SBInet investment strategy that addresses the Northern Border. In addition, the Committees on Appropriations are aware of the climatic and topographical challenges associated with securing the Northern Border and encourage CBP to examine the testing and demonstration of advanced intrusion detection sensor networks conducted by the Department of Defense for use in such environments.

PROJECT 28

The Committees on Appropriations note CBP's conditional acceptance of the Project 28 prototype. However, the Committees remain concerned about the impact of a five month delay of this acceptance on the larger SBInet system and CBP's plan to secure the Southwest Border by 2011. The Committees recognize the strict oversight of the Project 28 contract by the CBP SBI Program Office, expect such accountability to be sustained, and thus direct CBP to continue to keep the Committees on Appropriations informed on the resolution of conditional items and how the findings from Project 28 will be applied towards the establishment of the SBInet baseline and the first iteration of a common operating picture for the Border Patrol.

FENCING COST STUDY

The Committees on Appropriations direct the Government Accountability Office to conduct a study examining the costs of constructing fencing along the southern border of the United States in accordance with section 560 of the Senate bill.

AIR AND MARINE INTERDICTION, OPERATIONS, MAINTENANCE, AND PROCUREMENT

The amended bill provides $570,047,000 for Air and Marine Interdiction, Operations, Maintenance, and Procurement, instead of $477,287,000 as proposed by the House and $488,947,000 as proposed by the Senate, of which $94,000,000 is designated as emergency funding. This includes $353,614,000 for operations and maintenance, instead of $353,954,000 as proposed by the House and $365,614,000 as proposed by the Senate, to reflect a downward adjustment of $5,000,000 due to a fiscal year 2007 reprogramming of the Salaries and Expenses account, and inclusion of $4,120,000 for enhanced operations and support for existing unmanned aerial systems

(UAS) and $540,000 for 11 additional marine enforcement units. Within the total funding is $216,433,000 for procurement, including: $52,400,000 for planned helicopter procurement or upgrades; $10,600,000 for recurring costs for existing unmanned aerial systems; $6,700,000 for recurring sensor system costs; $4,600,000 to upgrade radars and sensors; $12,000,000 for equipment and facilities for 11 new marine enforcement units; and $82,000,000 for new and replacement aircraft for CBP Air and Marine border security missions. Given the enhanced funding for this account above the House and Senate levels, the Committees on Appropriations direct CBP to submit a revised air and marine expenditure plan, with reference to the strategic recapitalization plan, not later than 90 days after enactment of this Act. The Committees on Appropriations also direct the Commissioner to certify any proposed use of these funds for new UAS procurement as reflecting the priorities of the CBP Air and Marine Recapitalization and Modernization Plan and the most cost effective use of such funding account instead of the Salaries and Expenses account, as proposed by the House, and reallocate $10,048,000 of IT support costs from U.S. Customs and Border Protection to the ICE headquarters-managed IT investments program. As requested by the President, $305,000 is provided for programs to protect children from exploitation and kidnapping, including $102,000 for public awareness of the child pornography tip line and $203,000 for Project ALERT. The following table specifies funding levels by budget activity:

Headquarters Management and Administration:	
Personnel Compensation and Benefits, Services, and Other Costs	$168,887,000
Headquarters-Managed IT Investments	146,654,000
Subtotal, Headquarters Management and Administration	315,541,000
Legal Proceedings	208,350,000
Investigations:	
Domestic	1,422,528,000
International	107,551,000
Subtotal, Investigations	1,530,079,000
Intelligence	52,146,000
Detention and Removal Operations:	
Custody Operations	1,647,212,000
Fugitive Operations	218,945,000
Criminal Alien Program	178,829,000
Alternatives to Detention	53,889,000
Transportation and Removal	282,526,000
Subtotal, Detention and Removal Operations	2,381,401,000
Comprehensive Identification and Removal of Criminal Aliens	200,000,000
Total, Salaries and Expenses	4,687,517,000

IDENTIFYING AND REMOVING CRIMINAL ALIENS

The Committees on Appropriations are concerned about ICE's ability to identify, track, and remove criminal aliens from the United States, and provide an additional $200,000,000 and a statutory requirement for ICE to develop a strategic plan to address the issue comprehensively. Once ICE has developed this plan, the Committees on Appropriations expect DHS to pursue aggressive efforts and make measurable progress expanding its identification of incarcerated aliens, whether by direct contact with correctional facilities, through technological innovation, or by active survey and interview of prisoners. The Committees on Appropriations expect DHS to initiate efforts to remove all incarcerated aliens identified as deportable once their criminal sentences are complete. As part of the Fugitive Operations Program, the Committees on Appropriations also expect ICE to expand its efforts to apprehend and remove at-large criminal aliens.

The amended bill requires ICE to identify how the agency will manage its identification of the criminal alien population, including an explanation of the staffing and technology solutions it will apply. This plan shall be submitted within three months of enactment of this Act.

From fiscal year 2002 to fiscal year 2006, ICE increased its deportation of non-criminal aliens by 118 percent (48,937 to 107,107). By contrast, criminal alien deportations increased by only 26 percent over the same five years (70,530 to 88,830). The DHS Inspector General reported that more than 300,000 illegal aliens will be admitted to prison in the coming year, many for serious crimes such as murder, rape, armed robbery, drug trafficking, assault, and vehicular manslaughter.

The ICE Office of Detention and Removal estimates that of the total prison population in the United States, 605,000 are foreign-born, and that at least half of those individuals may be eligible for deportation. Yet even though these convicted criminals are held in Federal, State and local custody, ICE has not yet developed a comprehensive approach to identify incarcerated aliens, review the crimes of which they have been convicted, track the location of their incarceration, or monitor the time remaining prior to their release. Although ICE removed over 88,000 criminal aliens in 2006, the last full year for which statistics are available, it has no records to show how many more criminal aliens were paroled or discharged from prison without removal orders. ICE also does not know if the aliens it did remove were taken directly from penal custody or apprehended for some other reason after having disappeared into the general population. ICE must prioritize the removal of those who have demonstrated the willingness and ability to commit violent and harmful crimes. The Committees on Appropriations direct ICE to pursue a more comprehensive approach to identifying incarcerated aliens, processing them for removal if they are judged deportable, and ensuring they are not released back to society upon completion of their sentences.

CUSTODY OPERATIONS

The Committees on Appropriations provide $1,647,212,000 for Custody Operations instead of $1,450,977,000 as proposed by the House and $1,606,163,000 as proposed by the Senate. Additional funds are provided to increase detention capacity at ICE to a level sufficient to meet DHS mission needs. In addition, a related increase of $33,400,000 is provided for the Transportation and Removal program, to support the increased level of deportations associated with a higher detained population. When combined, this funding will support an annualized detained population of approximately 32,000.

At the end of fiscal year 2007, ICE detained nearly 30,500 undocumented aliens on a daily basis, pending return to their home countries. However, the President's budget proposed only enough funding to detain 28,450 such individuals in 2008. If the Committees on Appropriations were merely to fund the President's request for detention capacity, DHS would be at risk of ending the successful "catch and return" program, which the Administration frequently cites as a major reason for decreased illegal crossings along the Southwest border. The Committees on Appropriations direct the Department to ensure future ICE budget requests support the operationally-appropriate level for detention capacity, and require ICE to provide weekly updates on the detained population throughout fiscal year 2008. To improve future management of the detained population, $1,500,000 is provided to establish a Detention and Removal Operations Office of Policy and Planning, as proposed by the Senate.

GANG ENFORCEMENT

The Committees on Appropriations provide $20,400,000 for gang enforcement instead of $7,000,000 as proposed by the House and $15,200,000 as proposed by the Senate. Additional funding is provided to enhance the unique Federal role ICE plays in investigating and disrupting organized transnational criminal gangs.

WORKSITE ENFORCEMENT

The Committees on Appropriations provide a $15,000,000 increase for worksite enforcement activities at ICE, as proposed by the Senate and instead of no increase as proposed by the House.

FUGITIVE OPERATIONS TEAMS

The Committees on Appropriations provide $218,945,000 for Fugitive Operations Teams, instead of $183,200,000 as proposed by the House and $194,645,000 as proposed by the Senate. This additional funding will expand this program to a total of 104 teams.

ALTERNATIVES TO DETENTION

The Committees on Appropriations provide $53,889,000 for the Alternatives to Detention Program instead of $54,889,000 as proposed by the House and $43,889,000 as proposed by the Senate. Additional funds will support deployment of this program to 12 cities.

CHILD AND FAMILY DETENTION

The Committees on Appropriations remain concerned about ICE detention standards for families with children. Families with children should be housed together in appropriate environments that take into account these detainees' special needs. The Committees on Appropriations are aware ICE has created a Juvenile and Family Residential Management Unit to manage the population of detained families with children and to address issues related to family detention. While this is a positive development, an objective set of standards for the detention of families with children must be published so that ICE can ensure the detention environment for these potentially vulnerable individuals is appropriate. The Committees on Appropriations note that this Act funds an Office of Policy within the Detention and Removal program and fully expect that this office will help ensure all national detention standards will be adhered to. Pursuant to the recent legal settlement negotiated between ICE and families detained by the agency, ICE is directed to publish standards governing the care of families with children in detention facilities, and to maintain those standards as published.

Care and Custody of Unaccompanied Minors

The Committees on Appropriations direct ICE to develop and publish standards for the temporary care of children and ensure ICE transfers custody of unaccompanied alien minors to the Office of Refugee Resettlement (ORR) within 72 hours. The Committees on Appropriations do not agree that ICE should reimburse ORR for the cost of transportation of unaccompanied alien children since funds for this activity are included in the ORR budget.

The Committees on Appropriations note that ICE has ignored the direction contained in P.L. 109–295 to work in close consultation with the Department of State and ORR to develop and implement procedures to ensure the safe and secure repatriation of unaccompanied alien children to their home countries, including through the arrangement of family reunification services and placement with non-profit organizations that provide for orphan services. ICE is directed to brief the Committees on Appropriations within 90 days of the date of enactment of this Act on actions it has taken to implement the changes to the repatriation process for unaccompanied minors.

Office of Professional Responsibility

The Committees on Appropriations provide $48,778,000 for the Office of Professional Responsibility (OPR), instead of $50,778,000 as proposed by the House and $47,778,000 as proposed by the Senate. OPR is directed to use up to $1,000,000 to carry out third-party detention standard compliance audits for contracted detention facilities, as proposed by the House.

Legal Proceedings

The Committees on Appropriations provide $208,350,000 for Legal Proceedings, as proposed by the House and instead of $207,850,000 as proposed by the Senate. Additional funding is provided for the Human Rights Law Division, as detailed in the House report.

State and Local Assistance

The Committees on Appropriations provide $78,474,000 for State and Local Assistance, as proposed by the Senate instead of $73,574,000 as proposed by the House. Of the total provided, $27,037,000 is for the Law Enforcement Support Center, $11,286,000 is for the Forensic Document Laboratory, and $39,684,000 is for the 287(g) program. Combined, these programs make up the recently established ICE Agreements of Cooperation in Communities to Enhance Safety and Security (ICE ACCESS) initiative, which is intended to improve and enhance ICE's interaction with State and local law enforcement agencies. Given recent growth in the 287(g) program, the Committees on Appropriations encourage ICE to closely monitor compliance with the agreements under which immigration authorities are delegated to 287(g) participants.

ICE Management

The Committees on Appropriations recognize that ICE managers have worked diligently to improve the financial and operational health of the agency. However, additional training and support may be required to increase financial management skills and abilities. Therefore, the Committees on Appropriations include an additional $1,750,000 for implementation of a training program for new and mid-career finance, procurement, labor-relations and civil rights managers, as discussed in the Senate report.

ICE Mutual Agreement Between Government & Employers (IMAGE)

The Committees on Appropriations provide $5,000,000 for the IMAGE program as proposed by both the House and the Senate. These funds will support 10 special agents, 10 forensic auditors, and nine investigative assistants. The IMAGE program is an ICE outreach and enforcement effort designed to minimize the likelihood of private sector employers hiring unauthorized workers, and should complement the E-Verify program administered by United States Citizenship and Immigration Services (USCIS). ICE and USCIS are directed to brief the Committees on Appropriations on the progress made implementing the IMAGE program, including how IMAGE program managers are avoiding duplication of the E-Verify system, the program's hiring strategy, and its performance milestones and achievements.

Border Enforcement Security Task Forces (BEST)

The Committees on Appropriations provide $10,700,000 for the BEST program, as proposed by the House, instead of $13,473,000 as proposed by the Senate. The Committees on Appropriations support direction contained in the House report regarding how the BEST program is coordinated with other border-related initiatives. ICE is directed to brief the Committees on Appropriations on how the BEST program is supporting an integrated border security operation at DHS as well as the new locations of proposed BEST operations.

Trade Transparency Unit

The Committees on Appropriations provide $11,202,000 for the Trade Transparency Unit, as proposed by the Senate, instead of $13,202,000 as proposed by the House.

FEDERAL PROTECTIVE SERVICE

The amended bill includes a statutory requirement for the Federal Protective Service (FPS) to maintain an in-service field staff of at least 900 full-time equivalent Police Officers, Inspectors, Area Commanders, and Special Agents who are assigned to active protective duties in field locations, and a total FPS staff of at least 1,200 full-time equivalent positions by July 31, 2008. The amended bill also requires the Secretary and the Director of the Office of Management and Budget (OMB) to certify that this staffing level will be fully supported, through fees or other revenue, in fiscal year 2008. The Committees on Appropriations understand the requested revenue projection for fiscal year 2008 may be insufficient to support the staffing levels required by law, and further require the Secretary and the Director to adjust security fees charged to agencies in fiscal year 2008, if necessary. If revenue projections fall short of supporting the required staffing levels, and the Director will not adjust security fees, the Committees on Appropriations direct the Secretary to meet any shortfall from funds provided in Title I of this Act. The Committees on Appropriations further direct the Director of OMB to ensure the level of fees in fiscal year 2009 will maintain the FY 2008 staffing levels.

FPS Financial Management

Since the creation of DHS, the Secretary of Homeland Security and the Director of the Office of Management and Budget have denied FPS sufficient staff and resources to carry out its critical facilities protection and law enforcement missions. The transfer of FPS from the General Services Administration (GSA) to DHS was marked by financial uncertainty and instability, and $139,000,000 in annual subsidy payments made by GSA to fund FPS operations were never appropriately accounted for under the new DHS structure. Rather than adjust the fee structure to account for this loss of subsidy payments, the budget proposes to reduce the size of the FPS police force without regard to the mission. DHS has further eroded the FPS operating budget by failing to adjust FPS fees to account for shared services, rent, and other costs that were never charged or budgeted for at GSA. In the 2008 budget, the Administration proposed transferring FPS Federal facility protection responsibilities to State and local police departments by abolishing the FPS police force, even though these local agencies do not have the resources to protect Federal buildings.

ICE, the Department, and OMB have not appropriately planned for the protection of Federal facilities and workers, since none of these agencies has worked to develop a strategic plan that clearly defines the FPS role and aligns FPS mission requirements with adequate resources. Absent a rigorous review of FPS responsibilities, which should be based on the responsibilities assigned to FPS in law, Federal facilities and employees will continue to remain vulnerable to crime and other more severe threats. Since the creation of DHS, FPS has essentially been ignored, denied sufficient staff, and shortchanged the funding necessary to meet its critical facilities protection and law enforcement response missions. The Committees on Appropriations encourage the Administration to analyze the mission requirements of FPS in terms of the responsibilities assigned to FPS in law, as well as necessary levels of staffing and resources, so that the Congress is not required to dictate funding and staffing levels in annual appropriations bills. DHS and ICE are therefore directed to brief the Committees on Appropriations on the alignment of FPS mission requirements with the staffing and resources necessary to carry out FPS responsibilities.

AUTOMATION MODERNIZATION

The Committees on Appropriations provide $30,700,000 for ICE Automation Modernization, as proposed by the House, instead of $15,000,000 as proposed by the Senate. Of this amount, $5,000,000 is withheld from obligation until the Committees on Appropriations receive and approve an expenditure plan.

CONSTRUCTION

The Committees on Appropriations provide $16,500,000 for Construction, instead of $6,000,000 as proposed by the House and $16,250,000 as proposed by the Senate. Of the amounts provided, $10,500,000 is designated as emergency. The amended bill includes a modified version of a provision proposed by the House that limits the obligation of funds for the solicitation of proposals to privatize ICE-owned detention facilities until a privatization plan is submitted to the Committees on Appropriations.

TRANSPORTATION SECURITY ADMINISTRATION

AVIATION SECURITY

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $4,808,691,000 for Aviation Security instead of $5,198,535,000 as proposed by the House and $5,042,559,000 as proposed by the Senate. In addition to the amounts appropriated, two mandatory appropriations totaling $500,000,000 are available through the Aviation Security Capital Fund and the Checkpoint Screening Security Fund. These mandatory appropriations were included as part of the 9/11 Act, which was enacted after the House and Senate passed their recommended levels for aviation security. The total funding provided reflects the budget amendment submitted on November 6, 2007. Bill language is also included to reflect the collection of $2,210,000,000 from aviation user fees, as authorized. The following table specifies funding by budget activity:

Screener Workforce:	
Privatized screening	$143,385,000
Passenger and baggage screeners, personnel, compensation and benefits	2,636,104,000
Subtotal, screener workforce	2,779,489,000
Screening training and other	223,766,000
Human resource services	182,234,000
EDS/ETD Systems:	
EDS procurement and installation	294,000,000
Screening technology maintenance and utilities	264,000,000
Operation integration	25,000,000
Subtotal, EDS/ETD systems	583,000,000
Total, screening operations	3,768,489,000
Aviation Security Direction and Enforcement ..	
Aviation, regulation and other enforcement	255,953,000
Airport management, information technology and support	651,933,000
Federal flight deck officer and flight crew training	25,091,000
Air cargo	73,000,000
Perimeter security	4,000,000
Subtotal, aviation security direction and enforcement	1,009,977,000
Implementing Requirements of the 9/11 Act ...	30,000,000
Discretionary Fees:	
General aviation at DCA	25,000
Indirect air cargo	200,000
Subtotal, discretionary fees	225,000
Total, Aviation Security	$4,808,691,000

IMPLEMENTING REQUIREMENTS OF THE 9/11 ACT

The Committees on Appropriations include $694,500,000 within the total appropriation provided to TSA for activities and requirements authorized in the 9/11 Act, including: $544,000,000 for the procurement and installation of explosives detection systems at airports; $73,000,000 for air cargo security; $20,000,000 to expand Visible Intermodal Protection and Response Teams; $10,000,000 to increase the number of explosives detection canine teams; $14,000,000 for general aviation vulnerability assessments and other activities; $3,500,000 to test technologies to expedite the recovery, development, and analysis of information from aircraft accidents; and $30,000,000 to implement regulations and other new activities authorized by the 9/11 Act. TSA shall use the $30,000,000 to: conduct vulnerability assessments of high risk public transportation agencies, railroads, and over-the-road bus operators; security training programs for public transportation, over-the-road bus operators, and railroad employees; develop a railroad transportation security risk assessment and national strategy; develop regulations for name-based immigration status checks on public transportation and railroad employees; conduct security reviews of foreign repair stations within six months of the issuance of final regulations; pilot different technologies at airport exit lanes; develop procedures and initial implementation of a law enforcement officer biometric credential; improve security at general aviation airports; and procure blast resistant containers. TSA is directed to report to the Committees on Appropriations 90 days after the date of enactment of this Act on the proposed allocation of these funds at the account and PPA level.

PRIVATIZED SCREENING AIRPORTS

The Committees on Appropriations provide $143,385,000 for privatized screening airports as proposed by the Senate instead of $147,190,000 as proposed by the House. TSA is directed to notify the Committees on Appropriations if TSA expects to spend less than the appropriated amount due to situations where no additional airports express interest in converting, either fully or partially, to privatized screening, or where airports currently using privatized screening convert to using federal screeners. TSA shall adjust its program, project, and activity (PPA) line items, and notify the Committees on Appropriations within ten days, to account for any changes in private screening contracts and screener personnel, compensation and benefits to reflect the award of contracts under the screening partnership program, or the movement from privatized screening into federal screening.

PASSENGER AND BAGGAGE SCREENER PERSONNEL, COMPENSATION, AND BENEFITS

The Committees on Appropriations provide $2,636,104,000 for passenger and baggage screener personnel, compensation, and benefits instead of $2,589,304,000 as proposed by the House and $2,601,404,000 as proposed by the Senate. This funding level includes $36,700,000 requested in the budget amendment for additional behavior detection officers and back-of-the-airport screening activities. Funding for behavior detection officers has not been reduced, as proposed by the House, because TSA no longer is behind in hiring these positions. Also included is $45,000,000 for the new travel document checker program as proposed by both the House and the Senate.

TSA shall brief the Committees on Appropriations on the detailed function of each of the three new transportation screening officers' specialized employee categories (travel document checkers, behavior detection officers, and bomb appraisal officers). This briefing shall include the on-board full-time equivalent (FTEs) for each category in fiscal year 2008; the hiring plan to fill the new positions provided in fiscal year 2008 and planned for fiscal year 2009; the associated personnel, compensation, and benefits; equipment costs; other indirect costs; key milestones; expected benefits; a deployment schedule; training requirements, to include Federal, privacy, and civil rights and liberties standards; and measures that will be used to evaluate the success of these three specialized personnel categories. TSA shall also brief the Committees on Appropriations on the integration of the travel document checker program with the US-VISIT air exit solution.

AIRPORT EMPLOYEE SCREENING

Within the total funding for passenger and baggage screener personnel, compensation, and benefits, the Committees on Appropriations provide $15,000,000 as proposed by the Senate instead of $5,000,000 as proposed by the House to pilot various methods to screen airport employees at a total of seven airports. Specifically, TSA shall screen all airport employees at three airports for no less than 90 days. Screening shall be done at either the airport perimeter or the passenger checkpoints. In addition, TSA shall undertake other screening methods to enhance airport employee screening at up to four additional airports. These methods could include physical inspections, behavioral recognition, biometric access controls, and cameras and body imaging. TSA shall consult with the airports before identifying which airports will participate in the pilots. As part of this effort, TSA shall collect data on the benefits, costs, and impacts of 100-percent airport employee screening as well as on the other methods utilized.

TSA shall report to the Committees on Appropriations on: (1) the results of these pilots, including the average wait times at screening checkpoints for passengers and employees; (2) the estimated cost of the infrastructure and personnel necessary to implement a screening program for airport workers at all U.S. commercial service airports in order to meet a 10-minute standard for processing passengers and workers through screening checkpoints; (3) the ways in which the current methods for screening airport employees could be strengthened; and (4) the impact of screening airport workers on other security-related duties at airports. TSA shall notify the Committees on Appropriations within 120 days after the date of enactment of this Act on how it will utilize this funding and identify the airports that shall be participating in the pilots. TSA shall provide an interim briefing to the Committees on Appropriations on progress and results of these pilots not later than September 1, 2008. If a legislative proposal to screen 100-percent of airport employees is enacted, TSA may use these funds to comply with those requirements.

WAIT TIMES

TSA shall submit airport wait time data on a quarterly basis for domestic airports with above average wait times and for the top 40 busiest airports. As part of these quarterly reports, TSA shall explain any dramatic shift in wait times.

SCREENING TRAINING AND OTHER

The Committees on Appropriations provide $223,766,000 for screening training and other instead of $200,466,000 as proposed by the House and the Senate. This funding level includes $23,400,000 requested in the budget amendment submitted on November 6, 2007, for the associated recruiting, hiring, training and outfitting costs related to additional screeners to address increased threats.

CHECKPOINT SUPPORT

Mandatory funding of $250,000,000 has been provided for checkpoint support as required by the 9/11 Act. Both the House and Senate proposed discretionary funding for these activities in their versions of the bill. The Committees on Appropriations expect funding to be used to support a number of emerging technologies to screen airline passengers and carry-on baggage for explosives, weapons, and other threat objects by the most advanced equipment currently under development. Bill language is included clarifying that activities funded last year continue to be funded in fiscal year 2008.

EXPLOSIVE DETECTION SYSTEMS

The Committees on Appropriations provide a total of $544,000,000 for explosive detection systems (EDS) procurement and installation instead of $560,000,000 as proposed by the House and $529,400,000 as proposed by the Senate. Within the total funding for EDS procurement and installation, $294,000,000 is appropriated in this Act and $250,000,000 is derived from mandatory funding from the Aviation Security Capital Fund. This funding is sufficient to fulfill the requirements in the 9/11 Act to enter into Letters of Intent (LOIs) and to complete other pending airport modifications. TSA is encouraged to use its existing authority to amend any LOI where the final project costs exceed original estimates, if they were subsequently validated as reimbursable prior to the date of enactment of this Act. Within the funds provided, not less than $89,000,000 shall be available to procure and deploy next generation explosive detection systems. TSA shall explore multiple technologies in this area and give thorough consideration to the needs of medium and small airports that do not have certified EDS equipment.

No EDS funding shall be used to procure explosive trace detection machines (ETDs) unless they are necessary for secondary screening of checked baggage, to replace an aging ETD system in those airports that are primarily dependent on ETD technologies, or to procure new ETD systems for new, small airports or heliports that are federalized.

TSA is encouraged to explore consolidating checkpoint and checked baggage screening at smaller airports and shall brief the Committees on Appropriations on how this consolidation may work.

SCREENING TECHNOLOGY MAINTENANCE AND UTILITIES

The Committees on Appropriations provide $264,000,000 for screening technology maintenance and utilities as proposed by the House instead of $257,000,000 as proposed by the Senate. This funding supports the maintenance and associated utilities of EDSs, ETDs, checkpoint equipment and other screening technologies installed at our nation's airports.

AVIATION REGULATION AND OTHER ENFORCEMENT

The Committees on Appropriations provide $255,953,000 for aviation regulation and other enforcement instead of $223,653,000 as proposed by the House and $226,653,000 as proposed by the Senate. This amount includes $29,300,000 requested in the budget amendment submitted on November 6, 2007, to increase the number of canine teams, to establish vetting capabilities for general aviation passengers and crews, and to conduct general aviation threat assessments. In addition, $3,000,000 has been provided above the budget request to support local law enforcement officer cooperative agreements, as proposed by the Senate.

AIR CARGO

The Committees on Appropriations provide $73,000,000 for air cargo as proposed by the House instead of $65,768,000 as proposed by the Senate. This funding level is $17,232,000 above the budget request and shall be used for the following: (1) to continue training and deployment of additional canine teams at high volume air cargo airports to increase inspections; (2) for additional air cargo inspectors to monitor compliance of air carriers and freight forwarders with security directives; (3) to continue development of a certified shipper program to determine if this method can contribute to the 100-percent screening requirement in the 9/11 Act; (4) for equipment, technology and other methods to screen air cargo; and (5) to transfer techniques from the three air cargo pilot programs to additional airports that may express an interest in using them, if results appear promising.

Within the fiscal year 2007 supplemental appropriation (Public Law 110-28), funding was provided for TSA to assess air cargo vulnerabilities at the largest airports (Category Xs). TSA is directed to brief the Committees on Appropriations no later than March 1, 2008, on the results of the vulnerability assessments at all airports completed, as detailed in the Senate report. If vulnerability assessments have not been completed at all of the largest airports, TSA shall brief the Committees on Appropriations again once all work has been concluded.

The Committees on Appropriations are encouraged at the progress TSA has made to limit its use of contractors for air cargo regulatory activities and to hire dedicated federal employees. Therefore, quarterly reports on this topic are not required unless TSA significantly increases its use of contractors for air cargo regulatory activities in this program.

PERIMETER SECURITY

The Committees on Appropriations provide $4,000,000 for airport perimeter security projects as proposed by the House and the Senate. In the past, TSA has been slow to obligate perimeter security funding and just recently awarded funds appropriated in fiscal year 2006. TSA is expected to competitively award these funds in 2008. In addition, TSA shall brief the Committees on Appropriations on actions taken to implement recommendations made by GAO on airport perimeter security weaknesses, as discussed in the Senate report.

FLIGHT DECK RECORDERS AND REMOTE SENSING DEVICES

Within the $651,933,000 provided for airport management, information technology, and support, the Committees on Appropriations provide $3,500,000 to implement section 1610(2)(b) of the 9/11 Act. This funding shall be used to test technologies to expedite the recovery, development, and analysis of information from aircraft accidents to determine the cause of the accident, including deployable flight deck and and voice recorders, and remote location recording devices. TSA shall work with the Federal Aviation Administration on these efforts.

FOREIGN REPAIR STATIONS

TSA shall work aggressively with the Federal Aviation Administration to complete final regulations to audit certified repair stations in foreign countries as required by the 9/11 Act and brief the Committees on Appropriations periodically on its efforts to do so.

BUTANE LIGHTERS

In accordance with authority provided in section 530 of P.L. 109-295, TSA suspended enforcement of the prohibition on butane and other types of lighters onboard aircraft. Pursuant to that authority, the Assistant Secretary certified that butane and other types of lighters pose a significantly lower security threat based on intelligence driven threat assessments. Not later than five months after enactment of this Act, TSA is directed to report on anticipated security benefits and vulnerabilities associated with the decision to suspend enforcement of the prohibition on butane lighters onboard aircraft, including supporting analysis justifying the conclusions reached. The Comptroller General is directed to report on its assessment of TSA's report not later than 180 days after the report is submitted.

VOLUNTARY PROVISION OF EMERGENCY SERVICES PROGRAM

The Committees on Appropriations are concerned with TSA's implementation of the Voluntary Provision of Emergency Services Program and direct TSA to comply with the terms and conditions listed in section 563 of the Senate bill.

SURFACE TRANSPORTATION SECURITY

The amended bill provides $46,613,000 for Surface Transportation Security instead of $41,413,000 as proposed by the House and the Senate. Within this total, $24,485,000 is for surface transportation staffing and operations and $22,128,000 is for rail security inspectors and canines. This funding level reflects the budget amendment submitted on November 6, 2007, of $5,200,000 to hire new surface transportation inspectors for use in the Visible Intermodal Protection and Response teams.

TRANSPORTATION THREAT ASSESSMENT AND CREDENTIALING

The amended bill provides a direct appropriation of $82,590,000 for Transportation Threat Assessment and Credentialing instead of $64,490,000 as proposed by the House and $67,490,000 as proposed by the Senate. In addition, the Committees on Appropriations anticipate TSA will collect $82,601,000 in fees. Funding is provided as follows:

Direct Appropriation:	
Secure flight	$50,000,000
Crew vetting	14,990,000
Screening administration and operations	9,500,000
Transportation worker identification credential	8,100,000
Subtotal, direct appropriations	82,590,000
Fee Collections: Registered traveler	35,101,000
Transportation worker identification credential	26,500,000
Hazardous materials	19,000,000
Alien flight school (transfer from DOJ)	2,000,000
Subtotal, fee collections..	$82,601,000

SECURE FLIGHT

The Committees on Appropriations provide $50,000,000 for Secure Flight instead of $40,000,000 as proposed by the House and $28,000,000 as proposed by the Senate. In addition, the amended bill contains a general provision, similar to that proposed by the Senate, which permits TSA to transfer up to an additional $24,000,000 to the Secure Flight program if necessary. This level fully funds the budget request and reflects progress TSA has made in this program.

The Committees on Appropriations are concerned that, even with the Secure Flight program, TSA plans to continue to screen passenger names against only a subset of the full terrorist watch list. Therefore, the amended bill includes language as proposed by the House that requires the Assistant Secretary to certify to the Committees on Appropriations that no significant security risks are raised by screening airline passenger names only against a subset of the full terrorist watch list instead of the full watch list. In addition, the Inspector General is directed to report on the vulnerabilities that exist to our aviation system if the Secure Flight program does not screen against the full terrorism watch list.

SCREENING ADMINISTRATION AND OPERATIONS

The Committees on Appropriations provide $9,500,000 for screening administration and operations as proposed by both the House and the Senate. No funds appropriated for screening administration and operations may be used for the Secure Flight program or for the Transportation Worker Identification Credential (TWIC) program beyond the amounts specifically appropriated for these programs unless TSA submits a reprogramming or transfer request. In the past, TSA has used the screening administration and operations account to supplement these programs' direct appropriations.

TRANSPORTATION WORKER IDENTIFICATION CREDENTIAL

The Committees on Appropriations provide a direct appropriation of $8,100,000 for the transportation worker identification credential instead of $15,000,000 as proposed by the Senate. No funding was proposed by the House. This funding shall be allocated as follows: $6,100,000 to fund the local cost share of the five card reader pilots and $2,000,000 for program evaluation of these pilots. While the Committees on Appropriations are pleased that the five pilots are proceeding, they disagree that the ports must contribute a 25-percent local match. Since this is a pilot program, which may not have direct benefit to the ports, funding has been included to pay the local cost share of this program.

TSA is urged to ensure that the Coast Guard and terminal operators work closely with local port police and other law enforcement agencies to develop the operational procedures that will ensure effective implementation of the TWIC program. Also, TSA is directed to work with the appropriate officials of Florida and other port authorities to resolve differences between TWIC and existing State transportation facility access control programs.

REGISTERED TRAVELER

In lieu of report language proposed by the House, the Committees on Appropriations include new bill language permitting approved members of Registered Traveler (RT) programs to satisfy the required identity verification procedures at security screening checkpoints by presenting a biometrically-secure RT card in lieu of the government-issued photo identification document required of non-RT participants. The Committees on Appropriations are aware that the industry consortium representing registered traveler providers has submitted a proposal to TSA that would update the common RT standard, which may address this issue. However, because TSA has not determined whether or not to adopt this updated standard, this language is necessary.

TRANSPORTATION SECURITY SUPPORT

The amended bill provides $523,515,000 for Transportation Security Support instead of $526,615,000 as proposed by the House and $521,515,000 as proposed by the Senate. Funding is provided as follows:

Headquarters administration	$293,191,000
Information technology	209,324,000
Intelligence	21,000,000
Subtotal, transportation security support	$523,515,000

EXPENDITURE PLAN

The amended bill includes language requiring TSA to submit a detailed expenditure plan to the Committees on Appropriations for checkpoint support and explosive detection systems procurement, refurbishment, and installation on an airport-by-airport basis for fiscal year 2008. This report is due no later than 60 days after enactment of this Act. In addition, the Secretary is directed to submit a final strategic plan for checkpoint technologies as described in the joint explanatory statement of managers accompanying Public Law 109-295. To date, the Committees on Appropriations have only received an interim plan. The amended bill withholds $10,000,000 from obligation until the detailed expenditure plans, described above, and the final strategic plan for checkpoint technologies are received.

RED TEAMING

Red teaming exercises help identify vulnerabilities to our critical transportation systems. TSA is directed to be more proactive in this area in fiscal year 2008, but also to ensure that those facilities being visited are not aware of the red teaming exercises beforehand. Recent testimonies and emails have made it clear that on occasion, certain facilities were notified of upcoming red teaming activities and what to look for before the teams arrived, resulting in inaccurate results. This advance notification cannot occur in the future. For a red team to operate successfully, its members must not be recognized.

The Committees on Appropriations provide a total of $6,260,000 for red teaming exercises within the appropriation for Headquarters Administration, which is nearly a 50-percent increase to this program. This funding level will enable red teaming activities to identify potential vulnerabilities and weaknesses in airports and air cargo facilities, as well as in transit, rail, and ferry systems. TSA shall brief the Committees on Appropriations biannually on these activities, as discussed in the House report.

SENIOR CAREER EMPLOYEES

TSA has had frequent and sustained turnover within its senior employees. TSA is encouraged to build a stable, senior career workforce so that when a change in administration occurs, the agency can continue operating without a diminution in transportation security oversight. As such, TSA shall brief the Committees on Appropriations on its plans and efforts to retain senior career employees. In addition, GAO is directed to report on the history of senior executive service-level career turnover since the formation of TSA.

PERFORMANCE ACCOUNTABILITY AND STANDARDS SYSTEM

TSA is directed to submit a report to the Committees on Appropriations; the Senate Committee on Homeland Security and Governmental Affairs; the House Committee on Homeland Security; the Senate Committee on Commerce, Science, and Transportation; and the House Committee on Transportation and Infrastructure on the implementation of the Performance Accountability and Standards System. The report shall include (1) the number of employees who achieved each level of performance; (2) a comparison between managers and non-managers relating to performance and pay increases; (3) the type and amount of all pay increases that have taken effect for each level of performance; and (4) the attrition of employees covered by the Performance Accountability and Standards System.

FEDERAL AIR MARSHALS

The amended bill provides $769,500,000 for the Federal Air Marshals (FAMs) instead of $722,000,000 as proposed by the House and the Senate. This recommendation includes $47,500,000 requested in the budget amendment submitted on November 6, 2007, to increase staffing, to sustain current international flight coverage, and to restore coverage on targeted critical domestic flights. Within the total appropriation provided, $674,173,000 is for management and administration and $95,327,000 is for travel and training. TSA shall continue to provide quarterly reports on the mission coverage, staffing levels, and hiring rates as directed in previous appropriations Acts.

FORCE MULTIPLIER

The Committees on Appropriations remain supportive of the FAMs force multiplier efforts. TSA should brief the Committees on the status of this program, its estimated costs and benefits, the logistical and operational aspects of using this system, and a timeline to implement it, if the system proves to be cost effective.

COAST GUARD

OPERATING EXPENSES

The amended bill provides $5,891,347,000 for Operating Expenses (OE) instead of $5,930,545,000 as proposed by the Senate and $5,885,242,000 as proposed by the House. Of this amount, $70,300,000 is designated as an emergency and $340,000,000 is available for defense-related activities as proposed by both the House and the Senate. Not to exceed $20,000 is provided for reception and representation, as proposed by the House instead of not to exceed $10,000 as proposed by the Senate. The amended bill allows OE funds to be used for minor construction projects not exceeding $1,000,000 in total costs at any location. The Committees on Appropriations deny the request to transfer a portion of the Bridge Administration program from Coast Guard to the Department of Transportation as proposed by the House and Senate and include $2,650,000 to maintain this function; and deny $2,000,000 in proposed management efficiency savings due to lack of detail justifying the decrease. The Committees on Appropriations also deny the proposed reduction of $267,000 and 29 FTE for the Civil Engineering High Performance Organization Initiative and include a general provision denying alteration of the Civil Engineering Unit as proposed by the House and Senate. Funding for operating expenses shall be allocated as follows:

Military pay and allowance:	
Military pay and allowance	$2,463,934,000
Military health care	346,765,000
Permanent change of station	110,974,000
Subtotal, military pay and allowance	2,921,673,000
Civilian pay and benefits	594,803,000
Training and recruiting:	
Training and education	84,622,000
Recruitment	100,982,000
Subtotal, training and recruiting	185,604,000
Operating funds and unit level maintenance:	
Atlantic Command	176,923,000
Pacific Command	198,580,000
Ist District	58,573,000
5th District	22,222,000
7th District	77,138,000
8th District	46,126,000

9th District	32,084,000
11th District	17,437,000
13th District	23,230,000
14th District	19,401,000
17th District	31,734,000
Headquarters directorates	269,303,000
Headquarters managed units	130,450,000
Other activities	31,680,000
Subtotal, operating funds and unit level maintenance	1,134,881,000
Centrally managed accounts	229,896,000
Intermediate and depot level maintenance:	
Aeronautical maintenance	295,950,000
Electronic maintenance	118,983,000
Civil/ocean engineering and shore facilities maintenance	171,317,000
Vessel maintenance	167,940,000
Subtotal, intermediate and depot level maintenance	754,190,000
Port and maritime security enhancements	70,300,000
Total, operating expenses	$5,891,347,000

Port and Cargo Security

The Committees on Appropriations provide $58,800,000 for port and cargo security, instead of $45,000,000 as proposed by the House and $30,000,000 as proposed by the Senate. Increasing port presence and security operations in critical ports is a vital component of DHS's overall maritime border security strategy and additional resources are provided for this purpose. Within the total provided: $2,000,000 is for Liquefied Natural Gas and dangerous cargo suitability assessments to ensure that such assessments pass peer-reviewed, scientific scrutiny; $2,000,000 is for spot check of Maritime Transportation Security Act (MTSA) regulated facilities; $29,400,000 is for an additional 238 boat crew members, boarding team members, and marine inspectors and 26 Defender Class small boats to enhance Coast Guard's ability to enforce security zones, protect critical infrastructure, and provide escorts and boarding of high interest vessels; $4,800,000 is for long range identification and tracking in order to provide additional information to validate a vessel's position and movement; $2,000,000 is for port security vulnerability assessments; $2,000,000 is for port security exercise and training programs, as required by Sections 113 and 114 of the SAFE Port Act; $1,900,000 is for the inclusion of salvage response plans in Area Maritime Transportation Security Plans, as required by Section 101 of the SAFE Port Act; $11,600,000 is to implement Section 108 of the SAFE Port Act including additional watch standers and intelligence officers; and $3,100,000 is to develop rulemakings and finalize regulations contained in the SAFE Port Act.

Intensive Maintenance for Patrol Boats

The Committees on Appropriations provide $11,500,000 for Coast Guard to pilot an intensive maintenance regime for 110-foot Island Class patrol boats in District Seven. The House provided an additional $20,500,000 within the Acquisition, Construction, and Improvements appropriation for an intensive maintenance and sustainment regime for the 110-foot patrol boats. The Senate provided funding at the request level. Such a regime is operational with the six patrol boats assigned to Operation Iraqi Freedom, which has enabled Coast Guard to substantially increase the operational hours of these boats. The additional funding provided will allow eight 110-foot patrol boats home-ported in Miami, Key West and St. Petersburg, Florida to operate an additional 3,200 hours per year. Coast Guard is directed to brief the Committees on Appropriations on the results of this pilot six months after it is put into operation.

Training and Recruiting

The Coast Guard is directed to increase recruitment ceilings in those recruiting offices with strong minority enlistments as discussed in the House report. The Committees on Appropriations recognize the important role that research and education programs play in adapting and adopting logistical and business systems. The Center of Excellence in Logistics and Technology (LOGTECH) was created to facilitate the advancement of logistics in the military, yet the Coast Guard is currently the only military service not participating in LOGTECH educational programs. Within total OE funding, $450,000 is included to fund Coast Guard participation in LOGTECH.

Personnel

No funding is included for acquisition personnel within the OE appropriation as proposed by the House. The Senate bill proposed the transfer of $82,215,000 to this appropriation from the Acquisition, Construction, and Improvements (AC&I) appropriation. Bill language is included to allow Coast Guard to transfer up to five percent of the OE appropriation to the AC&I appropriation for personnel, compensation and benefits with notice to the Committees on Appropriations within 30 days of the transfer.

Operations System Center

The amended bill provides $3,600,000 for planning and design of an expansion to the Coast Guard Operations System Center, subject to the approval of a prospectus, as detailed in the Senate report.

Long Range Aids to Navigation (LORAN)-C

The budget request proposed terminating the LORAN-C program. This decision was made before the National Space Based Position Navigation and Timing Executive Committee recommended the administration pursue ELORAN as a national positioning, navigation and timing backup. Furthermore, a coordinated Executive Branch policy on the future of the LORAN-C system is still being considered. In recent correspondence to the Committees on Appropriations, the Coast Guard indicated that a full analysis of the LORAN-C system will not be completed until March 1, 2008. Therefore, the Committees on Appropriations deny the request to terminate the LORAN-C program and assume its continuation in fiscal year 2008.

Responsiveness

The Coast Guard Chief of Staff is directed to brief the Committees on Appropriations within one month from the date of enactment of this Act detailing measures that will be implemented to correct Coast Guard delays in responding to Committee questions as discussed in the House report.

Multi-crewing Performance Metrics

The Coast Guard is directed to provide quarterly briefings to the Committees on Appropriations on the performance of its assets that are multi-crewed as detailed in the House report.

A-76

The Committees on Appropriations are concerned that Coast Guard has decided to contract out the administration of its "competitive sourcing" program and OMB Circular A-76 program to a private sector firm. Coast Guard is directed to brief the Committees on Appropriations on how many federal employees are dedicated to these programs, the responsibilities of the private sector firm, and the reason for the increase in A-76 activity at Coast Guard.

Airborne Use of Force

The Committees on Appropriations agree to the $21,500,000 reduction requested by the President to eliminate funding for leased armed helicopters and as proposed by the Senate. Coast Guard plans to replace eight leased helicopters with ten Coast Guard Airborne-Use-of-Force equipped, re-engined HH-65C helicopters.

Realignment and Transformation Orders

The Coast Guard is directed to submit a report describing and assessing each of the 10 realignment and transformation orders as detailed in the Senate report. GAO is directed to review the Coast Guard report no later than 120 days after its submittal to the Committees on Appropriations. As part of its review, GAO is directed to assess the benefits and drawbacks of including all funding for Coast Guard personnel within the OE appropriation.

Base Realignment and Closure Impact

Coast Guard is directed to brief the Committees on Appropriations on the impact of base closures and realignments on Coast Guard facilities, as detailed in the Senate report.

Mission Hour Emphasis and Acquisition Reports

Coast Guard is directed to continue submitting quarterly mission hour emphasis and acquisition reports to the Committees on Appropriations consistent with the deadlines articulated under section 360 of Division I of Public Law 108-7 as detailed in the Senate report.

Coast Guard Academy Pier for Eagle

Coast Guard is directed to report no later than February 5, 2008, to the Committees on Appropriations on the current condition and future intentions with respect to repair/replacement of the pier used to winter-berth the CGC Eagle at the Coast Guard Academy as detailed in the Senate report.

National Interests in the Polar Regions

The Committees on Appropriations are concerned about Coast Guard's ability to meet its polar operations mission requirements and provide the United States with the capability to support national interests in the polar regions. These mission requirements include, but are not limited to: global reach to the North and South poles; monitoring of U.S.-bound vessel traffic transiting international waterways in the far north; support of the International Ice Patrol; and support of other governmental and scientific organizations in pursuit of marine and atmospheric science activities in the polar regions. The Committees on Appropriations are specifically concerned whether Coast Guard's aging polar icebreaking fleet can meet current mission performance goals and whether this fleet and the service's small cadre of specialized polar operations personnel are capable of meeting projected mission performance goals in light of changing environmental conditions and increased activity in the polar regions. The National Academy of Sciences made several recommendations in this regard in September 2006, but the Administration has taken no action to implement those recommendations.

Therefore, the Commandant is directed to submit a comprehensive polar operations report that fully assesses the Coast Guard's ability to meet current and projected polar mission requirements and includes an evaluation of how Coast Guard's current capabilities and resources must be adapted or enhanced to account for changing environmental conditions and increased activity in the polar regions. This report is to include an analysis of the need for any permanent, forward operating presence in the polar regions in order to meet mission requirements and an assessment of the Coast Guard's ability to meet the requirements of partner agencies operating in the polar regions, such as the National Science Foundation (NSF) and the Departments of Commerce and Defense, under current and projected environmental conditions. Finally, this report should include an appraisal of the sustainability of the current operations and maintenance cost sharing arrangement between the Coast Guard and NSF to support both current and projected polar icebreaker operations.

MARITIME DOMAIN AWARENESS CAPACITY FOR PACIFIC OCEAN

Coast Guard is directed to report by February 5, 2008, on the current maritime domain awareness capacity for the remote and western Pacific Ocean, and include an assessment of remote sensing technology necessary to enhance this capacity, as detailed in the Senate report.

ENVIRONMENTAL COMPLIANCE AND RESTORATION

The amended bill provides $13,000,000, instead of $12,079,000 as proposed by the Senate and $15,000,000 as proposed by the House. Additional funding is provided to begin to reduce the current backlog totaling $109,663,299.

RESERVE TRAINING

The amended bill provides $126,883,000 as proposed by the Senate and House.

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

(INCLUDING RESCISSIONS OF FUNDS)

The amended bill provides $1,125,083,000 for Acquisition, Construction and Improvements instead of $1,048,068,000 as proposed by the Senate and $941,767,000 as proposed by the House. Of this amount, $95,800,000 is designated as emergency. Funding is provided as follows:

Vessels:	
Response boat medium	$45,000,000
Subtotal, vessels	45,000,000
Other Equipment:	
Nationwide Automatic Identification System	12,000,000
Rescue 21	80,300,000
High frequency recapitalization	2,500,000
National Capital Region air defense	11,500,000
Defense messaging system	5,000,000
Maritime security response teamshoothouse	1,800,000
Interagency Operational Centers	60,000,000
Subtotal, Other Equipment	173,100,000
Shore Facilities and Aids to Navigation:	
Survey and design, shore operational & support projects	1,337,000
Rebuild Station Marquette	6,000,000
Rescue Swimmer Training Facility	13,300,000
Construct duty boating, Station Washington	2,180,000
Waterways aids to navigation	2,500,000
Housing—Cordova, Alaska	7,380,000
Rebuild station and waterfront at Base Galveston, Phase I	5,200,000
Sector Buffalo	3,100,000
Subtotal, Shore Facilities and Aids to Navigation	40,997,000
Personnel and Related Support:	
Direct personnel costs	82,215,000
AC&I core	505,000
Subtotal, Personnel and Related Support	82,720,000
Integrated Deepwater System:	
Aircraft:	
Maritime patrol aircraft	170,016,000
HH-60 conversion projects	57,300,000
HC-130H conversion/sustainment projects	18,900,000
HH-65 conversion project	50,800,000
Armed helicopter equipment	24,600,000
C-130J fleet introduction	5,800,000
Subtotal, Aircraft	327,416,000
Surface Ships:	
National security cutter	165,700,000
Patrol boats sustainment	40,500,000
IDS small boats	2,700,000
Medium endurance cutter sustainment	34,500,000
Subtotal, Surface Ships	243,400,000
C4ISR	89,630,000
Technology obsolescence prevention	700,000
Logistics	36,500,000
System engineering and management	35,145,000
Government program management	50,475,000
Subtotal, Integrated Deepwater System	783,266,000
Rescissions:	
UAV funding	−33,821,524
OPC unobligated balances	−98,627,476
Subtotal, rescissions	−132,449,000
Total, Acquisition, Construction and Improvements	$992,634,000

ACQUISITION PROJECT INFORMATION

As detailed in the House report, Coast Guard is directed to relay acquisition project metrics to the Committees on Appropriations and to include outyear funding estimates by asset in the quarterly acquisition report.

RESPONSE BOAT-MEDIUM

The Committees on Appropriations provide $45,000,000 for the response boat-medium (RB-M) instead of $9,200,000 as proposed by the House and the Senate. Additional funding is provided to support the acquisition of fourteen additional RB-Ms. Recent studies have identified the lack of response boats as an impediment to fully implementing Coast Guard's mission requirements.

INTERAGENCY PORT SECURITY OPERATIONAL CENTERS

The Committees on Appropriations provide $60,000,000 for interagency port security operational centers as proposed by the Senate instead of no funding proposed by the House. This funding is provided to implement section 108 of the SAFE Port Act. Within the total, up to $9,100,000 may be obligated for Command 21. Coast Guard is directed to submit an expenditure plan for interagency operational centers as detailed by the Senate. Further, the Commandant of the Coast Guard is directed to submit to the Committees on Appropriations a report on the implementation and use of interagency operational centers for port security under section 70107A of title 6, United States Code. The report should include: (1) a detailed description of the progress made in transitioning Project Seahawk in Charleston, South Carolina, from the Department of Justice to Coast Guard, including all projects and equipment associated with that project; (2) a detailed description of the actions being taken to assure the integrity of Project Seahawk and ensure there is no loss in cooperation between the agencies specified in section 70107A(b)(3) of title 46, United States Code; and (3) a detailed description and explanation of any changes in Project Seahawk as of the date of the report, including any changes in Federal, State, or local staffing of that project. This direction is in lieu of the Senate proposed general provision.

RESCUE 21

The Committees on Appropriations provide $80,300,000 for Rescue 21, instead of $80,800,000 as proposed by the House and the Senate. The Committees on Appropriations are concerned with recent information concerning outages experienced by the Rescue 21 system, essentially rendering the system useless during those instances. Within the last year over 394 outages have been recorded by Coast Guard in seven locations. Included within this: Atlantic City reported three outages lasting more than 11 hours each; the Eastern Shore reported one outage lasting more than 12 hours and seven outages lasting more than two hours each; Mobile reported 12 outages ranging from 4.3 to 14.9 hours; and St. Petersburg reported ten outages ranging from 4.1 to 14.8 hours. While outages undoubtedly occurred with the legacy rescue system, outages with this new system should be minimized and controlled as increased availability and reliability are the cornerstones of the Rescue 21 system. It is unclear if this outage problem has been addressed. Coast Guard must address this problem before new locations are added to the system. Coast Guard is directed to provide quarterly briefings on the status of this program, including plans to address outages.

Deepwater Expenditure Plan

The amended bill requires Coast Guard to submit an expenditure plan for Deepwater that contains the following: lifecycle staffing and training needs; identification of procurement competition and procurement plans that do not rely on a single entity or contract and contain only limited indefinite delivery, indefinite quantity contracts; activities, milestones, yearly costs, and lifecycle costs of each major asset, including independent cost estimates; DHS Chief Human Capital Officer certification of sufficient human capital capabilities; identification of project balances by fiscal year and operational gaps for each asset; DHS Chief Procurement Officer (CPO) certification of investment management process compliance; DHS CPO certification of compliance with Federal acquisition rules and action taken to address areas of noncompliance; status of open IG and GAO recommendations; and identification of the use of the Defense Contract Auditing Agency. GAO is directed to continue oversight of the Deepwater program, with focus on review of the expenditure plan and assessment of the operational gaps identified by the Coast Guard and Coast Guard's plans to address these gaps. Coast Guard is directed to brief the Committees on Appropriations on the process it will use to resolve deviations from specified contract requirements and to promptly notify the Committees on Appropriations of specific procurement contract deviations.

Maritime Patrol Aircraft

The Committees on Appropriations provide $170,016,000 for the maritime patrol aircraft as proposed by the Senate instead of the $100,000,000 as proposed by the House. Bill language is included providing that $70,000,000 of this amount may not be obligated until Coast Guard certifies that this aircraft has completed developmental testing and evaluation (DT&E). The Committees on Appropriations are concerned about the significant shortfall of maritime patrol aircraft (MPA) resource hours currently confronting Coast Guard. Coast Guard currently estimates that it will be nearly 50 percent below its MPA resource hour needs in 2008. This shortfall is the result of multiple factors, including the significant loss of legacy aircraft over the last 16 years, and is exacerbated by delays in DT&E and formal acceptance of the replacement MPA as integration problems with the mission pallet are solved. The failure to develop a cogent Unmanned Aerial Surveillance program is also threatening the long-term plan to mitigate this significant gap. Similar to the patrol boat mission hour shortfall, Coast Guard let this gap languish for several years before recognizing it as a substantial problem. Maritime intelligence and surveillance capabilities are critical for Coast Guard's effective execution of its maritime safety and security mission. Therefore, Coast Guard is directed to analyze short term stop-gap measures to address its MPA capability needs until its large-scale acquisitions are in full operation. Coast Guard should utilize outside experts to assist with this analysis and brief the Committees on Appropriations on the results of this analysis within six months from the date of enactment of this Act. Coast Guard is directed to continue to keep the Committees on Appropriations informed of the progress of the DT&E of the MPA and to provide updated details on cost and schedule resulting from the delayed acceptance of the MPA mission pallet.

C–130J Missionization and Fleet Introduction

The Committees on Appropriations provide $5,800,000 for fleet introduction of the C–130Js, as proposed by the House and the Senate. The requested funds were to continue missionization of six C–130J aircraft to include radars, sensors, identification systems, displays, antennas, and a mission operator's station. The Committees on Appropriations understand that the missionization project has experienced an increase in estimated cost that exceeds eight percent of the total contracted cost and Coast Guard has directed an independent audit of the project. Pending approval of a remediation plan to address the cost overrun, Coast Guard does not intend to expend funds missionizing C–130J four through six. Coast Guard is directed to brief the Committees on Appropriations no later than 45 days after enactment of this Act on the impact of missionization delays on full fleet introduction; remediation plans to address the cost overrun; and plans to address the gap in flight hours lost due to project delays.

National Security Cutter

The Committees on Appropriations provide $165,700,000 for the National Security Cutter (NSC) as proposed by the Senate instead of $105,800,000 as proposed by the House. Since the House and Senate bills passed, Coast Guard revised its budget request to reflect changes in projected spending and need for additional funds for the first three NSCs. In August 2007, Coast Guard entered into a Consolidated Contract Action to resolve all outstanding cost overruns incurred by the contractor due to economic and customer changes that have occurred over the past four years. As a result, the Committees on Appropriations provide funding consistent with the revised request for Government Furnished Equipment, certifications and logistics for NSC #3 and #4, as well as long lead material for the fourth NSC.

Replacement Patrol Boat

The replacement patrol boat procurement is critically needed given the significant gap in patrol boat hours and the delays of the Fast Response Cutter (FRC) program. Coast Guard is directed to provide bimonthly briefings to the Committees on Appropriations on the status of this procurement, including critical decision points and dates, planned service life extensions of existing 110-foot patrol boats, and patrol boat operational metrics.

Rescissions

The amended bill rescinds $132,449,000 in unobligated balances for the Offshore Patrol Cutter and the Unmanned Aerial Vehicle. Both of these programs are in a state of preacquisition and development. Funding has been provided in the Research, Development, Test, and Evaluation appropriation for Coast Guard to study the application of unmanned aerial systems.

Sector New Orleans

Public Law 109–148 provided funding for Coast Guard to repair the Sector New Orleans facility damaged as a consequence of Hurricane Katrina. The Committees on Appropriations clarify that this funding should be used for repair, construction, or reconstruction.

ALTERATION OF BRIDGES

The amended bill provides $16,000,000 for Alteration of Bridges as proposed by the House and Senate. Within this total, funds shall be allocated as follows:

Burlington Northern Railroad Bridge in Burlington, Iowa	$1,000,000
Canadian Pacific Railway Bridge in LaCrosse, Wisconsin	3,500,000
Chelsea Street Bridge in Chelsea, Massachusetts	2,000,000
Elgin, Joliet, and Eastern Railway Company Bridge in Morris, Illinois	2,000,000
Fourteen Mile Bridge in Mobile, Alabama	3,750,000
Galveston Causeway Bridge in Galveston, Texas	3,750,000
Total	$16,000,000

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

The amended bill provides $25,000,000 for Research, Development, Test, and Evaluation instead of $17,583,000 as proposed by the House and $25,583,000 as proposed by the Senate. Additional funding above the request is for priority research to determine the most effective unmanned aerial system to operate off the NSC and for increased research on ways to best manage ballast water to prevent the introduction and spread of aquatic invasive species. Coast Guard is directed to brief the Committees on Appropriations on the preliminary results of the unmanned aerial system research.

RETIRED PAY

The amended bill provides $1,184,720,000 as proposed by both the House and the Senate.

United States Secret Service

SALARIES AND EXPENSES

The amended bill provides $1,381,771,000 for U.S. Secret Service Salaries and Expenses instead of $1,392,171,000 as proposed by both the House and the Senate. This includes: $853,690,000 for protective functions, including $85,250,000, as requested, for Presidential candidate nominee protection, $1,000,000 for National Special Security Events, $32,796,000 for relocation of the Joint Operations Center, and $16,201,000 for White House mail screening; and $300,193,000 for investigations and field operations.

The following table specifies funding by budget program, project, and activity:

Headquarters Management and Administration	175,934,000
Protection:	
Protection of Persons and Facilities	693,535,000
Protective Intelligence Activities	57,704,000
National Special Security Event Fund	1,000,000
White House mail screening	16,201,000
Presidential candidate nominee protection	85,250,000
Subtotal, Protection	853,690,000
Investigations:	
Domestic field operations	219,742,000
International field office administration operations	27,520,000

Electronic Crimes Special Agent Program and Electronic Crimes Task Forces	44,565,000
Support for missing and exploited children	8,366,000
Subtotal, Investigations	300,193,000
Training:	
Rowley Training Center	51,954,000
Total, Salaries and Expenses	1,381,771,000

FINANCIAL MANAGEMENT

The Committees on Appropriations note the Secret Service has had difficulty managing its program budgets within appropriated program, project, and activity levels. The Congress appropriated independent protection and investigations budgets for the Secret Service in fiscal year 2007 to reinforce the importance of adequate financial controls. The Committees on Appropriations agree to return the Secret Service budget structure to a single "Salaries and Expenses" account as proposed by both the House and Senate, and do not include a more restrictive reprogramming threshold for the Secret Service, as proposed by the House. The Secret Service is directed to brief the Committees on Appropriations at least quarterly on its budget execution, specifically detailing any modifications to appropriated program, project and activity levels. Since fiscal year 2008 includes a significant portion of the workload associated with the Presidential campaign, it will be critical for the Secret Service to pay close attention to any variance in costs associated with candidate protection. The Secret Service is further directed to ensure the necessary financial controls are in place to comply with section 503 of this Act.

SECRET SERVICE OVERTIME WORKLOAD

The Committees on Appropriations do not include a statutory provision proposed by the House limiting annual Secret Service overtime payments to no more than $35,000 for any individual employee, unless waived by the Secretary of Homeland Security. While other DHS law enforcement agencies are able to manage their overtime budgets within this threshold, the Secret Service contends that the specific demands of its missions, combined with antiquated personnel and payroll systems, preclude the agency from compliance with this requirement. The Secret Service is directed to brief the Committees on Appropriations before January 1, 2009 on the number of agency employees who exceed $35,000 in annual overtime payments during fiscal year 2008.

NON-STATUTORY PROTECTIVE DETAILS

The Secret Service, as directed by the Executive Office of the President's Office of Administration, has disregarded a law signed by the President on October 4, 2006. That statute mandated that starting in fiscal year 2008, the Secret Service spend its budget to protect only the President, Vice President, Secretary of Homeland Security, and those authorized in 8 U.S.C. 3056(a), and that the cost of protecting any other individuals be borne by the agency employing the protected individual. Nevertheless, the fiscal year 2008 budget request for the Secret Service included $3,100,000 to pay for the protection of those not authorized in 8 U.S.C. 3056(a). This disregard of the law is unacceptable.

Subsequent to submission of the fiscal year 2008 budget, the Director of the Secret Service informed the Committees that this cost could be absorbed within the agency's base budget. As a result, the Committees on Appropriations deny the request for an additional $3,100,000 and direct the Secret Service either to recoup these costs through reimbursable agreements, or reduce budgets for other activities to offset the cost of protecting these individuals. The Secret Service is directed to provide the Committees on Appropriations a quarterly briefing at the appropriate level of classification about who it protects, at what cost, and why.

WHITE HOUSE MAIL PROCESSING

The Committees on Appropriations provide $16,201,000 for the cost of screening mail sent to the White House complex as proposed by the House and instead of $26,601,000 as proposed by the Senate. While additional funds had been requested for the purchase of new equipment for the White House mail screening facility currently under construction, that building project has been delayed and the Secret Service expressed doubt that these funds can be obligated during the coming fiscal year.

The Secret Service is directed to explain to the Committees on Appropriations as part of its fiscal year 2009 budget justification the allocation of mail screening responsibilities and budgetary resources between the Secret Service and the Executive Office of the President, as detailed in the House report. The Committees on Appropriations are unsure why on-going operating costs for White House mail screening should be borne by the Secret Service, since mail screening is a routine administrative cost associated with White House operations.

E STREET CLOSURE

The Committees on Appropriations direct the Secret Service to submit a report, developed jointly with the relevant agencies and delivered concurrently with the fiscal year 2009 budget, on the agency's plan for improving the security and aesthetic conditions of E Street, as detailed in the House report.

HELICOPTER DEPLOYMENTS

The Secret Service is directed to provide a briefing to the Committees on Appropriations on Federal costs incurred by fiscal year since 1997 for all Secret Service-requested helicopter deployments, as detailed in the House report.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

The conferees provide $3,725,000 for United States Secret Service Acquisition, Construction, Improvements, and Related Expenses as proposed by the House and Senate.

TITLE III—PROTECTION, PREPAREDNESS, RESPONSE, AND RECOVERY

NATIONAL POTECTION AND POGRAMS DRECTORATE

MANAGEMENT AND ADMINISTRATION

The amended bill provides $47,346,000 for Management and Administration instead of $40,346,000 as proposed by the House and $30,000,000 as proposed by the Senate. The Committees on Appropriations consolidate and provide $9,412,000 for Departmental risk management and analysis, as proposed by the House. This amount includes up to $1,000,000 for the National Academy of Sciences to review the Department's approach to measuring risk, as discussed in the House report. Of the total provided for Management and Administration, $5,000,000 of the appropriation is withheld from obligation until the Department provides an expenditure plan to the Committees on Appropriations.

SHARED SERVICES–

In the Statement of Managers accompanying the Department of Homeland Security Appropriations Act of 2007 (Public Law 109-295), the conferees directed the Government Accountability Office (GAO) to review the use of "shared services" at the Preparedness directorate, which was the bureaucratic precursor to the National Protection and Programs directorate. GAO found that the Preparedness directorate used none of the legal authorities available to it to move resources between appropriations to fund its "shared services" initiatives. GAO concluded that the directorate's actions were not adequate to establish the valid intra-agency agreements necessary to fulfill Economy Act requirements for funds transfers, and that the directorate did not execute any of the official documents required by law. The GAO report points out the Department may be able to use the account adjustment statute to "adjust expired fiscal year 2006 directorate appropriations to correct these errors. If any of the appropriations that funded the directorate do not have available unobligated balances to cover the adjustments, the directorate should report an Antideficiency Act violation."

The Committees on Appropriations direct the Department to respond to GAO's legal opinion, to balance the former Preparedness directorate's books, and, if it cannot do so using the account adjustment statute, report an Antideficiency Act violation.

INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY

The amended bill provides $654,730,000 for Infrastructure Protection and Information Security (IPIS) instead of $532,881,000 proposed by the House and $522,099,000 proposed by the Senate. This amount includes an additional $115,000,000 for Cyber Security requested in the President's budget amendment submitted on November 6, 2007. Funding is allocated as follows:

Infrastructure Protection:	
Identification and Analysis	$69,522,000
Coordination and Information Sharing	68,821,000
Mitigation Programs	134,253,000
Cyber Security	210,413,000
National Security/Emergency Preparedness Telecommunications:	
Priority Telecommunications	82,821,000
Next Generation Networks	21,100,000
Programs to Study and Enhance Telecommunications	16,000,000
Critical Infrastructure Protection	16,100,000
Office of Emergency Communications	35,700,000
Total, Infrastructure Protection and Information Security	654,730,000

NATIONAL INFRASTRUCTURE PROTECTION PLAN (NIPP)

The Committees on Appropriations provide $31,702,000 for NIPP implementation, instead of $40,702,000 proposed by the House. The Committees on Appropriations provide $19,519,000 for related sector-specific agency management, instead of $21,519,000 proposed by the House. The Assistant Secretary for Infrastructure Protection is directed to provide the Committees on Appropriations with semi-annual briefings on progress implementing the NIPP, instead of quarterly briefings as directed in the House report.

CRITICAL INFRASTRUCTURE WARNING NETWORK (CWIN)

The Committees on Appropriations provide $8,896,000 for CWIN, instead of $12,896,000 proposed by the House.

CHEMICAL FACILITY SECURITY REGULATIONS

The Committees on Appropriations provide $50,000,000 for implementation of chemical facility security regulations by the Assistant Secretary of Infrastructure Protection, instead of $40,000,000 proposed by the Senate.

SECURE HANDLING OF AMMONIUM NITRATE

At the request of the authorizing committees of jurisdiction, the Committees on Appropriations have included a statutory provision establishing a registration system for producers, sellers, and purchasers of ammonium nitrate, as proposed by the Senate. Within 60 days of enactment of this Act, the Deputy Under Secretary for Protection and Programs is directed to provide the Committees on Appropriations a plan to implement this new provision, including an analysis of the resources required to do so, and a proposal for reallocating funding within the National Protection and Programs Directorate budget to fund this initiative.

NATIONAL INFRASTRUCTURE SIMULATION AND ANALYSIS CENTER (NISAC)

The Committees on Appropriations provide $20,000,000 for NISAC instead of $24,348,000 proposed by the House and $25,000,000 as proposed by the Senate.

BOMBING PREVENTION

The Committees on Appropriations provide $10,043,000 for the Office for Bombing Prevention (OBP) as proposed by the Senate. These funds will allow the OBP to continue its critical work building awareness of the threat of improvised explosive devices.

The Department has not provided the Committees on Appropriations the National Strategy for Bombing Prevention, as required by the Statement of Managers accompanying the Department of Homeland Security Appropriations Act of 2007 (Public Law 109–295). The White House has subsequently released Homeland Security Presidential Directive 19 instructing the Departments of Homeland Security and Justice, along with other agencies, to develop the same. The Secretary of Homeland Security is directed to submit this strategy to the Committees on Appropriations as soon as possible, and if unable to do so by the deadline noted in this statement, to explain in writing the cause of the delay.

INFRASTRUCTURE MONITORING

The National Infrastructure Protection Plan identifies national monuments and icons as a vulnerable sector of the nation's infrastructure, since attacks against these treasures offer high symbolic value to those who would do our country harm. Unlike privately owned infrastructure, however, national monuments and icons belong to the entire citizenry, and therefore require Federal resources to ensure their protection. The Committees on Appropriations provide $2,000,000 for the City of Philadelphia's infrastructure monitoring program, which will help safeguard that community's historic sites.

NATIONAL COMPUTER FORENSICS TRAINING INSTITUTE

The information requirement about establishment of the National Computer Forensics Training Institute, as directed by the House report, has been fulfilled.

CYBER SECURITY TRAINING

The Committees on Appropriations are concerned State and local officials are not prepared to respond to attacks on cyber infrastructure. The National Cyber Security Division's (NCSD) "CyberStorm" exercises highlight the modes and methods of cyber attacks, but there remains a need for more routine and practical cyber security training at the State and local level. The Center for Infrastructure Assurance and Security at the University of Texas at San Antonio has developed a structured approach to preparing State and local officials for possible cyber attacks. The "Community Cyber Security Maturity Model" (CCSMM) and training programs help increase the readiness of those who are likely to receive early notification of attacks on computer networks, control systems, or other cyber infrastructure. The Committees on Appropriations direct $4,000,000 for the further development, evaluation, and implementation of the CCSMM training curriculum and to deliver training to at least three States, selected on a competitive basis, to improve their cyber security response capabilities.

NEXT GENERATION NETWORKS

The Committees on Appropriations provide $21,100,000 for Next Generation Networks as proposed by the Senate instead of $18,065,000 as proposed by the House.

INTEROPERABLE COMMUNICATIONS IN THE NATIONAL CAPITAL REGION

The presence of the Federal government in the National Capital Region, along with the multiple jurisdictions that surround the District of Columbia, create unique communications challenges for Federal, State, and local officials. Several capital-area jurisdictions, along with select Federal agencies, have addressed many of these challenges by implementing the Capital Wireless Information Network (CapWIN) system. The Committees on Appropriations provide $6,100,000 for full deployment of CapWIN across the National Capital Region.

OFFICE OF EMERGENCY COMMUNICATIONS

The Committees on Appropriations provide $35,700,000 for the Office of Emergency Communications (OEC) instead of $45,700,000 as proposed by the House and $45,915,000 as proposed by the Senate. The Committees on Appropriations note that OEC has not obligated $12,000,000 in interoperability resources made available in the fiscal year 2007 emergency supplemental. The Committees on Appropriations recognize that one of the most important roles OEC may play is to provide technical assistance to State and local entities working toward emergency communications interoperability, and urge OEC to accelerate its efforts to help these entities achieve interoperability.

INTEGRATED WIRELESS NETWORK

The Department is directed to report to the Committees on Appropriations on efforts at the Office of Emergency Communications to address shortcomings identified by the Department of Justice Office of Inspector General on the Integrated Wireless Network (IWN) project, as directed in the House report.

NATIONAL STRATEGY ON CLOSED CIRCUIT TELEVISION

The Department is directed to provide the Committees on Appropriations a national strategy on closed circuit television, as proposed in the Senate bill.

CRITICAL INFRASTRUCTURE VULNERABILITY

The Committees on Appropriations direct the Department to use no funds to limit implementation of Homeland Security Presidential Directive 7, as proposed by the House.

UNITED STATES VISITOR AND IMMIGRANT STATUS INDICATOR TECHNOLOGY

The amended bill provides $475,000,000 for United States Visitor and Immigrant Status Indicator Technology (US–VISIT), instead of $462,000,000 as proposed by the House and $362,000,000 as proposed by the Senate, and of which $275,000,000 is designated emergency funding. $13,000,000 above the request is included to expedite implementation of an air and sea exit solution. As in recent years, the Committees on Appropriations retain a requirement for an expenditure plan and provide that $125,000,000 shall not be available for obligation until the plan has been reviewed by the Government Accountability Office and approved by the Committees on Appropriations. The plan need not include submission of a new strategic plan, as proposed by the House; however, it shall include detailed information on implementation of biometric exit solutions and the management of identity services. The Department is also directed to continue to provide quarterly reports on US–VISIT implementation, to include coordination with the Western Hemisphere Travel Initiative, the Secure Border Initiative, and other DHS efforts related to border security and interdiction of terrorist travel.

UNIQUE IDENTITY

The Committees on Appropriations strongly support efforts aimed at achieving real-time interoperability between the DHS Automated Biometric Identification System (IDENT) and the FBI's Integrated Automated Fingerprint Identification System (IAFIS), and completing the transition to a standard of capturing all 10 fingerprints of visitors to the United States. This collective effort has been combined with the assignment to US–VISIT of the mission to manage an interagency database of biometric data from multiple sources now referred to as "Unique Identity". The Committees on Appropriations are concerned with the organizational alignment of US–VISIT to all DHS and other participating agencies, and especially US–VISIT's capacity to fulfill the mission requirements of the Unique Identity initiative. The program office is directed to continue providing joint quarterly briefings on all aspects of implementing Unique Identity.

EXIT

The Committees on Appropriations are frustrated that, after years of pilot testing, no viable air, sea, or land exit capability has been integrated within the US–VISIT system. While the Committees on Appropriations are concerned about the prospects of the Department's implementation of a proposed air exit solution in coordination with the airlines by the end of 2008, they are encouraged that the program appears to finally be getting much needed attention from senior Departmental management. Therefore, the Committees on Appropriations include $13,000,000 in additional funding to facilitate implementation of exit solutions for air and sea ports of entry by the end of 2008. The Committees on Appropriations expect DHS to assess whether an exit solution for the land borders is feasible and, if so, detail the specific steps, funding, and schedule required to achieve one. If it is not achievable at this time, the Department is directed to explain its rationale and describe the value of a US–VISIT program that lacks such a solution.

OFFICE OF HEALTH AFFAIRS

The amended bill provides $116,500,000 for Office of Health Affairs (OHA) instead of $117,933,000 as proposed by the House and

$115,000,000 as proposed by the Senate. Of this amount, $24,317,000 is for salaries and expenses.

The Committees on Appropriations provide up to $2,000,000 for OHA to enter into a grant or contract with the National Academy of Sciences (NAS) to evaluate the effectiveness of BioWatch, including the reliability of monitoring data and the ability of hospitals and public health officials to respond based on information received from those systems. As part of the analysis, NAS should compare the benefits and costs of generation 2 BioWatch technology with generation 3 technology. NAS should also assess the cost and benefits of an enhanced national surveillance system that relies on U.S. hospitals and the U.S. public health system and compare the effectiveness of such a system with the current BioWatch approach. A final report should be completed before the end of fiscal year 2008 and provided to the Committees on Appropriations.

OHA is currently piloting the Automated Pathogen Detection System (APDS), a technology similar to other potential generation BioWatch systems. The Committees on Appropriations are concerned that OHA is not field testing and piloting similar technologies together and urge OHA to incorporate APDS into its Band system generation field testing and pilot program.

OHA is not directed to evaluate possible health effects associated with the presence of formaldehyde gas in FEMA trailers and instead FEMA is directed to work with OHA on testing trailer air quality and developing policies for those people remaining in FEMA issued trailers.

FEDERAL EMERGENCY MANAGEMENT AGENCY

MANAGEMENT AND ADMINISTRATION

The amended bill provides $664,000,000 for Federal Emergency Management Agency (FEMA) Management and Administration instead of $685,000,000 as proposed by the House and $678,600,000 as proposed by the Senate. In addition, up to $60,000,000 is available for transfer from the Disaster Relief Fund, of which $48,000,000 is to support the continuing effort to professionalize FEMA's emergency workforce, as proposed by the Senate and $12,000,000 is for activities related to the Robert T. Stafford Disaster Relief and Emergency Assistance Act. The Committees on Appropriations note FEMA's delay in converting disaster Cadre of On-call Response Employees (CORE) to full-time status. Therefore, prior to the obligation of $30,000,000 of the $48,000,000 for the conversion of positions, FEMA shall submit an implementation plan to the Committees on Appropriations. The plan shall include an expenditure plan, a hiring schedule, and a list of positions to be filled by CORE employees, including where they will be located. The amended bill contains a provision allowing the transfer of up to three percent of State and Local programs administrative costs to Management and Administration.

BUDGET SUBMISSION

The Committees on Appropriations created one Management and Administration account for FEMA in the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007, Public Law 110-28, in May 2007. The amended bill contains a new provision directing FEMA to submit its fiscal year 2009 budget request, including justification materials, by office. Each office and FEMA region shall provide (1) budget detail by object classification; (2) the number of full-time equivalents on board; (3) the number of full-time equivalent vacancies; and (4) the appropriation account(s) used to support the office and the programs managed by the office.

STRENGTHENING CORE COMPETENCIES

The Committees on Appropriations provide $100,000,000 for FEMA to strengthen its core competencies as proposed by the House and Senate. FEMA is directed to brief the Committees on Appropriations no later than March 15, 2008 on progress in strengthening these core competencies. The briefing should include details on how this funding has and will be used to improve the agency's ability to prevent, prepare for, respond to, and mitigate disasters.

URBAN SEARCH AND RESCUE RESPONSE SYSTEM

The amended bill provides $32,500,000 for the Urban Search and Rescue Response System instead of $35,000,000 as proposed by the House and $30,000,000 as proposed by Senate.

OFFICE OF NATIONAL CAPITAL REGION COORDINATION

The amended bill provides $6,000,000 for the Office of National Capital Region Coordination as proposed by the Senate instead of up to $6,000,000 as proposed by the House. The amended bill contains a provision requiring the inclusion of the Governors of the State of West Virginia and the Commonwealth of Pennsylvania in the National Capital Region decision-making and planning process for mass evacuation.

OFFICE OF CHIEF COUNSEL

The Committees on Appropriations are aware stumbling blocks remain within FEMA, preventing it from transforming into a first-class proactive emergency management agency. One concern is the Office of Chief Counsel (OCC), whose role should be to advise FEMA within the bounds of the law, to best protect and serve American citizens during emergencies. FEMA is directed to brief the Committees on Appropriations on plans to revamp OCC to allow it to better support FEMA's mission and leadership. The plan should include office structure, staffing levels, and training.

REGIONAL OFFICES

FEMA is directed to fulfill the requirements of section 507 of the Homeland Security Act of 2002, which requires robust FEMA regional offices. Additionally, the Committees on Appropriations recognize the importance of promoting interoperability and strong regional collaboration and direct FEMA to ensure personnel who understand the technical and administrative issues surrounding interoperability are located in each regional office.

DISABILITY COORDINATOR

The Committees on Appropriations expect the Department to fully support the Office of the Disability Coordinator (ODC) as discussed in the Senate report. ODC is directed to work with disability organizations in emergency preparedness and response efforts to ensure the needs of the more than 54 million Americans with a physical, sensory, or cognitive disability are incorporated into disaster plans. ODC is further directed to build on longstanding programs, such as the Emergency Preparedness Initiative program, in order to serve as a resource for the nation on special needs.

FEDERAL ON-SCENE COORDINATOR

The Committees on Appropriations direct FEMA to provide a briefing on the toxic pollutant work of the Federal On-Scene Coordinator following Hurricane Katrina.

FEDERAL PREPAREDNESS COORDINATORS

The Committees on Appropriations do not prevent the hiring of Federal Preparedness Coordinators (FPCs) as proposed by the Senate. The role of FPCs has been clarified by FEMA, alleviating original concerns that the position was duplicative.

EMERGENCY ALERT SYSTEM

The Committees on Appropriations direct FEMA to provide a briefing on its plans to address GAO's recommendation on the shortcomings of the Emergency Alert System. The Committees on Appropriations are concerned adequate systems are not in place nationwide to provide information to the public prior to, during, and after disasters. In particular, a gap remains in the use of an integrated system combining the use of desktop applications, mobile devices, and the web to educate the public. Therefore, the Committees on Appropriations provide $1,000,000 to pilot technology that would facilitate the use of direct messaging to the public. FEMA should share lessons learned with other State and local governments.

DISASTER LOGISTICS

The Committees on Appropriations provide $61,553,000 for disaster logistics as proposed by both the House and Senate. FEMA is directed to provide quarterly briefings on its progress to improve its logistics program. FEMA is encouraged to continue to preposition critical supplies needed during disaster response, including generators, blankets, water, and portable water purification systems near potential disaster areas.

INFORMATION TECHNOLOGY

The Committees on Appropriations direct FEMA to provide a five-year plan for its information technology systems ten months after the date of enactment of this Act as discussed in the Senate report.

DOCUMENT MANAGEMENT AND RECORDS TRACKING SYSTEM

The Committees on Appropriations direct FEMA to fully fund, at no less than $6,000,000, based on competitive award, the completion of the Document Management And Records Tracking System.

NATIONAL FIRE INCIDENT REPORTING SYSTEM

The Committees on Appropriations provide $1,000,000 for development of a web-based version of the National Fire Incident Reporting System. The Committees on Appropriations expect this investment to improve the timeliness and accuracy of data, and help Federal, State, and local governments identify nationwide trends in fire and emergency-related deaths and property loss. The United States Fire Administration should lead this initiative.

INTEGRATING PREPAREDNESS AND RESPONSE

The Committees on Appropriations provide up to $1,000,000 for FEMA to enter into a grant or contract with the National Academy of Public Administration to review the integration of preparedness and response programs, as proposed in the House report. This review should focus on organizational structure, hiring plans and goals, coordination and integration mechanisms, and other areas FEMA may identify. This study shall be completed by the end of fiscal year 2008 and provided to the Committees on Appropriations.

NATIONAL RESPONSE FRAMEWORK

The Committees on Appropriations note the National Response Plan is now called the National Response Framework and the National Preparedness Goal is now called National Preparedness Guidelines. Neither document is complete, even though these are critical national documents relied on by

State and local governments. The Department is directed to incorporate public comment and finalize these important documents as soon as possible. The Committees on Appropriations direct the GAO to evaluate the process used to update the National Response Framework as discussed in the House report. This review should help the Department make improvements to the process so that future updates will be more inclusive of State and local governments.

FEDERAL AGENCY EMERGENCY PREPAREDNESS

The Committees on Appropriations direct FEMA to provide a report regarding the preparedness level of federal agencies designated to lead Emergency Support Functions as discussed in the Senate report. This report shall be provided to the Committees on Appropriations 10 months after the date of enactment of this Act.

CHILDREN AND DISASTER PREPAREDNESS

The Committees on Appropriations direct FEMA to assist communities by ensuring disaster preparedness and response education materials are developed and distributed to children. The needs of children, who are among the most vulnerable members of the population, are often overlooked when it comes to preparedness and response. Their needs during and following a disaster are vastly different than those of adults.

DISASTER PLANNING GUIDANCE

The Committees on Appropriations recognize guidelines for State and local communities regarding the needs of individuals with pets and service animals before, during, and after a disaster have been issued through the draft National Response Framework, and other recent documents. FEMA is encouraged to assist communities in implementing the guidelines as soon as possible.

U.S. FLAG TERRITORIES

The Committees on Appropriations are concerned about the nation's capacity to respond to disaster victims in the remote areas of the U.S. Flag Territories in the Pacific Ocean. FEMA is directed to analyze the regional all-hazard response capacity for this region and make recommendations as to how it might be improved.

2004 HURRICANES

FEMA is directed to maintain the Florida long-term recovery office as long as there is sufficient work left to be done following the four 2004 hurricanes that struck the State. FEMA is further directed to notify the Committees on Appropriations prior to closing the office.

FORMALDEHYDE

The Committees on Appropriations encourage FEMA to continue the practice of making available alternate housing for disaster victims who request a move due to concerns regarding formaldehyde exposure in manufactured housing. FEMA is directed to complete initial testing of formaldehyde levels in manufactured housing, which began in March 2006, and analyze those results. FEMA shall continue working with the DHS Office of Health Affairs and the Centers for Disease Control on testing trailer air quality and developing policies for those remaining in FEMA issued trailers.

The Committees on Appropriations are concerned FEMA does not have proper controls and processes in place to address emerging issues, especially health concerns, during disaster recovery. FEMA is directed to ensure proper training for employees who work directly with disaster victims has been provided so emerging issues are quickly identified by FEMA and consistent and correct information is distributed to the public in a timely manner. Additionally, the Committees on Appropriations direct the Inspector General to report to the Committees on Appropriations, the Senate Committee on Homeland Security and Government Affairs, and the House Transportation and Infrastructure Committee regarding FEMA's decision-making regarding formaldehyde in trailers.

STATE AND LOCAL PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $3,177,800,000, of which $110,000,000 is designated as emergency, instead of $3,202,000,000 as proposed by the House and $3,130,500,000 as proposed by the Senate. State and Local Programs funding is allocated as follows:

State Homeland Security Grant Program (SHSGP)	$950,000,000
Urban Area Security Initiative (UASI)	820,000,000
Regional Catastrophic Preparedness Grants	35,000,000
Metropolitan Medical Response System	41,000,000
Citizen Corps Program	15,000,000
Public Transportation Security Assistance and Railroad Security Assistance	400,000,000
Port Security Grants	400,000,000
Over-the-Road Bus Security Assistance	11,500,000
Trucking Industry Security Grants	16,000,000
Buffer Zone Protection Program Grants	50,000,000
Real ID grants	50,000,000
Commercial Equipment Direct Assistance Program	25,000,000
Interoperable Emergency Communications Grant Program	50,000,000
Emergency Operations Centers	15,000,000
National Programs:	
National Domestic Preparedness Consortium	88,000,000
Center for Domestic Preparedness	62,500,000
National Exercise Program	50,000,000
Technical Assistance	12,000,000
Demonstration Training Grants	28,000,000
Continuing Training Grants	31,000,000
Evaluations and Assessments	19,000,000
Rural Domestic Preparedness Consortium	8,800,000
Total State and Local Programs	$3,177,800,000

The amended bill contains provisions: (1) allowing the transfer of up to three percent of State and Local programs dollars to Federal Emergency Management Agency's (FEMA) Management and Administration account in order to simplify accounting practices within the agency for administrative costs; (2) designating certain timeframes for grant processing; (3) requiring grantees provide additional reports as determined necessary by the Secretary; and (4) requiring GAO to report on the data, assumptions, and methodology that DHS uses to assess risk and allocate UASI and SHSGP funds, including the reliability and validity of the data used, the basis for the assumptions used, and how the methodology is applied to determine the risk scores for individual locations and the allocation of grant funds. GAO is to report to the Committees on Appropriations on its findings not later than 45 days after the date of enactment of this Act.

For the purposes of eligibility for funds any county, city, village, town, district, borough, parish, port authority, transit authority, intercity rail provider, commuter rail system, freight rail provider, water district, regional planning commission, council of government, Indian tribe with jurisdiction over Indian country, authorized tribal organization, Alaska Native village, independent authority, special district, or other political subdivision of any State shall constitute a "local unit of government." The recent enactment of the 9/11 Act codified many of the issues previously addressed by the Committees on Appropriations including: the formula for the distribution of SHSGP; purposes of SHSGP, UASI, and the Law Enforcement Terrorism Prevention Program; circumstances under which overtime or construction are allowable; State passthrough requirements for SHSGP, UASI, and Interoperability grants; purposes of transit and railroad security grants; purposes of Over-the-Road bus security grants; and allowable uses of the Public Safety Interoperable Communications grant program. Accordingly, language contained in the House and Senate versions of the bill and report has been substantially modified in the amended bill.

The Committees on Appropriations direct FEMA to work with the National Protection and Programs Directorate to utilize the results from the National Academy of Sciences study regarding incorporating natural disasters into the risk formula, once it is completed, as detailed in the House report.

The Committees on Appropriations urge the Department to work with State and local governments to ensure regional authorities, such as port, transit, or tribal authorities, are given due consideration in the distribution of state formula grants. The Department is encouraged to consider the need for mass evacuation planning and pre-positioning of equipment for mass evacuations in allocating first responder funds.

FEMA is directed, in conjunction with the Office of Health Affairs, to report to the Committee regarding the current state of disaster preparedness capabilities of emergency medical services and the capabilities required to meet future preparedness goals. This report is due no later than five months after the enactment of this Act and shall include an analysis of the gap between current and target capabilities. FEMA is directed to include in its grants guidance, language requiring State and local governments to include EMS providers in their Statewide Homeland Security Plans as well as their UASI plans. If no State or local funding is provided to EMS, the State should justify lack of funding through demonstrating related targeted capabilities have been met or identify other pressing priorities.

STATE HOMELAND SECURITY GRANT PROGRAM

The amended bill provides $950,000,000 for the State Homeland Security Grant Program (SHSGP). There is no separate line item for the Law Enforcement Terrorism Prevention Program (LETPP), in accordance with the 9/11 Act, which mandates that at least 25 percent of SHSGP and Urban Area Security Initiative funds be used for LETPP activities. The amended bill contains a provision directing that the Commonwealth of Puerto Rico shall be considered a State in the allocation of grant funds to local and tribal governments.

Included within the amount provided is $60,000,000 for Operation Stonegarden, designated as an emergency. All awards under Operation Stonegarden shall be made on a competitive basis to units of local government in counties along land borders of the United States, including towns, cities, and counties, to enhance the coordination between local and federal law enforcement agencies. Eligible costs include, but shall not necessarily be limited to: overtime; vehicle maintenance; vehicle and equipment rental costs; reimbursement for mileage; fuel costs; equipment replacement costs; and travel costs for law enforcement entities assisting other local jurisdictions in law enforcement activities.

URBAN AREA SECURITY INITIATIVE

The amended bill provides $820,000,000 for Urban Area Security Initiative (UASI) as proposed by the Senate and instead of $850,000,000 as proposed by the House. Within this funding, the Committees on Appropriations provide $15,000,000 for grants to nonprofit organizations determined by the Secretary to be at high risk of terrorist attack. The Secretary shall consider prior threats or attacks against similar organizations when determining risk, and shall notify the Committees on Appropriations of the high risk or potential high risk to each designated tax exempt grantee at least five full business days in advance of the announcement of any grant award.

GAO is directed to provide a report to the Committees on Appropriations, which describes the criteria and factors used to determine the regional boundaries for UASI regions, including changes as a result of the enactment of the 9/11 Act. The report shall also provide an analysis of how such boundaries impact regional cooperation.

The Committees on Appropriations include language in NPPD related to the Capital Wireless Integrated Network.

REGIONAL CATASTROPHIC PREPAREDNESS GRANTS

The amended bill provides $35,000,000 for Regional Catastrophic Preparedness grants instead of $50,000,000 as proposed by the Senate. The House did not include funding. Of this amount $18,000,000 shall be for tier one UASI regions, no more than $3,000,000 shall be for technical assistance, and the remaining funds shall be allocated based on all-hazards. These grants should fund multi-jurisdictional efforts to promote regional approaches to catastrophic events, including mass evacuation. The Committees on Appropriations direct the Department to expeditiously award the funds provided under this heading and the $35,000,000 provided in the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007, Public Law 110–28. FEMA shall brief the Committees on Appropriations by September 15, 2008, on the preparedness assets (fuel, water, communications) that have been staged and/or deployed pursuant to this program in this and previous years.

METROPOLITAN MEDICAL RESPONSE SYSTEM

The amended bill provides $41,000,000 for the Metropolitan Medical Response System instead of $50,000,000 as proposed by the House and $33,000,000 as proposed by the Senate. The Committees on Appropriations do not include language directing that the grants be competitively awarded as proposed by the House.

CITIZEN CORPS

The amended bill provides $15,000,000 for the Citizen Corps program as proposed by the Senate instead of $17,000,000 as proposed by the House.

PUBLIC TRANSPORTATION SECURITY ASSISTANCE AND RAILROAD SECURITY ASSISTANCE

The amended bill provides $400,000,000 for Public Transportation Assistance and Railroad Security Assistance. Within the funding provided, no less than $25,000,000 is for Amtrak.

PORT SECURITY GRANTS

The amended bill provides $400,000,000 for port security grants as proposed by both the House and the Senate.

OVER-THE-ROAD BUS SECURITY ASSISTANCE

The amended bill provides $11,500,000 for Over-the-Road bus security grants instead of $11,000,000 as proposed by the House and $12,000,000 as proposed by the Senate.

TRUCKING INDUSTRY SECURITY GRANTS

The amended bill provides $16,000,000 for trucking industry security grants as proposed by the Senate instead of $10,000,000 as proposed by the House. The funding is to be competitively awarded. FEMA is directed to submit an expenditure plan as detailed in the House report.

BUFFER ZONE PROTECTION PROGRAM

The amended bill provides $50,000,000 for the Buffer Zone Protection Program as proposed by the Senate instead of $100,000,000 as proposed by the House.

REAL ID GRANTS

The amended bill provides $50,000,000 for REAL ID grants as proposed by the House. The total is designated as an emergency. In addition, States may opt to enhance REAL ID capabilities by using State homeland security grants for this purpose. The Committees on Appropriations note that no funds were requested for REAL ID in the President's budget and provide this funding to assist States in complying with this Federal mandate. Funds are available until September 30, 2008.

COMMERCIAL EQUIPMENT DIRECT ASSISTANCE PROGRAM

The amended bill provides $25,000,000 for the Commercial Equipment Direct Assistance Program instead of $20,000,000 as proposed by the House and $40,000,000 as proposed by the Senate. The Committees on Appropriations do not direct the program be changed to a grant program as proposed by the House.

INTEROPERABLE EMERGENCY COMMUNICATIONS GRANTS

The amended bill provides $50,000,000 for Interoperable Emergency Communication Grants as proposed by the House instead of $100,000,000 as proposed by the Senate. This program shall be implemented in accordance with the 9/11 Act. The Committees on Appropriations direct a briefing on the implementation of GAO recommendations contained in GAO–07–031.

EMERGENCY OPERATIONS CENTERS

The amended bill provides $15,000,000 for Emergency Operations Centers (EOC). The Committees on Appropriations are aware of the needs of State and local governments for adequate emergency operations centers to improve unified command capabilities. Therefore funding is included for the equipping, upgrading, and constructing of EOCs pursuant to section 614 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended by the 9/11 Act.

GRANT MANAGEMENT SYSTEM

The Committees on Appropriations urge FEMA to consider the use of tracking and accountability systems to assist in managing grant allocations, distribution, expenditures, and asset tracking, and encourage usage of multi-state cooperative purchasing agreements.

SLOWNESS IN AWARDING GRANTS

The Committees on Appropriations direct FEMA to implement the law, including the timeframes for issuing State and local grant funds. It is imperative the agency and the Department take State and local partners in homeland security seriously by ensuring needed resources are expeditiously provided for known risks.

NATIONAL PROGRAMS

The amended bill provides $299,300,000 for training, exercises, technical assistance, and other programs instead of $293,000,000 as proposed by the House and $294,500,000 as proposed by the Senate.

NATIONAL DOMESTIC PREPAREDNESS CONSORTIUM

Included within the amount provided for National Programs, $88,000,000 is for the National Domestic Preparedness Consortium as proposed by both the House and Senate. Consortium members funded in fiscal year 2007 shall receive $22,000,000 pursuant to the 9/11 Act.

CENTER FOR DOMESTIC PREPAREDNESS

Included within the amount provided for National Programs, $62,500,000 is for the Center for Domestic Preparedness as proposed by the Senate instead of $57,000,000 as proposed by the House. Within the funding provided, $5,500,000 is for the Noble Training Center. The amended bill contains language providing the Center authority to accept reimbursements from others receiving training.

RURAL DOMESTIC PREPAREDNESS CONSORTIUM

Included within the amount provided for National Programs, $8,800,000 is for the Rural Domestic Preparedness Consortium (RDPC). The RDPC provides technical assistance and training for terrorism prevention, preparedness, response, and recovery in support of rural homeland security requirements. FEMA is directed to continue the development of specialized and innovative training curricula for rural first responders and ensure the coordination of such efforts with existing grants and training partners.

TECHNICAL ASSISTANCE

Included within the amount provided for National Programs, $12,000,000 is for technical assistance instead of $18,000,000 as proposed by the House and $14,000,000 as proposed by the Senate.

DEMONSTRATION TRAINING GRANTS

Included within the amount provided for National Programs, $28,000,000 is for demonstration training grants as proposed by the Senate. The House included funding for a program which combined the demonstration and continuing training grants. FEMA shall give priority to training that benefits nation-wide initiatives including those that identify and disseminate preparedness and response best practices to States and locals and are conducted at or in cooperation with universities, colleges, and community colleges.

CONTINUING TRAINING GRANTS

Included within the amount provided for National Programs, $31,000,000 is for continuing training grants as proposed by the Senate. The House included funding for a program which combined the demonstration and continuing training grants. The Committees on Appropriations support programs which consistently deliver homeland security curricula in the form of executive education programs and accredited Masters Degree education. The Committees on Appropriations recommend full funding for the graduate-level homeland security education programs currently supported by the Department and encourage the Department to leverage these existing programs to meet the growing need for graduate-level education.

EVALUATIONS AND ASSESSMENTS

Included within the amount provided for National Programs, $19,000,000 is for evaluations and assessments as proposed by the House and the Senate. FEMA shall brief the Committees on Appropriations every six months on results from completed evaluations instead of the requirement for FEMA to provide the results of all evaluations within 30 days of completion as proposed by the House.

FIREFIGHTER ASSISTANCE GRANTS

The amended bill provides $750,000,000 instead of $805,058,000 as proposed by the House and $705,000,000 as proposed by the Senate. Of this amount, $190,000,000 shall be for firefighter staffing, as authorized by section 34 of the Federal Fire Prevention and Control Act of 1974, instead of $235,058,000 as proposed by the House and $145,000,000 as proposed by the Senate. The Committees on Appropriations agree to make $3,000,000 available for implementation of section 205(c) of Public Law 108–169, the United States Fire Administration Reauthorization Act of 2003 to be competitively awarded. Grants under sections 33 and 34 of the Federal Fire Prevention and Control Act of 1974 are available until September 30, 2009, as proposed by the House. FEMA is encouraged to consider planning and preparation for wildfires in the allocation of fire prevention programs.

The Committees on Appropriations direct GAO to review the application and award process for the Assistance to Firefighters (FIRE) grants and Staffing for Adequate Fire and Emergency Response (SAFER) grants as detailed in the House report. FEMA shall peer-review FIRE and SAFER grant applications which meet criteria established by FEMA and the Fire Service. Those criteria necessary for peer-review must be included in the grant application package. Applicants whose grant applications are not reviewed must receive an official notification detailing why the application did not meet the criteria for review. Applications must be rank-ordered, and funded following the rank order.

EMERGENCY MANAGEMENT PERFORMANCE GRANTS

The amended bill provides $300,000,000 as proposed by both the House and the Senate. The Committees on Appropriations direct FEMA to retain the Emergency Management Performance Grants as a separate grant program, and to continue funding personnel expenses. Funds shall be used for all-hazards activities.

RADIOLOGICAL EMERGENCY PREPAREDNESS PROGRAM

The amended bill provides for the receipt and expenditure of fees collected, as authorized by Public Law 105–276, as proposed by both the House and the Senate. The Committees on Appropriations are concerned experiences and lessons learned through the Radiological Emergency Preparedness Program (REPP) are not being shared with other Department components, and urge greater coordination with the REPP to share lessons learned.

UNITED STATES FIRE ADMINISTRATION

The amended bill provides $43,300,000 as proposed by both the House and the Senate.

DISASTER RELIEF

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $1,400,000,000 for Disaster Relief instead of $1,700,000,000 as proposed by both the House and the Senate. The amended bill contains a provision to allow the transfer of up to $60,000,000 to FEMA Management and Administration of which $48,000,000 is for the conversion of 250 temporary disaster positions into permanent positions and $12,000,000 is for activities related to the Robert T. Stafford Disaster Relief and Emergency Assistance Act. In addition, the amended bill contains a provision to allow the transfer of $16,000,000 to Office of Inspector General for audits and investigations of disasters. The Committees on Appropriations direct that funds appropriated for Disaster Relief cannot be used to supplement the resources of other DHS offices that receive a separate appropriation absent explicit authority to do so in law.

The amended bill contains a provision requiring the Disaster Relief Fund report be submitted hereafter on a monthly basis. The report is a continuation of the DRF report required in Public Law 109–62, Public Law 109–90, and Public Law 109–295. The requirement to report manufactured housing and hotel and motel data is deleted. The report must now include allocations, obligations, and expenditures for Hurricanes Katrina, Rita, Wilma, and all other open disasters.

The Post-Hazard Mitigation Grant Program is a key component of mitigation and disaster recovery. Federal investments in post disaster mitigation activities are leveraged by a unique 'window of opportunity' that exists following a disaster, when perceptions of risk become clearer and prompt individuals and communities to undertake risk reduction activities they may not have considered in a pre-disaster context. FEMA is directed to report within 30 days of the enactment of this Act on the use of post-disaster mitigation funds, including funds made available after the 2005 hurricanes; any legislative or administrative obstacles preventing more expedient use of funds; and recommendations for more effective implementation of this program.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

The amended bill provides $580,000 for administrative expenses and $295,000 for the cost of loans as proposed by both the House and the Senate. Gross obligations for the principal amount of direct loans shall not exceed $25,000,000 as proposed by both the House and the Senate.

FLOOD MAP MODERNIZATION FUND

The amended bill provides $220,000,000 for flood map modernization instead of $230,000,000 as proposed by the House and $200,000,000 as proposed by the Senate. FEMA is encouraged to prioritize as criteria the number of stream and coastal miles within the State, the Mississippi River Delta region, and the participation of the state in leveraging non-federal contributions. FEMA is directed to dedicate at least 10 percent of funds provided under this heading to activities associated with maintaining flood maps that are at least three years beyond their effective date. The goal should be to complete maintenance of maps before they are more than five years beyond their effective date. Map maintenance includes: studying previously unstudied or under-studied areas; restudying areas where watershed and/or floodplain conditions have altered flood hazards; and re-evaluating flood hazards to take into account new data or methodologies. Cooperating technical partners that offer significant funding matches should be given priority in allocating map maintenance funding. Up to three percent of awarded funds may be used by recipients for administrative expenses.

FEMA is directed to brief the Committees on Appropriations regarding the additional needs for a continued Flood Map Modernization program as included in the Senate report. FEMA is encouraged to work with the Army Corps of Engineers to develop accurate maps reflecting the damage done by Hurricanes Katrina and Rita. FEMA is further directed to brief the Committees on Appropriations within 60 days of enactment of this Act on the progress of flood plain mapping in the Gulf Coast.

NATIONAL FLOOD INSURANCE FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $45,642,000 for salaries and expenses as proposed by both the House and Senate. The amended bill provides $90,000,000 for severe repetitive loss property mitigation expenses under section 1361A of the National Flood Insurance Act of 1968 and a repetitive loss property mitigation pilot program under section 1323 of the National Flood Insurance Act; and no less than $99,358,000 for other flood mitigation activities, of which up to $34,000,000 is available for transfer to the National Flood Mitigation Fund. Total funding of $145,000,000 is offset by premium collections. The amended bill sets limitations of $70,000,000 for operating expenses, $773,772,000 for agents' commissions and taxes, and "such sums" for interest on Treasury borrowings.

NATIONAL FLOOD MITIGATION FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $34,000,000 by transfer from the National Flood Insurance Fund as proposed by both the House and Senate.

NATIONAL PREDISASTER MITIGATION FUND

The amended bill provides $114,000,000 for the Predisaster Mitigation Fund as proposed by both the House and Senate.

The amended bill contains a provision requiring all projects funded with the Predisaster Mitigation Fund comply with the criteria in section 203(g) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

The Committees on Appropriations include the following projects in the following amounts:

For infrastructure improvements, analysis, and other activities for disaster mitigation:	
Ludlowville Flood Mitigation project, New York State Emergency Management Office, NY	$200,000
City of Albany, GA	300,000
Sumter County Commission, GA	300,000
City of Neodesha, KS	200,000
Adjutant General's Office of Emergency Preparedness, for projects in Santee and Manning, SC	3,000,000
Bosque County, TX	40,000
Town of Clifton Park, NY	94,000
Calvert County Government, MD	187,500
Charles County Government, MD	106,500
St. Mary's County Government, MD	184,619

City of Detroit, MI	1,600,000
City of Coconut Creek, FL	200,000
City of Emeryville, CA	600,000
City of Rye and Village of Rye Brook, NY	250,000
Yardley Borough, PA	250,000
City of Stanley, WI	630,000
Dalton Fire District, MA	750,000
Department of Emergency Management for the City and County of San Francisco, CA	1,000,000
City of Arvada, CO	200,000
North Carolina Department of Crime Control and Public Safety, NC	1,600,000
City of Los Angeles, CA	13,500
City of Cudahy, CA	65,000
Los Angeles Unified School District, CA	1,000,000
North Carolina Department of Agriculture, NC	400,000
Jackson County Board of Supervisors, MS	250,000
Town of Dyer, IN	550,000
City of St. Charles, MN	100,000
Public Works Department of Winona County, MN	100,000
City of Louisville's Emergency Management Agency, KY	200,000
Northampton and Lehigh Counties, PA	1,000,000
Commonwealth of Pennsylvania, Department of Conservation and Natural Resources, Presque Isle State Park, PA	990,000
Cumberland County Public Schools, VA	400,000
City of St. Joseph, MO	1,000,000
City of Kannapolis, NC	625,000
Monroe County Office of Emergency Preparedness, NY	1,000,000
Sandy Creek Township, City of Franklin, PA	1,000,000
Pierce County, WA	500,000
City of Cumberland, KY	2,000,000
University of Kentucky, Department of Civil Engineering, KY	200,000
City of Norwalk, CT	505,000
Onondaga County, NY	500,000
Onondaga County, for Oswego River Basin, NY	500,000
City of St. Petersburg, for shelter hardening, FL	750,000
City of St. Petersburg, for facility hardening, FL	750,000
City of Fitzgerald, GA	75,000
City of Ashburn, GA	75,000
Butts County Public Works Department, GA	30,000
City of Monticello, GA	50,000
City of Haleyville, AL	1,000,000
City of Myrtle Beach, SC	500,000
City of Georgetown, TX	1,000,000
City of Missouri City, TX	200,000
For acquisition, demolition and relocation of property for disaster mitigation:	
Chatham County Emergency Management, GA	200,000
City of Davenport, IA	200,000
Wayne County Commissioners, PA	200,000
City of Plymouth, IN	200,000
Armstrong County, PA	1,000,000
Holmes County Commission, OH	200,000
Harris County Flood Control District, TX	1,000,000
City of Fort Worth, TX	1,000,000
City of Kannapolis, NC	400,000
Town of Pembroke, NH	150,000
City of Greensburg, KY	500,000
Town of Martin, KY	1,350,000
City of Cumberland, KY	650,000
For risk identification, planning, communication, response coordination, and modeling activities for disaster mitigation:	
Des Moines, IA	200,000
Radford University, VA	200,000
Washington Military Department, WA	1,000,000
Public Works Department of the City of Santa Cruz, CA	90,000
Town of Epsom, NH	50,000
Westchester and Rockland Counties, NY	1,000,000
Village of Elmsford, NY	30,000
Arlington County, VA	260,000
Franklin Regional Council of Governments, MA	100,000
North Carolina Department of Crime Control and Public Safety, NC	3,400,000
City of Alpine, TX	100,000
City of Del Rio, TX	600,000
Lehman College, NY	1,000,000
Broward County, FL	500,000
Southeast Missouri State University, MO	430,000
Williamstown Lake, Grant and Pendleton Counties, KY	500,000
City of Whitehall, OH	500,000
City of Hampton, VA	250,000
Santa Clara County, CA	250,000
Regional Joint Readiness Center, Pittsburgh, PA	500,000
For emergency alert and notification systems:	
City of Detroit, MI	485,000
City of Los Angeles, CA	100,000
Jasper County Government, IN	215,000
City of Belton, MO	150,000
City of Smithville, MO	200,000
Local Emergency Planning Committee, Town of Needham, MA	200,000
For wildfire mitigation activities:	
Washington County and Washington County Department of Public Works, UT	200,000
Arrowhead Regional Development Commission, MN	450,000
San Bernardino County Fire Department, CA	1,500,000
Idaho Bureau of Homeland Security, ID	600,000

EMERGENCY FOOD AND SHELTER

The amended bill provides $153,000,000 for Emergency Food and Shelter as proposed by both the House and Senate.

TITLE IV—RESEARCH AND DEVELOPMENT, TRAINING, AND SERVICES

UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES

The amended bill provides $80,973,000 for United States Citizenship and Immigration Services (USCIS) instead of $30,000,000 as proposed by the House and $50,523,000 as proposed by the Senate. Of this amount, $80,000,000 is designated as emergency.

EMPLOYMENT ELIGIBILITY VERIFICATION/E-VERIFY

The Committees on Appropriations provide $60,000,000 for the Employment Eligibility Verification program, which USCIS has renamed E-Verify, instead of $30,000,000 provided by both the House and the Senate. This system allows employers to check government databases and verify the employment status of job applicants.

FBI BACKGROUND CHECK BACKLOG

The Committees on Appropriations provide $20,000,000 for reduction of the FBI name check backlog as proposed by the Senate and instead of no funding proposed by the House. The Director of USCIS is directed to report to the Committees on Appropriations on plans to eliminate the backlog of FBI name checks, as discussed in the Senate report.

BENEFIT PAROLE PROGRAMS TRANSFER

The Committees on Appropriations provide $523,000 for USCIS to transfer the Cuban-Haitian Entrant Program, the Moscow Refugee Program, and the Humanitarian Parole Program from U.S. Immigration and Customs Enforcement to USCIS, as proposed by the Senate and requested by the Department. The House did not transfer these programs. The Director of USCIS is directed to brief the Committees on Appropriations on the number of individuals serviced by these programs and the long-term outlook for these programs.

IMMIGRATION SERVICES

The Committees on Appropriations direct USCIS to expand its immigration services programs, prioritizing areas that have large populations of underserved immigrant populations, as discussed in the House report. The Committees on Appropriations provide $450,000 for this purpose, of which $150,000 shall be allocated to the Citizens Advice Bureau Immigrant Assistance Project and $300,000 shall be allocated to the Bronx Project, Northern Manhattan Coalition for Immigrant Rights.

FEE-FUNDED PROGRAMS

Current estimates of fee collections, which constitute the majority of USCIS resources, are $2,538,872,000. These revenues will support adjudication of applications for immigration benefits and fraud prevention activities, and are derived from fees collected from persons applying for immigration benefits. The Committees on Appropriations direct USCIS to allocate these fees as shown in the table presented in the Senate report and direct that no more than $10,000 shall be for official reception and representation expenses.

Within the total fees collected, the Committees on Appropriations direct USCIS to provide no less than $49,357,000 to support Customer Service Center operations, and to dedicate the entirety of premium processing revenue to business system and information technology transformation, including converting immigration records to digital format. The Committees on Appropriations require the Director of USCIS to submit an expenditure plan for the Business Transformation Project. USCIS should include materials in the plan that address the alignment of the transformation process with the Departmental enterprise architecture, as well as details on expected project performance and deliverables.

IMMIGRATION REFORM

USCIS is not required to report on the anticipated process for administering a temporary worker program.

H–1B BENEFITS FRAUD ASSESSMENT

USCIS is directed to conduct a benefits fraud assessment of the H–1B Visa Program, and to report to the Committees on Appropriations on the results of the assessment and any recommendations to strengthen the program.

USCIS VEHICLES

The amended bill provides authority for USCIS to acquire up to five vehicles in locations where the General Services Administration does not provide vehicles for lease. The Director of USCIS is directed to notify the Committees on Appropriations on each occasion this authority is used, including details on the cost of each vehicle, the rationale for its purchase or lease, and the location where the vehicle is used.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

The amended bill provides $238,076,000 for Salaries and Expenses instead of $219,786,000 as proposed by the House and $221,076,000 as proposed by the Senate. Of this amount, $17,000,000 is designated as emergency. The amended bill allows the Federal Law Enforcement Training Center (FLETC) to obligate funds in anticipation of reimbursements from agencies, as proposed by the Senate. The Committees on Appropriations adopt the Senate position of not transferring the Federal Law Enforcement Training Accreditation Board (FLETA) from FLETC and include $1,290,000 for FLETA within this appropriation. The amended bill also extends the rehired annuitant authority through December 31, 2010. The Committees on Appropriations do not adopt the revolving fund language proposed by the Administration.

ACQUISITIONS, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

The amended bill provides $50,590,000 for Acquisitions, Construction, Improvements, and Related Expenses instead of $43,270,000 as proposed by the House and $44,470,000 as proposed by the Senate. Of this amount, $4,000,000 is designated as emergency. Within the total, $3,320,000 is for construction of new training and related facilities at Artesia, New Mexico.

SCIENCE AND TECHNOLOGY

MANAGEMENT AND ADMINISTRATION

The amended bill provides $138,600,000 for Management and Administration of Science and Technology (S&T) instead of $130,787,000 as proposed by the House and $140,632,000 as proposed by the Senate. This amount includes $10,000 for official reception and representation as proposed by the House instead of $3,000 as proposed by the Senate. S&T shall move expeditiously to address critical issues of staff vacancies and internal controls. Sufficient resources have been included within this account for the establishment of the Homeland Security International Cooperative Programs Office pursuant to section 1901 of the 9/11 Act.

RESEARCH, DEVELOPMENT, ACQUISITION, AND OPERATIONS

The amended bill provides $691,735,000 for Research, Development, Acquisition, and Operations instead of $646,325,000 as proposed by the House and $697,364,000 as proposed by the Senate. The following table specifies funding by budget activity:

Border and Maritime Security	$25,479,000
Chemical and Biological	208,020,000
Command, Control, and Interoperability	56,980,000
Explosives	77,654,000
Human Factors	14,206,000
Infrastructure and Geophysical	64,500,000
Innovation	33,000,000
Laboratory Facilities	103,814,000
Test and Evaluations/Standards	28,520,000
Transition	25,265,000
University Programs	49,297,000
Homeland Security Institute	5,000,000
Total	$691,735,000

HOMELAND SECURITY INSTITUTE

The Committees on Appropriations provide $5,000,000 for the Homeland Security Institute (HSI), as proposed by the Senate. Funding reductions have been made to each program, project, and activity (PPA) within S&T to reflect this appropriation for HSI. The Committees on Appropriations recognize that in addition to this appropriation, HSI has many ongoing projects with other DHS agencies that supplement these funds. S&T shall ensure that the fiscal year 2009 Congressional justification clearly delineates funding for the Homeland Security Institute and does not obscure it within S&T's other PPAs.

CHEMICAL AND BIOLOGICAL

The Committees on Appropriations provide $208,020,000 for the chemical and biological program instead of $215,131,000 as proposed by the House and $216,038,000 as proposed by the Senate. Within this total, $5,800,000 has been appropriated to procure 26 Generation 3 BioWatch detection units to support a six month pilot of these systems in two BioWatch cities. No funding has been provided for the low rate initial production procurement because the Department's decision on which system to procure will not be made until after the pilot is concluded. Currently, the Department does not anticipate this until late 2008 or early 2009.

COMMAND, CONTROL, AND INTEROPERABILITY

The Committees on Appropriations provide $56,980,000 for command, control, and interoperability instead of $61,100,000 as proposed by the House and $61,763,000 as proposed by the Senate. Within this total, not less than $19,881,000 is for cyber security activities including efforts to address flaws in the computerized systems that control generators, switching stations, and electrical substations as well as other emerging threats to infrastructure critical to the U.S. economy.

Analysis, Dissemination, Visualization, Insight, and Semantic Enhancement (ADVISE) program

No funding has been provided for the ADVISE program as proposed by both the House and the Senate. Bill language clarifies that obligations may not be made to follow-on or successor programs to ADVISE. The Committees on Appropriations remind the Department that any tools designed to manipulate data bases must have proper Privacy Impact Assessments in place before use.

FIRST RESPONDER COMMUNICATIONS EQUIPMENT STANDARDS

Federal funding for first responder communications equipment should be compliant with common system standards for digital public safety radio communications (Project 25 standards), as appropriate, to ensure interoperability. S&T, in conjunction with the Director of the National Institute of Standards and Technology, shall continue assessing the compliance of first responder communications equipment with Project 25 standards.

EXPLOSIVES

The Committees on Appropriations provide $77,654,000 for explosives instead of $63,749,000 as proposed by the House and $81,726,000 as proposed by the Senate. Within this total, not less than $15,000,000 shall be used to support S&T's work under HSPD–19 as discussed in the Senate report. Specifically, S&T shall work toward producing detection technologies that deter, reduce, or eliminate explosive attacks and their consequences including car bombs. S&T should coordinate this work with other Federal agencies to eliminate any duplication of efforts.

S&T has been conducting three air cargo pilots since 2006. While two of the pilots are completed, the remaining pilot at San Francisco airport has been repeatedly delayed. As a result, S&T does not anticipate collecting six months of data on the use of explosive detection systems (EDS) to screen air cargo at a dedicated facility as required in the statement of managers accompanying House Report 109–241. The Committees on Appropriations urge S&T to continue the air cargo pilot at San Francisco airport to obtain a full six months of EDS data and encourage the use of unobligated balances from the air cargo research and development program for this effort. As the most recent monthly obligation report shows, $4,755,680 is currently unobligated. S&T is encouraged to share any promising results of the air cargo pilots with other airports.

HUMAN FACTORS

The Committees on Appropriations provide $14,206,000 for human factors instead of $12,600,000 as proposed by the House and $6,706,000 as proposed by the Senate. Within this funding, $7,500,000 is for the Institute for Homeland Security Solutions, which will be funded through the Research Triangle Institute. The Institute for Homeland Security Solutions (IHSS) will conduct applied technological and social science research with universities, other federal agencies, state and local security agencies and the private sector. This Institute will focus on developing near-term technological solutions to practical, real world problems that have broad applications. IHSS' work for DHS will cover critical policy and operational implications of new technologies and will be narrowly focused on information analysis tools and policies. One example of the work the Institute will focus on is anomaly detection. The paradigm for security in many operations centers is a person, or group of people, staring at a dozen or more video screens and perhaps receiving data from a variety of other sources simultaneously. In these settings, the human brain is quickly overwhelmed with more images and data than it can effectively process—too much data is almost as bad as no data at all. The Institute will focus on whether these centers can be more effective through development of technology capable of learning and remembering what the normal traffic pattern of people is and detecting automatically when there is an anomaly that might raise a security concern.

INFRASTRUCTURE AND GEOPHYSICAL

The Committees on Appropriations provide $64,500,000 for infrastructure and geophysical, instead of $24,000,000 as proposed by the House and $64,000,000 as proposed by the Senate. Within the funding provided, $27,000,000 is to continue the Southeast Regional Research Initiative, $9,500,000 is for Regional Technology Integration, and $11,000,000 is for the Community-Based Critical Infrastructure Protection Institute to support existing work in research and development and application of technology for community based critical infrastructure protection efforts.

INNOVATION

The Committees on Appropriations provide $33,000,000 for innovation instead of $51,900,000 as proposed by the House and $46,000,000 as proposed by the Senate. Funding is not specified among the Innovation programs; S&T is directed to submit to the Committees on Appropriations an allocation plan for Innovations within 30 days after enactment of this Act.

NEW TECHNOLOGIES

The Committees on Appropriations believe new technologies may significantly help the Department as it seeks to secure our homeland. The Department is encouraged to develop such technologies as carbon nanotube coatings; dual use mobile sensor technology that provides automatic intelligence collection; sensor drive analytics; regional disease surveillance; explosive detection using computer tomography/neutron technologies; microsystems technologies for high threat problem solving; small, rugged mass spectrometers; gallium nitride based multi-mission phase array radar; high throughput backscatter personal screeners; data systems that are scaleable, easily deployable and do not require significant power or cooling infrastructure; mono-energetic gamma resonant imaging and detection systems; respirators using antimicrobial iodinated technology; and supercomputing centers that utilize smart sensor algorithms on low cost processors.

MULTI-FUNCTION PHASED ARRAY RADARS

During the next decade, many of the surveillance radars used by a number of Federal agencies around the country will near the end of their design life. The Department is encouraged to continue its involvement in the Office of Federal Coordinator for Meteorology (OFCM) Working Group for Multifunctional Phased Array Radar (MPAR), which is focused on developing multi-function phased array radars to replace the current generation of surveillance radar. The Department should evaluate the mission requirements where MPAR has potential departmental applications such as providing information on severe weather, non-cooperative aircraft, and potential terrorist incidents involving chemical, biological, radiological, or nuclear materials. The Department's continued participation in the OFCM effort should attempt to ensure that the appropriate applications are incorporated into the MPAR design.

LABORATORY FACILITIES

The Committees on Appropriations provide $103,814,000 for laboratory facilities as proposed by the Senate instead of $88,814,000 as proposed by the House. Within the total provided is $15,000,000 for Area 300 (Pacific Northwest National Laboratory) for ongoing construction in support of the memorandum of understanding between DHS, the Department of Energy and the National Nuclear Security Administration.

S&T is directed to report on the costs and benefits of the Transportation Safety Laboratory charging companies for evaluation of their products. S&T should account for potential enhanced services and capitol improvements that such fees might allow, as well as any negative effects such as potential barriers to entry for small companies that such fees may cause.

TEST AND EVALUATIONS/STANDARDS

The Committees on Appropriations provide $28,520,000 for test and evaluations/standards as proposed by the House instead of $24,219,000 as proposed by the Senate. Within the funds provided, $3,000,000 shall be for independent peer reviewed program evaluations throughout DHS conducted by outside entities. The Committees on Appropriations expect that only one or two smaller scale programs will be able to be evaluated with this funding and direct S&T to begin with an evaluation of TSA's air cargo certified shipper pilot program. This evaluation should focus on the soundness of the measurements TSA will use to evaluate the integrity of a certified shippers air cargo security program and whether the certified shipper program will help TSA meet the 100-percent screening requirements contained in the 9/11 Act. S&T shall consult with the Committees on Appropriations on other programs to be evaluated and the scope of the evaluation before funding is obligated.

TRANSITION

The Committees on Appropriations provide $25,265,000 for transition instead of $26,000,000 as proposed by the House and $23,901,000 as proposed by the Senate. Within the funds provided, up to $1,000,000 is for an independent review to determine whether Federal resources are being adequately and efficiently used in DHS and other Federal agencies to address homeland security needs, including the opportunity costs that may result from the increased prominence of homeland security as detailed in the House report. This review should be conducted by the National Academy of Public Administration.

UNIVERSITY PROGRAMS

The Committees on Appropriations provide $49,297,000 for university programs instead of $48,575,000 as proposed by the House and $38,718,000 as proposed by the Senate. Within this funding, $4,000,000 is to support the new National Transportation Security Center of Excellence authorized in the 9/11 Act and $2,000,000 is to support the ongoing Memorandum of Agreement with the Naval Postgraduate School. Because the funding level is $10,579,000 above the budget request, S&T shall brief the Committees on Appropriations on how these additional funds will be allocated 60 days after enactment of this Act. As part of this briefing, S&T shall also discuss how universities are selected to participate in this program, how S&T determines the type of research each Center of Excellence will specialize in, how the Directorate evaluates the quality of work from the Centers, and assess the impact a time limit may have on the quality and breadth of research conducted.

DOMESTIC NUCLEAR DETECTION OFFICE

MANAGEMENT AND ADMINISTRATION

The amended bill provides $31,500,000 for Management and Administration instead of $31,176,000 as proposed by the House and $32,000,000 as proposed by the Senate. The increase of $1,032,000 above the current services level is intended to partially address critical staff vacancies. The Committees on Appropriation are concerned with the Domestic Nuclear Detection Office's (DNDO) shortfall in critical staffing positions and the impact of this shortfall upon the agency's administrative functions. As a result, there have been significant delays in obtaining quality budgetary information on major acquisitions and research projects from the agency. As of the end of September 2007, DNDO was only supporting 91 positions, or 21 below the fiscal year 2007 enacted level. Furthermore, the fiscal year 2008 budget justification fails to provide detailed data and explanatory statements for the additional 18 program management staff requested. Without an effective staffing plan and the appropriate complement of budgetary and support personnel, DNDO will be unable to manage its projected acquisition, fielding and integration of next generation devices. Therefore, DNDO is directed to prioritize its program management support needs and make every effort to fill associated positions as soon as possible. DNDO shall brief the Committees on Appropriations by February 1, 2008 on its hiring plan.

RESEARCH, DEVELOPMENT, AND OPERATIONS

The amended bill provides $323,500,000 for Research, Development, and Operations instead of $316,900,000 as proposed by the House and $336,000,000 as proposed by the Senate. The following table specifies funding by budget activity:

Systems Engineering and Architecture	$22,400,000
Systems Development	118,100,000
Transformational Research and Development	96,000,000
Assessments	37,500,000
Operations Support	34,500,000
National Technical Nuclear Forensics Center	15,000,000
Total	$323,500,000

SYSTEMS DEVELOPMENT

The Committees on Appropriations provide $118,100,000 for systems development instead of $108,100,000 as proposed by the House and $132,100,000 as proposed by the Senate. Within the amount appropriated: $10,000,000 shall be available to support the implementation of the Securing the Cities Initiative; $10,000,000 is to deploy up to ten teams to screen general aviation aircraft for illicit material, other aviation programs or non-ports of entry land border efforts; and $3,000,000 is for the development of detection systems to scan general aviation aircraft for illicit radiological and nuclear materials. DNDO is urged to place a priority within development and deployment of detection systems on the highest risk pathways entering the country.

The Committees on Appropriations concur with direction in the Senate report requiring DNDO to submit a strategic plan for its phased deployment of the Securing the Cities initiative. This plan shall: (1) prioritize the cities that will be covered by the program; (2) lay out decisions on which routes will be covered; (3) address whether decoy detection systems would benefit the public good; (4) indicate what level of detection infrastructure is planned in each city; (5) address whether any given deployment has a reasonable chance of success; and (6) establish a five year projected cost estimate for this initiative. In addition, DNDO shall enter into a memorandum of understanding with any city receiving resources from the Securing the Cities initiative. This memorandum shall outline the duties expected of DNDO and the city over the foreseeable future as well as the annual resources requirements each must meet to fully implement this initiative.

The Committees on Appropriations concur with the House report directing DNDO to report on its assessment of radiation detection technologies that could be used in rail yards, at non-ports of entry land border crossings, at general aviation airports, and with small maritime craft. DNDO shall brief the Committees on Appropriations quarterly on the progress it has made in identifying the necessary architecture, the strengths and weakness of these technologies, and a timetable to develop and deploy these technologies.

The Committees on Appropriations agree with the Senate report encouraging DNDO to place its screening equipment according to threat and risk rather than ease of screening and measurement. Further, DNDO is directed to continue to keep the Committees on Appropriations informed of its efforts to fully cover all high risk pathways into the United States and how it is using intelligence to drive investments in its global nuclear detection architecture.

DNDO shall work with U.S. Customs and Border Protection (CBP) to initiate two pilots of radiation portal monitors within the air port of entry environment for screening individuals and their baggage for radioactive materials. The pilots should include a detailed concept of operations. DNDO and CBP are directed to brief the Committees on Appropriations on the status of the development efforts.

ASSESSMENTS

The Committees on Appropriations provide $37,500,000 for assessments instead of $32,000,000 as proposed by the House and the Senate. Within the funding provided, $5,500,000 is to enhance detection links between seaports and railroads at a test center in Tacoma, Washington as authorized by the SAFE Port Act, as proposed by the Senate.

RED TEAMING

DNDO is directed to brief the Committees on Appropriations on red team exercises it has conducted, any vulnerabilities identified, and any changes that are being made to the system to address these vulnerabilities. The first briefing shall be within 120 days after enactment of this Act.

SYSTEMS ACQUISITION

The amended bill provides $129,750,000 for Systems Acquisition instead of $171,500,000 as proposed by the House and $139,000,000 as proposed by the Senate. The following table specifies funding by budget activity:

Radiation Portal Monitor Program	$90,000,000
Securing the Cities	30,000,000
Human Portal Radiation Detection Systems Program	9,750,000
Total	$129,750,000

RADIATION PORTAL MONITOR PROGRAM

The Committees on Appropriations provide $90,000,000 for the radiation portal monitor program instead of $171,500,000 as proposed by the House and $139,000,000 as proposed by the Senate. Within this appropriation, full funding has been provided for DNDO's effort to: procure and deploy additional polyvinyl toluene (PVT) based fixed radiation portal monitors (RPMs) to all remaining northern border sites by calendar year 2009, deploy PVT units in the air cargo environment, upgrade and deploy the 45 low rate initial production Advanced Spectroscopic Portal (ASPs) units, and support field validation for ASPs to determine that these systems meet CBP's functionality requirements.

As of November 15, 2007, 100-percent of all containerized cargo is being screened by RPMs at the southern border. However, the Committees on Appropriations remain deeply concerned about the Department's ability to detect non-containerized illicit radioactive materials entering the nation. Since the President's budget submission in February 2007, Congress has appropriated $100,000,000 in unrequested emergency resources to speed placement of fixed radiation detectors at ports of entry (POE). Unfortunately, these resources, as well as prior year appropriations of $64,330,000, remain largely unspent due to additional development required of the ASP monitors and additional evaluation to determine if ASP monitors are significantly more effective than currently deployed technologies. To date, the Committees on Appropriations have not received a certification from the Secretary that the ASP monitors perform more effectively in an operational environment compared to current generation portal monitors. Therefore, limited funding is provided for ASP in fiscal year 2008. The Committees on Appropriations direct $147,000,000, from supplemental funds provided in fiscal year 2007 and annual appropriations provided in fiscal year 2008, be utilized to accelerate the procurement and deployment of PVTs to complete deployment of these systems at all remaining northern border sites. While the current generation technologies may not have the expected capabilities of ASP systems, they are substantially less expensive, proven to work within known limits, and can be quickly deployed to POEs.

The Committees on Appropriations appreciate the difficulties the Secretary faces in certifying the ASP systems and provide sufficient resources to allow DNDO to enter into an agreement with the National Academy of Sciences (NAS) to assist the Secretary in his certification decisions. NAS will help validate testing completed to date, provide support for future testing, assess the costs and benefits of this technology, and bring robustness and scientific rigor to the procurement process. As in prior fiscal years, the Committees on Appropriations include a prohibition of full scale procurement of ASP systems until the Secretary has certified and reported to the Committees that a significant increase in operational effectiveness merits such a decision. However, the amended bill also requires separate and distinct certifications for primary and secondary deployments in recognition of the inherently unique operational requirements each presents. The amended bill also prohibits high-risk concurrent development and production of mutually dependent software and hardware components of detection systems. This restriction is included to address the acquisition and fiscal risks associated with such concurrency and in response to the testing difficulties DNDO has encountered over the last fiscal year.

TITLE V—GENERAL PROVISIONS

Section 501. The amended bill continues a provision proposed by the House and Senate that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. The amended bill continues a provision proposed by the House that unexpended balances of prior appropriations may be merged with new appropriations accounts and used for the same purpose, subject to reprogramming guidelines.

Section 503. The amended bill continues and modifies a provision proposed by the House and Senate that provides authority to reprogram appropriations within an account and to transfer up to 5 percent between appropriations accounts with 15-day advance notification of the Committees on Appropriations. Modifications adopted include in (1) adding "project" or "activity"; and in (2) adding "office". A detailed funding table identifying each congressional control level for reprogramming purposes is included at the end of this statement. These reprogramming guidelines shall be complied with by all agencies funded by the Department of Homeland Security Appropriations Act, 2008.

The Committees on Appropriations expect the Department to submit reprogramming requests on a timely basis, and to provide complete explanations of the reallocations proposed, including detailed justifications of the increases and offsets, and any specific impact the proposed changes will have on the budget request for the following fiscal year and future-year appropriations requirements. Each request submitted to the Committees should include a detailed table showing the proposed revisions at the account, program, project, and activity level to the funding and staffing (full-time equivalent position) levels for the current fiscal year and to the levels requested in the President's budget for the following fiscal year.

The Committees on Appropriations expect the Department to manage its programs and activities within the levels appropriated. The Committees on Appropriations are concerned with the number of reprogramming proposals submitted for consideration by the Department and remind the Department that reprogramming or transfer requests should be submitted only in the case of an unforeseeable emergency or situation that could not have been predicted when formulating the budget request for the current fiscal year. When the Department submits a reprogramming or transfer request to the Committees on Appropriations and does not receive identical responses from the House and Senate, it is the responsibility of the Department to reconcile the House and Senate differences before proceeding, and if reconciliation is not possible, to consider the reprogramming or transfer request unapproved.

The Department is not to propose a reprogramming or transfer of funds after June 30 unless there are exceptional or extraordinary circumstances, such that lives or property are placed in imminent danger.

Section 504. The amended bill continues a provision proposed by the House and the Senate that none of the funds appropriated or otherwise available to the Department may be used to make payment to the Department's Working Capital Fund, except for activities and amounts allowed in the President's fiscal year 2008 budget, excluding sedan service, shuttle service, transit subsidy, mail operations, parking, and competitive sourcing. Any additional activities and amounts must be approved by the Committees on Appropriations 30 days in advance of obligation.

Section 505. The amended bill continues a provision proposed by the House and Senate that not to exceed 50 percent of unobligated balances remaining at the end of fiscal year 2008 from appropriations made for salaries and expenses shall remain available through fiscal year 2009 subject to reprogramming guidelines.

Section 506. The amended bill continues a provision proposed by the House and Senate deeming that funds for intelligence activities are specifically authorized during fiscal year 2008 until the enactment of an Act authorizing intelligence activities for fiscal year 2008.

Section 507. The amended bill continues a provision proposed by the House and Senate directing the Federal Law Enforcement Training Accreditation Board to lead the Federal law enforcement training accreditation process.

Section 508. The amended bill continues and modifies a provision proposed by the House and Senate requiring notification of the Committees on Appropriations three business days before any grant allocation, discretionary grant award, discretionary contract award, including Federal Acquisition Regulation-covered contracts, letter of intent, or public announcement of the intention to make such an award totaling in excess of $1,000,000. Additionally, the Federal Emergency Management Agency (FEMA) is required to brief the Committees on Appropriations five full business days prior to announcing publicly the intention to make an award of State Homeland Security grants, Urban Area Security Initiative grants, or Regional Catastrophic Preparedness Grants.

Section 509. The amended bill continues a provision proposed by the House and Senate that no agency shall purchase, construct, or lease additional facilities for Federal law enforcement training without advance approval of the Committees on Appropriations.

Section 510. The amended bill continues a provision proposed by the House and Senate that FLETC shall schedule basic and/or advanced law enforcement training at all four training facilities under its control to ensure that these training centers are operated at the highest capacity.

Section 511. The amended bill continues a provision proposed by the House that none of the funds may be used for any construction, repair, alteration, or acquisition project for which a prospectus, if required under chapter 33 of Title 40, United States Code, has not been approved. The amended bill excludes funds that may be required for development of a proposed prospectus. The Senate proposed similar language with a reference to the Public Buildings Act of 1959.

Section 512. The amended bill continues a provision proposed by the House and Senate that none of the funds may be used in contravention of the Buy American Act.

Section 513. The amended bill continues and modifies a provision proposed by the House and Senate to prohibit the obligation of funds for the Secure Flight program, except on a test basis, until the requirements of section 522 of Public Law 108-334 have been met and certified by the Secretary of DHS and reviewed by the Government Accountability Office (GAO). The Committees on Appropriations direct GAO to continue to evaluate DHS and Transportation Security Administration (TSA) actions to meet the ten conditions listed in section 522(a) of Public Law 108-334 and to report to the Committees on Appropriations, either incrementally as the Department meets additional conditions, or when all conditions have been met by the Department. The amended bill also prohibits the obligation of funds to develop or test algorithms assigning risk to passengers not on government watch lists and for a commercial database that is obtained from or remains under the control of a non-federal entity, excluding Passenger Name Record data obtained from air carriers. Within 90 days after enactment of this Act, TSA shall submit a detailed plan on achieving key milestones, as well as certification of this program.

Section 514. The amended bill continues a provision proposed by the Senate prohibiting funds to be used to amend the oath of allegiance required by section 337 of the Immigration and Nationality Act (8 U.S.C. 1448). The House bill contained no similar provision.

Section 515. The amended bill continues a provision proposed by the House and Senate regarding competitive sourcing.

Section 516. The amended bill continues and modifies a provision proposed by the House and Senate regarding the reimbursement to the Secret Service for the cost of protective services for the head of a Federal agency other than the Secretary of Homeland Security. The provision allows the Secret Service to seek reimbursement for the cost of such protective services.

Section 517. The amended bill continues and modifies a provision proposed by the Senate that allows the Director of the Secret Service to enter into an agreement to perform protection of a Federal officer, other than a person granted such protection by law, on a fully reimbursable basis. The House bill contained no similar provision.

Section 518. The amended bill continues and modifies a provision proposed by the House and the Senate directing TSA to research, develop, and procure new technologies to inspect and screen air cargo. In the interim, TSA shall utilize existing checked baggage explosive detection equipment and screeners to screen cargo on passenger aircraft when practicable. New language is included that requires TSA to work with air carriers and airports to ensure the screening of cargo carried on passenger aircraft, as required by the 9/11 Act, increases incrementally each quarter. TSA is required to report air cargo inspection statistics detailing how incremental progress is being made to the Committees on Appropriations within 45 days of the end of each quarter of the fiscal year.

Section 519. The amended bill continues a provision proposed by the House and Senate directing that only the Privacy Officer, appointed pursuant to section 222 of the Homeland Security Act of 2002, may alter, direct that changes be made to, delay or prohibit the transmission of a Privacy Officer report to Congress.

Section 520. The amended bill continues a provision proposed by the House and Senate prohibiting the use of funds made available in this Act to pay the salary of any employee serving as a contracting officer's technical representative (COTR), or acting in a similar capacity, who has not received COTR training.

Section 521. The amended bill continues a provision proposed by the House directing that any funds appropriated or transferred to TSA "Aviation Security", "Administration" and "Transportation Security Support" in fiscal years 2004, 2005, 2006, and 2007 that are recovered or deobligated shall be available only for procurement and installation of explosives detection systems, for air cargo, baggage, and checkpoint screening systems, subject to notification. Quarterly reports must be submitted identifying any funds that are recovered or deobligated. The Senate bill contained similar language without a reporting requirement.

Section 522. The amended bill continues a provision proposed by the Senate continuing Section 525(d) of Public Law 109-295 pertaining to Sensitive Security Information (SSI) through fiscal year 2008. The House bill modified the SSI provision contained in Section 525 of Public Law 109-295.

Section 523. The amended bill includes a provision proposed by the Senate requiring any funds appropriated to Coast Guard for 110-123 foot patrol boat conversions that are recovered, collected, or otherwise received as a result of negotiation, mediation, or litigation, shall be available until expended for the replacement patrol boat program. The House bill contained no similar provision.

Section 524. The amended bill continues a provision proposed by the House and Senate extending the authorization of the Department's Working Capital Fund in fiscal year 2008.

Section 525. The amended bill includes a new provision that prohibits obligation of funds provided in this Act to commence operations of the National Applications Office or the National Immigration Information Sharing Operation until the Secretary certifies that these programs comply with all existing laws and that certification is reviewed by GAO.

Section 526. The amended bill continues and modifies a provision proposed by the House and Senate requiring the Chief Financial Officer to submit monthly budget execution and staffing reports within 45 days after the close of each month. These reports are to include the number of contract employees by office as proposed by the Senate.

Section 527. The amended bill continues a provision as proposed by the House and the Senate relating to undercover investigative operations authority of the Secret Service.

Section 528. The amended bill continues a provision proposed by the House prohibiting the use of funds to contravene the Federal buildings performance and reporting requirements of Executive Order 13123, part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.), or subtitle A of title I of the Energy Policy Act of 2005. The Senate bill contained no similar provision.

Section 529. The amended bill continues a provision proposed by the House classifying the functions of instructor staff at FLETC as inherently governmental for purposes of the Federal Activities Inventory Reform Act of 1998. The Senate bill contained a similar provision.

Section 530. The amended bill includes a provision proposed by the House prohibiting the use of funds to contravene section 303 of the Energy Policy Act of 1992. The Senate bill contained no similar provision.

Section 531. The amended bill includes a provision proposed by the House prohibiting the use of funds in contravention of Executive Order 13149 relating to fleet and transportation efficiency. The Senate bill contained no similar provision.

Section 532. The amended bill continues and modifies a provision on Coast Guard contracting and the Integrated Deepwater Systems program as proposed by the House. The Senate bill contained no similar provision.

Section 533. The amended bill includes a new provision proposed by the House that prohibits the obligation of funds for the development, testing, deployment, or operation of any system related to MAX-HR or any subsequent, but related human resources management project, until pending litigation, legal claims or appeals have been fully resolved. The Senate bill contained no similar provision.

Section 534. The amended bill includes a new provision proposed by the Senate on preemption of state or local chemical facility security standards. The House bill contained a similar provision but also included information classification requirements.

Section 535. The amended bill includes and modifies a new provision proposed by the House that requires U.S. Customs and Border Protection (CBP) Officers to offer the ability to be classified as law enforcement officers. The Senate bill contained no similar provision.

Section 536. The amended bill continues and modifies a provision proposed by the House regarding the enforcement of section 4025(1) of Public Law 108-458 regarding butane lighters. The Senate bill contained no similar provision.

Section 537. The amended bill includes a provision proposed by the House and Senate prohibiting the Secretary of Homeland Secretary from altering or reducing Coast Guard's civil engineering program except as specifically authorized in statute after enactment of this Act.

Section 538. The amended bill includes a new provision reducing the cumulative amount provided to the Office of the Secretary and Executive Management and the Office of the Under Secretary for Management by $5,000,000 to reflect management efficiencies. The Secretary shall notify the Committees on Appropriations within 30 days of the date of enactment of this Act regarding the spread of these efficiency savings by account and within the account, by program, project and activity detailed in the table located in the back of the explanatory statement.

Section 539. The amended bill includes a new provision proposed by the House prohibiting the obligation of funds to the Office of the Secretary and Executive Management, the Office of the Under Secretary for Management, and the Office of the Chief Financial Officer for grants or contracts awarded by any means other than full and open competition. Certain exceptions apply. The amended bill also requires the Inspector General to review Departmental contracts awarded noncompetitively and report on the results to the Committees on Appropriations. The Senate bill contained a similar provision.

Section 540. The amended bill includes a new provision proposed by the House that permits one time judicial review of the aviation security and infrastructure fee and limits those amounts made available by the authority in the Department of Homeland Security Appropriations Act for Fiscal Year 2005 (Public Law 108–334). The Senate bill contained no similar provision.

Section 541. The amended bill includes and modifies a new provision proposed by the House that prohibits funding for any position designated as a Principal Federal Official (PFO) during a Stafford Act declared disaster or emergency. This prohibition shall apply to PFOs, successors to that position, and any similar position created by the Department. The Committees on Appropriations are concerned that the Department has not defined a clear role for the PFO and that the position conflicts with the Federal Coordinating Official's (FCO) role during Presidentially-declared disasters and emergencies. States and emergency management organizations have also expressed concern that use of both an FCO and PFO lead to confusion in the field following disasters and undermines FEMA's emergency management role. The Committees on Appropriations understand from the Department that there may be instances in which FEMA should not be the lead agency in charge of response, such as a pandemic outbreak or an Olympic event, and therefore limit the prohibition to Presidentially-declared disasters or emergencies that require Stafford Act assistance. The prohibition also does not apply to major non-Stafford Act responses that may include a Stafford Act component. In instances when a PFO is designated, the Department is expected to work with State and local governments and other Federal partners to clearly define the role of the PFO and ensure there is no conflict with the well-tested role of the FCO. The Department must work with all homeland security partners to achieve common understanding regarding incident management. The Senate bill contained no similar provision.

Section 542. The amended bill includes a new provision proposed by the House regarding the collection of airport security badges. The Senate bill contained no similar provision.

Section 543. The amended bill includes and modifies a new provision proposed by the House prohibiting funding to grant an immigration benefit to any individual unless the results of background checks required in statute to be completed prior to the grant of the benefit have been received by DHS. The Senate bill contained no similar provision.

Section 544. The amended bill includes a new provision proposed by the Senate prohibiting use of funds to destroy or put out to pasture any horse or other equine belonging to the Federal government unless adoption has been offered first. The House bill contained a similar provision.

Section 545. The amended bill includes a new provision proposed by the Senate that extends the implementation deadline for the Western Hemisphere Travel Initiative (WHTI) to June 1, 2009, or three months after the Department of State and DHS certification occurs, whichever is later. The House bill contained a provision that prohibited funds to be used to implement any plan for WHTI before June 1, 2009.

Section 546. The amended bill includes a provision proposed by the House and Senate that precludes DHS from using funds in this Act to carry out reorganization authority.

Section 547. The amended bill includes and modifies a new provision proposed by the Senate regarding the use of the National Center for Critical Information Processing and Storage data center. The House bill contained no similar provision.

Senate 548. The amended bill includes a new provision as proposed by the Senate that prohibits funds from being used to reduce the Coast Guard's Operations Systems Center mission or its government-employed or contract staff. The House bill contained no similar provision.

Section 549. The amended bill includes a new provision prohibiting funds to be used to conduct or implement the results of a competition under Office of Management and Budget Circular A–76 with respect to the Coast Guard National Vessel Documentation Center.

Section 550. The amended bill includes a new provision as proposed by the Senate that permits TSA to transfer up to $24,000,000 from prior year balances to the Secure Flight program after the Committees on Appropriations receive and approve an expenditure plan for such funds. Bill language specifies programs that may not be utilized. The House bill contained no similar provision.

Section 551. The amended bill includes and modifies a provision that rescinds $59,286,537 from unobligated balances of funds transferred to DHS when it was created in 2003 instead of $55,273,000 as rescinded in the House bill and $45,000,000 as rescinded in the Senate bill. Language is included that specifies which accounts cannot be rescinded. In addition, new language is included that rescinds a total of $28,833,463 in unobligated balances made available pursuant to Section 505 of Public Law 109–295, rescinds $8,480,000 from the Counterterrorism Fund, and $4,500,000 from TSA's expenses account. The majority of these rescissions were included as part of the budget amendment submitted by the President on November 6, 2007.

Section 552. The amended bill includes and modifies a provision proposed by the Senate related to disaster assistance for educational agencies. Educational agencies include only those that provide for kindergarten through 12th grade. The Committees on Appropriations require FEMA to provide this assistance within 30 days of a request. The House bill contained no similar provision.

Section 553. The amended bill includes a new provision proposed by the Senate making technical corrections to existing law to make border passages or tunnels a criminal offense. The House bill contained no similar provision.

Section 554. The amended bill includes a new provision proposed by the Senate pertaining to sexual abuse of individuals held in custody at the direction of the Federal government. The House bill contained no similar provision.

Section 555. The amended bill includes a new provision proposed by the Senate requiring the Secretary to establish and maintain a direct link to the DHS Office of Inspector General on the DHS website. The House bill contained no similar provision.

Section 556. The amended bill includes a new provision proposed by the Senate that requires the Secretary to link all contracts that provide award fees to successful acquisition outcomes. The House bill contained no similar provision.

Section 557. The amended bill includes a new provision proposed by the Senate prohibiting the obligation of funds for the Office of Secretary and Executive Management for any new hires at DHS if they are not verified through the basic pilot program of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.

Section 558. The amended bill continues language contained in Public Law 109–295 related to prescription drugs. The Senate bill modified this language. The House bill contained no similar provision.

Section 559. The amended bill includes a new provision proposed by the Senate prohibiting funds available in this Act from being used to implement a rule or regulation which implements the notice of proposed rulemaking related to Petitions for Aliens to Perform Temporary Nonagricultural Services or Labor (H–2B) set out beginning on 70 Federal Register 3984 (January 27, 2005). The House bill contained no similar provision.

Section 560. The amended bill includes a new provision regarding FEMA assistance provided for DR–845.

Section 561. The amended bill includes a modified provision proposed by the Senate regarding FEMA assistance for Hurricane Rita. The House bill contained no similar provision.

Section 562. The amended bill includes a new provision regarding FEMA assistance for Super Typhoon Paka and the Malojloj hardfill fire.

Section 563. The amended bill includes and modifies a new provision proposed by the Senate regarding the secure handling of ammonium nitrate. The Senate bill language has been modified at the request of the authorizing committees. The House bill contained no similar provision.

Section 564. The amended bill includes and modifies a new provision proposed by the Senate to amend the Secure Fence Act of 2006, requiring the Secretary to complete construction of 370 miles of fencing, or other mileage as determined by the Secretary, on the Southwest border by December 31, 2008, and requiring the Secretary to consult with Federal agencies, State and local governments, and property owners on such construction to minimize adverse impacts on the environment and local communities. No funds provided in this Act for Border Security Fencing, Infrastructure, and Technology may be obligated unless the Secretary complies with the consultation requirement.

Section 565. The amended bill includes a new provision proposed by the Senate that establishes an international registered traveler program, sets dates for rulemaking and implementation activities, and authorizes the collection of fees to support this program. The House bill contained no similar provision.

Section 566. The amended bill includes a new provision proposed by the Senate requiring GAO to study DHS's use of shared border management.

Section 567. The amended bill includes a new provision proposed by the Senate prohibiting funds for planning, testing, piloting or developing a national identification card. The House bill contained no similar provision.

Section 568. The amended bill includes a new provision proposed by the Senate repealing TSA's acquisition management system within 180 days after enactment, thereby making TSA subject to the Federal Acquisition Regulation. The House bill contained no similar provision.

Section 569. The amended bill includes a new provision proposed by the Senate requiring FEMA to report on damage assessment information used to determine if a disaster should be declared and requiring this report to be placed on FEMA's website unless it compromises national security. The House bill contained no similar provision.

Section 570. The amended bill includes a new provision proposed by the Senate that allows the Mineta Transportation Institute to be included as a member of the National Transportation Security Center of Excellence. The House bill contained no similar provision.

Section 571. The amended bill includes a new provision on the TSA's registered traveler program.

Section 572. The amended bill includes a new provision extending other transactional authority of DHS through fiscal year 2008.

Section 573. The amended bill includes a new provision rescinding and reappropriating funds previously allocated to the State of Mississippi.

PROVISIONS NOT ADOPTED

The amended bill does not include section 516 of the House bill pertaining to the amount of air cargo screened. The Committees on Appropriations note that the 9/11 Act, which was signed into law after the House passed its version of the bill, include air cargo screening requirements.

The amended bill does not include section 523 of the House bill and section 525 of the Senate bill pertaining to the Disaster Relief report. These provisions are addressed in the amended bill and the explanatory statement under FEMA.

The amended bill does not include section 536 of the House bill prohibiting funds in this Act for a grant or a contract that does not comply with Davis Bacon, with an exception for national emergencies.

The amended bill does not include section 545 of the House bill pertaining to critical infrastructure vulnerability. This provision is addressed in the explanatory statement under the National Protection and Programs Directorate (NPPD).

The amended bill does not include section 547 of the House bill relating to a limitation on funds to be used in contravention of section 642(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.

The amended bill does not include section 548 of the House bill and section 572 of the Senate bill pertaining to firefighter assistance grants. These provisions are addressed in the explanatory statement under FEMA.

The amended bill does not include section 538 of the Senate bill pertaining to the development of a plan to control and manage Carrizo cane. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 544 of the Senate bill prohibiting the use of funds to remove offenses from the list of criminal offenses disqualifying individuals from receiving a Transportation Worker Identification Credential. The Committees on Appropriations note that the 9/11 Act, which was signed into law after the House and Senate passed their versions of the bills, specifically provides authority for the Secretary to modify the list of offenses by rulemaking. TSA believes that the public will be more fairly served if disqualifying offenses are determined based on considered analysis using threat and intelligence information as to an offense's relationship to terrorism.

The amended bill does not include section 546 of the Senate bill requiring the President to ensure operational control of all international land and maritime borders is achieved and to report every 90 days. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 547 of the Senate bill relating to funding to ensure State and local employers have access to the employment eligibility verification system. This provision is addressed in the explanatory statement under United States Citizenship and Immigration Services (USCIS).

The amended bill does not include section 549 of the Senate bill relating to the development of a national strategy for the use of closed circuit television systems. This provision is addressed in the explanatory statement under NPPD.

The amended bill does not include section 552 of the Senate bill relating to the 2010 Vancouver Olympic and Paralympic games. This provision is addressed in the explanatory statement under the Office of the Secretary and Executive Management.

The amended bill does not include section 554 of the Senate bill relating to grants and contracting systems accountability. This provision is addressed in the explanatory statement under FEMA.

The amended bill does not include section 557 of the Senate bill relating to a report on the performance and standards system of TSA. This provision is addressed in the explanatory statement under TSA.

The amended bill does not include section 559 of the Senate bill pertaining to the authorized level for the border law enforcement relief grant program.

The amended bill does not include section 560 of the Senate bill pertaining to a GAO study on the cost of fencing on the southern border. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 561 of the Senate bill comprising a sense of the Senate on border security and immigration reforms. This provision is addressed in the explanatory statement under U.S. Immigration and Customs Enforcement.

The amended bill does not include section 562 of the Senate bill requiring CBP to report on the training its personnel receive to effectively assist the Food and Drug Administration in monitoring our Nation's food supply. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 563 of the Senate bill regarding the voluntary emergency services program. This provision is addressed in the explanatory statement under TSA.

The amended bill does not include section 564 of the Senate bill prohibiting funds appropriated or otherwise made available in this Act to be used to enter into a contract greater than $5,000,000 or to award a grant in excess of such amount unless the prospective contractor or grantee certifies in writing that they owe no unpaid Federal tax assessments. The Committees on Appropriations are aware of a pending federal regulation to address this issue.

The amended bill does not include section 565 of the Senate bill regarding transportation facility access control programs in the State of Florida. This provision is addressed in the explanatory statement under TSA.

The amended bill does not include section 567 of the Senate bill amending the Federal Fire Prevention and Control Act of 1974 to clarify fire prevention programs include planning and preparation activities. This provision is addressed in the explanatory statement under FEMA.

The amended bill does not include section 568 of the Senate bill on the need to increase CBP officers and agents on the Northern Border. This provision is addressed in the explanatory statement under CBP.

The amended bill does not include section 569 of the Senate bill requiring the Secretary to study areas along the international borders to determine where Federal and state law enforcement officers are unable to achieve adequate radio communication and develop a plan to enhance these capabilities. This provision is addressed in the explanatory statement under the Office of the Secretary and Executive Management.

The amended bill does not include section 570 of the Senate bill requiring USCIS to provide not less than $1,000,000 for fraud risk assessment relating to the H–1B visa program. This provision is addressed in the explanatory statement under USCIS.

The amended bill does not include section 571 of the Senate bill requiring a report on interagency operational centers for port security. This provision is addressed in the explanatory statement under Coast Guard.

The amended bill does not include section 574 of the Senate bill requiring GAO to report on UASI regions and ways to better facilitate a regional approach. This provision is addressed in the explanatory statement under FEMA.

The amended bill does not include section 575 of the Senate bill permitting funds to be used for temporary employment of professional staff relating to assistance for Greensburg, Kansas. This provision is addressed within another division of this amended bill.

The amended bill does not include section 578 of the Senate bill providing $100,000,000 to State and local law enforcement entities for security associated with the national party conventions in Denver and St. Paul. This funding is provided within another division of this amended bill.

TITLE VI—BORDER INFRASTRUCTURE AND TECHNOLOGY MODERNIZATION

The amended bill includes and modifies the "Border Infrastructure and Technology Modernization" title of the Senate bill. The House bill contained no similar matter.

BORDER LAW ENFORCEMENT RELIEF ACT

The amended bill does not include Title VI of the Senate bill, "Border Law Enforcement Relief Act." The House bill contained no similar matter. These matters are addressed in Titles I–IV of the amended bill and the accompanying explanatory statement.

DIVISION B—BORDER SECURITY

TITLE X—BORDER SECURITY REQUIREMENTS

The amended bill does not include Title X of the Senate bill, "Border Security Requirements." The House bill contained no similar matter. The amended bill includes $3,000,000,000 of emergency funding for border security requirements. These matters are addressed in Titles I–IV and other Divisions of the amended bill and the accompanying explanatory statement.

DISCLOSURE OF EARMARKS AND CONGRESSIONAL DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in the House or Senate versions of H.R. 2638 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DEPARTMENT OF HOMELAND SECURITY

Account	Project	Funding	Member
CIO	National Center for Critical Information Processing and Storage new construction, MS	$35,500,000	Thad Cochran

AMENDED BILL TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for fiscal year 2008 provided in the amended bill, with comparisons to the fiscal year 2007 amount, the 2008 budget estimates, and the House and Senate bills for 2008 follow;

[In thousands of dollars]

New budget (obligational) authority, fiscal year 2007	$40,307.323
Budget estimates of new (obligational) authority, fiscal year 2008	35,497,333
House bill, fiscal year 2008	37,446,480
Senate bill, fiscal year 2008	40,623,434
Amended bill, fiscal year 2008	38,746,643
Amended bill compared with:	
New budget (obligational) authority, fiscal year 2007	−1,560,680
Budget estimates of new (obligational) authority, fiscal year 2008	+3,249,310
House bill, fiscal year 2008	+1,300,163
Senate bill, fiscal year 2008	−1,876,791

DIVISION F—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this Division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Interior, Environment and Related Agencies Appropriations Act, 2008 (H.R. 2643 and S. 1696) passed by the House of Representatives and reported by the Senate Appropriations Committee.

A detailed table has been included at the end of the Division F portion of this statement showing amounts agreed to by activity and sub-activity. The House and Senate Appropriations Committees note that this statement remains silent on many directives or instructions which were included in the House Report (H. Rpt. 110-187) or the Senate Report (S. Rpt. 110-91) accompanying this bill. The House or Senate report language that is not changed by this statement should be treated as approved when administering the appropriations included in this Division.

REPROGRAMMING GUIDELINES

The House and Senate Appropriations Committees have agreed to the updated reprogramming guidelines for agencies funded by Division F of this amended bill as recommended by the House and set out in H. Rept. 110-187 (pages 190-191). The changes agreed to principally update thresholds for reprogramming from $500,000 to $1,000,000 and provide for procedural simplifications. Nothing in these changes alters the requirement that any use of eminent domain or condemnation authorities must be approved in statute.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The amended bill provides $867,463,000 for management of lands and resources instead of $888,628,000 as proposed by the House and $902,883,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. Specific changes to the House or Senate recommendations are provided below.

The amended bill provides an increase $5,000,000 above the request for the National Landscape Conservation System (NLCS), instead of $10,000,000 as proposed by the House and $8,000,000 as proposed by the Senate. The Appropriations Committees direct the Bureau to present line item program elements for National Monuments, National Conservation Areas, and National Scenic and Historic Trails in future budget justifications. To further ensure fiscal accountability, the Committees direct the BLM to present annual NLCS expenditure and outcome reports which break out expenditures by unit and subactivity no later than December 31 of the subsequent fiscal year.

The Healthy Lands Initiative (HLI) is funded with $5,000,000 instead of $15,000,000 as proposed by the House and $6,000,000 as proposed by the Senate. The Committees are encouraged that the BLM intends to leverage millions of dollars in partnership funds and looks forward to an accounting of the partner contributions in next year's annual performance report.

The increases for the NLCS and the HLI are to be allocated as specified in the following table:

	NLCS.	HLI.
Soil, Water, and Air Management	$200,000	
Range Management	300,000	2,500,000
Forestry Management	125,000	
Riparian Management	200,000	500,000
Cultural Resources Management	350,000	
Wildlife Management	225,000	1,500,000
Fisheries Management	100,000	500,000
Threatened & Endangered Species	225,000	
Wilderness Management	1,000,000	
Recreation Resources Management	1,350,000	
Resource Management Planning	225,000	
Resource Protection and Law Enforcement	150,000	
Operations	100,000	
Annual Maintenance	350,000	
Challenge Cost Share	100,000	
Total	5,000,000	5,000,000

Land Resources.—As described by the Senate, $1,000,000 is provided for abandoned mine reclamation in California and $1,000,000 is provided for the Idaho Department of Agriculture weed control project. The Appropriations Committees urge the Bureau to maintain its wild horse and burro management program at current levels. Specific funding recommended by the Senate for the slickspot peppergrass project in Idaho is not included, but the Committees do not oppose the Bureau providing funding for this effort if the project is needed to accomplish public land management goals.

Wildlife and Fisheries Management.—The Administration proposed reduction for the National Fish and Wildlife Foundation (NFWF) is countered with increases above the request of $575,000 in wildlife management and $75,000 in fisheries management. Bill language is included providing a total of $2,900,000 for the NFWF to use for activities benefitting the Bureau.

Recreation Management.—Recreation resources management funding includes an increase of $750,000 for National scenic and historic trails as described by the House and $750,000 for exhibits at the California National Historic Trail Center, NV, as described by the Senate.

Energy and Minerals.—The amended bill provides a total of $117,129,000 for oil and gas management instead of $112,129,000 recommended by the House and $119,318,000 as proposed by the Senate. This funding level is equal to the fiscal year 2007 level, and is $28,167,000 above the fiscal year 2006 funding. The amended bill modifies the House recommendation for a new cost recovery program for applications for permits to drill oil and gas wells (APD's). A similar program was requested by the Administration. The recommendation requires $4,000 for each application for a permit to drill, which is less than the actual cost to the BLM. The estimated $25,500,000 in revenues yielded will be used to offset appropriations for the oil and gas management activity. The Appropriations Committees expect that, given this new and additional cost to permittees, permits will be processed as efficiently as possible with a high level of public service, consistent with all applicable regulations and within the timeframes directed by existing law. Note that the President's budget for fiscal year 2008 had originally estimated an APD workload of 12,000 permits but now the Administration estimates that only 8,500 will be requested in fiscal year 2008.

The recommendation does not include the Administration request to amend the Energy Policy Act of 2005 to stop the use of $21,000,000 in mandatory funds for the pilot oil and gas permitting offices.

The amended bill does not agree that the Bureau should continue receiving the full requested $12,400,000 for Alaska North Slope activities, but does recognize the ongoing need for abandoned well remediation. Therefore, the recommendation includes $6,000,000 for North Slope activities in the oil and gas management activity, an increase of $6,000,000 from the fiscal 2006 level. Increases in the request for monitoring and enforcement are approved. Funds are not provided in this account for the oil and gas leasing internet pilot program but this effort is supported with funding provided in section 117. Wilderness and wilderness study areas should be very carefully examined and only used for oil and gas leasing when less sensitive lands are not available and when existing permitted areas are fully developed.

Realty Ownership and Management.—The Alaska conveyance program receives $36,922,000 instead of $33,922,000 proposed by the House and $39,972,000 proposed by the Senate. The cadastral survey program includes $250,000 for GIS mapping in Utah and $80,000 for Wyoming soil surveys.

Resource Protection and Maintenance.—The resource protection and law enforcement activity receives a $4,000,000 increase above the request to assist law enforcement needs in the vicinity of the southwestern border and as a general program increase.

CONSTRUCTION

The amended bill provides $6,476,000 for construction as proposed by the House instead of $11,476,000 as proposed by the Senate. The President's budget should be followed in allocating these funds.

LAND ACQUISITION

The amended bill provides $9,081,000 for land acquisition instead of $18,634,000 as proposed by the House and $12,206,000 as proposed by the Senate. Funds are to be distributed as follows:

State	Project description	Amount
MT	Blackfoot River SRMA	$500,000

State	Project description	Amount
CA	California Desert Wilderness	500,000
OR	Cascade-Siskiyou National Monument	875,000
CA	Coachella Valley ACEC	400,000
NM	El Malpais National Conservation Area	250,000
CO	Gunnison Gorge National Conservation Area	856,000
CA	Upper Sacramento River ACEC	1,250,000
ID	Upper Snake/South Fork River ACEC/SRMA	1,250,000
	Subtotal, Line Item Projects	5,881,000
	Acquisition Management	1,700,000
	Inholdings, Emergencies, and Hardships	1,500,000
	Total, BLM Land Acquisition	9,081,000

OREGON AND CALIFORNIA GRANT LANDS

The amended bill provides $110,242,000 for Oregon and California grant lands as proposed by both the House and the Senate.

FOREST ECOSYSTEM HEALTH AND RECOVERY FUND

(REVOLVING FUND, SPECIAL ACCOUNT)

The amended bill provides authorities for Forest Ecosystem Health and Recovery Fund as proposed by both the House and the Senate.

RANGE IMPROVEMENTS

The amended bill provides an indefinite appropriation for range improvements of not less than $10,000,000 as proposed by the both the House and the Senate.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The amended bill provides an indefinite appropriation for service charges, deposits, and forfeitures, which is estimated to be $25,905,000, as proposed by both the House and the Senate.

MISCELLANEOUS TRUST FUNDS

The amended bill provides an indefinite appropriation of $12,405,000 for miscellaneous trust funds as proposed by both the House and the Senate.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $820,878,000 for wildland fire management instead of $806,644,000 as proposed by the House and $829,524,000 as proposed the Senate. The amended bill includes the House and Senate recommendations unless contradicted by the discussion below.

Funds are to be distributed as follows:

Program	*Amount*
Preparedness	$280,863,000
Fire suppression operations	294,398,000
Hazardous fuels	202,792,000
Burned area rehabilitation	24,591,000
Fire facilities	6,234,000
Joint fire science	6,000,000
Rural fire assistance	6,000,000
Total	820,878,000

Bill Language.—Senate proposed items are included dealing with authority for rural fire assistance, certain leases of real property with local governments, and inter-departmental transfers with the Forest Service of up to $10,000,000 for jointly funded wildland fire management programs and projects. A minor technical correction to the emergency suppression funding language provided in P.L. 110–116 is included; this correction allows repayment of funds borrowed within this appropriation account at the Department of the Interior.

Preparedness.—The Appropriations Committees remain dissatisfied that the Department of the Interior and the Forest Service have failed to produce and deploy the Fire Program Analysis system as an urgently needed fire preparedness planning tool so the House and Senate direction should be followed.

Fire Suppression Operations.—The amended bill includes $294,398,000 for suppression operations as proposed by both the House and the Senate. This provides the full amount of the ten-year average cost of wildfire suppression increased for inflation, an increase of $45,213,000 above the fiscal year 2007 funding level. Note that Title V includes $78,000,000 in emergency funds in case next season has extreme needs beyond the increased funding provided herein.

Hazardous fuels.—The amended bill provides an increase of $3,005,000 over the fiscal year 2007 level. The joint report with the Forest Service on hazardous fuels funding allocations is required as directed by the House and should be delivered 120 days after enactment.

Burned Area Rehabilitation.—The Department of the Interior and the Forest Service should provide a detailed accomplishment report 120 days after enactment of this Act, including a plan of future work, for the native plant materials program. The House recommendation restricting reprogramming of rehabilitation funds need not be followed.

Fire Facilities.—Funding is included to conduct all but the lowest Administration priority project. The House recommendation to request fire facilities funds in the various bureau construction accounts need not be followed.

ADMINISTRATIVE PROVISIONS

The amended bill includes the House proposed language concerning enterprise information technology procurements.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

The amended bill provides $1,099,772,000 for resource management instead of $1,104,572,000 as proposed by the House and $1,079,772,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

Ecological Services.—The amended bill provides $267,570,000 for Ecological Services instead of $266,370,000 as proposed by the House and $270,870,000 as proposed by the Senate.

The amended bill moves $3,000,000 from the critical habitat program to the listing program and has limited the total amount of funding that can be spent on critical habitat to $9,926,000.

The amount provided for candidate conservation includes $250,000 for the Idaho Office of Species Conservation sage grouse project.

The amount provided for recovery includes increases above the request of $1,500,000 for Pacific salmon grants with the National Fish and Wildlife Foundation; $400,000 for work on California Condor and Aplomado falcon recovery; $250,000 for the Lahont cutthroat trout; $250,000 for wolf monitoring in Idaho, Montana and Wyoming; and $200,000 for the White Sulphur Springs National Fish Hatchery for freshwater mussel recovery.

Funding provided for the Aplomado falcon and California condor recovery is in addition to the base funding included in the Service's budget.

The amount provided for habitat conservation includes $50,829,000 for partners for fish and wildlife; $31,961,000 for project planning; $14,277,000 for coastal programs; and $5,338,000 for the National wetlands inventory.

The amount provided for partners for fish and wildlife include $1,000,000 for general program activities; $350,000 for the Hawaii Invasive Species Council; $350,000 for the Mississippi State University Natural Resources Economic Enterprises program; $375,000 for the Nevada Biological Research Center; and $1,000,000 to complete the spartina grass eradication project at Willapa National Wildlife Refuge. The Healthy Lands/Green River Basin initiative is reduced by $500,000 below the request.

The amount provided for project planning includes $500,000 for general program activities and $275,000 for the Middle Rio Grande Bosque program.

The amount provided for coastal programs includes $1,000,000 for general program activities. The Service should use this increase for base programs and continue to update and transform the Coastal Barrier Resource Act maps to digital format.

The amount provided for the national wetlands inventory should be used to provide for general program activities and to respond to increased demand for wetland inventory maps due to climate change management.

In addition to other established methods, the Service is encouraged to utilize biological pattern recognition technology where appropriate for tagging threatened or endangered fish and animal species.

The Service is encouraged to continue efforts to implement the snakehead management plan and the brown bullhead catfish cancer study in the Potomac River.

National Wildlife Refuge System.—The amended bill provides $441,004,000 for the National Wildlife Refuge System instead of $451,004,000 as proposed by the House and $413,804,000 as proposed by the Senate. Within the amount provided for the National Wildlife Refuge System, $301,335,000 is for operations and $139,669,000 is for maintenance.

The increase includes $25,000,000 for wildlife and habitat; $7,200,000 for visitor services; $5,000,000 for refuge law enforcement; $1,000,000 for the invasive species eradication with volunteers program; $1,000,000 for continued work on comprehensive conservation plans; and $1,000,000 for the Refuge System volunteer program. The amended bill includes $1,000,000 for spartina grass eradication at Willapa National Wildlife Refuge but funding for this program is moved to the Partners for Fish and Wildlife program.

The increased funding for refuge operations should be used to re-establish basic operating capacity and staffing shortfalls at all refuges nationwide. In addition, these funds should be used to begin to alleviate the shortfalls identified in the refuge workforce plans and should be distributed outside the Refuge Operations Needs System (RONS) and other traditional allocation formulas.

The Refuge System is directed to report to the House and Senate Committees on Appropriations on the planned allocation and expenditure of the increased funding within 60 days of enactment of this bill.

The amount provided for refuge maintenance includes increases of $3,000,000 for annual maintenance and $3,000,000 for maintenance support.

Migratory Birds and Law Enforcement.—The amended bill includes $101,667,000 for migratory birds and law enforcement as proposed by the House instead of $102,167,000 as proposed by the Senate. Within the amount provided for migratory birds and law enforcement, $41,082,000 is for the migratory bird management program and $60,585,000 is for the law enforcement program.

The Service's law enforcement program is vital to protecting wildlife populations worldwide and the Service is directed to increase the number of special agents nationwide and to re-establish the special operations unit.

Fisheries and Aquatic Restoration.—The amended bill includes $128,504,000 for fisheries and aquatic restoration instead of $126,254,000 as proposed by the House and $130,004,000 as proposed by the Senate. Within the amount provided for fisheries and aquatic restoration, $46,647,000 is for national fish hatchery operations; $18,855,000 is for national fish hatchery maintenance and equipment; $54,572,000 is for aquatic habitat and species conservation; $5,407,000 is for aquatic invasive species; and $3,023,000 is for marine mammals.

The amount provided for aquatic habitat and species conservation includes $500,000 for Great Lakes Fish and Wildlife restoration and $500,000 for Atlantic Salmon Penobscot River restoration activities.

General Administration.—The amount provided for general administration is $161,027,000 and follows the distribution in the House proposal with the following exceptions: $1,600,000 in additional funding is provided for the international affairs program and $150,000 is provided for the Caddo Lake Ramsar Center.

CONSTRUCTION

The amended bill provides $33,688,000 for construction instead of $31,653,000 as proposed by the House and $36,700,000 as proposed by the Senate. Funds are distributed as follows:

State	Project Description	Amount
IL	Crab Orchard NWR—Devils Kitchen Dam, Phase II	$2,000,000
CA	Don Edwards San Francisco Bay NWR—Salt Ponds	5,000,000
MI	Great Lakes Fisheries—Mass Marking Equipment	1,750,000
HI	Hakalau NWR—Fencing	900,000
WY	Jackson NFH—Seismic Rehabilitation	2,037,000
PI	Midway Atoll NWR	1,250,000
WV	Ohio River Islands NWR	1,000,000
GA	Okefenokee NWR—Repair Public Use Facility	600,000
MD	Patuxent Research Refuge—Safety Reconstruction	4,000,000
WV	White Sulphur Springs NFH—facility improvements	500,000
Mult	Office of Aircraft Services—Replace Survey Planes	500,000
	Subtotal, Line Item Projects	19,537,000
	Visitor Facility Enhancements—NWRs and NFHs	3,000,000
	Dam Safety and Inspections	700,000
	Bridge Safety Inspections	550,000
	Nationwide Engineering Services	9,901,000
	Total, FWS Construction	33,688,000

LAND ACQUISITION

The amended bill includes $35,144,000 for land acquisition instead of $43,046,000 as proposed by the House and $43,044,000 as proposed by the Senate. Funds are distributed as follows:

State	Project Description	Amount
VA	Back Bay NWR	$505,000
TX	Balcones Canyonlands NWR	275,000
MD	Blackwater NWR	400,000
WV	Canaan Valley NWR	1,500,000
NJ	Cape May NWR	500,000
KY	Clarks River NWR	500,000
SD, ND	Dakota Tallgrass Prairie WMA	325,000
IA	Driftless Area NWR	325,000
VA	Eastern Shore of Virginia NWR	1,600,000
NJ	Great Swamp NWR	1,200,000
CT, NJ, NY, PA	Highlands Conservation Act—easements	1,750,000
HI	James Campbell NWR	4,000,000
VA	James River NWR	1,600,000
TX	Lower Rio Grande Valley NWR	500,000
FL	National Key Deer NWR	1,044,000
MN, IA	Northern Tallgrass Prairie NWR	410,000
VA	Rappahannock River Valley NWR	460,000
LA	Red River NWR	500,000
RI	Rhode Island NWR Complex	500,000
MA, VT, NH, CT	Silvio Conte NWR	2,000,000
CT	Stewart B. McKinney NFWR	710,000
AK	Yukon Flats NWR—Doyon Land Exchange EIS	400,000
	Subtotal, Line Item Projects	21,004,000
	Acquisition Management	8,140,000
	Cost Allocation Methodology	1,500,000
	Exchanges	1,500,000
	Inholdings, Emergencies, and Hardships	3,000,000
	Total, FWS Acquisition	35,144,000

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

The amended bill includes $75,001,000 for the cooperative endangered species conservation fund instead of $80,001,000 as proposed by the Senate and $81,001,000 as proposed by the House. This includes the use of $5,000,000 in prior year balances from a project that is no longer needed for a total program level of $80,001,000. Funding for the Nez Perce/Snake River water settlement is included as proposed by the Senate.

NATIONAL WILDLIFE REFUGE FUND

The amended bill includes $14,202,000 for the National Wildlife Refuge Fund as proposed by both the House and Senate.

NORTH AMERICAN WETLANDS CONSERVATION FUND

The amended bill includes $42,646,000 as proposed by both the House and the Senate.

NEOTROPICAL MIGRATORY BIRD CONSERVATION

The amended bill includes $4,500,000 for the Neotropical migratory bird conservation fund instead of $5,000,000 as proposed by the House and $4,000,000 as proposed by the Senate.

MULTINATIONAL SPECIES CONSERVATION FUND

The amended bill includes $8,000,000 for the multinational species conservation fund as proposed by the Senate instead of $10,000,000 as proposed by the House. This provides $1,500,000 for African elephant conservation; $2,000,000 for rhinoceros and tiger conservation; $1,500,000 for Asian elephant conservation; $2,000,000 for great ape conservation; and $1,000,000 for marine turtle conservation.

STATE AND TRIBAL WILDLIFE GRANTS

The amended bill includes $75,000,000 for state and tribal wildlife grants instead of $85,000,000 as proposed by the House and $72,492,000 as proposed by the Senate. This amount includes $63,718,000 for state formula grants, $6,282,000 for tribal grants, and $5,000,000 for state competitive grants.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The amended bill provides $2,001,809,000 for operation of the National Parks instead of $2,047,809,000 as proposed by the House and instead of $1,958,687,000 as proposed by the Senate. The amended bill includes $88,122,000 for the U.S. Park Police within this amount, the same amount requested in the budget and approved by the House. The Senate had provided the same amount in a separate appropriations account for the Park Police.

The amended bill provides for an overall increase for Park Service operations of $153,387,000 over the amount available in fiscal year 2007. This amount fully funds all fixed costs, as requested in the budget, as well as the $100,000,000 requested to begin preparing the National Parks for the Centennial in 2016. The amount provided is $55,323,000 below the amount requested; $25,000,000 of this reduction has been used as an offset to provide interim funding of the new Centennial Challenge matching program described below. Reductions below the budget request should be allocated among initiatives proposed in the budget as determined by the Director after consultation with the Appropriations Committees.

In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Maintenance.—Within the amount provided for maintenance of park facilities and properties, the amended bill provides $50,000 for repairs at the Appomattox Courthouse NHP, $100,000 for the Booker T. Washington NM, and $200,000 to continue the multi-year historic landscaping project at Gettysburg NMP. No funding has been provided in fiscal year 2008 for the Hetch Hetchy study requested in the President's Budget.

Park Support.—In addition to the amounts requested in the budget, the amended bill provides $10,000,000 for the National Trail System as provided by the House and Senate. The amended bill also includes $1,500,000 for the National Wild and Scenic Rivers program instead of $2,000,000 as proposed by the House and $858,000 as proposed by the Senate. While the amended bill does not provide the $1,000,000 increase proposed by the House to expand the Park Service social science program, the Appropriations Committees believe that, within the large increase approved by the Congress, the Director should take steps to enhance the Service's capacity to analyze and understand variations in park use among different demographic groups. This effort will be critical as the Parks prepare for a new generation of users.

Funding for the National Underground Railroad program, the Brown v. Board of Education Foundation, and the Chesapeake Bay Gateways Network programs have been included in the National Recreation and Preservation account as proposed by the Senate rather than in this account as proposed by the House.

The Appropriations Committees are fully supportive of National Park Service financial contributions towards the Summer concerts series staged on the Capitol Grounds. Within the amounts approved for park support, the funding for this effort, which has not increased since 2003, is expected to be increased by $300,000.

Japanese American Confinement Sites Act.—Legislation passed at the end of the 109th Congress authorized a new program of grant support to preserve Japanese American World War II confinement sites through partnerships with local, regional and national groups and/or institutions for the purpose of identifying, researching, evaluating, interpreting, protecting, restoring, repairing, and acquiring historic confinement sites in order to educate and provide inspiration to present and future generations (P.L. 109–441). The Committees are pleased that the Park Service has initiated the planning process for implementing this legislation and direct that the Service submit a report on progress in implementing the law to the House and Senate Committees on Appropriations prior to the fiscal year 2009 appropriation hearings.

Staffing of National Park Service units in the Hawaiian Islands.—The House and Senate Appropriations Committees have been made aware of the Park Service efforts that have been undertaken with respect to staffing levels in the State of Hawaii. As such, staffing restrictions imposed in the Senate report are no longer necessary.

Public Lands Corps.—The amended bill does not include a specific set-aside of funds within the Park Service for the Public Lands Corps as proposed by the House. The Committees are fully supportive of the continuation of the Park Service partnership with the Public Lands Corps but do not believe a specific statutory allocation of funds is necessary.

CENTENNIAL CHALLENGE

The amended bill includes $25,000,000 for the Centennial Challenge program instead of $50,000,000 as proposed by the House. The Senate deferred consideration for this program when it reported its bill from Committee. These funds have been provided to initiate the new Centennial Challenge matching grant program which has been proposed as a ten-year effort to generate $2 billion for the renewal of the National Park system for its next century of service following its Centennial celebration in 2016. All funds must be matched on a 50/50 basis. The Appropriations Committees have agreed to these funds as interim funding to allow the program to commence in 2008. Funds will be administered under the existing challenge cost share program structure. The Appropriations Committees expect that permanent authorization will be enacted during the 110th Congress for the full ten-year program effort. In carrying out the interim program during fiscal year 2008, the Appropriations Committees expect the National Park Service to follow the guidelines for managing the Centennial Challenge program in House Report 110–187. These will ensure that projects are selected competitively and that they serve Park Service needs and priorities.

NATIONAL RECREATION AND PRESERVATION

The amended bill provides $68,481,000 for national recreation and preservation programs instead of $62,881,000 as proposed by the House and instead of $63,756,000 as proposed by the Senate. In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Preserve America.—The amended bill includes $7,500,000 for the Preserve America program under the National Recreation and Preservation appropriations account instead of $5,000,000 as proposed by the Senate. The House bill provided $10,000,000 for Preserve America under the Historic Preservation account.

Heritage Partnerships.—The amended bill provides $15,500,000 for the heritage partnerships program. The amended bill does not earmark specific amounts for the 37 existing individual heritage areas. The Park Service is continuing to develop new competitive criteria for the distribution of this funding and expects to make a formal proposal for a new system as part of the fiscal year 2009 budget. As an interim process, the Appropriations Committees have agreed that $13,000,000 of the funds provided for heritage partnership grants should be allocated in identical amounts to each grantee as was awarded by the Park Service competitive process in 2007. In addition $150,000 should be allocated to each of the 10 new heritage area partnerships authorized during the 109th Congress. The remaining $1,000,000 is provided to the Park Service to cover national and regional administrative costs of this labor-intensive program.

Cultural programs.—The amended bill includes $21,742,000 for cultural programs, the same level as provided by the House and the Senate. Within this total, $750,000 is provided for the National Underground Railroad program. The House bill provided $1,000,000 for this purpose under the Park service operations account.

Statutory and contractual aid.—The amended bill provides $7,600,000 for the statutory and contractual aid program as follows:

National Voting Rights Interpretive Center	$500,000
Angel Island Immigration Ctr	1,125,000
Brown V Bd of Education Fdn	300,000
SW Penn Heritage Presv. Comm	1,200,000
Chesapeake Bay Gateway Ntw	1,700,000
Crossroads of the West	300,000
Fort Mandan, Fort Lincoln	200,000
Jamestown 2007	200,000
Keeweenaw NHP Advisory Commission	200,000
Native Hawaiian Culture & Art	500,000
Yosemite Schools	125,000
Hudson-Fulton-Champlain Quadricentennial (NPS support)	500,000
National Law Enforcement Act (P.L. 106–492)	750,000

Funding for the Eisenhower Memorial Commission, provided for under the statutory and contractual aid program in the House bill, has been funded at a level of $2,000,000 as a "related agency," as requested by the President.

Language proposed by the Senate related to cooperative agreements under the rivers and trails program is not included in the amended bill.

HISTORIC PRESERVATION FUND

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides $71,500,000 for the historic preservation fund program, instead of $81,500,000 as proposed by the House and instead of $75,000,000 as proposed by the Senate. Funding for the Preserve America program, funded in this account by the House, has instead been funded under the National Recreation and Preservation account as proposed by the Senate. In addition to the allocation of funds by activity included in the detail table accompanying this statement, the amended bill provides for the following:

Save America's Treasures.—The amended bill provides that $11,200,000 of the amount provided for the Save America's Treasures historic preservation grants program be awarded under the existing competitive process. The remaining $13,800,000 is provided for the following projects:

AL	Bullock County Courthouse, Union Springs	$300,000
AL	Kymulga Grist Mill Historic Preservation	100,000
AL	Ivy Green, Birthplace of Helen Keller, Tuscumbia	100,000
AL	Old Cahawba Center, Cahawba	175,000
AR	Clover Bend Historic Site	100,000
AR	Lane House Theater, Eureka Springs	150,000
AZ	George Washington Carver High School, Phoenix	300,000
CA	Casa Grande, Santa Clara County	100,000
CA	Maritime History Center for Working Families, Richmond	100,000

Total	$13,800,000

Bill language.—The amended bill includes programmatic requirements for the Save America's Treasures program as proposed by the House rather than similar language proposed by the Senate.

CONSTRUCTION

The amended bill provides $221,985,000 for Construction, instead of $201,580,000 as proposed by the House and instead of $227,154,000 as proposed by the Senate. Within this total, $40,852,000 has been provided for Park Service construction program management and operations activities, the same as provided by the Senate and an increase of $1,010,000 over the budget request and the House allocation. The amended bill includes $132,721,000 for individual line item construction projects with $8,240,000 of this amount financed through use of prior year unobligated balances. The allocation of these funds by project follows:

AK	Kenai Fjords National Park	$2,000,000
AR	Buffalo National River	2,057,000
CA	California National Parks	980,000
CA	Channel Islands National Park	9,295,000
CA	Joshua Tree National Park (planning)	300,000
CA	Redwood National Park (roads)	2,346,000
CA	Redwood National Park	11,737,000

WV	Harper's Ferry National Historic Park	710,000
WV	New River Gorge National Scenic River	1,545,000
Mult	Use of unobligated balances	−8,240,000
	Subtotal, Line Item Projects	124,481,000

Bill language.—The amended bill does not include bill language proposed by the Senate related to pre-approval of National Park Service partnership agreements. The Appropriations Committees, however, are agreed that the Park Service should continue to follow pre-approval procedures for projects with a value in excess of $5,000,000 as in previous years. The amended bill includes bill language proposed by the Senate related to the Yellowstone National Park municipal solid waste construction project.

LAND AND WATER CONSERVATION FUND
(RESCISSION)

The amended bill includes the rescission of $30,000,000 in annual contract authority as proposed in the budget request and approved by the House and the Senate bills.

LAND ACQUISITION AND STATE ASSISTANCE

The amended bill includes $70,070,000 for land acquisition and State assistance instead of $99,402,000 as proposed by the House and $78,700,000 as proposed by the Senate. This includes $25,000,000 for the State Assistance Program, instead of $50,000,000 as proposed by the House and $30,000,000 as proposed by the Senate. State assistance funding includes $1,500,000 for federal administrative costs.

Federal land acquisition is funded at $45,070,000, distributed as follows:

State	Project description	Amount
ME	Acadia National Park	$600,000
TX	Big Thicket National Preserve	1,250,000
MA	Cape Cod National Seashore	2,000,000
GA	Chattahoochee River National Recreation Area	2,000,000
TN	Chickamauga and Chattanooga NMP	1,820,000
USA	Civil War Battlefield Preservation Grants	3,000,000
KY, TN	Cumberland Gap NHP	1,900,000
WA	Ebey's Landing National Historical Reserve	500,000
PA	Flight 93 National Memorial	5,000,000

State	Project description	Amount
WV	Gauley River National Recreation Area	500,000
CA	Golden Gate National Recreation Area	2,000,000
MS	Gulf Islands National Seashore—Cat Island	2,000,000
WI	Ice Age National Scenic Trail	1,400,000
IN	Indiana Dunes National Lakeshore	1,500,000
CO	Mesa Verde National Park	1,600,000
WA	Mt. Rainier National Park	1,200,000
WV	New River Gorge National River	500,000
MI	Sleeping Bear Dunes National Lakeshore	350,000
VA	Shenandoah Valley Battlefield Historic District	1,000,000
MO	Wilson's Creek National Battlefield	450,000
	Subtotal, Line Item Projects	30,570,000
	Acquisition Management	9,500,000
	Inholdings and Exchanges	2,500,000
	Emergencies, and Hardships	2,500,000
	Subtotal, Land Acquisition	$45,070,000

The amended bill provides $2,000,000 for a grant to the State of Mississippi for acquisition of Cat Island in the Gulf Island National Seashore. This completes the Service's commitment for acquisition of land on Cat Island.

Bill language.—The amended bill does not include language proposed by the Senate prohibiting States from establishing contingency funds under the "State Assistance" grant program. The House bill did not include this language. Nor does the amended bill specify in statute an amount for federal administrative costs of the State Assistance program as proposed by the Senate.

NATIONAL PARK SERVICE ADMINISTRATIVE PROVISIONS

The amended bill modifies language included by the House but not the Senate regarding rights of appeal related to contested possessory interest determinations under the Park Service concessions program. The revised language provides the right of "de novo" appeal to both the Park Service and private parties when disagreements cannot be resolved administratively. The House language provided this right only to the Park Service.

The amended bill includes language proposed by the House allowing certain relocation benefits for individuals displaced as a result of acquisitions. The amended bill also includes language proposed by the House extending the legislative authority for the National Park Service Advisory Board. The Senate did not include similar provisions.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The amended bill provides $1,022,430,000 for Surveys, Investigations, and Research instead of $1,032,764,000 as proposed by the House and $1,009,933,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. Specific changes to the House or Senate recommendations are provided below.

Geographic Research, Investigations, and Remote Sensing.—A total of $1,000,000 is provided for the national cooperative geographic information system mapping effort. Funding for geographic analysis and monitoring follows the House recommendation to include $3,000,000 for the multi-hazard initiative and restore ongoing geographic research which was slated for reduction in the budget request. The Senate recommendation for a priority ecosystems program increase is not included.

Geologic Hazards, Resources and Processes.—The recommendation increases funding above the request for earthquake hazards and the multi-hazard initiative within geologic hazards assessments by $2,000,000, and $500,000 above the request for both volcano hazards and the global seismographic network. Geologic landscape and coastal assessments funding includes the $1,000,000 increase above the request recommended by the House for national cooperative mapping and a total of $1,000,000 for the ocean action plan. The Appropriations Committees continue strong support for the multi-hazards initiative and encourage its continuation and enhancement. Note that the amended bill provides full support for the minerals assessment program despite the Administration's irresponsible proposal to decrease or eliminate funding for this important Federal program.

Water Resources Investigations.—Funding is provided for the following projects mentioned in the House or Senate recommendations: $350,000 for the Memphis aquifer study (TN, MS, AR); $200,000 for the Hood Canal dissolved oxygen study (WA); $300,000 for the San Pedro partnership (AZ); $500,000 for the Long-term Estuary Assessment Group (LA); and $500,000 for the US-Mexico Aquifer Assessment Act (NM). A general increase of $1,500,000 over the request is included for the national streamflow information program and the multi-hazard initiative. Funding for hydrologic networks and analysis includes the Senate recommended $1,000,000 for the ocean action plan, $500,000 for Lake Champlain toxic materials study (VT), and $500,000 for Hawaii water monitoring. The Federal-State cooperative water program is increased by $1,464,000 over the request for a total funding level of $63,845,000. The water resources research institutes allocation is $6,404,000 as recommended by the House and Senate.

Biological Research.—Overall funding for biological research and monitoring is $143,514,000, an increase of $5,442,000 over the fiscal year 2007 level. Specific project or program funding levels include: $1,500,000 for the new healthy lands initiative; $2,779,000 for Pacific Northwest forest biology as provided in fiscal year 2007; $2,000,000 for contaminant/endocrine biology research; $150,000 for anadromous fish research equipment (MA) as recommended by the House; $43,900,000 for the overall wildlife, terrestrial and endangered species research effort as provided in fiscal year 2007; $500,000 for Great Lakes research vessel infrastructure (WI) as recommended by the House; $500,000 to support the San Francisco salt ponds restoration (CA) recommended by the Senate; and $800,000 recommended by the Senate for Leetown Science Center (WV) molecular biology research. Funds are not provided for the Senate recommendations for the Fish and Wildlife Service science excellence program or the Leetown endocrine research. The National Biological Information Infrastructure effort receives a $500,000 increase over the request for a total of $6,849,000. The Cooperative research units funding is $16,430,000, a $1,000,000 increase over the request.

Enterprise Information.—The amended bill includes the House and Senate funding recommendation of $112,120,000.

Science Support.—The amended bill includes the Senate funding recommendation of $68,231,000.

Facilities.—The amended bill includes the House and Senate funding recommendation of $101,553,000.

Global Climate Change Research Increase.—The amended bill includes a general program increase of $7,500,000 instead of $10,000,000 as proposed by the House. The funds should be allocated for high priority research efforts, and up to $2,500,000 should be used by the Survey to establish the National Global Warming and Wildlife Science Center. The Survey is directed to notify the Committees on Appropriations of its allocation of global climate change research funds within 60 days of enactment.

MINERALS MANAGEMENT SERVICE

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

The amended bill provides $157,202,000 for royalty and offshore minerals management instead of $153,552,000 as proposed by the House and $159,948,000 as proposed by the Senate. Non-competitive alternative energy lease sales receive increases of $2,000,000 over the request in the leasing and environmental program and $250,000 in the regulatory program. The leasing and environmental program is reduced $500,000 below the budget request. The Center for Marine Resources and Environment, MS, allocation is $900,000 as recommended by the Senate.

The amended bill modifies language proposed by the House concerning lease sales in the North Aleutian Basin (NAB). Bristol Bay is home to one of the world's great fisheries; outer continental shelf drilling must only be conducted pursuant to all applicable environmental laws because it is vital that outer continental shelf oil or gas drilling be conducted only after detailed studies and information are available and ensure safety. MMS should continue to work with technical and scientific bodies, State and local representatives, and industry and environmental representatives to document state-of-the-art oil spill containment and responses to blowouts. The Appropriations Committees also understand that oil spill response planning and compliance is a comprehensive program that involves input from the MMS, the U.S. Coast Guard, the Alaska Department of Environmental Conservation and the Aleutians East Borough to ensure that adequate oil spill resources and capabilities are available in the event of a release. Operators are required to have available, without delay, sufficient quantities of dedicated response equipment and trained response personnel necessary to meet the worst case discharge from their offshore activities. Before making a decision to proceed with the proposed NAB sale, MMS will complete an anticipated 2½ to 3 year pre-sale and NEPA process, which will include preparation of an environmental impact statement based on the most current and best scientific information. The MMS will use new information obtained through its Environmental Studies program and other available information acquired from other research programs and studies in that region. In addition, the Appropriations Committees direct the MMS to coordinate with the National Marine Fisheries Service, the Fish and Wildlife Service and the National Meteorological Center and to conduct a gap-analysis literature review of all available peer-reviewed scientific papers to determine what studies must be subjected to further analysis, including a literature review on the impacts of oil spills on commercial fisheries and marine mammals. The GAO study and other House report direction are not required at this time. The Committees agree that the MMS should develop a research agenda in association with stakeholders, scientists, and government administrators.

OIL SPILL RESEARCH

The amended bill provides $6,403,000 for oil spill research as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS

Bill language is included, recommended by the House and by the Senate (in Senate section 424) and consistent with the Administration request, to allow State oil and gas payments to help cover administrative costs of the program. The amended bill does not include the House recommendation to prevent transfers of funds into the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

The amended bill provides $120,337,000 for regulation and technology instead of $117,437,000 as proposed by the House and $121,460,000 proposed by the Senate. This total includes an indefinite appropriation estimated to be $100,000 and a total increase above the request of $5,000,000 for the State and Tribal regulatory programs.

ABANDONED MINE RECLAMATION FUND

The amended bill provides $52,774,000 for the abandoned mine reclamation fund as proposed by the House instead of $52,835,000 as proposed by the Senate.

ADMINISTRATIVE PROVISION

The amended bill includes the provision recommended by the House and Senate allowing the transfer of title for computer hardware, software and other technical equipment to State and Tribal regulatory and reclamation programs.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $2,080,261,000 for the operation of Indian programs instead of $2,093,545,000 as proposed by the House and $2,046,341,000 as proposed by the Senate. This includes $862,309,000 for tribal priority allocations instead of $866,250,000 as proposed by the House and $838,889,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

Tribal Government.—The amended bill provides $406,198,000 for tribal government instead of $403,009,000 as proposed by the House and $406,398,000 as proposed by the Senate. The funding distribution follows the Senate proposal except that the funding for the Western Shoshone Claims Distribution Act is $300,000.

Human Services.—The amended bill provides $141,548,000 instead of $146,548,000, as proposed by the House and $134,128,000 as proposed by the Senate. The housing improvement program is funded at $13,830,000.

Trust: Natural Resources Management.—The amended bill provides $149,489,000 for natural resources management instead of $152,684,000 as proposed by the House and $147,489,000 as proposed by the Senate.

The amended bill includes $12,062,000 for irrigation operations and maintenance instead of $11,062,000 as proposed by the Senate.

The amended bill includes $1,740,000 for the Washington Timber-Fish-Wildlife program; $4,134,000 for the U.S.-Canada Pacific Salmon Treaty; $350,000 for Lake Roosevelt Management; $315,000 for Upper Columbia United Tribes; $600,000 for Circle of Flight; $1,000,000 for the Inter-Tribal Bison Cooperative; and $1,247,000 for endangered species management.

The funding provided for the Inter-Tribal Bison Cooperative should be distributed by the cooperative to participating tribes and not used for administrative expenses.

Trust: Real Estate Services.—The amended bill includes $150,722,000 as proposed by the House instead of $151,722,000 as proposed by the Senate.

Education.—The amended bill includes $700,540,000 instead of $699,040,000 as proposed by the House and $685,540,000 as proposed by the Senate.

This includes $487,500,000 for elementary education; $75,803,000 for other elementary and secondary programs; $113,520,000 for post secondary programs; and $23,717,000 for education management.

The funding for elementary education should follow the distribution as proposed by the House. The funding for other elementary and secondary programs includes $14,000,000 for Johnson O'Malley Education Assistance Grants. The funding for post secondary programs includes $57,721,000 for tribal colleges and universities and $30,050,000 for scholarships and adult education. Also included is $2,000,000 for the Navajo Technical College and $4,000,000 for the United Tribes Technical College within the tribal technical colleges program as proposed by the Senate.

Public Safety and Justice.—The amended bill includes $247,518,000 instead of $250,018,000 as proposed by the House and $237,818,000 as proposed by the Senate.

This funds law enforcement at $231,753,000, or proposed by the House, tribal courts at $14,565,000, and the fire protection program at $1,200,000.

Methamphetamine use, violence against women, and other serious crimes have reached epidemic levels in certain areas of Indian country. The Bureau is directed to use all available existing authorities to increase the level of law enforcement and criminal prosecution in Indian Country, particularly on remote reservations, including locality pay, retention bonuses and temporary housing for officers. Substantial increases are included for Tribal law enforcement and the Secretary is directed to allocate these additional funds outside the normal allocation methods to reach the areas with the greatest need, particularly remote reservations.

Community and Economic Development.—The amended bill includes $40,061,000 for community and economic development instead of $47,339,000 as proposed by the House and $39,061,000 as proposed by the Senate.

This includes $8,051,000 for job placement and training, $4,603,000 for economic development, $25,981,000 for road maintenance and $1,426,000 for Community Development oversight. Within the increase for economic development funding there is $600,000 for general development programs and $400,000 for the National Ironworkers Training Program.

Executive Direction and Administrative Services.—The amended bill includes $244,185,000 as proposed by both the House and the Senate.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $206,983,000 for construction instead of $207,983,000 as proposed by the House and $179,012,000 as proposed by the Senate. This includes $145,200,000 for education construction; $14,621,000 for public safety and justice construction; $38,916,000 for resources management construction; $2,114,000 for general administration; and $6,132,000 for construction management. Funding distribution follows the House proposal except that irrigation rehabilitation funding is reduced by $1,000,000.

The Bureau's plan for completing existing education school construction and alleviating current construction shortfalls before beginning new school construction projects is approved.

INDIAN LAND AND WATER CLAIMS SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The amended bill includes $34,069,000 as proposed by the Senate instead of $39,136,000 as proposed by the House. The Nez Perce/Snake River settlement is partially funded in the Fish and Wildlife Service, Cooperative Endangered Species Conservation Fund as proposed by the Senate rather than in this account as proposed by the House.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The amended bill includes $6,276,000 for the Indian Guaranteed Loan Program Account as proposed by both the House and the Senate.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

The amended bill provides $101,151,000 for salaries and expenses of the Office of the Secretary instead of $107,413,000 proposed by the House and $102,151,000 proposed by the Senate. Funding for the financial and business management system (FBMS) is provided in the working capital fund as proposed by the Senate and not in this account. Senate proposed language regarding the working capital fund has been included in the Working Capital Fund appropriation. A total of $2,000,000 is provided for the Eisenhower Memorial Commission in a separate appropriation in Title III and not in this account as proposed by the Senate or within the National Park Service as proposed by the House.

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

The amended bill provides $78,613,000 for Assistance to Territories instead of $78,292,000 as proposed by the House and $77,821,000 as proposed by the Senate. Senate recommendations for technical assistance are funded, including $300,000 for judicial and court education; $750,000 for population and workforce surveys of the Commonwealth of the Northern Marianas; $1,000,000 for the Marshall Islands health care program and $850,000 for the Prior Services Benefits Trust Fund. Funding for the coral reef initiative follows the House recommendation of

$995,000. Funds shall be made available for grants to the Pacific Basin Development Council and for the Close Up Foundation.

The amended bill agrees with the House report concerning the requirement that the Office of Insular Affairs and the Secretary of the Interior work with all territorial governmental bodies and the Congressional Delegate for American Samoa to be sure that the highest priority construction projects receive the covenant funding and that an open, transparent, and fair process be implemented in selecting capital improvement projects in American Samoa. In addition, the Department should carefully consider the need for water system improvements, such as Ofu-Olosega and Ta'u-Faleasao water systems in Manu'a.

COMPACT OF FREE ASSOCIATION

The amended bill provides $5,362,000 for the Compact of Free Association as proposed by the House and the Senate.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

The amended bill provides $59,250,000 for the Office of the Solicitor as proposed by the House instead of $59,449,000 as proposed by the Senate.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The amended bill provides $44,572,000 for the Office of Inspector General instead of $43,822,000 as proposed by the House and $45,572,000 proposed by the Senate. Changes to the Administration request include increases of $1,250,000 for audits, $750,000 for investigations and $250,000 for administrative services/ information management. These increases are to support the Inspector General to develop a permanent capability for auditing and investigating outer continental shelf oil and gas royalty and royalty-in-kind programs.

OFFICE OF SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

The amended bill includes $182,331,000 for Federal trust programs instead of $182,542,000 as proposed by the House and $185,947,000 as proposed by the Senate. This includes $180,141,000 for Program operations, support, and improvements and $2,190,000 for executive direction.

Bill Language.—The amended bill includes bill language limiting the total amount of funding available for historical accounting activities at $56,384,000.

INDIAN LAND CONSOLIDATION

The amended bill includes $10,000,000 for Indian land consolidation programs as proposed by both the House and the Senate.

DEPARTMENT-WIDE PROGRAMS

PAYMENTS IN LIEU OF TAXES

The amended bill provides $232,528,000 for payments in lieu of taxes as proposed by the Senate instead of $252,676,000 as proposed by the House and $190,000,000 requested by the Administration.

CENTRAL HAZARDOUS MATERIALS FUND

The amended bill provides $9,954,000 for the central hazardous materials fund as proposed by the House and the Senate.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The amended bill includes $6,300,000 for the natural resource damage assessment fund as proposed by the Senate instead of $6,224,000 as proposed by the House.

WORKING CAPITAL FUND

The amended bill provides $40,727,000 for the financial and business management system (FBMS) in the working capital fund instead of $37,069,000 as proposed by the Senate. This funds project deployment for the FBMS, replacing amounts requested in each of the bureaus, which this amended bill does not provide. The House proposed no specific funding for this account but did propose funding within the Office of the Secretary account, which this amended bill does not provide. New bill language is included limiting establishment of certain reserve accounts in the working capital fund; this item was proposed by the Senate under the Office of the Secretary heading.

ADMINISTRATIVE PROVISIONS

The amended bill does not include the bill language proposed by the Senate under this heading regarding the working capital fund and reimbursable support agreements. The annual justification for Department-wide programs should describe Working Capital Fund charges to bureaus and offices, including methodologies on which charges are based. Furthermore, departures from Working Capital Fund estimates in the budgets should be presented to the Appropriations Committees for approval and annual reports should be provided to the Committees on reimbursable support agreements between Office of the Secretary and National Business Center and the Bureaus and offices of the Department, including the amounts billed pursuant to such agreements.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

(INCLUDING TRANSFERS OF FUNDS)

Sec. 101: Retains a provision in section 101 of both the House and Senate bills, providing Secretarial authority to transfer program funds for expenditures in cases of emergency.

Sec. 102: Retains a provision in section 102 of both the House and Senate bills, providing for expenditure or transfer of funds by the Secretary in the event of actual or potential emergencies including forest fires, range fires, earthquakes, floods, volcanic eruptions, storms, oil spills, grasshopper and Mormon cricket outbreaks, and surface mine reclamation emergencies.

Sec. 103: Modifies a provision in section 103 of both the House and Senate bills, continuing a provision providing for use of appropriated funds for purchase and replacement of motor vehicles, contracts, rental cars and aircraft, certain library memberships, and certain telephone expenses.

Sec. 104: Retains identical provision in both the House and Senate bills, continuing provisions prohibiting the expenditure of funds for Outer Continental Shelf (OCS) leasing activities in the areas of northern, central, and southern California; the North Atlantic; Washington and Oregon; and the eastern Gulf of Mexico south of 26 degrees north latitude and east of 86 degrees west longitude.

Sec. 105: Retains identical provision in both the House and Senate bills, continuing provisions prohibiting the expenditure of funds for Outer Continental Shelf (OCS) leasing activities in the Mid-Atlantic and South Atlantic planning areas.

Sec. 106: Retains Senate language in section 106 continuing a provision permitting the transfer of funds between the Bureau of Indian Affairs and the Office of Special Trustee for American Indians.

Sec. 107: Retains Senate language in section 107 continuing a provision permitting the redistribution of tribal priority allocation and tribal base funds to alleviate funding inequities.

Sec. 108: Retains House language in section 108 continuing a provision permitting the conveyance of the Twin Cities Research Center of the former Bureau of Mines for the benefit of the National Wildlife Refuge System.

Sec. 109: Retains a provision in section 109 of the House bill making permanent a provision authorizing the Secretary of the Interior to use helicopters or motor vehicles to capture and transport horses and burros at the Sheldon and Hart National Wildlife Refuges. The Senate bill did not make the provision permanent.

Sec. 110: Retains an identical provision in section 113 of both the House and Senate bills, continuing a provision limiting compensation for the Special Master and Court Monitor appointed by the Court in Cobell v. Kempthorne to 200 percent of the highest Senior Executive Service rate of pay.

Sec. 111: Retains an identical provision in section 111 of the House bill and section 111 of the Senate bill, continuing a provision allowing the Secretary to pay private attorney fees for employees and former employees incurred in connection with Cobell v. Kempthorne.

Sec. 112. Retains a provision contained in section 112 of the Senate bill, continuing a provision prohibiting the use of funds to study or implement a plan to drain or reduce water levels in Lake Powell.

Sec. 113: Retains a provision in section 112 of the House bill dealing with the U.S. Fish and Wildlife Service's responsibilities for mass marking of salmonid stocks. The Senate had no similar provision.

Sec. 114: Retains a provision contained in section 113 of both the House and Senate bill, continuing a provision making funds available to the tribes within the California Tribal Trust Reform Consortium and others on the same basis as funds were distributed in fiscal year 2003 and separates this demonstration project from the Department of the Interior's trust reform organization.

Sec. 115: Retains an identical provision in the House and Senate bills, continuing a provision authorizing the Secretary of the Interior to acquire lands for the operation and maintenance of facilities in support of transportation of visitors to Ellis, Governors, and Liberty Islands.

Sec. 116: Retains a provision contained in section 114 of the Senate bill, continuing a provision dealing with grazing permits in the Jarbidge field office of the Bureau of Land Management.

Sec. 117: Includes a provision contained in section 118 of the Senate bill establishing a BLM pilot program for conducting mineral lease sales through methods other than oral bidding.

Sec. 118: Includes a new provision directing the Fish and Wildlife Service to relocate certain administrative facilities in Washington State in order to accommodate a highway project.

Sec. 119: Retains a provision contained in section 121 of the Senate bill limiting funding for any proposal to store water, approve right-of-way, or similar authorizations on the Mojave National Preserve or the Needles Field Office of the Bureau of Land Management.

Sec. 120: Retains a provision contained in section 122 of the Senate bill permanently amending the authorizing language for the Red Rock Canyon National Conservation Area, Nevada, to allow appropriated or donated funds to be used to acquire lands owned by the State of Nevada or a political subdivision within the NCA.

Sec. 121: Modifies a provision contained in section 123 of the Senate bill amending the Minerals Management Service authorizing language to allow it to accept contributions to complete environmental documents prior to energy exploration and production. This authorization is effective for fiscal year 2008 only.

Sec. 122: Retains a provision contained in section 124 of the Senate bill repealing Section 1077(c) of P.L. 109-364 that prohibited the National Park Service from implementing an approved settlement on Santa Rosa Island, CA.

Sec. 123: Retains a provision contained in section 125 of the Senate bill amending section 144 of Division E of P.L. 108–447 to correct an incorrect map date referenced in the transfer of Bureau of Land Management land to the Veterans Administration in North Las Vegas, Nevada.

Sec. 124: Retains a provision contained in section 126 of the Senate bill amending Section 105(f)(1)(B) of the Compact of Free Association Amendments Act of 2003 to correct an incorrect date in order to prevent the premature expiration of health, education, and labor aid programs for the Republic of Palau.

Sec. 125: Modifies a provision contained in section 128 of the Senate bill permitting the Secretary to enter into cooperative agreements with certain parties. This language allows cooperative agreements with governments and non-profit partners to be awarded non-competitively.

Sec. 126: Retains a provision contained in section 129 of the Senate bill transferring certain Bureau of Reclamation lands to the Upper Klamath National Wildlife Refuge with certain conditions.

Sec. 127: Modifies a provision contained in section 130 of the Senate bill expanding the boundary of Shiloh National Military Park in Tennessee and Mississippi.

Sec. 128: Retains a provision contained in section 131 of the Senate bill providing the National Park Service with the authority to acquire land at the Flight 93 crash site, PA, for the purposes of a memorial.

Sec. 129: Retains a provision contained in section 132 of the Senate bill concerning concessionaire rights at Denali National Park.

Sec. 130: Includes a new provision correcting a technical error in the Colorado Ute Indian Water Rights Settlement Act of 1988.

Sec. 131: Includes a new provision allowing certain funds provided for land acquisition at the Shenandoah Valley Battlefield NHD and Ice Age NST to be granted to a State, a local government, or any other land management entity.

Sec. 132: Includes a new provision allowing certain funds provided for land acquisition on Cat Island, which is located within the Gulf Islands National Seashore, to be granted to the State of Mississippi.

Sec. 133: Includes a new provision expanding the boundary of Mesa Verde National Park.

Sec. 134: Retains a provision contained in section 119 of the Senate bill concerning concessionaire rights at Glacier Bay National Park.

Sec. 135: Includes a new provision making technical corrections related to a fiscal year 2006 appropriation for the Hard Bargain Farm National Park Service site, MD.

The amended bill does not include a provision contained in House section 115 which limits funding for Outer Continental Shelf leasing where such existing leases are not subject to limitations on royalty relief based on market price. The Appropriations Committees remain committed to this issue and expect the authorizing committees with jurisdiction to complete legislative action on this vital matter.

The amended bill does not include language contained in Section 116 of the Senate bill concerning winter use rules at Yellowstone National Park and surrounding facilities. The Committees are aware that the National Park Service issued a Record of Decision on winter use management for the parks on November 20, 2007, with implementing regulations to be issued shortly thereafter. The Committees are also aware of two lawsuits that have been filed which challenge the final environmental impact statement and the Record of Decision and that these matters will be litigated in the Federal courts. It should be noted that the legal challenges did not request a preliminary injunction, thereby allowing local operations to continue for the current 2007–2008 winter season. The Committees believe this to be in the best interest of all concerned parties.

The amended bill does not include language contained in Section 117 of the Senate bill concerning certain mining claims.

The amended bill does not include the provision contained in section 120 of the Senate bill limiting funding for the importation of polar bear parts taken in sport hunts.

The amended bill does not include language contained in Section 127 of the Senate bill concerning the Upper Snake River Basin Biological Opinion on salmon and steelhead species.

TITLE II—ENVIRONMENTAL PROTECTION AGENCY

The amended bill includes $7,579,819,000 for the Environmental Protection Agency, instead of $8,090,915,000 as proposed by the House and $7,772,928,000 as proposed by the Senate. In addition, the General Provisions section includes a total of $11,000,000 as transfers for two remediation projects. The allocation of the total for the Agency, by account, program area, and where applicable by program-project and/or activity, is detailed on the table at the end of this Division.

Reprogrammings: The Environmental Protection Agency is held to the bill-wide reprogramming limitation of $1,000,000, as recommended by the House. The limitation will apply to the program areas specified in the detailed table at the end of Division F, as proposed by the House. However, where a specific level for program-project or activity within a program area is cited, either in the detailed table or the explanatory statement below, the reprogramming limitation will apply at that level.

The Agency must provide better information in its Congressional Budget Justification and is directed to include those improvements cited in House Report 110–187. In addition, the Justification should contain a comprehensive list of programs which have been eliminated in the request.

Fixed Costs: An additional $7,878,000 has been provided in five of the Agency's accounts to cover the fixed personnel costs and to ensure staffing levels consistent with the prior year. This increase is not spread by program area, as proposed by the Senate. Rather, a total increase for each account is provided, as indicated on the detailed table at the end of this Division. The Agency is directed to spread the funds as needed and submit a report to the Committees on Appropriations by March 1, 2008 on the allocation of these funds by program area and program-project.

SCIENCE AND TECHNOLOGY

The amended bill provides $772,129,000 for Science and Technology, instead of $783,269,000 as proposed by the House and $772,530,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Air Toxics and Quality: $3,950,000 for the CASTNET program, an increase of $1,000,000 over the request;

$1,400,000 to the San Joaquin Valley Air Pollution Control District to complete the Central California Ozone Study;

An additional $2,000,000 for ongoing work on Greenhouse Gas Regulations dealing with renewable or alternative fuels and vehicle efficiency.

Climate Protection Program: $18,604,000 for the Clean Automotive Technology Program, as proposed by the House.

Homeland Security: $11,884,000 for the Water Security Initiative, as proposed by the Senate and $10,000,000 less than proposed by the House. The Agency has carried forward into fiscal year 2008 a large unobligated balance and will fund new pilots in fiscal year 2008. Therefore, the funding for additional pilots has been reduced until the Agency moves forward with the projects already funded. The Agency is directed to provide a report on the status, accomplishments, and future schedule for the Water Security Initiative. The report should be included as part of the Agency's FY 2009 Congressional Budget Justification. $2,000,000 for the Safe Buildings program, as proposed by both the House and the Senate.

The $1,000,000 general reduction proposed by the House is not included.

Operations and Administration: The $3,884,000 reduction proposed by the House is not included.

Research: Clean Air: $20,000,000 for Global Change Research, instead of $33,308,000 proposed by the House and $18,619,000 proposed by the Senate. The increase is intended to fund research in support of future rulemaking efforts on Greenhouse Gases. The Agency is urged to award a portion of these funds through the STAR grant program.

Research: Clean Water: An additional $1,000,000 for research on the human health effects and environmental impacts of carbon storage and sequestration to better inform regulatory decision making.

Research: Congressional Priorities: $5,400,000, instead of $7,000,000 as proposed by the Senate, for the following high priority projects:

$2,100,000—Water Environment Research Foundation (WERF);

$1,725,000—American Water Works Research Foundation (AWWRF)

$1,050,000—Southwest Consortium for Environmental Research and Policy (SCERP)

$525,000—Consortium for Plant Biotechnology Research

Research: Extramural Research Grants: Funds are not included for a new extramural research grant program, as proposed by the Senate.

Research: Human Health and Ecosystems: $38,856,000 for Human Health Risk Assessment;

$12,327,000 for Research: Computational Toxicology;

$10,481,000 for Research: Endocrine Disruptors;

$10,000,000 for Research: Fellowships: The increase above the request is to be used for STAR fellowships.

$155,046,000 for Research: Human Health and Ecosystems, which is an increase of

$10,000,000 above the request. From within the amount provided, the Agency is directed to allocate $6,000,000 to restore basic human health research and $4,000,000 to restore the proposed reduction to the EMAP program.

The increases to these programs include the Administration's request for a $6,098,000 increase to Human Health Risk Assessment. In recognition of these increases, the Agency is directed to follow the language in House Report 110–187 on the following issues:

Trichloroethylene

Polycyclic Aromatic Hydrocarbons (PAH)

The mineral Trona

In addition, the Agency is urged to report to Congress on the PAH study referenced in the House Report and also to develop an updated health standard for ingested hexavalent chromium, which then should be used to revise the Maximum Contaminant Level Goal as soon as possible.

In addition:

1. The Agency is directed to report on the short term results and long term assessment plans to reduce lab support costs Agency-wide.

2. The general reduction to this account, as proposed by the House, is not included.

3. It is imperative that EPA issue its decision on the December, 2005 waiver application submitted by the State of California to enact vehicle emission standards to reduce greenhouse gases by 30 percent in 2016 by no later than December 31, 2007. The Committees on Appropriations are dismayed that the EPA Administrator has unreasonably delayed his decision on the petition and forced the State of California to file suit in order to compel a decision. If no decision is made by that date, the Agency is directed to provide a report detailing why there is further delay, as proposed by the House.

Further, the Committees on Appropriations are concerned by reports that officials at other Federal agencies, including the Department of Transportation and the White House Office of Environmental Quality, may have engaged in inappropriate lobbying efforts to deny the waiver. The decision on California's waiver petition must be made on the petition's legal and technical merits and the approval process must not be politicized in any way.

CLIMATE CHANGE COMMISSION

The amended bill does not include the House proposal to fund a new Climate Change Commission.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

The amended bill provides $2,364,854,000 for Environmental Programs and Management, instead of $2,370,582,000 as proposed by the House and $2,384,121,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Air Toxics and Quality: $700,000 to restore the Sunwise program to prior year levels.

Brownfields: $527,000 above the request to restore the Smart Growth program to prior year levels.

Climate Protection Program: $49,000,000 for the Energy Star program;

$4,436,000 for the Methane to Markets program;

$3,500,000 within the Federal Support Air Quality Management program for the Agency to use its existing authority under the Clean Air Act to develop and publish a rule requiring mandatory reporting of greenhouse gas emissions above appropriate thresholds in all sectors of the economy. Bill language to this effect is provided in the administrative provisions section. The Agency is directed to publish a draft rule no later than nine months after the date of enactment of this Act, and a final rule no later than 18 months after the date of enactment of this Act. The Agency is further directed to include in its rule reporting of emissions resulting from upstream production and downstream sources, to the extent that the Administrator deems it appropriate. The Administrator shall determine appropriate thresholds of emissions above which reporting is required, and how frequently reports shall be submitted to EPA. The Administrator shall have discretion to use existing reporting requirements for electric generating units under Section 821 of the Clean Air Act, and;

$250,000 for the Agency to modify existing programs to accommodate quality assurance and quality control for emissions submitted via and regulated by the established northeastern Regional Greenhouse Gas Initiative (RGGI), in the same manner as set forth under Title IV of the Clean Air Act.

Funding is not included for the Asia-Pacific Partnership program. The general increase for climate protection programs, as proposed by the House, is also not included.

Compliance: $28,066,000 for Compliance Assistance Centers;

$9,786,000 for Compliance Incentives;

$90,128,000 for Compliance Monitoring.

Enforcement: $6,500,000 for Environmental Justice programs;

$7,000,000 for a combined general increase for Civil and Criminal Enforcement to be allocated between the two at the Agency's discretion.

Environmental Protection/Congressional Priorities: The amended bill includes $13,650,000 for the following high priority projects, instead of $19,500,000, as proposed by the Senate:

$7,700,000—National Rural Water Association (NRWA);

$2,800,000—Small Public Water System Technology Centers, as listed in Senate Report 110–91, with each center receiving $350,000;

$2,450,000—Rural Community Assistance Partnership (RCAP);

$700,000—Water Systems Council Wellcare.

Environmental Protection/Demonstration Project Competitive Grants: Funds are not included for a new competitive grant program, as proposed by the Senate.

Geographic Programs: The amended bill includes $99,025,000 to be allocated as follows:

Program	FY 2008 Amount
Chesapeake Bay	31,000,000
Great Lakes	22,000,000
Puget Sound	20,000,000
San Francisco Bay	5,000,000
Long Island Sound	5,000,000
Gulf of Mexico	5,700,000
Lake Champlain	2,750,000
Lake Pontchartrain	978,000
Community Action for a Renewed Env.	3,448,000
Regional Administrator's Initiatives	0
Other Geographic Activities	3,149,000

Directives for specific geographic programs are as follows:

1. Chesapeake Bay Program: $31,000,000 for this program, instead of $30,000,000 proposed by the House and $32,812,000 proposed by the Senate. The Agency is directed to allocate the Chesapeake Bay funding as follows:

$21,000,000 for base programs;

$8,000,000 for Targeted Watershed Grants;

$2,000,000 for Small Watershed Grants.

The Agency is further directed to implement immediately all of the recommendations contained in the October, 2005 Government Accountability Office (GAO) report. Of the funds provided to the Bay Program and the Office of the Administrator of EPA, $5,000,000 in administrative funds shall not become available until 60 days after the EPA Administrator submits a report to the Senate and House Appropriations Committees and to the Comptroller General stating, with supporting evidence, that EPA has implemented the recommendations contained in the GAO report.

In addition, the Agency is directed to develop a Chesapeake Bay action plan for the remaining years of the Chesapeake 2000 Agreement. This plan must: (1) clearly articulate realistic targets the Chesapeake Bay Program expects to achieve in each of the remaining years; (2) describe the actual activities the Chesapeake Bay Program will implement in each year to achieve these annual targets; (3) identify the amount and source of funding that will be used to accomplish each of these activities; and, (4) describe the process the Chesapeake Bay Program will use to track and measure the progress of these actions. Finally, the GAO is directed to conduct periodic performance assessments of progress made on this action plan.

2. Puget Sound: Funds are included for continued development and implementation of the Puget Sound 2020 Action Agenda. These funds provide for grants to the Section 320 designated state agency, as well as grants, contracts and support for other aspects of the Action Agenda.

3. San Francisco Bay Watersheds: As directed in the Senate Report 110–91, funds are provided for new partnership competitive grants for protection and restoration of San Francisco Bay watersheds located in the Bay area. Matching funds of no less than 25 percent shall be required, and priority shall be given to organizations that emphasize the ability to leverage additional public and private funds.

4. Regional Administrator's Initiatives: Funds are not included for this program. The Agency is directed to implement the directives for this program included in House Report 110–187, should future budgets propose funds for this program, and report to the Committees on Appropriations on the use of prior year funds by March 1, 2008.

Indoor Air: An additional $500,000 above the request for the Reduced Risks from Indoor Air program.

Information Exchange/Outreach: $9,000,000 for the Environmental Education Program; $6,241,000 for Children and Other Sensitive Populations. For the Environmental Education funds, the Agency is directed to apply the distribution formula in the authorizing statute to the entire amount provided.

International Programs: $5,500,000 for the US/Mexico Border Program.

IT/Data Management/Security: The amended bill includes $1,000,000 above the request to restore the network of EPA libraries recently closed or consolidated by the Administration, instead of $2,000,000 as proposed by the Senate. The Agency is directed to submit a report to the Committees on Appropriations regarding actions it will take to restore publicly available libraries to provide environmental information and data to each EPA region within 90 days of enactment of this Act.

Legal/Science/Regulatory/Economic Review: $40,106,000 for Legal Advice: Environmental Program;

$14,246,000 for Legal Advice: Support Program;

$21,511,000 for Regulatory Innovation;

$16,551,000 for Regulatory/Economic-Management and Analysis.

Of the funds provided for Regulatory Innovation, the Agency is directed to provide at least $1,015,000 to the Smart Growth program to restore it to prior year levels.

Operations and Administration: $28,992,000 for Acquisition Management;

$301,728,000 for Facilities Infrastructure and Operations, which reflects a reduction to the Agency's rent budget. The general reduction proposed by the House is not included.

Resource Conservation and Recovery Act (RCRA): Because Congress has not authorized fees necessary to administer an electronic manifest for hazardous waste, the requested $4,000,000 for the manifest is not provided. Consistent with language in House Report 110–187, the Agency is directed to use a portion of the increase over the prior fiscal year to expedite completion of the final rule on disposal of industrial wipes and to report to the Committees on Appropriations by March 1, 2008, on the status of its efforts.

Toxics Risk Review and Prevention: $12,240,000, an increase of $1,225,000 above the request, for the High Production Volume Challenge (HPVC) and Voluntary Children's Chemical Evaluation Program (VCCEP), as proposed by both the House and Senate.

$8,800,000 for Endocrine Disruptors, as proposed by the Senate. The Agency is directed to follow the report language on this subject in both the House and Senate Reports;

$16,621,000 for Pollution Prevention, as proposed by the Senate.

Water: Ecosystems: $35,000,000 for the Great Lakes Legacy Act, as proposed by the Senate and instead of $37,000,000 proposed by the House.

$27,203,000 for National Estuary Program/Coastal Waterways, as proposed by the House. The Agency is directed to allot $16,832,000 of these funds to the National Estuary Section 320 grant program, consistent with the House recommendation.

Water: Human Health Protection: The amount provided includes an additional $1,000,000 above the request for the Agency's work on the Underground Injection Control, Carbon Sequestration Rule. Funding for rural water programs is provided in the Environmental Protection/Congressional Priorities program area, as proposed by the Senate, and not as a competitive program here, as proposed by the House.

In addition:

1. The Agency is directed to fund the Smart Growth program at the fiscal year 2007 level in all program-projects which support the program. Based on information provided to the Committees, this amount should be no less than $1,542,000 in the EPM Account.

2. The Agency is directed to submit a report on Environmental Justice, consistent with the directive in House Report 110–187.

3. Consistent with Senate Report 110–91, the Agency is urged to adopt final pesticide container recycling regulations within 180 days of enactment of this Act.

4. While the Agency is not directed to implement the WaterISAC program through a grant to the Association of Metropolitan Water Agencies, as outlined in Senate Report 110–91, given AMWA's experience, the Agency is encouraged to consider this option.

5. The general reduction to this account, as proposed by the House, is not included.

6. The Agency was mandated by Congress in 1992 to adopt a rule pursuant to 15 USC 2692(c)(3) before October 28, 1996, to protect children from lead poisoning caused by renovation or remodeling activities in target housing, public buildings constructed before 1978, and commercial buildings that create lead-based paint hazards. More than 10 years after the deadline, EPA has not promulgated regulations, putting thousands of children at risk of the irreversible damage of lead poisoning. The EPA Administrator is directed to finalize the rule by March 31, 2008, and is urged to ensure that the rule is no less protective of children than the Lead-Safe Housing Rule adopted by the U.S. Department of Housing and Urban Development at 24 CFR Part 35 in 1999.

7. The Committees on Appropriations are aware of concerns about the potential environmental and health impacts of proposed new coal-fired power plants in the Central Texas region. The Government Accountability Office is requested to review the adequacy under the Clean Air Act of the determinations about such impacts carried out by the Environmental Protection Agency directly and as delegated to the State of Texas. The report should also include information on current electric power supply and demand in the region including fuel diversity and consumer electricity costs.

8. The Committees on Appropriations are aware of concerns about the classification of Great Basin National Park as a Class II rather than as a Class I area under the provisions of the Clean Air Act (title 42, Chapter 85, Subpart 1, Part C). The Government Accountability Office is requested to review whether the current classification of the Park is adequate to ensure long-term protection of air quality and visibility in the Park under the Environmental Protection Agency's direct and delegated authorities.

OFFICE OF INSPECTOR GENERAL

The amended bill provides $41,750,000 for the Office of the Inspector General account, instead of $43,500,000 as proposed by the House and $40,000,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area.

Audits, Evaluations, and Investigations: $41,750,000 for general IG work, instead of $43,500,000 proposed by the House and $40,000,000 proposed by the Senate. This $3,742,000 increase above the request is provided to ensure a consistent staffing level within the Office of the Inspector General, while providing some flexibility between this account and the amount transferred from the Superfund account. None of the funds provided are to be used for buyouts associated with staffing reductions. The Inspector General is directed to submit quarterly staffing reports to the Committees on Appropriations.

The amended bill provides that $11,668,000 be paid to this account from the Hazardous Substance Superfund Account. Bill language in Title III continues the mandate that the Agency's Inspector General serve that function for the Chemical Safety and Hazard Investigations Board.

BUILDINGS AND FACILITIES

The amended bill provides $34,801,000, the same as both the House and the Senate. The table at the end of this Division allocates the total for this account by program area.

HAZARDOUS SUBSTANCE SUPERFUND

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides $1,273,871,000 for the Hazardous Substance Superfund, instead of $1,272,008,000 as proposed by the House and $1,274,643,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Audits, Evaluations, and Investigations: The amended bill includes $11,668,000 to be paid from this account to the Office of the Inspector General account, instead of $10,000,000 proposed by the House and $13,337,000 proposed by the Senate. This $4,519,000 increase above the request is provided to ensure a consistent staffing level within the Office of the Inspector General, while providing some flexibility between this account and the Office of the Inspector General account. None of the funds provided to the Inspector General from this account are to be used for buyouts associated with staffing reductions.

Enforcement: $167,000,000 for Superfund Enforcement, of which $26,000,000 is directed to the Interagency Agreement with the Department of Justice;

$9,843,000 for Federal Facility Enforcement;

$ 3,802,000 for Forensics Support.

Legal/Science/Regulatory/Economic Review: $750,000 for the Legal Advice: Environmental program.

Superfund Cleanup: $192,880,000 for Superfund: Emergency Response and Removal;

$9,318,000 for Superfund: EPA Emergency Preparedness;

$31,879,000 for Superfund: Federal Facilities;

$600,000,000 for Superfund: Remedial;

$6,575,000 for Superfund: Support to Other Federal Agencies.

Bill Language: Language is included to provide up to $1,273,871,000 as the maximum payment from general revenues for Superfund, instead of $1,272,008,000 as proposed by the House and $1,274,643,000 as proposed by the Senate. Language is also included to pay from this account, $11,668,000 to the Office of Inspector General account and $26,126,000 to the Science and Technology account.

The following reports should be submitted to the Committees on Appropriations no later than March 1, 2008:

1. The report on Army Corps of Engineers oversight of Superfund Cleanups, as outlined in House Report 110–187.

2. The report on Superfund Alternative Sites, as outlined in House Report 110–187.

3. The report on Human Health Risks, as outlined in Senate Report 110–91.

LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The amended bill provides $107,493,000 for the Leaking Underground Storage Tank Account, instead of $117,961,000 as proposed by the House and $72,493,000 as proposed by the Senate. The amended bill includes the House proposal to fund Underground Storage Tank grants through this account instead of through the State and Tribal Assistance Grants account, as proposed by the Senate. This is consistent with the Energy Policy Act of 2005 and the Agency is expected to request future funding through the Leaking Underground Storage Tank Program account. The table at the end of this Division allocates the total for this account by program area. The Agency is further directed to allocate the funds as follows:

Underground Storage Tanks (LUST / UST): $10,558,000 for the LUST/UST program;

$62,207,000 for the LUST Cooperative Agreements, instead of $68,207,000 proposed by the House and $58,207,000 proposed by the Senate;

$31,000,000 for the Underground Storage Tank Grants, authorized by the Energy Policy Act of 2005, instead of $35,500,000 proposed by the House and $22,500,000 proposed by the Senate in the State and Tribal Assistance Grants account.

Bill Language: The amended bill includes language proposed by the House which clarifies that $76,493,000 is for activities authorized by section 9003(h) of the Solid Waste

Disposal Act, and thus subject to the 80 percent set-aside requirement for state cooperative agreements. The language also clarifies that the remaining funds, $31,000,000, is available for the activities authorized by the 2005 Energy Policy Act. In addition, bill language is included to authorize Tribal grants for those same functions. The amended bill does not accept the President's proposed language to amend the Energy Policy Act to change the types and frequency of state inspections.

OIL SPILL RESPONSE

The amended bill provides $17,326,000 for oil spill response, instead of $17,280,000 as proposed by the House and $17,487,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area.

STATE AND TRIBAL ASSISTANCE GRANTS

The amended bill provides $2,972,595,000 for state and tribal assistance grants, instead of $3,406,514,000 as proposed by the House and $3,181,853,000 as proposed by the Senate. The table at the end of this Division allocates the total for this account by program area. In addition, the Agency is further directed to:

Infrastructure Assistance:

1. Mexico Border: Of the funds provided for this program, $5,000,000 is directed to the El Paso and Brownsville projects funded in prior years. The Agency is directed to report to the Committees on Appropriation on a proposed distribution of these funds between the two projects. The Agency further is directed to report to the Committees on Appropriations by May 1, 2008, on actions taken to reform the program and report quarterly on unobligated and unliquidated balances.

2. Diesel Emission Reduction Grants: The amended bill reflects the House recommendation to make Diesel Emission Reduction Act (DERA) grants available to all areas, not just those that are currently not in attainment with the national ambient air quality standards. Noted, however, is the importance of continuing to target limited Federal diesel emission reduction funds to areas that face the worst air quality and the greatest risk to public health. The Agency is urged to develop an allocation methodology for DERA funds consistent with the underlying authorizing statute which gives priority to non-attainment areas as well as other important priorities to address the overall emission reduction needs of the Nation.

3. California Diesel Emission Reduction Projects: The amended bill includes $10,000,000 for this program, instead of $15,000,000 proposed by the Senate. The funds should be divided equally between the San Joaquin Valley Air Pollution Control District and the South Coast Air Management District, with each district receiving $5,000,000. Further, the Agency is directed to follow the language in Senate Report 110-91 governing this program.

STAG Infrastructure Grants / Congressional Priorities: The amended bill provides $135,000,000 for the following projects:

State	Project	Amount
1. AK	The City of Kenai for water treatment project	$300,000
2. AK	The City of Kodiak for water and sewer improvements project	500,000
3. AK	The City of Wrangell for water and sewer upgrade project	550,000
4. AK	The City of Ketchikan for water and sewer upgrade project	550,000
5. AL	The Town of Eva for wastewater treatment facility upgrade project	300,000
6. AL	The Town of Somerville for wastewater construction project	384,000
7. AL	The City of Clanton for the Water Treatment Plant Upgrade Project	1,084,000
8. AL	Jackson County for wastewater and drinking water infrastructure project	132,000
9. AL	The City of Glencoe for Storm Drainage and Sewer Repairs	500,000
10. AL	The City of Muscle Shoals for Wastewater Infrastructure	500,000
11. AR	The Ozark Mountain Regional Public Water Authority for water system improvement project	300,000
12. AR	The City of Fayetteville for Wastewater Improvements	300,000
13. AR	The City of Pine Bluff for Sewer Improvements	500,000
14. AR	The City of Rogers, Northwest Arkansas Conservation Authority for Water and Wastewater Infrastructure and Watershed Management	500,000
15. AZ	Bullhead City for wastewater treatment plant expansion project	300,000
16. CA	Ventura County Public Works Agency for sewer system upgrades in El Rio Forebay	1,000,000
17. CA	The City of Eureka for the Martin Slough Interceptor Project	1,000,000
18. CA	The City of Pasadena for perchlorate remediation and drinking water system improvements	1,175,000
19. CA	The City of East Palo Alto for Water Infrastructure Improvements	825,000
20. CA	The City of Big Bear Lake, Department of Water and Power to Upgrade the Pipeline Infrastructure	1,000,000
21. CA	The City of Arcadia for the Arcadia/Sierra Madre Joint Water Infrastructure	500,000
22. CA	The City of Barstow, County of San Bernardino for the Sewer Master Plan Implementation, Phase II	500,000
23. CA	The City of Huntington Park for the Slauson Avenue Water Line and Yard Rehabilitation	400,000
24. CA	The City of Manteca for Water Treatment Infrastructure Upgrades	500,000
25. CA	The City of Sacramento, Sacramento Department of Utilities for Downtown Sacramento Combined Sewer Improvement	500,000
26. CA	The City of San Clemente for Expansion of Water Reclamation Facility	500,000
27. CA	The City of San Francisco, Public Utilities Commission for the Lower Mission District	700,000
28. CA	The City of Seaside for Monterey Bay Outfall Dry Weather Diversion	500,000
29. CA	The City of Temple City for the Sanitation Sewer Rehabilitation Project	150,000
30. CA	The City of Vallejo for Mare Island Sanitary Sewer and Storm Drain	650,000
31. CA	The Town of Yucca Valley, Hi-Desert Water Agency for a Wastewater Treatment System	375,000
32. CO	Arkansas Valley Conduit for drinking water project	600,000
33. CO	Idaho Springs for wastewater and drinking water project	1,000,000
34. CO	The Town of Bayfield for wastewater facility upgrade project	400,000
35. CO	The City of Manitou Springs for drinking water system improvement project	350,000
36. CO	The South Platte River Basin, Central Colorado Water Conservancy District for water system improvements	300,000
37. CO	The Town of Eckley for Water Treatment Improvements	150,000
38. CT	The Town of Enfield for sanitary sewer inflow elimination project	300,000
39. CT	The City of Southington for wellhead cleanup	300,000
40. CT	The City of Stamford for Stormwater and Wastewater Infrastructure	500,000
41. CT	The Town of Colchester for the Flatbrook Road Booster Station	500,000
42. CT	The Town of Prospect for the College Farms Subdivision	138,000
43. CT	The Town of Wolcott for Storm Drainage and Other Infrastructure	500,000
44. DE	The City of Wilmington for filter membrane plant improvements	300,000
45. DE	New Castle County for Old Shellpot Interceptor Improvements	300,000
46. FL	The City of Jacksonville for wastewater infrastructure improvement project	300,000
47. FL	The Emerald Coast Utility Authority for water system improvements	300,000
48. FL	St. Johns River Water Management District for Expansion of the Taylor Creek Reservoir	500,000
49. FL	The City of Brooksville, Southwest Florida Water Management District for Peace and Myakka River Watershed Restoration	500,000
50. FL	The City of Clearwater for Wastewater and Reclaimed Water Infrastructure	500,000
51. FL	The City of Lauderdale-by-the-Sea for North Beach Neighborhood Improvements, Phase II	500,000
52. FL	The City of Sarasota, Sarasota County for the Phillippi Creek Septic System Replacement	500,000
53. FL	The City of Tallahassee for the Advanced Water Treatment Facility	500,000
54. FL	The City of Weston for Bonaventure Storm Water Pumps	500,000
55. FL	Town of Callahan for the Wastewater Treatment Plant	500,000
56. FL	Town of Jupiter for Water Treatment Plant Enhancement	500,000
57. FL	The Town of Pembroke Park for Sanitary Sewage System Rehabilitation	450,000
58. GA	The City of Atlanta for wastewater and stormwater rehabilitation project	300,000
59. GA	The Metro North Georgia Water Planning District for water and wastewater improvements project	300,000
60. GA	The City of Valdosta for the Valdosta Scott Water Tank Construction	500,000
61. GA	The City of Vienna for Sewer Treatment Facility	500,000
62. IA	The City of Clinton for wastewater treatment plant construction project	300,000
63. IA	The City of Davenport for water system improvements	500,000
64. IA	The City of Ottumwa for combined sewer overflow improvements	400,000
65. IA	The City of Mason City for the Wastewater Treatment Facility Expansion	500,000
66. ID	The City of Marsing for drinking water system reconstruction project	432,000
67. ID	The City of Hazelton for wastewater system improvements project	469,000
68. ID	The City of St. Anthony for wastewater system improvements project	562,000
69. ID	The City of Rexburg for wastewater and stormwater facilities project	137,000
70. ID	The City of Buhl for drinking water project	300,000
71. ID	The City of Twin Falls for the Auger Falls Wastewater Treatment Project	500,000
72. IL	The Village of Chatham for water supply infrastructure improvements	300,000
73. IL	The City of Monmouth for wastewater system improvements	300,000
74. IL	The Northeastern Illinois Sewer Consortium for wastewater infrastructure improvements	350,000
75. IL	The Village of Riverdale for water system improvements	300,000
76. IL	The City of Oregon, Public Works Department for Wastewater Treatment Infrastructure	500,000
77. IL	The City of Virginia for a Water Treatment Facility	500,000

State	Project	Amount
78. IL	The Village of Farina for Water System Improvements	250,000
79. IL	The Village of Hazel Crest for Water Improvements	143,000
80. IL	The Village of Johnsburg for Wastewater Conveyance and Treatment Works	500,000
81. IL	The Village of South Chicago Heights for Wastewater Treatment Facility	300,000
82. IL	The Village of Steward for Wastewater Infrastructure	300,000
83. IN	The City of Centerville for wastewater treatment plant upgrade project	300,000
84. IN	The City of Fort Wayne for the Storm Sewer Separation Project	500,000
85. IN	The City of Evansville for the Mt. Auburn Neighborhood Sanitary Sewer System	500,000
86. IN	The City of Carmel for Sanitary Sewer Rehabilitation	500,000
87. IN	The City of Charlestown for the Water Treatment Facility	500,000
88. IN	The City of South Bend for the Sewer Overflow Sensory Control Network	500,000
89. IN	The Town of Linden, Department of Water and Sewage for the Sewer Treatment Plant Expansion	200,000
90. IN	The Town of Merrillville for Water Infrastructure Improvements	500,000
91. KS	Great Bend for 10th Street sewer line repairs	500,000
92. KS	The City of Ellsworth for wastewater treatment project	300,000
93. KS	The City of Larned for the Waste Water Treatment Plant	500,000
94. KS	The City of Iola for Water and Wastewater Infrastructure	500,000
95. KS	The City of Lenexa for stormwater improvement project	300,000
96. KS	The City of Prescott for wastewater treatment plant construction project	300,000
97. KS	The City of Sedan, Rural Water District Number 4 Chautauqua County for Water and Wastewater Infrastructure	1,200,000
98. KY	The City of Ewing in Fleming County for wastewater construction project	300,000
99. KY	The Green River Valley Water District in Hart County for drinking water project	1,000,000
100. KY	The Monroe County Water District, Tompkinsville for drinking water and construction project	1,350,000
101. KY	The City of Harlan, Baxter-Rosspoint Sewer Line Expansion	500,000
102. KY	The City of La Grange, Oldham County Sewer District for the Ohio River Wastewater Treatment Plant in Goshen	500,000
103. KY	The City of Lexington, Lexington-Fayette Urban County Government for South Elkhorn Pump Station and Force Main Project	1,200,000
104. KY	The City of Louisville, Louisville and Jefferson County Municipal Sewer District for the Shively Area Pump Stations Eliminations Project	500,000
105. LA	The City of Hammond for water system upgrades	400,000
106. LA	The City of St. Gabriel for wastewater treatment expansion	300,000
107. LA	The City of Bastrop for wastewater treatment facility improvements	200,000
108. LA	Ascension Parish for wastewater treatment facility construction project	300,000
109. LA	The City of Grambling for the East Martin Luther King / Tarbutton Road Sewer Extension	500,000
110. MA	The City of Brockton for wastewater system improvements	300,000
111. MA	The City of Marlborough for wastewater treatment plant upgrades	300,000
112. MA	The Cities of Fall River and New Bedford and the Town of Acushnet for Bristol County Sewer Improvements	500,000
113. MA	The City of West Springfield, Pioneer Valley Planning Commission for the Connecticut River Combined Sewer Overflow Clean-up	1,400,000
114. MA	The Town of Winthrop for Storm Drain Remediation	500,000
115. MD	The City of Baltimore for sanitary and combined sewer infrastructure improvements	700,000
116. MD	The City of Frostburg for combined sewer overflow improvements	300,000
117. MD	The Town of Westernport for combined sewer overflow improvements	200,000
118. MD	The City of Cumberland for combined sewer overflow improvements	200,000
119. MD	The City of College Park for the Paint Branch Watershed Storm Management Plan	100,000
120. ME	The City of Presque Isle for wastewater treatment plant relocation project	300,000
121. ME	The City of Ellsworth for wastewater treatment relocation project	300,000
122. MI	The City of Saint Louis for water supply improvements	300,000
123. MI	Office of the Genessee County Drain Commissioner for the North-East Relief Sewer	500,000
124. MI	The City of Brighton for the Mill Pond Lane Bypass Sanitary Sewer Improvements	165,000
125. MI	The City of Detroit, Charter County of Wayne for the Rouge River National Wet Weather Demonstration	1,000,000
126. MI	The Township of Waterford, Oakland County Drain Commission for the Evergreen-Farmington Sanitary Sewer Overflow Control Demonstration Project	500,000
127. MN	The City of New Auburn for drinking water facility construction project	300,000
128. MN	The City of Minneapolis for combined sewer overflow improvements	300,000
129. MN	The City of Grand Rapids, Grand Rapids Public Utilities Commission for Wastewater Treatment Facility	1,000,000
130. MO	The City of Linn for wastewater treatment plant expansion project and line extension	2,350,000
131. MO	The City of Hayti, Pemiscot Consolidated Public Water Supply District 1 for a Water Storage Tank	150,000
132. MO	The City of Joplin for the Wildwood Ranch Sewer	500,000
133. MS	The Town of Flora for drinking water and wastewater construction project	1,550,000
134. MS	The City of Oxford for wastewater construction project	342,000
135. MS	West Rankin Utility Authority for wastewater rehabilitation project	200,000
136. MS	The City of Ridgeland for wastewater and water quality protection project	200,000
137. MS	The Town of Boyle for water and sewer line extension project	100,000
138. MS	The City of Brookhaven for water and wastewater improvements project	300,000
139. MS	The City of Fulton for wastewater improvements project	100,000
140. MS	The City of Independence, Tate County School District for Water System Improvements	500,000
141. MT	The Crow Tribe for wastewater lagoon replacement	600,000
142. MT	The City of Helena for Missouri River wastewater treatment plant improvements	300,000
143. MT	The City of Conrad for Conrad Wastewater Treatment Facility Improvements	500,000
144. NC	Lower Cape Fear Water and Sewer Authority, Leland, for Water and Sewer Improvements	300,000
145. NC	The Neuse Regional Water and Sewer Authority, Kinston, NC for water treatment system project	300,000
146. NC	The City of Mount Airy, Surry County for Water and Wastewater Infrastructure along the I-77 and I-74 Interstates Corridor	500,000
147. NC	The City of Durham for Water and Wastewater Improvements	500,000
148. NC	The Town of Cary for Planning, Design, and Permitting for the Western Wake Regional Wastewater Management Facilities	500,000
149. NC	The Town of Troy, Montgomery County for the Pump Station Improvement Project	500,000
150. NC	The Town of Murphy, Cherokee County for the U.S. Highway 74 19/129 Sewer Project	500,000
151. ND	The City of Washburn for water treatment plant improvements	200,000
152. ND	The City of Riverdale for water treatment plant upgrades	300,000
153. ND	Southeast Water Users District for upgrades for the rural water system	300,000
154. ND	The Cities of Fortuna, Noonan and Columbus for the BDW Water Systems Association water system improvements and expansion	200,000
155. ND	The City of Lakota for water treatment plant upgrades	200,000
156. ND	The North Central Rural Water Consortium for rural water system expansion	100,000
157. ND	Walsh Rural Water District for water system improvements	100,000
158. NE	The City of Lincoln for wastewater treatment facilities upgrade project	600,000
159. NE	The City of South Sioux City for wastewater system improvements	500,000
160. NE	The City of Omaha for combined sewer separation project.	400,000
161. NH	The City of Manchester for stormwater facilities construction project	500,000
162. NH	Goffstown for Danis/Lynchville Water and Sewer Project	300,000
163. NH	Lancaster for drinking water improvements project	225,000
164. NH	The Town of Jaffrey for wastewater and water quality protection project	300,000
165. NH	The City of Greenfield for wastewater treatment project	300,000
166. NJ	The Bayonne Municipal Utilities Authority for combined sewer overflow improvements	400,000
167. NJ	Passaic Valley Sewer Commission for Water and Wastewater Infrastructure Improvements	500,000
168. NJ	Pennsauken Township for combined sewer study	200,000
169. NJ	The Kearny Municipal Utilities Authority for wastewater pumping station improvements	300,000
170. NJ	The Borough of Sussex for the Hamburg Avenue Water Line	400,000
171. NM	The City of Rio Rancho for water system upgrades	300,000
172. NM	Albuquerque / Bernalillo County for Valley Utilities Project	400,000
173. NM	The City of Belen for wastewater facility improvement project	400,000
174. NM	The City of Aztec for Municipal Wastewater Treatment	500,000
175. NM	West Mesa and the City of Las Cruces for water and wastewater system improvements project	400,000
176. NM	The Town of Bernalillo for Arsenic and Water System Improvements	500,000
177. NM	The Pueblo of San Felipe for Water and Wastewater Infrastructure Improvements	400,000
178. NM	The City of Santa Fe for Water Distribution Infrastructure	500,000
179. NV	The City of Fallon for Wastewater System Improvement	500,000
180. NV	The City of Reno for sewer extension project	400,000
181. NV	The City of Carson City for water system improvements	300,000
182. NV	The Moapa Valley Water District for arsenic treatments	300,000
183. NV	Esmeralda County for water system improvements	100,000
184. NV	The Town of Overton for the Collection System Infiltration Study	212,000
185. NY	The Village of Oswego for wastewater treatment facilty improvements	300,000
186. NY	The Village of Sydney for water system improvements	300,000
187. NY	Monroe County Water Authority for the Southeast Service Area Reliability Improvements	500,000

State	Project	Amount
188. NY	The City of Buffalo, Erie County Water Authority for the Ball Pump Station Emergency Power Generation	500,000
189. NY	The City of Middletown for Water and Wastewater Improvements	400,000
190. NY	The City of New York for the Twin Lakes Restoration Project	500,000
191. NY	The City of Rye for Sewer Pump Station Repairs	200,000
192. NY	The Town of Bethel for Sewer Extension	1,000,000
193. NY	The Town of Geneva, Water District 12 for Water Infrastructure	500,000
194. NY	The Town of Goshen for the Hambletonian Park Water Main Replacement	400,000
195. NY	The Town of Halfmoon for the Halfmoon Water Line	500,000
196. NY	The Town of Marcellus for Drinking Water Infrastructure Improvements	500,000
197. NY	The Village of Briarcliff Manor for Sewer Upgrades	300,000
198. NY	The Village of Lyndonville for the Wastewater Treatment Plant	440,000
199. NY	The Village of Mamaroneck for Sewer System Upgrades	200,000
200. OH	The Ohio River Valley Water Sanitation Commission for organic detection system improvements	300,000
201. OH	Burr Oak for drinking water plant construction project	300,000
202. OH	The City of Columbus, Columbus Downtown Development Corporation for the Scioto Mile River Level Park Project	500,000
203. OH	The City of Elyria for the Water Treatment Intake Plant	380,000
204. OH	The City of Port Clinton, Ottawa County for the Watermain Corrosion and Sanitary Sewer Program	500,000
205. OH	The City of Zanesville, Muskingum County Commission for the West Pike Sanitary Sewer	500,000
206. OH	The Office of the Trumbull County Commissioners for the Scott Street Sanitary Sewer in Newton Falls	500,000
207. OH	The Village of Rushville for Sewage Infrastructure Improvements	402,000
208. OK	The City of Ardmore for wastewater and water quality protection project	300,000
209. OR	The City of Coburg for a Wastewater System Project	500,000
210. OR	The City of Portland for decentralized stormwater management system improvements	550,000
211. PA	Monongahela Township, Greene County for Sewer system upgrades	300,000
212. PA	Three Rivers Wet Weather Demonstration Program for Continuation of the Wet Weather Demo Program	800,000
213. PA	Franklin Township for wastewater upgrade and water quality protection project	200,000
214. PA	The Borough of Cochranton for wastewater collection and treatment facilities construction project	200,000
215. PA	The Borough of Bridgeport for Combined Sewer Overflow Infrastructure Improvements	400,000
216. PA	Somerset County for Waterline Construction Project	200,000
217. PA	The Borough of Stoystown, Somerset Township Municipal Authority for Stoystown Water Project	675,000
218. PA	The Borough of Bellefonte for waterline replacement project	100,000
219. PA	The City of Scranton for wastewater and stormwater infrastructure project	100,000
220. PA	New Castle, Lawrence County Planning Office for Water and Wastewater Infrastructure Improvements at Millennium Park	500,000
221. PA	The Borough of Slatington for Wastewater Infrastructure Improvements	165,000
222. PA	The City of Cressona, Cressona Borough Authority for the Cressona Belt Filter Press	80,000
223. PA	The City of Hershey, Derry Township Municipal Authority for Wastewater Treatment Facility	83,000
224. PA	The City of Lock Haven, Clinton County Municipal Authority for Sewer Pump Station Construction in Woodward Township	500,000
225. PA	The City of Williamsport, Lycoming Department of Planning and Community Development for a Water System for Muncy Industrial Park	500,000
226. PA	The Township of Cecil, Cecil Township Municipal Authority for the Miller's Run Sewer System	500,000
227. PA	Yardley, Yardley Borough Sewer Authority for Wastewater Infrastructure	500,000
228. RI	The City of East Providence for Nutrient Removal	700,000
229. RI	The City of Warwick for water transmission system improvements	500,000
230. RI	The City of Newport for water pollution control management	300,000
231. SC	The City of West Columbia for wastewater line replacement project	150,000
232. SC	The City of Charleston for stormwater drainage system project	150,000
233. SC	The City of Gaffney for the Water Treatment Plant Upgrade	1,000,000
234. SC	The Town of Andrews for Water and Wastewater Improvements	500,000
235. SD	The City of Box Elder for water infrastructure improvements	500,000
236. SD	The City of Rapid City for Source Water Protection Improvements	600,000
237. TN	Claiborne County, wastewater treatment project, Harrogate, TN	1,000,000
238. TN	Johnson County for Sutherland Water Line Extension project	300,000
239. TN	Morgan County for Gobey Community water system improvement project	300,000
240. TN	The Town of Collierville, Public Works Department for Wastewater Infrastructure	200,000
241. TX	The City of Austin Water Utility for wastewater treatment upgrade project	300,000
242. TX	Lanana Creek for the stormwater project	800,000
243. TX	The City of San Antonio, San Antonio Water System for the Central Watershed Sewer Relief Line C-02	800,000
244. TX	Richmond, Fort Bend County for a Water and Wastewater Project	500,000
245. TX	The City of Grandview for an Elevated Water Storage Tank	500,000
246. TX	The City of Hillsboro for Water and Wastewater System Improvement	500,000
247. TX	The City of Killeen for Water and Sewer Infrastructure	500,000
248. TX	The City of Sabinal for Wastewater Treatment Facility Project	200,000
249. UT	Syracuse City for drinking water improvement project	500,000
250. UT	Centerfield for drinking water improvement project	1,100,000
251. UT	Salt Lake City for water quality protection project	300,000
252. UT	The City of Riverton for the Water Pump Station	500,000
253. VA	The Town of Onancock for wastewater treatment plant project	300,000
254. VA	The City of Lynchburg for sewer infrastructure improvements	300,000
255. VA	Fairfax County, Stormwater Planning Division for Stormwater Management Planning	700,000
256. VA	Henry County, Henry County Public Service Authority for Water Infrastructure Improvements	500,000
257. VA	The City of Alexandria and Arlington County for Four Mile Run	700,000
258. VT	The Town of Pownal for wastewater upgrades	750,000
259. VT	The Town of Hardwick for water system upgrades	500,000
260. WA	The City of Monitor, Chelan County Public Utilities District, for drinking water upgrades	600,000
261. WA	The City of Winlock for wastewater treatment plant upgrades	400,000
262. WA	The City of West Richland for water treatment system upgrades	300,000
263. WA	Mason County for Wastewater Infrastructure Improvements for the Community of Belfair	2,000,000
264. WA	Seattle, Seattle Public Utilities for South Park Drainage Project	500,000
265. WA	Skokomish, Skokomish Indian Tribal Nation for Wastewater Treatment	1,000,000
266. WA	The City of Longview for a water treatment facility	500,000
267. WA	The City of Mercer Island for the Mercer Island Sewer Lake Line Replacement	500,000
268. WA	The City of Mountlake Terrace for Water Main System Replacement	500,000
269. WA	The City of Puyallup for Water and Wastewater Infrastructure	500,000
270. WI	The City of Waukesha for drinking water improvements	600,000
271. WI	The City of Green Bay for storm water facilities improvements	400,000
272. WI	Holcombe, the Lake Holcombe Sanitary District for Wastewater Treatment and Sewer System Upgrades	1,000,000
273. WI	The City of Peshtigo for Water System Improvements	500,000
274. WV	The City of Moorefield for wastewater treatment plant improvements	3,000,000
275. WV	The Mingo County Redevelopment Authority for water and sewer improvements	3,000,000
276. WV	The City of Milton for Milton Water System Improvements	1,000,000
277. WV	The City of Pennsboro for Wastewater Infrastructure Improvement	550,000
278. WV	The City of Weston for the Jackson's Mill Waterline	250,000
279. WV	The City of Westover for Sanitary Sewer Service Upgrade	825,000
280. WY	The City of Cheyenne for wastewater treatment plant upgrade project	300,000
	Total	135,000,000

Categorical Grants: 1. Pollution Control Sec. 106 grants: The Agency may not withhold funds for an NPDES permit fees pilot program and is directed to use the same allocation method as used in prior years.

2. Targeted Remediation Project Grants: Funding is provided through General Provisions in Title IV.

3. Targeted Watershed Grants: The funds provided for this program are directed to the continuation of grants provided in the prior year for the Western Estuaries Program.

4. Underground Storage Tanks: The amended bill retains a small amount of the requested level in this account, while moving the vast majority to the Leaking Underground Storage Tank account. The funds remaining in this account will cover the state activities not authorized by either section 9003(h) of the Solid Waste Disposal Act or the Energy Policy Act of 2005.

Bill Language: Language is included, as proposed by the House, making up to $75,000,000 in Clean Water State Revolving Funds available for decentralized wastewater and stormwater projects. The amended bill also includes language, as proposed by the House, to provide funds for Targeted Watershed Grants and concerning Tribal grants for the underground storage tank program. Language, as proposed by the Senate, is included referencing special projects grants and to provide funds for Emission Reduction Grants in California.

The amended bill includes a set aside of $18,500,000 from the Section 106 Water State Grant for water quality monitoring activities. However, the amended bill does not include language, proposed by the Senate, limiting the funds for water quality monitoring to those activities that meet EPA standards for statistically representative monitoring programs.

Language proposed by the Senate for the Hunter's Point and Tar Creek projects has been moved to the General Provisions section in Title IV.

Senate Language related to the $5,000,000 rescission of prior year funds for Title II of the Federal Water Pollution Control Act is carried in the Administrative Provisions section, as proposed by the House.

ADMINISTRATIVE PROVISIONS, ENVIRONMENTAL PROTECTION AGENCY

(INCLUDING RESCISSION OF FUNDS)

The amended bill includes minor technical corrections to the language on consultants pay. A provision rescinding $5,000,000 from prior year funds for Title II of the Federal Water Pollution Control Act is included here, as proposed by the House. The amended bill includes language, as proposed by the Senate, to mandate that $3,500,000 from the Environmental Program and Management account be used for activities related to mandatory reporting of greenhouse gas emissions. The language requires a draft rule nine months after enactment of this bill and a final rule 18 months after enactment. The amended bill does not include language proposed by the House on a multi-sector greenhouse gas regulation.

TITLE III—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST AND RANGELAND RESEARCH

The amended bill provides $290,457,000 for Forest and Rangeland Research instead of $295,937,000 as proposed by the House and $291,807,000 as proposed by the Senate. The forest inventory and analysis program is provided $61,329,000 instead of $62,329,000 recommended by the House and the Senate; this is an increase of $1,949,000 above the fiscal year 2007 level. Fixed costs are provided as recommended by the Senate and the following specific project funding levels instead of the levels recommended by the Senate: Center for Bottomland Hardwoods, MS, $400,000; Northeastern States Research Cooperative, $2,200,000 including $850,000 for both Vermont and New Hampshire, $300,000 for Maine and $200,000 for New York. The remaining increase above the request is for base programs. The Appropriations Committees have agreed with the Senate recommendation directing the Service to maintain the base budgets of individual research stations at or near prior year levels.

STATE AND PRIVATE FORESTRY

The amended bill provides $266,974,000 for State and Private Forestry instead of $280,602,000 as proposed by the House and $272,542,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is in the back of this Division. The amended bill includes the House and Senate recommendations unless contradicted by the discussion below.

Forest Health Management.—The amended bill provides $54,967,000 for Federal Lands Forest Health Management as proposed by the Senate instead of $53,963,000 as proposed by the House. The amended bill includes $45,248,000 for cooperative lands forest health management instead of $47,104,000 as proposed by the House and $47,248,000 as proposed by the Senate. Within available funds, the Forest Service should provide funding for gypsy moth slow-the spread, suppression and eradication programs and western mountain bark beetle management at historic funding levels.

Cooperative Fire Protection.—The amended bill includes $33,122,000 for State Fire Assistance as proposed by the House and the Senate. The amended bill includes $6,000,000 for volunteer fire assistance instead of $9,000,000 as proposed by the House and $5,912,000 as proposed by the Senate. Note that the amended bill also includes additional funds for State fire and volunteer fire assistance as part of the national fire plan funding within the wildland fire management account and retains $6,000,000 in the Bureau of Land Management wildland fire management account for rural fire assistance, which was eliminated in the House and administration recommendations. The Forest Service and the Department of the Interior wildfire officials are encouraged to collaborate and cooperate with States and other stakeholders when allocating these assistance grants. The House recommendation should be followed so that allocations of fire assistance grants to regions and States must carefully consider actual program needs and local urgency, particularly with regard to community protection in the wildland urban interface.

Forest Stewardship.—The amended bill includes $30,000,000 for Forest Stewardship instead of $36,947,000 as proposed by the House and $34,288,000 as proposed by the Senate. The Chesapeake Bay program receives $950,000 as recommended by the Senate.

Forest Legacy Program.—The amended bill provides $53,146,000 for Forest Legacy instead of $56,336,000 recommended by the House and $48,095,000 reported in the Senate. The funds for other Forest Service priority projects should be used according to the results of the national competitive selection process to fund projects in priority order, but not provide additional funds for any item listed here. Funds should be distributed as follows:

State	Project	Amount
AL	Mobile Tensaw Delta	$2,000,000
AR	Moro Big Pine	2,215,000
CA	Chalk Mountain Ranch—Six Rivers to the Sea	2,000,000
CT	Skiff Mountain phase II	770,000
GA	Paulding County Land Area	3,500,000
HI	Kealakekua Ranch	1,989,000
ID	Gold Creek Ranch	1,600,000
KY	Marrowbone Creek	1,122,000
ME	Lower Penobscot Forest	3,300,000
MI	Northern Great Lakes Forest (Kamehameha)	2,000,000
MN	Koochiching	3,500,000
MT	North Swan River Valley	2,000,000
NC	Clarendon Plantation	1,500,000
NH	Ossipee Pine Barrens	2,380,000
NJ	Sparta Mountain South	2,500,000
NM	Vallecitos High Country	1,145,000
SC	Piedmont of South Carolina (Belfast)	1,500,000
TN	Big Forks	1,000,000
TX	Turkey Creek	1,500,000
UT	Chalk Creek South Fork #2	1,400,000
VA	Nottoway River	1,500,000
VT	Brushwood/West Fairlee Community Forest	1,500,000
WI	Northern Wild Rivers	2,300,000
WV	Potomac River Watershed South Branch	750,000
	Other Forest Service Priority Projects	9,775,000
	Subtotal, Line Item Projects	54,746,000
	Administration	5,900,000
Offset from unobligated balances	−7,500,000.	
	Total, Forest Legacy	$53,146,000

The amended bill does not include bill language proposed by the Senate requiring notification of the Committees on Appropriations when the Forest Service makes funds available for specific forest legacy projects.

Urban and Community Forestry.—The amended bill includes $28,130,000 for the Urban and Community Forestry program instead of $31,130,000 as proposed by the House and $30,846,000 as proposed by the Senate. Project funding includes: $200,000 for urban forestry cooperative activities in El Segundo, CA; $500,000 for the Seattle-Tacoma regional urban forestry effort; $350,000 for Chicago urban tree planting; and $200,000 for Indianapolis tree planting.

Economic Action Programs.—The amended bill includes $4,273,000 for the Economic Action Programs instead of zero funding as proposed by the House and $6,523,000 as proposed by the Senate. The amended bill provides $250,000 to the Washington Family Forest Foundation to complete a State and private landowner management database; $200,000 to the Northern Forest Center to continue sustainable forestry grants; $500,000 to Purdue University to fund wood products technology development at the Hardwood Scanning Technology Center; $350,000 to the State of Vermont to fund grants and technical assistance to wood products businesses through the Vermont Wood Products Collaborative; $1,300,000 to Forest Service Region 5 for infrastructure assistance grants to help sustain the region's small forest products businesses; and an increase of $1,673,000 above the request to restore funding for the Wood Education and Resource Center to last year's enacted level, for a total of $2,673,000.

Forest Resource Information and Analysis.—The amended bill includes $4,588,000 for Forest Resource Information and Analysis as proposed by the Senate instead of $5,000,000 as proposed by the House.

International Program.—The amended bill includes $7,500,000 for the International Program instead of $8,000,000 as proposed by the House and $6,953,000 as proposed by the Senate.

NATIONAL FOREST SYSTEM

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides $1,492,868,000 for the National Forest System instead of $1,506,502,000 as proposed by the House and $1,500,234,000 as proposed by the Senate. Funds should be distributed as follows:

Land management planning	$49,607,000
Inventory and monitoring	169,220,000
Recreation, heritage & wilderness	266,797,000
Wildlife & fish habitat management	134,483,000
Grazing management	48,926,000
Forest products	327,614,000
Vegetation & watershed management	180,249,000
Minerals and geology management	85,476,000
Landownership management	92,746,000
Law enforcement operations	134,000,000
Valles Calderas National Preserve, NM	3,750,000
Total	1,492,868,000

The amended bill includes the House and Senate recommendations unless contradicted by the discussion below.

Inventory and Monitoring.—The amended bill includes $700,000 for the NASA Stennis Space Center in Mississippi to acquire remote sensing data to inventory and monitor Federal and non-Federal lands pursuant to Title IV of the Healthy Forest Restoration Act.

Recreation, Heritage, and Wilderness Management.—The amended bill includes the Senate recommendation for fixed costs and $250,000 to demarcate wilderness boundaries in Nevada. The remaining increase is for base programs and the agency is directed to use a portion of these funds to increase the base funding level for the operation of the various national scenic and historic trails over the enacted level.

Forest Products.—The amended bill provides $327,614,000 for Forest Products instead of $332,614,000 as proposed by the House and $326,176,000 as proposed by the Senate. The amended bill does not include the House recommendation to set-aside $10,000,000 for high revenue units but does include the Senate proposed earmark in bill language of $4,000,000 for Tongass national forest timber sales preparation. The amended bill supports the policy in the budget request to fund forestry activities in support of the President's Pacific Northwest forest plan; regional allocations from this account may be adjusted but must provide at least the actual capability funding level and other sources should also be considered to further assist plan implementation. The Service should carefully consider allocating timber sales funding to those areas where existing roads are available and where there are lower engineering costs for making roads suitable for harvest activities.

Vegetation and Watershed Management.—The amended bill includes the Senate recommendation for fixed costs and $350,000 for leafy spurge control in North Dakota. The remaining increase is for base programs.

Minerals and Geology Management.—The amended bill provides funding for fixed costs as recommended by the Senate. The direction proposed by the House is modified so that the first priority for use of the increased funds above the request should be managing geologic hazards and resources and managing environmental compliance and restoration, including mitigation of abandoned mine lands. Processing mineral applications may be considered thereafter. The Senate recommendation is retained requiring the Forest Service to provide a report on prioritization of abandoned mine land cleanup on national forest lands within 90 days of enactment of this Act.

Law Enforcement operations.—The amended bill retains the House recommended $500,000 increase for methamphetamine prevention on the Mark Twain NF, MO and the Senate recommended $900,000 increase for the Daniel Boone NF, KY anti-drug effort. Use of other funds above the request should follow Senate instructions.

Valles Caldera National Preserve.—The Senate proposal concerning allocation of funds is modified. Rather than directing a specific percentage of funds be split between salaries/operations and infrastructure improvements, the Preserve management should minimize overhead and administrative expenses to the greatest extent practicable and make a strong effort to improve the infrastructure at the site so that it may be enjoyed by more members of the public. The report recommended by the Senate on economic self-sufficiency is required.

Other.—The specific allocation of extra funds for challenge cost share recommended by the House is not included but the Service should continue this program with available funds in a similar manner as in the past.

Note that section 423 of the amended bill retains $15,000,000 of the Senate-recommended transfer of purchaser elect road funds to regions for vegetative, fuels and road treatments.

CAPITAL IMPROVEMENT AND MAINTENANCE

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides $481,895,000 for Capital Improvement and Maintenance instead of $520,197,000 as proposed by the House and $444,090,000 as proposed by the Senate. The amended bill includes the House and Senate recommendations unless countered by the discussion below. The amount provided includes a transfer of $25,000,000 from the purchaser elect road fund instead of $40,000,000 in the House bill and no transfer in the Senate recommendation. The Senate included language in Title IV (Senate section 421) which distributed $40,000,000 from the purchaser elect road fund to Forest Service regions for certain vegetation management and maintenance needs, which is modified as noted above. In addition, funds from the road and trail fund are transferred to the Treasury as recommended by the House, providing approximately $15,000,000 which has been included in this account. The Senate had recommended that the road and trail fund be allocated following instructions included in Title IV. House recommended bill language providing for decommissioning of certain unauthorized roads is retained. Funds should be distributed as follows:

Activity/Project	*Amount*
Facilities:	
Maintenance	$64,310,000
Capital Improvement	56,039,000
Congressional Priorities:	
Chattanooga airtanker base (TN)	750,000
Monongahela NF campground improvements, WV	600,000
Okhissa Lake recreation improvements, MS	1,000,000
Cloud Cap Inn rescue base (OR)	300,000
Hawaii Experimental Forest planning and design	685,000
Subtotal Facilities	123,684,000
Roads:	
Maintenance	136,536,000
Capital Improvement	93,140,000
Congressional Priorities:	
Monongahela NF road improvements, WV	1,860,000
Subtotal Roads	231,536,000
Trails:	
Maintenance	45,815,000
Capital Improvement	31,460,000
Congressional Priorities:	
Monongahela NF, WV	300,000
Subtotal Trails	77,575,000
Infrastructure Improvement:	
Deferred Maintenance	9,100,000
Legacy Road and Trail Remediation Program:	
Legacy roads and trails program	40,000,000
Total, Capital Improvement and Maintenance	481,895,000

The Service should focus its timber road program when practicable to areas that do not need expensive construction or engineering support. The recommendation includes base funding for maintenance, construction, and operation of the network of national scenic and historic trails at least $2,000,000 above the fiscal year 2006 levels. The amended bill includes the House recommendation for the legacy road and trail remediation program but at a reduced level of $40,000,000; these funds are for urgently needed road decommissioning, road and trail repair and maintenance, removal of certain fish passage barriers, or for protection of community water sources and the allocation of funds to regions should carefully consider regional needs and project readiness for these urgently needed activities.

The amended bill includes the Senate recommendation to transfer previously appropriated funds to West Virginia University for a shared-use research greenhouse facility as the Federal share in the construction.

LAND ACQUISITION

The amended bill includes $42,490,000 for land acquisition instead of $44,485,000 as proposed by the House and $48,245,000 as proposed by the Senate. Funds should be distributed as follows:

State	Project Description	Amount
AL	Alabama National Forests	$750,000
CO	Arapaho NF	1,000,000
MT	Beaverhead-Deerlodge NF	4,500,000
SD	Black Hills NF	1,000,000
WI	Chequamegon-Nicolet NF	2,300,000
TN	Cherokee NF	3,100,000
OR/WA	Columbia River Gorge NSA	1,000,000
AK	Craig Recreation Land transfer	500,000
KY	Daniel Boone NF	175,000
FL	Florida National Scenic Trail	580,000
VT	Green Mountain NF	1,350,000
IN	Hoosier NF Unique Areas	525,000
MI	Huron-Manistee NF	215,000
OR/WA	Multiple Northwest National Forests	750,000
MI	Ottawa NF	1,000,000
CA	Pacific Crest National Scenic Trail	1,600,000
ID	Payette NF	900,000
CA	San Bernardino NF - Santa Rosa San Jacinto NM	500,000
IL	Shawnee NF	850,000
MN	Superior NF	1,250,000
CA	Tahoe and El Dorado NF	2,000,000
UT	Uinta & Wasatch NF	1,345,000
CO	Uncompahgre NF	1,000,000
UT	Wasatch-Cache NF	1,250,000
ME	White Mountain NF	550,000
	Subtotal, Line Item Projects	29,990,000
	Acquisition Management	10,000,000
	Equalization	1,000,000
	Inholdings	1,500,000
	Total, FS Land Acquisition	42,490,000

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The amended bill provides $1,053,000 for the Acquisition of Lands for National Forests Special Acts as recommended by both the House and the Senate.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The amended bill provides an indefinite appropriation estimated to be $231,000 for the Acquisition of Lands to Complete Land Exchanges as proposed by both the House and the Senate.

RANGE BETTERMENT FUND

The amended bill provides an indefinite appropriation estimated to be $3,750,000 for the Range Betterment Fund as proposed by both the House and the Senate.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

The amended bill provides $56,000 for Gifts, Donations and Bequests for Forest and Rangeland Research as proposed by both the House and the Senate.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The amended bill provides $5,053,000 for Management of National Forest System Lands for Subsistence Uses in Alaska as proposed by both the House and the Senate.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides $1,974,276,000 for Wildland Fire Management instead of $1,974,648,000 as proposed by the House and $1,982,482,000 as proposed by the Senate. The amended bill includes the House and Senate recommendations unless contradicted by the discussion below. The amended bill does not require establishment of a high level commission recommended by the House to propose alternative methods to fund and manage fire suppression and firefighting capacity. The Committees on Appropriations and the authorizing committees of jurisdiction are working on these issues.

Wildfire Preparedness: $676,370,000 for preparedness as proposed by the Senate instead of $675,382,000 proposed by the House. The amended bill reiterates the direction contained in the House and Senate reports regarding the need to maintain the level of fire readiness established in fiscal year 2006. The Appropriations Committees remain dissatisfied that the Forest Service and Department of the Interior have failed to produce and deploy the Fire Program Analysis system as an urgently needed fire preparedness planning tool so the House and Senate direction should be followed.

The Appropriations Committees are aware that the Forest Service is facing challenges to recruit and retain wildland firefighters in Region 5, particularly on Southern California forests, due to the agency's vastly different pay scales and personnel policies and the high cost of living in the region. The Forest Service should examine Federal firefighter pay and personnel policies and provide the House and Senate Committees on Appropriations with a proposal to increase recruitment and retention for Southern California forests no later than February 1, 2008. Note that flexibility has been provided to adjust preparedness and suppression funding to implement such a plan if the agency determines it is in the interest of public safety and to reduce future suppression costs.

Wildfire Suppression Operations—The amended bill includes $859,021,000 for suppression operations as proposed by both the House and the Senate. This provides the full amount of the ten-year average cost of wildfire suppression increased for inflation, an increase of $117,544,000 above the fiscal year 2007 funding level. Funds designated for wildfire suppression shall be assessed for cost pools on the same basis as such assessments are calculated against other agency programs. Note that Title V includes $222,000,000 in emergency funds in case next season has extreme needs beyond the increased funding provided herein.

Other Wildfire Operations.—The amended bill includes $438,885,000 for other fire operation activities instead of $440,245,000 as proposed by the House and $447,091,000 as proposed by the Senate. Funds should be distributed as follows:

Program	*Amount*
Hazardous fuels	$315,000,000
Rehabilitation & restoration	11,000,000
Research & development	23,892,000
Joint fire science	8,000,000
Forest health management-Federal	14,252,000
Forest health management-cooperative	10,014,000
State and community fire assistance	48,727,000
Volunteer fire assistance	8,000,000
Total other wildfire operations	438,885,000

Hazardous fuels.—The amended bill provides an increase of $13,472,000 over the fiscal year 2007 level and $23,467,000 over the Administration request. The ferocious 2007 fire season burned more than 8.9 million acres nationwide—including more than half a million acres alone in Southern California during an October 2007 Santa Ana wind event—and further underscores the need to reduce the risk of catastrophic wildfire and to provide community protection. The amended bill also supports direction provided by the Senate to the Forest Service to allocate hazardous fuels funds according to a model that prioritizes fuels treatments in the wildland-urban interface and gives greater weight to areas with high fuel loads, high population densities, and higher relative values at risk. The amended bill also concurs with the Senate direction and directs the Forest Service to provide recommended allocations within 30 days of the signing of the bill and 14 days prior to releasing funds to the field.

The amended bill allows up to $10,000,000 of hazardous fuels funds to be transferred to the "National Forest System" account at the sole discretion of the Chief of the Forest Service 30 days after notifying the Appropriations Committees. A total of $7,000,000 is provided for biomass utilization grants of which $2,000,000 is for the biomass to ethanol pilot project managed by the Forest Products Lab. The Senate recommended funding for the Southwest Ecological Restoration Institutes is provided but this is the sole Federal support for these institutions working under authorities related to P.L. 108–317; the allocation includes $2,000,000 for Northern Arizona University, $350,000 for New Mexico Highlands University and $250,000 for Colorado State University. The joint report with the Department of the Interior on hazardous fuels funding allocations is required as directed by the House and should be delivered 120 days after enactment.

Rehabilitation.—The Forest Service and the Department of the Interior should provide a detailed accomplishment report 120 days after enactment of this Act, including a plan of future work, for the native plant materials program.

Fire plan research and development.—The University of Idaho FRAMES project total allocation is $650,000.

State fire assistance.—The amended bill modifies the Senate recommendation to include $4,000,000 to fund fire risk reduction activities by Fire Safe Council chapters in California and retains $1,000,000 for the South Lake Tahoe Public Utilities District for improvements to increase water system pressure in case of fire. It also provides $2,500,000 for Alaska, of which $1,000,000 is for the Kenai Peninsula Borough, $200,000 is for the Cook Inlet tribal council, $300,000 is for Fairbanks North Star Borough, $500,000 is for the Matanuska-Susitna Borough, and $500,000 is for the Municipality of Anchorage. Senate instructions on distribution of these funds should be followed by the Service.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The amended bill includes the Senate limitation of funds for abolishing or moving certain offices. The House language is retained regarding use of funds for international program activities; the Foreign Agricultural Service need not be involved in Forest Service International Program activities, grants or agreements. Bill language provided by the House limits $24,021,000 of funds available to the Forest Service for transfer to the Department of Agriculture for Department Reimbursable Programs, commonly referred to as Greenbook charges. Funds available to the Forest Service shall be available to conduct a program of up to $5,000,000 for priority projects within the scope of the approved budget, of which $2,500,000 may be carried out by the Youth Conservation Corps and $2,500,000 may be carried out under the authority of the Public Lands Corps Healthy Forests Restoration Act. The House recommended funding of $3,000,000 for the National Forest Foundation is retained, as is the Senate language which does not provide for any of these funds to be used for administrative expenses of the Foundation. Senate language is retained regarding funding for technical assistance to rural communities and certain businesses and reimbursement for limited Office of General Counsel travel expenses.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

The amended bill includes $3,018,624,000 for Indian Health Services instead of $3,023,532,000 as proposed by the House and $2,991,924,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division.

The funding distribution follows the House proposal, except that $27,000,000 is included for the catastrophic health emergency fund; $14,000,000 is included for the methamphetamine treatment and prevention initiative; $14,000,000 is included for the Indian health care improvement fund; $35,094,000 is included for the Urban health program; and $271,636,000 is included for contract support costs.

The amended bill includes language that allows the director of the Indian Health Service to distribute the funding for the methamphetamine treatment and prevention program to the areas with the greatest need within Indian country. The bill also allows up to $5,000,000 of these funds to be used for the behavioral health issues associated with methamphetamine use including combating youth suicide. Tele-medicine technology should be used when possible to support remote or isolated communities that would otherwise have difficulty obtaining services.

The Indian Health Service is directed to allocate the Indian Health Care Improvement Act funding to bring those units with the highest level of need up to at least 40 percent of need before allocating any additional funds to units with needs above 40 percent.

The Service is directed to provide technical assistance to the Nevada Indian Health Board, as needed, to facilitate its establishment as an entity that can both adequately address health issues of the Nevada tribes and effectively represent these same issues to the Indian Health Service at both the Phoenix Area and the national headquarters levels.

INDIAN HEALTH FACILITIES

The amended bill includes $380,583,000 for Indian health facilities instead of $360,895,000 as proposed by the House and $375,475,000 as proposed by the Senate. A detailed display of the funding for all programs and activities is included in the back of the statement for this Division. Funds should be distributed as follows:

	Amount
Maintenance and Improvement	$53,727,000
Sanitation Facilities	95,747,000
Health Care Facilities Construction	37,164,000
Hospital and Clinic Construction	32,664,000
Small Ambulatory	2,500,000
Dental Units	2,000,000
Facilities and Environmental Health Support	172,326,000
Equipment	21,619,000
Total	$380,583,000

The amended bill does not include specific recommendations for funding of health facilities construction projects as provided by both the House and the Senate. Instead, it is expected that the Indian Health Service will use the amounts provided within this activity for the highest priority projects from the Service's list, for which construction has already been initiated and for which additional funding is required to keep the project on schedule. The Service may also use construction funds to begin design on not to exceed one project from the current priority list that has met all of the program requirements and is ready to proceed without delay.

The amended bill does not contain funding for the joint venture program as recommended by the Senate instead of $2,000,000 as recommended by the House. It is understood that sufficient funds remain available from within amounts provided for joint ventures in previous fiscal years to fund an additional two projects from the last solicitation list. These funds are available because of savings achieved by the Service and tribes in negotiating their agreements. In determining priorities for project funding under the joint ventures program for hospitals and clinics, the Service should provide additional credit to tribes that are willing to provide full funding for facility equipment in addition to providing full funding for facility construction.

NATIONAL INSTITUTES OF HEALTH

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

The amended bill provides $78,775,000 for the National Institute of Environmental Health Sciences, instead of $79,117,000 as proposed by the House and $78,434,000 as proposed by the Senate.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY

TOXIC SUBSTANCES AND ENVIRONMENTAL PUBLIC HEALTH

The amended bill provides $75,212,000 for Toxic Substances and Environmental Health, as proposed by the House instead of $75,004,000 as proposed by the Senate. Senate proposed language to limit the number of toxicological profiles conducted by the Agency is not included.

From within the amount appropriated, ATSDR is expected to assess the extent of children's exposure to mercury from former industrial sites and other sources nationwide, and to issue a report of its findings 12 months after the date of enactment of this bill. ATSDR is further expected, in collaboration with the Centers for Disease Control and Prevention, to continue to provide biomonitoring, exposure assessment, clinical evaluation, and education, as appropriate.

OTHER RELATED AGENCIES

EXECUTIVE OFFICE OF THE PRESIDENT

COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

The amended bill provides $2,703,000 for the Council on Environmental Quality and the Office of Environmental Quality, as requested by the President and as provided by both the House and Senate.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

SALARIES AND EXPENSES

The amended bill provides $9,410,000 for the salaries and expenses of the Chemical Safety and Hazard Investigation Board, instead of $9,049,000 as proposed by the Senate and $9,549,000 as proposed by the House.

Bill Language: The amended bill includes language proposed by the House, and carried in prior years, which authorizes the Inspector General of the Environmental Protection Agency to act as the Inspector General for the Board and specifies certain personnel issues related to this role.

The additional funding is intended to fund up to three new investigators, as proposed by the House. Additional funds have not been provided for video production support, as proposed by the House.

Consistent with House Report 110–187, GAO is directed to update its 2000 study and make further recommendations on the best way to provide an IG oversight function for the Board. Based on that report, the Committees on Appropriations will revisit this issue for fiscal year 2009.

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

SALARIES AND EXPENSES

The amended bill includes $9,000,000 for the office of Navajo and Hopi Indian relocation as proposed by both the House and the Senate.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

The amended bill includes $7,297,000 for the Institute of American Indian and Alaska Native Culture and Arts Development as proposed by both the House and the Senate.

SMITHSONIAN INSTITUTION

The amended bill includes a total of $693,447,000 for the Smithsonian Institution, an increase of $58,552,000 over the fiscal year 2007 level and an increase of $15,000,000 over the budget request. The increase over the budget request is to initiate a new Legacy Fund described below. Funding for the Smithsonian Institution includes:

	Amended bill
Salaries and Expenses	$571,347,000
Facilities Capital	107,100,000
Legacy Fund	15,000,000
Total, Smithsonian Inst.	693,447,000

SALARIES AND EXPENSES

The amended bill provides $571,347,000 for salaries and expenses instead of $536,295,000 as proposed by the House and $571,705,000 as proposed by the Senate. The amended bill approves the budget as requested by the President with two exceptions. The Office of Inspector General is increased by $100,000 above the request and the Chief Financial Officer is increased by $250,000. These increases are to be absorbed within the total request for salaries and expenses.

The large increase approved for the Smithsonian reflects increased confidence in the Institution after a period of great controversy. Since the budget was submitted in February, the Smithsonian Institution has moved aggressively to address longstanding governance and integrity issues. The senior leadership of the Institution has turned over and the Regents have reorganized themselves to ensure that the reform process begun after the departure of the previous Secretary is fully implemented. The Appropriations Committees believe that this reform effort will take many years, but the change in leadership and the reform efforts undertaken over the last eight months represent significant progress. The Committees will carefully monitor this continuing reform process to ensure that the Smithsonian does not backslide on this critical task.

FACILITIES CAPITAL

The amended bill includes $107,100,000 for the Facilities Capital account instead of $116,100,000 as proposed by the House and $125,000,000 as proposed by the Senate. The amended bill does not specify amounts for individual facility construction and repair projects. The Committees are aware, however, of urgent fire safety needs at the National Zoo and expect the Institution to work as expeditiously as possible to make the National Zoo and other facilities fire safe.

LEGACY FUND

The amended bill includes $15,000,000 to establish a Legacy Fund within the Smithsonian Institution appropriation. This new fund is intended to provide a means to address more aggressively the $2.5 billion backlog of major repair and restoration of the Institution's facilities that now exists. The Legacy Fund has been designed as a public-private partnership whereby each federal dollar provided must be matched by twice that amount in private contributions before the full $15,000,000 is made available. Assuming that the Smithsonian's efforts to raise the required private match are successful, the Legacy Fund will provide a total of $45,000,000 above amounts appropriated in the Facilities Capital account to be used solely for the purpose of bringing the Institution's facilities up to the world-class standard its collections and the visiting public deserve.

NATIONAL GALLERY OF ART

The amended bill includes a total of $119,735,000 for the National Gallery of Art, as proposed by the Senate instead of $119,867,000 as proposed by the House.

SALARIES AND EXPENSES

The amended bill includes $101,718,000 for salaries and expenses of the National Gallery of Art, as proposed by the Senate instead of $101,850,000 as proposed by the House.

The amended bill allocates not to exceed $3,350,000 for the special exhibition program, as proposed by the Senate instead of $3,239,000 as proposed by the House. The funding provided restores the reduction to repair and maintenance of fixed equipment by providing $4,928,000. The remaining increase over the request is provided for increased utility costs, art conservation services and supplies.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS

The amended bill provides $18,017,000 for repair, restoration and renovation of buildings, as proposed by the President and provided by the House and the Senate.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

The amended bill includes a total of $43,350,000 for the John F. Kennedy Center for the Performing Arts as proposed by both the House and the Senate.

OPERATIONS AND MAINTENANCE

The amended bill provides $20,200,000 for operations and maintenance of the Kennedy Center, as proposed by both the House and Senate. The increase above the request is intended for minor repairs at the Center.

CAPITAL REPAIR AND RESTORATION

The amended bill provides $23,150,000 as provided by the House and Senate.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

The amended bill provides $10,000,000 for salaries and expenses of the Woodrow Wilson International Center for Scholars as proposed by the House instead of $9,718,000 proposed by the Senate.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

The amended bill includes a total of $147,000,000 for the National Endowment for the Arts, instead of $160,000,000 as proposed by the House and instead of $133,412,000 as proposed by the Senate. This funding is allocated as follows:

	Amended bill
Direct Grants	$50,000,000
Challenge America Grants	9,400,000
National Initiative: American Masterpieces	13,500,000
State and Regional Partnerships	40,000,000
Underserved set-aside	8,600,000
Program support	1,700,000
Administration	23,800,000
Total, NEA	$147,000,000

NATIONAL ENDOWMENT FOR THE HUMANITIES

As shown below, the amended bill includes $147,000,000 for the two appropriation accounts which finance the National Endowment for the Humanities instead of $160,000,000 as proposed by the House and instead of $146,355,000 as proposed by the Senate. This funding has been allocated as follows:

	Amended bill
Federal State Partnership	$32,215,000
Preservation and Access	18,671,000
Public programs	12,910,000
Research Programs	13,209,000
Education Programs	12,801,000
Program development	362,000
We the People Initiative Grants	15,239,000
Digital Humanities Initiative	2,000,000
Administration	25,083,000
Subtotal, Grants & Admin.	132,490,000
Matching Grants:	
Treasury Funds	5,031,000
Challenge grants	9,479,000
Subtotal, Matching Grants	14,510,000
Total, NEH	$147,000,000

GRANTS AND ADMINISTRATION

The amended bill includes $132,490,000 for Grants and Administration instead of $145,500,000 as proposed by the House and instead of $131,845,000 as proposed by the Senate.

MATCHING GRANTS

The amended bill includes $14,510,000 for the matching grants program as proposed by the Senate instead of $14,500,000 as proposed by the House.

COMMISSION OF FINE ARTS

SALARIES (INCLUDING TRANSFER OF FUNDS) AND EXPENSES

The amended bill provides $2,092,000 for salaries and expenses of the Commission of Fine Arts as proposed by the House instead of $2,192,000 as proposed by the Senate.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

The amended bill provides $8,500,000 for National Capital Arts and Cultural Affairs instead of $10,000,000 as proposed by the House and $7,200,000 as proposed by the Senate. The amended bill does not include the House language limiting the amount a grantee can receive.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

SALARIES AND EXPENSES

The amended bill provides $5,348,000 for salaries and expenses of the Advisory Council on Historic Preservation as proposed by both the House and the Senate.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

The amended bill provides $8,265,000 for salaries and expenses of the National Capital Planning Commission as proposed by both the House and the Senate.

UNITED STATES HOLOCAUST MEMORIAL MUSEUM

HOLOCAUST MEMORIAL MUSEUM

The amended bill provides $45,496,000 for the Holocaust Memorial Museum as proposed by the Senate instead of $44,996,000 as proposed by the House. The increase above the budget request is provided to assist the Museum in meeting cost increases associated with opening the International Tracing Service archives. Senate recommended language is included that allows $515,000 to be available for the equipment replacement program until 2010.

PRESIDIO TRUST

PRESIDIO TRUST FUND

The amended bill includes $22,400,000 for payment to the Presidio Trust Fund as proposed by the House instead of $18,450,000 as proposed by the Senate.

WHITE HOUSE COMMISSION ON THE NATIONAL MOMENT OF REMEMBRANCE

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $200,000 for salaries and expenses of the White House Commission on The National Moment of Remembrance as proposed by the House and the Senate. The amended bill includes language to transfer administration and all future funds of the Commission to the Veterans Administration as proposed by the House.

DWIGHT D. EISENHOWER MEMORIAL COMMISSION

SALARIES AND EXPENSES

The amended bill provides $2,000,000 for salaries and expenses of the Dwight D. Eisenhower Memorial Commission. This Commission is authorized by Public Law 106-79. The House provided $1,000,000 for the Commission within the National Park Service National Recreation and Preservation account. In the Senate bill, $1,000,000 was provided within the Office of the Secretary.

TITLE IV—GENERAL PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

Sec. 401: Retains a provision on consulting services as recommended by the Senate; there was a minor technical difference between the House and Senate versions.

Sec. 402: Retains identical House and Senate provisions limiting certain activities related to support or opposition to legislative proposals.

Sec. 403: Retains House provision which provides that appropriations in the bill are available only for the current fiscal year, unless otherwise stated.

Sec. 404: Retains identical House and Senate (Section 403) provision prohibiting funds for certain personal services.

Sec. 405: Retains identical House and Senate (Section 404) provision which limits overhead charges, deductions, reserves or holdbacks for certain functions.

Sec. 406: Retains House provision limiting transfer of funds except as provided in this or other Acts.

Sec. 407: Modifies House and Senate (Section 405) provision prohibiting the sale of giant sequoia trees.

Sec. 408: Retains identical House and Senate (Section 406) provision limiting funds for patents for mining or mill site claims.

Sec. 409: Modifies House provision limiting payments for BIA and IHS contract support costs in past years to the funds available in law.

Sec. 410: Retains identical House and Senate (Section 408) provision regarding Forest Service land management planning.

Sec. 411: Retains Senate provision (Section 409) which specifies how the Forest Service should conduct and report accomplishments for Alaskan timber sales and provides specific direction concerning western redcedar and Alaska yellow cedar.

Sec. 412: Retains identical House (Section 411) and Senate (Section 410) provision limiting certain mineral, oil and gas leasing activities within the boundaries of certain National Monuments.

Sec. 413: Retains identical House (Section 412) and Senate (Section 411) provisions concerning wildfire suppression assistance with foreign countries.

Sec. 414: Retains identical House (Section 413) and Senate (Section 412) provisions pertaining to the awarding of federal contracts by the Secretaries of Agriculture and Interior in certain disadvantaged communities.

Sec. 415: Modifies House Section 414 and Senate provision limiting certain competitive sourcing studies and associated activities at the Department of the Interior and the Forest Service.

Sec. 416: Retains House Section 415 provision to extend the Forest Service pilot rights-of-way administrative program.

Sec. 417: Retains House Section 416 extending a previous provision regarding cooperative agreements with third parties.

Sec. 418: Retains Senate Section 413 which continues a requirement in Alaska that IHS funds be made available only to regional Alaska Native health organizations.

Sec. 419: Retains Senate Section 414 which restricts funding for acquisition of land from being used for declarations of taking or complaints in condemnation.

Sec. 420: Retains Senate Section 417 which extends authority for Utah to work cooperatively on Forest Service lands.

Sec. 421: Modifies Senate Section 419 which extends a previous provision allowing the Forest Service to use categorical exclusions for certain grazing activities, but excludes use of this authority in federally designated wilderness areas.

Sec. 422: Retains Senate Section 420 concerning certain marina fees on the Shasta-Trinity National Forest, CA.

Sec. 423: Modifies Senate Section 421 to direct $15,000,000 from the timber roads purchaser election fund be distributed to Forest Service regions for certain vegetative, fuels and road treatments.

Sec. 424: Modifies Senate Section 422 requiring the sale of 5200 acres of national grassland parcels in North Dakota to offset the acreage previously purchased at the Elkhorn Ranch in Medora, North Dakota. Provides direction for future management of the Elkhorn Ranch acquired by the Forest Service.

Sec. 425: Retains Senate Section 423 prohibiting Forest Service eligibility requirement changes to grazing permits on the Dakota Prairie Grasslands, ND.

Sec. 426: Retains Senate Section 425 on arts and artifacts domestic indemnity.

Sect. 427: Retains Senate Section 426 transferring three Job Corps centers from the National Park Service to the Forest Service.

Sec. 428: Modifies Senate Section 427 on timber and hazardous fuel reduction projects on the Sequoia and Sierra National Forests, CA.

Sec. 429: Modifies Senate Section 428 which provides permanent authority regarding fire fighter liability insurance. The Forest Service and Department of Interior agencies that participate in fire suppression and management activities are directed to determine the positions within each agency that are eligible to be reimbursed for professional liability insurance, not to exceed one half of the cost of such insurance. Examples of positions which should be considered for eligible for reimbursement include temporary supervision or management of personnel engaged in wildland or managed fire activities, such as a type 1, 2, 3, 4, or 5 incident commander, an operations section chief, a division group supervisor, a fire use manager, a prescribed fire manager or burn boss, a single resource boss, or a squad boss; providing analysis or information that affects a decision by a supervisor or manager about a wildland or managed fire, such as a fire behavior analyst, a safety officer, or a long term analyst; or directing the deployment of equipment for a wildland or managed fire, such as a base camp manager, an equipment manager, a helicopter coordinator, or an initial attack dispatcher.

Sec. 430: Retains House Section 501, expressing the sense of Congress on global climate change.

Sec. 431: Modifies House Section 603 which directs the purchase of Energy Star light bulbs with funds provided by this Act.

Sec. 432: Retains House Section 604 on EPA's proposal to amend the Maximum Achievable Control Technology Standards.

Sec. 433: Retains the provision contained in Section 606 of the House bill concerning the promulgation of rules in conjunction with a commercial oil shale program in Colorado, Utah and Wyoming.

The Appropriations Committees are aware that oil shale has the potential to be an important energy resource, which will be integral to our nation's future energy security. But this development must proceed thoughtfully and with the full support of the states of Colorado, Utah and Wyoming. While industry is still many years away from establishing the commercial viability of new oil shale extraction technologies, there is concern that the Department of the Interior may be moving ahead before the full impacts of such a program are known, and without full and complete cooperation of the affected States. It is essential that these States have a meaningful opportunity to review and comment on the Programmatic Environmental Impact Statement (PEIS), draft proposed commercial leasing rules and regulations, and relevant resource management planning documents. Therefore, the Secretary is directed to provide adequate time after the completion of the PEIS for the Governors of the affected States of Colorado, Utah and Wyoming to review any draft proposed or final commercial leasing regulations, with additional time for public comment as appropriate.

Sec. 434: Includes a new provision extending the Herger-Feinstein Quincy Library Group (QLG) Forest Recovery Act (P.L. 105-277) for an additional three years until 2012; directs the Forest Service to work with stakeholders on a possible alternative course for implementing the extended effort; and amends the QLG Act to clarify that certain Healthy Forest Restoration Act authorities (Sections 104-106 of Public Law 108-148) can be applied to the types of treatments prescribed under the Act.

Sec. 435: Modifies and moves a provision proposed by the Senate in the State and Tribal Assistance Grants account, which authorizes a transfer of $8,000,000 from the Environmental Protection Agency to the Department of the Navy to fund efforts to monitor and remediate groundwater contamination and other pollution sources at Hunter's Point Naval Shipyard in San Francisco, CA.

Sec. 436: Modifies and moves a provision proposed by the Senate in the State and Tribal Assistance Grants account which authorizes the Administrator to transfer $3,000,000 to the Oklahoma Department of Environmental Quality to fund high-priority remediation and relocation programs for the Tar Creek and Spring River watersheds in Oklahoma.

Sec. 437: The amended bill includes an across the board rescission of 1.560 percent. This reduction shall be applied to each program, project, and activity, except for Miscellaneous Payments to Indians, which has a different application of the rescission as specified in the statutory language. The bill also requires the Office of Management and Budget to submit a report within 30 days specifying the account and amount of each rescission.

The amended bill does not include the following House provisions:

Sec. 502: Limiting funds for land condemnations. This issue is addressed in section 419.

Sec. 503: Limiting funds for Tongass National Forest timber harvesting.

Sec. 504: Rescinding funds from the "Historic Preservation Fund".

Sec. 601: A provision on reforestation of urban areas.

Sec. 602: A provision on Smithsonian outreach programs.

Sec. 605: Prohibiting contravention of the Pollution Prevention Act of 1990. The Environmental Protection Agency has confirmed that beginning in fiscal year 2008 the Protective Security Detail will no longer be charged to the Criminal Enforcement Program. The Agency is directed that none of the funds provided for the criminal and civil enforcement programs in the EPM and Superfund accounts are to be allocated to the Protective Security Detail.

The amended bill does not include the following Senate provisions:

Sec. 407: Providing additional authority to the Forest Service on use of the road and trails fund.

Sec. 424: Requiring the Minerals Management Service to withhold funds for administrative costs of mineral leasing activities. Bill language on this matter is included under the Minerals Management Service, Administrative Provisions heading.

TITLE V—WILDFIRE SUPPRESSION EMERGENCY APPROPRIATIONS

(INCLUDING TRANSFERS OF FUNDS)

The amended bill provides a total of $300,000,000 for emergency wildfire suppression activities of the Forest Service and the Department of the Interior, including $222,000,000 for the former and $78,000,000 for the latter. Although this Act fully funds the anticipated wildfire suppression emergency needs by funding the average emergency suppression expenditures which occurred over the past ten years (inflation adjusted), this additional allocation is required so that, if another tragic wildfire season occurs as did last year, the Federal government will once again be able to fully respond with its exceptional firefighting resources without borrowing critically needed program funds from land management agency accounts.

Disclosure of Earmarks and Congressional Directed Spending Items

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in the House or Senate versions of H.R. 2634 or S. 1696 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

The amounts displayed do not reflect the 1.56 percent reduction that will be applied to all activities in the bill by sec. 437.

House bill, fiscal year 2008	−740,248
Senate bill, fiscal year 2008	−295,000

DIVISION G—LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008 (H.R. 3043 and S. 1710) passed by the House of Representatives and the Senate.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

Funding levels specified in the explanatory statement do not reflect the across-the-board reduction that applies to each program, project or activity excluding the Pell Grant Program, pursuant to section 528. The detailed table at the end of this explanatory statement displays estimates of how this across-the-board reduction will be applied to major programs, projects, and activities in this Act. The Appropriations Committees expect that this across-the-board reduction also will be applied to amounts identified in this statement.

In implementing this Act, the Departments and agencies should be guided by the language and instructions set forth in House Report 110–231 and Senate Report 110–107 accompanying the bills, H.R. 3043 and S. 1710.

In the cases where the language and instructions in either report specifically address the allocation of funds, each has been reviewed and those that are jointly concurred in by the Appropriations Committees have been endorsed in this explanatory statement and the detailed table at the end of the explanatory statement for this Act.

In the cases in which the House or the Senate reports direct the submission of a report, such report is to be submitted to both Appropriations Committees.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Appropriations Committees 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or $500,000, whichever is less, between programs, projects and activities.

Finally, Departments and agencies funded in this division shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section 518. The Appropriations Committees expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements shall also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2008 budget.

REDUCING THE NEED FOR ABORTIONS

The amended bill includes over $200 million over the fiscal year 2007 funding level for several programs and new initiatives in the House bill that are intended to help reduce the number of abortions in America by alleviating the economic pressures and other real life conditions that can sometimes cause women to decide not to carry their pregnancies to term. Increases are provided for Community Health Centers, Family Planning, and the Community Services Block Grant. New approaches include a young parents training initiative in the Department of Labor, first time motherhood grants under the Health Resources and Services Administration, a teen pregnancy prevention demonstration within the Centers for Disease Control and Prevention, and a home visitation initiative within the Administration for Children and Families.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008, put in place by the amended bill, incorporates the following agreements of the Appropriations Committees:

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

(INCLUDING RESCISSIONS)

The amended bill includes $3,608,349,000 for Training and Employment Services, instead of $3,530,530,000 as proposed by the House and $3,587,138,000 as proposed by the Senate. Of the amount appropriated, $1,772,000,000 is an advance appropriation for fiscal year 2009 as proposed by the House and the Senate.

For dislocated worker assistance, $1,471,903,000 is provided. This includes $1,189,811,000 for the State formula grants and $282,092,000 for the National Reserve Account, overriding the formula that provides that 80 percent of the funds available will be used for State formula grants and 20 percent in a National Reserve Account. Within the National Reserve Account, the amended bill provides that $6,300,000 shall be available upon enactment for the purposes of grants, to be awarded within 30 days of enactment, for the continuation of national or multi-state training and employment programs. These grants are to be awarded to the AFL–CIO Working for America Institute and the AFL–CIO Appalachian Council, as proposed by the Senate, and the National Center on Education and the Economy, as proposed by the House. The amended bill also provides that up to $125,000,000 within the National Reserve Account may be used for competitive grants under the Community-Based Job Training Grant initiative. No funds from the dislocated worker national reserve account or other pilot and demonstration resources shall be used for career advancement accounts or the predecessor proposal for personal reemployment accounts prior to a specific authorization of such activities.

Within the total provided for Migrant and Seasonal Farmworkers, $75,610,000 is provided for State service area grants, $4,975,000 is provided for housing grants and $500,000 is included for other discretionary purposes, as described in the Senate report. The amended bill includes bill language proposed by the House providing that no less than 70 percent of formula funds be used for employment and training services and bill language proposed by the Senate which prohibits the Department from restricting the provision of "related assistance" services by grantees. These provisions ensure that the program primarily addresses the employment and training needs of the target population while also allowing grantees to provide related services that are often critical to the stabilization and availability of the farm labor workforce.

For YouthBuild, the $60,000,000 included in the amended bill will provide sufficient funds for an additional competitive grant round in program year 2008.

For Pilots, Demonstrations and Research, the amended bill includes $49,370,000 instead of $28,140,000 as proposed by the House and $30,650,000 as proposed by the Senate. Included in this amount is $5,000,000 for a new demonstration program of competitive grants to address the employment and training needs of young parents as proposed by the House and detailed in House Report 110–231. The House provided $10,000,000 for this purpose. The Senate had no similar provision.

The amended bill also includes funds within Pilots, Demonstrations and Research to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Adelante Development Center, Albuquerque, NM for employment and training services	195,000
Agudath Israel of America Community Services, Inc., Brooklyn, NY for its Fresh Start job training and counseling program	438,000
Alu Like, Inc., Honolulu, HI, for training and education	97,000
Arc of Blackstone Valley, Pawtucket, RI for a workforce development initiative	316,000
Barnabus Uplift, Des Moines, IA, for job training and supportive services	414,000
Bellingham Technical College, Bellingham, WA for a Process Technology Workforce Development Project	209,000
Bismarck State College, Bismarck, ND for an instrumentation and control training program for the energy industry	975,000
Brockton Area Private Industry Council, Inc., Brockton, MA, for workforce development programs	165,000
Brookdale Community College, Lincroft, NJ for workforce training programs through its Center for Excellence in Technology, Telecommunications and Economic Development	243,000
Capital IDEA, Austin, TX for workforce development services for disadvantaged adults	243,000
Capps Workforce Training Center, Moorhead, MS, for Workforce Training	341,000
Catholic Charities, Chicago, IL, for vocational training and support programs at the Saint Leo Residence for Veterans	487,000
Center for Employment Training, San Jose, CA for its building trades program for out-of-school youth	341,000
Center for Working Families, Long Beach, CA for job training and placement in demand industries	136,000
Central Carolina Tech College, Sumter, SC for training in healthcare professions	390,000
Central Maine Community College, Auburn, ME for a training program in precision metalworking and machine tool technology	195,000
Chinese-American Planning Council, New York, NY for counseling, vocational training, job placement, and ESL services	195,000
City College of San Francisco, San Francisco, CA for a health care workforce training initiative through the Welcome Back Center	341,000
City of Alexandria, VA for an automotive industry workforce development and training initiative	341,000
City of Baltimore, MD for the Park Heights Partnership for Jobs	487,000
City of Milwaukee, WI for a project to train youth in construction trades	243,000
City of Palmdale, Palmdale, CA for a business resource network to enhance worker skills development	146,000
City of Suffolk, VA for training programs at the Suffolk Workforce Development Center	243,000
City of West Palm Beach, FL for training programs for at-risk youth	365,000
Clarian Health Partners, Indianapolis, IN for workforce development in the health care industry	238,000
College of Southern Maryland, La Plata, MD, for its Partnership for the Advancement of Construction and Transportation Training Project	292,000
Community Agricultural Vocational Institute, Yakima, WA, for training of agricultural workers	243,000
Community College of Allegheny College, Pittsburgh, PA, for job training programs	73,000
Community Learning Center, Fort Worth, TX for expansion of the Advanced Manufacturing Training Partnership Program	487,000
Community Solution for Clackamas County, Oregon City, Oregon, to expand the Working for Independence (WFI) program in Clackamas County	123,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Community Transportation Association of America, Washington, DC, for the Joblinks program	390,000
Compton CareerLink, Compton, CA for job training and placement in demand industries	195,000
Cook Inlet Tribal Council, Inc., Anchorage, AK, for the Alaska's People program to provide job training and employment counseling	487,000
Crowder College, Neosho, MO, to expand technical education programs for workforce development	639,000
Des Moines Area Community College, Arkeny, IA for workforce recruitment and training to address area skill shortages	268,000
Des Moines Area Community College, Des Moines, IA, for Project Employment	243,000
East Los Angeles Community Union, Los Angeles, CA for a workforce training initiative	292,000
Easter Seals Arc of Northeast Indiana, Inc., Fort Wayne, IN for the Production and Worker Training Services program	97,000
Eastern Michigan University, Ypsilanti, MI, for re-training of displaced workers	331,000
Eastern Technology Council, Wayne, PA, for job training programs	73,000
Edgar Campbell Foundation, Philadelphia, PA for counseling, job placement and work readiness programs	390,000
Employment & Economic Development Department of San Joaquin County, Stockton, CA for a work experience program for at-risk youth	170,000
Essex County Community Organization, Lynn, MA for its E-Team Machinist Training Program	292,000
Fort Lewis College, Durango, CO, for the development of entrepreneurship programs to enhance regional development	123,000
Foundation for an Independent Tomorrow, Las Vegas, NV, for job training, vocational education, and related support	146,000
Foundation of the Delaware County Chamber, Media, PA for workforce development and job readiness services	187,000
Goodwill Industries of Southeastern Wisconsin, Inc., Milwaukee, WI, to provide training, employment and supportive services, including for individuals with disabilities	204,000
Goodwill of Southern Nevada, North Las Vegas, NV for workforce development programs	341,000
Greater Akron Chamber, Akron, OH for a summer apprenticeship program for youth	292,000
Groden Center, Providence, RI for job readiness training for adults with Asperger's Syndrome	146,000
Guam Community College, Mangilao, Guam for skilled craft training	390,000
Hamilton County Government, Chattanooga, TN for training activities related to manufacturing processes	828,000
Harrisburg Area Community College, Harrisburg, PA, for job training programs	73,000
Home of Life Community Development Corp., Chicago, IL for a financial services training and placement program	234,000
Homecare Workers Training Center, Los Angeles, CA for nurse assistant training	121,000
Idaho Women Work! at Eastern Idaho Technical College, Idaho Falls, ID, to continue and expand the Recruiting for the Information Technology Age (RITA) initiative in Idaho	97,000
International Fellowship of Chaplains, Inc., Saginaw, MI for the Road to Hope training program in Seneca County, OH	195,000
Iowa Policy Project for a study on temporary and contingent workers	341,000
Iowa Valley Community College, Marshalltown, IA for job training activities	243,000
Ivy Tech Community College of Indiana - Columbus Region, Indianapolis, IN for the Center for Cybersecurity for workforce development	146,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Ivy Tech Community College of Indiana Lafayette, Indianapolis, IN for job training programs at the Center for Health Information Technology	136,000
Kansas City Kansas Community College, Kansas City, KS for workforce training and placement for the retail and hospitality industries	312,000
Kent State University/Trumbull County, Warren, OH for regional training through the Northeast Ohio Advanced Manufacturing Institute	243,000
Linking Employment, Abilities and Potential, Cleveland, Ohio, for training and skill development services for individuals with disabilities in coordination with the local workforce investment system	175,000
Louisiana Delta Community College, Monroe, LA for a job training initiative	243,000
Louisiana National Guard, Carville, LA for the Job Challenge Program	146,000
MAGLEV Inc., McKeesport, PA, for a training program in advanced precision fabrication	87,000
Manufacturing Association of Central New York, Syracuse, NY for a workforce training project	243,000
Massachusetts College of Pharmacy and Health Sciences, Manchester, NH for training of nurses, physician assistants, and pharmacists	311,000
Massachussets League of Community Health Centers, East Boston, MA, for a health-care workforce development program	165,000
Maui Community College Remote Rural Hawaii Job Training Project, HI, for the Remote Rural Hawaii Job Training project	2,340,000
Maui Community College Training and Educational Opportunities, HI, for training and education	975,000
Maui Economic Development Board, HI, for high tech training	463,000
Maui Economic Development Board, HI, for the rural computer utilization training program	292,000
McHenry County Community College, Woodstock, IL for employer-identified occupational training	390,000
Memphis, Tennessee, for a prisoner re-entry program	195,000
Minot State University, Minot, ND for the Job Corps Executive Management Program	731,000
Mission Language and Vocational School, San Francisco, CA for a training program in health-related occupations	243,000
Mississippi State University, Mississippi State, MS, for the Mississippi Integrated Workforce Performance System	390,000
Mississippi State University, Mississippi State, MS, for training development and delivery system at the Distributed Learning System for Workforce Training Program	195,000
Mississippi Technology Alliance, Ridgeland, MS, for the Center for Innovation and Entrepreneurial Services	146,000
Mississippi Valley State University, Itta Bena, MS, for training and development programs at the Automated Identification Technology (AIT)/Automatic Data Collection (ADC)	195,000
Moreno Valley, CA, to provide vocational training for young adults, as well as the development of an internship with local businesses to put the trainees' job skills to use upon graduation	121,000
National Council of La Raza in Washington, DC, to provide technical assistance on Hispanic workforce issues including capacity building, language barriers, and health care job training	390,000
Neighborhood First Program, Inc., Bristol, PA for services for at-risk youth	121,000
Neumann College, Aston, PA, for the Partnership Advancing Training for Careers in Health program	73,000
NewLife Academy of Information Technology, East Liverpool, OH for training for information technology careers	234,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
North Side Industrial Development Corporation, Pittsburgh, PA, for job training programs	73,000
North West Pasadena Development Corp., Pasedena, CA for job training for low-income individuals	121,000
Northcott Neighborhood House, Milwaukee, WI for construction industry training for youth	68,000
Northwest Washington Electrical Industry Joint Apprenticeship and Training Committee, Mount Vernon, WA, for expanded training capability, including the acquistion of training equipment, to meet the need for skilled electrical workers	146,000
Northwest Wisconsin Concentrated Employment Program, Inc., Ashland, WI, for workforce development training in Northwest Wisconsin	248,000
Oakland Community College, Bloomfield Hills, MI to lead a consortium on workforce development for emerging business sectors	585,000
Opportunity, Inc., Highland Park, IL for workforce development activities	341,000
Our Piece of the Pie, Hartford, CT for education and employment services for out-of-school youth	487,000
Pacific Mountain Workforce Consortium, Tumwater, WA, for training of qualified foresters and restoration professionals in Lewis County	136,000
Parish of Rapides Career Solutions Center, Alexandria, LA for a job training initiative	195,000
Pennsylvania Women Work!, Pittsburgh, PA, for job training programs	87,000
Philadelphia Shipyard Development Corporation, Philadelphia, PA for on-the-job training in shipbuilding technology	424,000
Philadelphia Veterans Multi-Service & Education Center, Philadelphia, PA, for veterans job training	73,000
Piedmont Virginia Community College, Charlottesville, VA for the Residential Construction Academy	97,000
Pittsburgh Airport Area Chamber of Commerce Enterprise Foundation, Pittsburgh, PA, for workforce development	73,000
Poder Learning Center, Chicago, IL for immigrant neighborhood education and job development services	195,000
Port Jobs, in partnership with South Seattle Community College, Seattle, WA, for training of entry-level airport workers	97,000
Portland Community College, Portland, OR, to support the Center for Business and Industry	82,000
Precision Manufacturing Institute, Meadville, PA for high-technology training programs	329,000
Project ARRIBA, El Paso, TX, for workforce development in the West Texas region	97,000
Project One Inc., Louisville, KY for summer job activities for disadvantaged youth	146,000
Project QUEST, Inc., San Antonio, TX for workforce development services to low-income residents	73,000
PRONTO of Long Island, Inc., Bayshore, NY for a vocational training initiative	97,000
Rhodes State College, Lima, Ohio, for equipment, curriculum development, training and internships for high-tech engineering technology programs	146,000
Rural Enterprises of Oklahoma, Inc., Durant, OK, for entrepreneurship training programs	97,000
Saint Leonard's Ministries, Chicago, IL, for job training and placement for ex-offenders	253,000
San Jose, CA, for job training for the homeless	321,000
Santa Ana, CA, for the Work Experience and Literacy Program	741,000
Santa Maria El Mirador, Santa Fe, NM, to provide an employment training program	682,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Schoenbaum Family Enrichment Center, Charleston, WV for its Entrprise Development Initiative	243,000
Schuylkill Intermediate Unit 29, MarLin, PA for a workforce training program	185,000
South Bay Workforce Investment Board, Hawthorne, CA for its Bridge-to-Work program	390,000
Southeast Missouri State University, Cape Girardeau, MO for equipment and training	438,000
Southern University at Shreveport, Shreveport, LA for healthcare worker training activities	97,000
Southside Virginia Community College, Alberta, VA for the Heavy Equipment Training Program	292,000
Southwest Washington Workforce Development Council, Vancouver, WA, to create and sustain a partnership between business, education and workforce leaders in Southwest Washington	146,000
Southwestern Oklahoma State University, Weatherford, OK for workforce development in the manufacturing sector	243,000
St. Louis Agency on Training and Employment, St. Louis, MO for a summer jobs program for youth	536,000
STRIVE/East Harlem Employment Service, Inc., NY, for the Core job training program	487,000
Towson University, Towson, MD for education and training services for careers in homeland security	268,000
Twin Cities Risel, Minneapolis, MN, for job training initiatives	248,000
United Auto Workers Region 9, Local 624, New York, for incumbent worker training	292,000
United Mine Workers of America, Washington, PA for the UMWA Career Center's mine worker training and reemployment programs	731,000
University of Southern Mississippi, Hattiesburg, MS, for Workforce Training in Marine Composite	487,000
University of West Florida, Pensacola, FL to provide teacher training to veterans	277,000
Urban League of Lancaster County, Inc., Lancaster, PA, for job training programs	73,000
Vermont Department of Labor, Montpelier, VT, for job training of female inmates in Vermont as they prepare to reenter the workforce	585,000
Vermont Healthcare and Information Technology Education Center, Williston, VT, for advanced manufacturing training of displaced workers	195,000
Vermont Healthcare and Information Technology Education Center, Williston, VT, for health care training of displaced workers	599,000
Vermont Technical College and Vermont Workforce Development Council, Randolph Center, VT, to provide job training to displaced workers in Vermont	526,000
Veteran Community Initiatives, Inc., Johnstown, PA for employment services and support programs for veterans	487,000
Vincennes University, Vincennes, IN for heavy equipment operator training for the mining industry	365,000
Washington Workforce Association, Vancouver, WA, for job shadowing, internships, and scholarships to prepare students for high-demand occupations	390,000
Washington, Ozaukee, Waukesha Workforce Development Inc., Pewaukee, WI, for advanced manufacturing and technology training	370,000
Watts Labor Community Action Committee, Los Angeles, CA for job training and placement in demand industries	195,000
Wayne County, NY Planning Department, Lyons, NY for workforce development programs in Central New York	243,000
West Los Angeles College, Culver City, CA for a craft and technican training program	526,000
Wisconsin Community Action Program, Madison, WI, for job training assistance of low-income individuals	268,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Wisconsin Regional Training Partnership, Milwaukee, WI, to assess, prepare, and place job-ready candidates in construction, manufacturing, and other skilled trades and industries	248,000
Women Work and Community, Augusta, ME for a women's workforce training and development program	487,000
Workforce Connections, Inc., La Crosse, WI, to develop and implement strategic workforce development activities in Western Wisconsin	121,000
Workforce Resource, Inc., Menomonee, WI, for employment assistance	204,000
Wrightco Technologies, Inc, Claysburg, PA, to provide job training, retraining and vocational educational programs	87,000

The amended bill consolidates the Responsible Reintegration of Youthful Offenders and Prisoner Reentry programs into a program of Reintegration of Ex-Offenders, as proposed by the House. The amended bill provides $74,800,000, instead of $68,746,000 as proposed by the House and a total of $68,642,000 as proposed by the Senate in two individual programs. Within this amount, bill language provides that no less than $55,000,000 be used for programming for youth, and that a total of $50,000,000 be available from resources in both fiscal years 2007 and 2008 for a youth mentoring initiative. The $50,000,000 provided is for competitive grants to local educational agencies or community-based organizations to develop and implement mentoring strategies in schools identified as persistently dangerous. The Department should use $29,000,000 provided in this Act, along with $21,000,000 in funds made available under the fiscal year 2007 appropriation for youthful offenders, for this purpose and issue a solicitation of grant agreements on a timeline that provides for the incorporation of both the fiscal year 2007 and fiscal year 2008 contributions to the enhanced effort to assist persistently dangerous schools in mentoring efforts to prevent youth violence in high crime areas.

The amended bill includes a rescission of $250,000,000 in prior year Workforce Investment Act unexpended balances for the Youth, Adult and Dislocated Worker formula programs. The Appropriations Committees expect the Department to adhere to the specific instructions in House Report 110–424 regarding the implementation of this rescission. Those instructions provide additional information on the intended methodology for the allocation of the rescission and the waiver of requirements that will minimize the burden on States and local areas.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The amended bill includes $530,900,000 for Community Service Employment for Older Americans as proposed by the House, instead of $483,611,000 as proposed by the Senate. The increase over fiscal year 2007 is provided to cover the second increment of the Federal minimum wage increase, from $5.85 to $6.55 an hour, for the current level of 60,438 slots, which support 103,000 program participants.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The amended bill includes $3,323,953,000 for State Unemployment Insurance and Employment Service Operations, instead of $3,382,614,000 as proposed by the House and $3,386,632,000 as proposed by the Senate.

The amended bill omits a provision proposed by the House and the Senate to provide $40,000,000 in additional funds for in-person reemployment and eligibility assessments in one-stop centers, along with the specific requirement that $10,000,000 in base Unemployment Insurance (UI) administration be used for this purpose, allowing for State flexibility in UI administration. The amended bill retains language included in the earlier conference report on H.R. 3043, and described in House Report 110–424, that allows the Secretary of Labor to make payments on behalf of the States for matching UI claims information against the information in the National Directory of New Hires to prevent, detect, and collect improper UI payments.

Within the amount provided for Employment Service grants to States, $12,740,000 is provided for foreign labor certification programs, and $17,677,000 is included for administration of the Work Opportunity Tax Credit. Within the amount provided for workforce information, national electronic tools and one-stop system building, the Appropriations Committees direct that workforce information grants to the States be funded at no less than $32,430,000. Within the amount provided for Work Incentive Grants, the Appropriations Committees direct that all States that wish to participate in this program shall receive funding for new or continuation grants to support their disability navigator programs.

PROGRAM ADMINISTRATION

The amended bill includes $175,387,000 for Program Administration, instead of $170,500,000 as proposed by the House and $185,505,000 as proposed by the Senate.

Within the amount for employment security activities, not less than $42,225,000 is provided to improve the timeliness and quality of processing applications under the foreign labor certification program.

EMPLOYEE BENEFITS SECURITY ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes $141,790,000 for the Employee Benefits Security Administration (EBSA), instead of $142,925,000 as proposed by the House and $143,262,000 as proposed by the Senate. The Appropriations Committees request a briefing on the schedule for the completion of the EFAST2 system prior to the announcement of the availability of funds for its development and also request regular progress reports on this project. The Committees are in agreement that EBSA should devote resources to the issuance of regulations on meaningful and uniform reporting of 401(k) fees and that a national education program on 401(k) investment options, fees and conflict of interest be created as described in House Report 110–231.

PENSION BENEFIT GUARANTY CORPORATION

PENSION BENEFIT GUARANTY CORPORATION FUND

The amended bill includes $411,151,000 for the administrative expenses of the Pension Benefit Guaranty Corporation,, as proposed by both the House and the Senate. Language in the Senate bill providing for obligations in excess of such amount is not included.

EMPLOYMENT STANDARDS ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes $428,409,000 for the Employment Standards Administration, salaries and expenses, instead of $436,508,000 as proposed by the House and $438,508,000 as proposed by the Senate.

Within the amount provided for the enforcement of wage and hour standards, $1,000,000 is provided for accelerating startup of a system to resolve claims of injury caused by asbestos exposure. If the authority for an asbestos claims program is not enacted by June 30, 2008, these additional funds may be used to support wage and hour enforcement in low wage industries.

The amended bill includes a rescission of $102,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. The House and the Senate proposed a rescission of $70,000,000; however, information received from the Department of Labor indicates that receipts in this account allow a higher amount to be rescinded while still ensuring that the $5,500,000 the Department estimates it will use in fiscal year 2008 under current authority remains available.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION FUND

(INCLUDING TRANSFER OF FUNDS)

Within the total provided, the amended bill includes a proviso transferring $4,500,000 to the National Institute for Occupational Safety and Health for use by the Advisory Board on Radiation and Worker Health. While both the House and the Senate included this provision, the House report specified that the amount be in addition to $55,358,000 identified for transfer to the Department of Health and Human Services. This explanatory statement clarifies that the $4,500,000 for the Advisory Board on Radiation and Worker Health is a part of the total transfer amount identified in the budget request.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes $494,641,000 for the Occupational Safety and Health Administration (OSHA), instead of $503,516,000 as proposed by the House and $498,445,000 as proposed by the Senate.

The Appropriations Committees believe that it is important to rebuild the Federal enforcement capacity of OSHA and that the agency should collect data needed to evaluate the effectiveness of voluntary compliance programs before additional investments are made to support this approach. The additional funds over the level requested for Federal Enforcement are intended to fund no fewer than 20 additional enforcement positions.

The amended bill includes language proposed by the House requiring the Secretary of Labor to provide detailed reports on the development and issuance of certain occupational safety and health standards that have remained on the OSHA regulatory agenda without completion. The Senate had a similar provision in its report, but not in the bill.

The Appropriations Committees expect that the Department will adhere to the instructions in House Report 110–424 relating to guidelines and enforcement actions on ergonomic injuries, standard-setting on worker protection in the event of an influenza pandemic, and occupational exposure to the chemical diacetyl in food manufacturing.

MINE SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes $339,862,000 for the Mine Safety and Health Administration (MSHA), instead of $340,028,000 as proposed by the Senate or $313,478,000 as proposed by the House.

As detailed in House Report 110–424, the Appropriations Committees are disturbed that MSHA has fallen significantly short of its obligation to complete 100 percent of regular inspections of coal mines, as required by law. In 2006, almost 5 of every 100 required inspections nationally were not completed. In some districts, the rates were close to 15 or 20 of every 100 required inspections that were not completed. A similar shortfall exists in the metal/non-metal sector. The increase over fiscal year 2007 is provided to ensure that MSHA can carry out its legal obligations to regularly inspect our nation's mines. MSHA should adhere to the directions in House Report 110–424 pertaining to the submission of a detailed operating plan describing how these funds will be utilized and the specific outcomes that will be achieved.

Within the amount provided for Program Administration, $2,200,000 is provided for a national project award to the United Mine Workers of America for classroom and simulated rescue training for mine rescue teams, and $1,184,000 for the Wheeling Jesuit University National Technology Transfer Center.

BUREAU OF LABOR STATISTICS

SALARIES AND EXPENSES

The amended bill includes $553,928,000 for the Bureau of Labor Statistics (BLS), instead of $576,118,000 as proposed by the House and $560,000,000 as proposed by the Senate.

The increase above fiscal year 2007 for Prices and Cost of Living is provided for continuous updating of the housing and geographic area samples of the Consumer Price Index (CPI). To the extent possible, the Appropriations Committees recommend that funds above the fiscal year 2007 level for Compensation and Working Conditions be used for the reinstatement of focused research studies on work-related injuries and illnesses, and request that the Department provide a plan for this activity in the fiscal year 2009 budget justification. The Appropriations Committees are also interested in ascertaining the impact of the North American Free Trade Agreement (NAFTA) on employment in the United States and expect the Department to adhere to the instructions in House Report 110–424 pertaining to a study of the implementation of NAFTA.

OFFICE OF DISABILITY EMPLOYMENT POLICY

SALARIES AND EXPENSES

The amended bill includes $27,712,000 for the Office of Disability Employment Policy (ODEP), as proposed by the House and the Senate. At least 80 percent of these funds shall be used to design and implement research and technical assistance grants and contracts to develop policy that reduces barriers to employment for youth and adults with disabilities. The Appropriations Committees also expect the Department to adhere to the directions in House Report 110–424 concerning a report on the extent to which effective disability employment policy developed by the ODEP has been implemented within the Department of Labor and by other Federal agencies.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The amended bill includes $297,064,000 for Departmental Management, salaries and expenses, instead of $272,595,000 as proposed by the House and $313,218,000 as proposed by the Senate.

The amended bill includes $82,516,000 for the International Bureau of Labor Affairs (ILAB). Within this amount, $5,000,000 is provided to implement model programs to address worker rights through technical assistance in countries with which the United States has trade preference programs and directs that this activity be carried out through a cooperative agreement with an international organization that has experience in working to assure adherence to a set of core labor standards through work with governments, employers and labor organizations. The Appropriations Committees believe that a component of this new program should first be implemented in the Republic of Haiti, at a funding level of not less than $1,000,000. As a demonstration of the investment of the private sector and the government of Haiti in the project, an adequate cost-share from Haitian sources should also be committed before the initiation of the project. The program in Haiti will develop a system of monitoring and transparent public reporting on the adherence and enforcement of worker rights, based on the approach used in the successful International Labor Organization (ILO) Garment Sector Working Conditions Improvement Project in Cambodia. This multi-year program should improve working conditions in Haiti's garment industry, while increasing compliance with core international labor standards. The Department of Labor shall report to the Committees no later than June 30, 2008 on the progress of implementing the cooperative agreement covering Haiti and other countries with which the U.S. has trade agreements.

The recommendation for ILAB also includes $41,000,000 for the U.S. contribution to the International Program for the Elimination of Child Labor and $24,000,000 for bilateral assistance to improve access to basic education in international areas with a high rate of abusive and exploitative child labor. The Department should also adhere to the directions in House Report 110–424 concerning cooperation with the ILO on the implementation of standards in the garment industry in India.

The funds provided for information technology systems 'support information technology, architecture, infrastructure, equipment and software utilized by multiple agencies within the Department. The Appropriations Committees support the use of a portion of such funds for the acquisition of a Financial Management System for the Department of Labor. The President's request to Congress included $12,000,000 as a direct appropriation to the Working Capital Fund for this initiative.

The increased funding level over fiscal year 2007 for the Office of the Solicitor is intended to support no less than an increase of 17 FTEs for enforcement support for the Mine Safety and Health Administration.

For the Women's Bureau, $9,832,000 is provided, instead of $10,500,000 as proposed by the House and $10,300,000 as proposed by the Senate. Continued funding for national networks for women's employment that advance women in the workplace through education and advocacy is encouraged.

OFFICE OF JOB CORPS

The amended bill funds this program within the Office of the Secretary as proposed by the House and the Senate. This reflects the current organizational status of the program, and the funds for the administration of this program are included in this account instead of within program administration for the Employment and Training Administration.

The $12,920,000 provided above the request for the renovation and construction of Job Corps centers is included for the continued development of new Job Corps centers that have been awarded and are not yet completed. The Appropriations Committees request that the Department of Labor include an analysis of the future funding needs of all new centers in development and a progress report on the timeline for opening new centers in its fiscal year 2009 budget justification, as proposed by the Senate.

The Appropriations Committees believe that significant programmatic changes to Job Corps operations and student services should not be made prior to the reauthorization of the Workforce Investment Act. It may be appropriate to pilot any new initiatives at select Job Corps centers and provide the appropriations and authorizing committees evidence and data that such changes will improve Job Corps performance and students' employment and earnings outcomes prior to national implementation. In consultation with system stakeholders, the Department should develop a national recruitment and retention strategy that will ensure current student training slots are fully utilized. In order to ensure that the Job Corps program maximizes opportunities for participation, the amended bill includes language providing that none of the funds in the Act be used to reduce student training slots below the current level of 44,491 in program year 2008. The House and Senate included similar slot protection provisions.

VETERANS EMPLOYMENT AND TRAINING

The amended bill includes $232,153,000 for Veterans Employment and Training, instead of $228,198,000 as proposed by the House and $231,198,000 as proposed by the Senate. The Appropriations Committees encourage the Department to direct additional funds to the Transition Assistance Program, which will ensure that the increasing demand for services is met. The Committees also expect the Department to increase enforcement activities to ensure that veterans' rights under the Uniformed Service Employment and Re-Employment Rights Act and Veterans Employment Opportunities Act are being protected.

OFFICE OF INSPECTOR GENERAL

The amended bill includes $75,713,000 for the Office of Inspector General, instead of $78,658,000 as proposed by the House and $79,658,000 as proposed by the Senate.

GENERAL PROVISIONS

JOB CORPS SALARIES

The amended bill includes language that prohibits the use of funds for the Job Corps program to pay the salary of any individual, either as direct costs or any pro-ration as an indirect cost, at a rate in excess of Executive Level I, as proposed by the Senate. The House included a similar provision in the Job Corps account.

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The amended bill includes a provision limiting the authority to transfer funds between a program, project or activity and requiring a 15 day advance notification of any such request. Both the House and Senate bills contained similar provisions.

TRANSIT SUBSIDIES

The amended bill includes a provision requiring the Secretary of Labor to issue a monthly transit subsidy at the full amount of $110 for eligible employees in the National Capital Region, as proposed by the House. The Senate bill contained no similar provision.

OPERATING PLAN

The amended bill includes a provision prohibiting the obligation of funds for demonstration, pilot, multiservice, research and multistate projects under section 171 of the Workforce Investment Act prior to the submission of a report on the planned use of such funds, as proposed by the House. The Senate had a similar provision requiring an operating plan for the use of such funds. Specific instructions pertaining to this provision are included in House Report 110–424.

DENALI COMMISSION

The amended bill includes a provision, as proposed by the Senate that authorizes such sums as may be necessary to the Denali Commission to conduct job training where Denali Commission projects will be constructed. The House bill contained no similar provision.

GRANTS USING H–1B VISA REVENUE

The amended bill includes a provision that prohibits the use of the funds available to the Department under section 414(c) of the American Competitiveness and Workforce Improvement Act for other than training in the occupations and industries for which employers are using the visas to hire foreign workers that generate these funds. The Department should ensure that funded activities include industry career ladder programs and understand that there are some related activities that enhance or facilitate training programs that are part of a coordinated industry approach. The amended bill provides that this limitation shall not apply to multiyear grants that have been awarded prior to June 30, 2007, to account for three rounds of Workforce Innovation in Regional Economic Development (WIRED) grants. The House bill contained a similar provision.

COMPETITIVE GRANTS

The amended bill includes a provision prohibiting Community-Based Job Training grants and grants authorized under section 414(c) of the American Competitiveness and Workforce Improvement Act from being awarded on a non-competitive basis. Both the House and Senate bills included similar provisions.

ADMINISTRATIVE COST DEFINITION AND REDESIGNATION OF LOCAL AREAS

The amended bill includes a provision requiring that the Secretary of Labor take no action to amend the definition established in 20 CFR 667.220 for functions and activities under title I of the Workforce Investment Act of 1998 or to modify the procedure for designation of local areas as specified in that Act until such time as legislation reauthorizing the Act is enacted, as proposed by the Senate. The House bill contained a similar provision.

MINE SAFETY REGULATIONS

The amended bill includes language requiring specific dates by which the Secretary of Labor propose, and subsequently finalize, mine safety regulations regarding belt haulage entries and rescue chambers in coal mines, and makes additional requirements for review of mine ventilation plans. The Senate bill included a similar provision, while the House bill did not include such a provision.

SALARIES AND BONUSES

The amended bill includes a provision proposed by the Senate that prohibits grantees from using funds appropriated for the Employment and Training Administration to pay the salary and bonuses of an individual at a rate in excess of Executive Level II. The House bill contained no similar provision.

NATIONAL EMERGENCY GRANT ASSISTANCE TO GREENSBURG, KANSAS

The amended bill includes language to enhance the federal government's response to the May 4 tornado in Greensburg, Kansas which is intended to deal only with the specific circumstances of this community. This devastating tornado has created a unique problem that requires relief from certain rules that would otherwise apply to the use of national emergency grant funds. This flexibility will enable funds to be used to pay for certain professional municipal services. The Appropriations Committees understand that $2,500,000 is planned to be spent for these purposes, and request notification and justification from the Department if a greater amount is required. This provision was included in the Senate Homeland Security Appropriations bill.

HEALTH COVERAGE TAX CREDIT GAP-FILLER GRANTS

The amended bill does not include a provision included in the House bill authorizing up to $20,000,000 in revenue available to the Department under section 414 (c) of the American Competitiveness and Workforce Improvement Act to be used for "gap-filler" grants to trade-impacted workers awaiting certification for the Health Coverage Tax Credit. The Senate bill contained no similar provision. The Department of Labor should make grants available to States from the Dislocated Worker National Reserve for this purpose and to increase outreach to trade-impacted workers to inform them of their eligibility for the Health Coverage Tax Credit.

PERSONAL PROTECTIVE EQUIPMENT

The amended bill deletes a provision included in the House bill and previous conference report to require the Secretary of Labor to promulgate a final rule on employer payment for personal protective equipment no later than November 30, 2007.. This provision is no longer needed because the final rule was adopted by the Department of Labor on November 15, 2007. The Appropriations Committees will continue to monitor the Department's implementation of the final rule to ensure that it is fully implemented and enforced and that there are no attempts to weaken the level of protection afforded workers.

MINE SAFETY FUNDING

The amended bill does not include a general provision proposed by the Senate providing additional funding for necessary expenses for the Mine Safety and Health Administration (MSHA). Funding for MSHA is included under the heading for this agency. The House bill contained no similar provision.

NIOSH FIRE FIGHTER PROGRAM

The amended bill does not include a general provision proposed by the Senate providing that $5,000,000 be available in Title I for the National Institute for Occupational Safety and Health (NIOSH) to carry out the Fire Fighter Fatality Investigation and Preventions Program. Funding for this activity is included within the funds made available to NIOSH in Title II. The House bill contained no similar provision.

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The amended bill includes $7,003,099,000 for health resources and services, of which $6,978,099,000 is provided as budget authority and $25,000,000 is made available from the Public Health Service policy evaluation set-aside, instead of $7,086,709,000 as proposed by the House and $6,888,810,000 as proposed by the Senate.

The amended bill includes funds within health care-related facilities and activities to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
A.O. Fox Memorial Hospital, Oneonta, NY for facilities and equipment	243,000
Access Community Health Network, Chicago, IL for facilities and equipment for Chicago sites	219,000
Addison County Dental Care, Middlebury, VT, for equipment and facility upgrades	146,000
Adirondack Medical Center, Saranac Lake, NY for facilities and equipment	487,000
Adrian College, Adrian, MI for nurse training programs, including facilities and equipment	487,000
Adventist Glen Oaks Hospital, Glendale Heights, IL for facilities and equipment	195,000
Adventist Health, Roseville, CA for expansions to the clinical information system, including purchase of equipment	341,000
AIDS Resource Center Wisconsin, Milwaukee, WI, to provide health care and case management services	121,000
Alamo Community College System, San Antonio, TX for facilities and equipment	429,000
Alaska Addictions Rehabilitation Services, Inc., Wasilla, AK for facilities and equipment	146,000
Alaska Family Practice Residency Program, Anchorage, AK, to support its family practice residency programs	975,000
Alaska Native Medical Center, Anchorage, AK, for equipment	731,000
Alaska Psychiatric Institute, Juneau, AK, for the Telebehavioral Health Project in Alaska	390,000
Albany Medical Center, Albany, NY, for the establishment of the Patient Safety Center	487,000
Albuquerque Indian Health Center, New Mexico, for renovations and equipment	82,000
Alderson-Broaddus College, Philippi, WV for facilities and equipment for the nursing program	121,000
Alegent Health Care System, Omaha, NE, for a community-based Electronic Medical Records System	97,000
Alice Hyde Medical Center, Malone, NY for facilities and equipment	341,000
Alleghany Memorial Hospital, Sparta, NC for an electronic health records initiative, including equipment	146,000
Allegheny General Hospital, Pittsburgh, PA, for equipment	165,000
Allegheny Singer Research Institute, Pittsburgh, PA, for equipment	87,000
Alle-Kiski Medical Center, Natrona Heights, PA for facilities and equipment	365,000
Allen Memorial Hospital, Moab, Utah, for construction, renovation, and equipment	48,000
Alliance for NanoHealth, Houston, TX for facilities and equipment	633,000
AltaMed Health Services Corp., Los Angeles, CA for facilities and equipment	268,000
American Oncologic Hospital, Fox Chase Cancer Center, Philadelphia, PA for facilities and equipment	987,000
American Samoa, Pago Pago, AQ for facilities and equipment for the LBJ Medical Center	624,000
Amite County Medical Services, Liberty, MS for facilities and equipment	131,000
Anchorage Neighborhood Health Center, Anchorage, AK, for construction, renovation, and equipment	330,000
AnMed Health, Anderson, SC, for renovation and equipment	82,000
Arc of Northern Virginia, Falls Church, VA, for equipment and software to create a Resource Navigator System for individuals with developmental disabilities in the Commonwealth of Virginia	146,000
Armstrong County Memorial Hospital, Kittanning, PA, for equipment	87,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Arnold Palmer Hospital, Orlando, FL for facilities and equipment	195,000
Ashland County Oral Health Services, Ashland, OH for facilities and equipment	97,000
Asian Americans for Community Involvement, San Jose, CA for facilities and equipment for a community health clinic	368,000
Association for Utah Community Health, Salt Lake City, UT for health information technology for community health centers represented by the Association throughout the State	776,000
Atchison Hospital Association, Atchison, KS, for renovation and equipment	292,000
Atlantic Health Systems, Florham Park, NJ for an electronic disease tracking system	487,000
Avis Goodwin Community Health Center, Dover, NH for facilities and equipment in Somerworth, NH	390,000
Avista Adventist Hospital, Louisville, CO for health information systems	312,000
Bad River Tribe of Lake Superior Chippewa, Odanah, WI for facilities and equipment for a health clinic	487,000
Ball Memorial Hospital, Muncie, IN, for facilities and equipment	97,000
Baltimore City Health Department, Baltimore, MD for facilities and equipment for mobile units	312,000
Baltimore Medical System, Baltimore, MD for facilities and equipment for a community health care facility	312,000
Baptist Health Medical Center - Heber Springs, Heber Springs, AR for facilities and equipment.	73,000
Barnert Hospital, Paterson, NJ for facilities and equipment	312,000
Barnes-Kasson County Hospital, Susquehanna, PA for obstetrical care	146,000
Barnes-Kasson County Hospital, Susquehanna, PA, for renovation and equipment	87,000
Barre Family Health Center, Barre, MA for facilities and equipment	268,000
Bay Area Medical Clinic, Marinette, WI for facilities and equipment	195,000
BayCare Health System, Clearwater, FL for upgrades to medical information systems	341,000
Baylor College of Medicine, Houston, TX, for construction, renovation, and equipment at the Vannie E. Cook, Jr. Children's Cancer and Hematology Clinic	170,000
Baylor Research Institute, Dallas, TX for facilities and equipment	343,000
Bayonne Medical Center, Bayonne, NJ for health information technology	487,000
Baystate Health Systems, Springfield, MA for facilities and equipment	312,000
Bear River Health Department, Logan, Utah, for the Medical Reserve Corps Program	48,000
Beaumont Hospital, Royal Oak, MI for a Core Molecular Laboratory, including facilities and equipment	487,000
Beaver Valley Hospital, Beaver, Utah, for renovation and equipment	48,000
Beebe Medical Center, Lewes, DE, for construction, renovation and equipment	165,000
Belmont University, Nashville, TN for facilities and equipment for the Health Science Center.	136,000
Beloit Area Community Health Center, Beloit, WI, for construction, renovation and equipment	414,000
Bemidji State University, Bemidji, MN for a nurse training program	243,000
Benedictine Hospital, Kingston, NY for health information systems.	195,000
Benefis Healthcare Foundation, Great Falls, MT, for health information technology	312,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Benefis Healthcare, Great Falls, MT for facilities and equipment	487,000
Berea Health Ministry Rural Health Clinic, Inc., Berea, KY for facilities and equipment for a rural diabetes clinic.	48,000
Billings Clinic, Billings, MT, for a Rural Clinical Information System	273,000
Billings Clinic, Billings, MT, for construction, renovation and equipment of a cancer center	312,000
Billings Clinic, Billings, MT, for the Diabetes Center to prevent and treat diabetes	292,000

Wayne Memorial Hospital, Jesup, GA for facilities and equipment	536,000
Wayne Memorial Hospital, Jesup, GA, for construction, renovation, and equipment	82,000
Wentworth-Douglass Hospital, Dover, NH, for equipment	360,000
Wesley College, Dover, DE, for the expansion of the nursing program	165,000
West Jefferson Medical Center, Marrero, LA for facilities and equipment	429,000
West Shore Medical Center, Manistee, MI for facilities and equipment	146,000
West Side Community Health Services, St. Paul, MN for facilities and equipment	146,000
West Virginia University Hospital, Morgantown, WV for facilities and equipment	195,000
West Virginia University, for the construction and equipping of medical simulation research and training centers in Morgantown, Charleston and Martinsburg	2,764,000
West Virginia University, for the construction of a Multiple Sclerosis Center	3,553,000
Westerly Hospital, Westerly, RI, for construction, renovation and equipment	414,000
Western Kentucky University Research Foundation, Bowling Green, KY, for the Western Kentucky University Mobile Health Screening Unit	487,000
Western North Carolina Health System, Asheville, NC for health information technology	316,000
Western Pennsylvania Hospital, Pittsburgh, PA, for construction	87,000
Wetzel County Hospital, WV, for the expansion and remolding of the Emergency Department	877,000
Whidden Memorial Hospital, Everett, MA for facilities and equipment	365,000
White County Memorial Hospital, Monticello, IN for facilities and equipment	204,000
White Memorial Medical Center, Los Angeles, CA for facilities and equipment	390,000
White Plains Hospital Center, White Plains, NY for facilities and equipment	219,000
Whiteside County Department of Health, Rock Falls, IL for facilities and equipment	312,000
Whitman Walker Clinic of Northern Virginia, Arlington, VA, for construction, renovation and equipment	136,000
Whittemore Peterson Institute for Neuro-Immune Disease, Sparks, NV for facilities and equipment	195,000
Wills Eye Health System, Philadelphia, PA, for equipment	87,000
Wind River Community Health Center, Riverton, WY for facilities and equipment	243,000
Wing Memorial Hospital, Palmer, MA for facilities and equipment	312,000
Winneshiek Medical Center, Decorah, IA for purchase of medical equipment	273,000
Wistar Institute, Philadelphia, PA, for construction	87,000
Wolfson Children's Hospital, Jacksonville, FL for purchase of equipment	487,000
Woodhull Medical and Mental Health Center, Brooklyn, NY for equipment for a hospital-based radiologic technology school	321,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Woodruff County Nursing Home, McCrory, AR for facilities and equipment	219,000
Wyoming County Community Hospital, Warsaw, NY for facilities and equipment	146,000
Wyoming Health Resources Network, Inc., Cheyenne, WY, to expand recruitment and retention of medical professionals in Wyoming	401,000
Wyoming Valley Health Care System-Hospital, Wilkes-Barre, PA, for equipment	87,000
YMCA of Central Stark County, Canton, OH for facilities and equipment	731,000
York Memorial Hospital, York, PA for facilities and equipment	89,000
Youth Crisis Center, Jacksonville, FL for facilities and equipment	292,000
Zucker Hillside Hospital, Glen Oaks, NY for facilities and equipment	477,000

The amended bill does not include bill language proposed by the Senate earmarking $250,000 for the Center for Asbestos Related Disease (CARD) Clinic in Libby, Montana. The House bill did not contain similar language.

The amended bill includes language identifying $40,000,000 for base grant adjustments for existing community health centers as proposed by the Senate instead of $35,000,000 as proposed by the House.

The amended bill includes language contained in the Senate bill permitting funding appropriated for the free clinics program to be used for relevant evaluations as well as for administrative expenses. The House bill included no similar provision.

The amended bill includes language designating $44,055,000 for expenses associated with extending Federal Tort Claims Act protection to practitioners in community health centers as proposed by the Senate instead of $45,000,000 as proposed by the House.

The amended bill includes language providing $1,854,800,000 for Parts A and B of the Ryan White HIV/AIDS Treatment Modernization Act, to be available through September 30, 2010, instead of $1,865,800,000 as proposed by the House and $1,829,511,000 as proposed by the Senate.

The amended bill modifies bill language proposed by the House limiting 2007 program year reductions in Ryan White Part A grants for metropolitan areas and transitional areas. The Senate bill did not have a similar provision.

The amended bill includes the following set-asides within the maternal and child health (MCH) block grant:

	House	Senate	Amended bill
MCH Block Grant:			
Grants to States	$568,885,000	$566,476,842	$566,477,000
SPRANS	103,391,000	79,966,240	79,966,000
SPRANS—Oral Health	12,000,000	4,801,500	4,802,000
SPRANS—Sickle Cell	4,000,000	3,841,200	3,841,000
SPRANS—Epilepsy	5,800,000	2,880,900	2,881,000
SPRANS—Heritable Disorders	3,800,000	1,920,600	1,921,000
SPRANS—Fetal Alcohol	—	990,000	990,000
SPRANS—First Time Motherhood	15,000,000	—	5,000,000
SPRANS—Mental Health/Doula	—	1,536,480	1,536,000
SPRANS—Autism	30,000,000	—	—
Subtotal, SPRANS	170,991,000	95,936,920	100,937,000
CISS	10,124,000	10,586,238	10,586,000
Total, MCH Block Grant	750,000,000	673,000,000	678,000,000

Within this amount, first-time motherhood funding shall be for grants to States to increase public awareness of resources available to women preparing for childbirth and new parents through advertising campaigns and toll-free hotlines. Doula grants shall be for organizations to support and expand community-based doula activities, including technical assistance.

In addition to the SPRANS funding above for oral health activities, an additional $5,000,000 is provided for Dental Health Improvement Act State grants (authorized under section 340G of the Public Health Service Act) within allied health.

The amended bill includes language proposed by the Senate that identifies not less than $5,000,000 for general dentistry programs, not less than $5,000,000 for pediatric dentistry programs, and not less than $24,614,000 for family medicine programs.

The amended bill does not include language proposed by the Senate that would modify the current rules for managing facility and equipment projects. The House bill did not include a similar provision.

The Appropriations Committees support continued efforts to expand the community health centers program into areas of the country without access to a health center, but urge HRSA not to allocate new funding according to certain geographic areas, such as counties.

The amended bill provides $14,200,000 for Native Hawaiian health care activities within the consolidated health centers program as proposed by the Senate. The House did not identify specific funding for Native Hawaiian activities.

HRSA should use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments, as directed by the Senate.

Of the funds provided for allied health training programs, $5,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care, $1,980,000 is allocated to the chiropractic-medical school demonstration grants, and $1,980,000 is designated for the psychology training program.

Within the funding provided for autism and other related developmental disorders, an increase of no less than $6,000,000 is provided to continue and expand the Leadership Education in Neurodevelopmental and Related Disabilities program. In addition, an increase of no less than $6,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

The amended bill provides $3,000,000 within traumatic brain injury funding for protection and advocacy services, instead of $3,400,000 as identified in the Senate report. The House report did not have similar language.

The Appropriations Committees are pleased that HRSA intends to allocate the maximum authorized level for the minority AIDS initiative within the Ryan White HIV programs.

At least fifty percent of the increase within the Ryan White children, youth, women, and families programs should be used to increase average grant award size.

The Appropriations Committees are aware that HRSA has issued proposed regulations revising the requirements for the 340B drug purchasing program. While there are important elements in the regulations that target abuses of the program, there are legitimate concerns regarding the implementation of the proposed rule's definition of patient eligibility. The questions of eligibility and the means by which eligibility is determined are important and should be carefully considered. Therefore, HRSA should move quickly to implement the portions of the regulation that enjoy wide support and consider reopening the patient eligibility question for an additional public comment period. The House and Senate included similar report language.

Within funding provided for rural flexibility grants, the amended bill provides $15,000,000 for the small rural hospital improvement grant program as proposed by the Senate.

The Appropriations Committees concur with guidance in the Senate report regarding the 2006 Delta health initiative satisfying the requirements of the authorization provided in section 219. The House report did not contain similar language.

The amended bill does not include funding within the rural and community access to emergency devices program to establish an information clearinghouse that provides information to increase public access to defibrillation in schools, as proposed by the Senate. Funding for emergency devices should be divided equally between urban and rural communities, as proposed by the Senate. The House bill had no similar language.

Many rural hospitals are working to implement systems to transmit medical information electronically to help deliver efficient and effective health care services to their patients. HRSA is encouraged to continue to examine ways to help such hospitals implement digital technologies, such as picture archiving communications systems and other digital technologies.

HRSA should use no more than one percent of the funds allocated for projects for agency administrative expenses.

VACCINE INJURY COMPENSATION PROGRAM TRUST FUND

The conference agreement provides $5,500,000 for administration for the Trust Fund instead of $3,528,000 as proposed by both the House and the Senate. These funds are necessary to support the adjudication of an expected high volume of claims.

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The amended bill includes $6,156,541,000 for disease control, research, and training at the Centers for Disease Control and Prevention (CDC), instead of $6,138,253,000 as proposed by the House and $6,165,338,000 as proposed by the Senate. In addition, $325,673,000 is made available under section 241 of the Public Health Service (PHS) Act, instead of $319,579,000 as proposed by the House and $269,664,000 as proposed by the Senate.

The amended bill includes language directing CDC to enter into a single contract or related contracts for the full scope of development and construction of the next facility designated by the CDC Building and Facilities Master Plan and that the solicitation and contract shall contain the clause "availability of funds". The Appropriations Committees intend that the contract(s) for the development and construction of the new facility be awarded in fiscal year 2008. Similar language was proposed by the Senate. The House did not propose similar language.

The amended bill includes language designating $109,000,000 to provide screening and treatment for first response emergency services personnel, residents, students, and others related to the September 11, 2001 terrorist attacks on the World Trade Center (WTC). Bill language is included designating $56,500,000 as an emergency. The Appropriations Committees intend that this program be administered by the National Institute of Occupational Safety and Health (NIOSH). The House proposed $50,000,000 in CDC for first response emergency personnel only and the Senate proposed $55,000,000 in the Public Health and Social Services Emergency Fund (PHSSEF) to be transferred to CDC for responders, residents, students and others.

The amended bill includes language designating $113,636,000 for the National Center for Health Statistics surveys to be available through the evaluation set-aside authorized by section 241 of the PHS Act, instead of $120,000,000 as proposed by the House and $108,585,000 as proposed by the Senate. Also within the set-aside, the amended bill includes $48,523,000 for Health Marketing instead of $39,173,000 as proposed by the House and $463,000 for health marketing evaluations as proposed by the Senate.

The amended bill includes language that not to exceed $18,929,000 may be available for making grants for the WISEWOMAN program to not less than 15 States, tribes, or tribal organizations. The Senate proposed $19,035,000 in this same manner and the House proposed $12,500,000 to not more than 15 States, tribes, or tribal organizations.

The amended bill includes language that out of the funds made available for domestic HIV/AIDS testing, up to $30,000,000 shall be for States eligible for the Early Diagnosis Grant Program, authorized by section 2625 of the Public Health Service Act, as of December 31, 2007. Funding for these grants shall be distributed by May 31, 2008 based on standard criteria relating to a State's epidemiological profile and shall not exceed $1,000,000 for any one State. Any amounts that have not been obligated by May 31, 2008 shall be used to make grants to States and local public health departments for other HIV prevention activities. The House proposed that no funds appropriated may be used to implement the Early Diagnosis Grant Program and the Senate proposed to allow up to $30,000,000 for the program if States are eligible.

The amended bill includes language providing that employees of the CDC or the Public Health Service, detailed to States, municipalities, or other organizations under authority of section 214 of the PHS Act or in overseas assignments shall be treated as non-Federal employees for reporting purposes only and shall not be included within any personnel ceiling applicable to the Agency as proposed by the Senate. The House included similar language but did not include employees in overseas assignments.

The amended bill includes ongoing pandemic influenza and related activities in the CDC appropriation as proposed by the House. The Senate proposed to fund these activities in PHSSEF to be transferred to CDC. The total amount available in the amended bill for CDC's ongoing pandemic influenza activities totals $157,737,000 and are detailed later in this explanatory statement.

The Appropriations Committees note that in September 2007, CDC realigned its budget through a reprogramming and transfer of funds at the program, project, and activity level. The Secretary communicated his intent that the realignment of funds be permanent. Funding levels proposed in the House- and Senate-passed bills did not reflect these changes because the request for reprogramming came after initial House and Senate Committee action on the fiscal year 2008 appropriations bills. Funding levels provided in the amended bill make the funding realignment permanent. CDC is expected to adhere to enacted funding levels in fiscal year 2008 and to not tap or assess program activities for unrelated purposes. For purposes of displaying accurate comparability, the following House and Senate funding levels identified in the CDC portion of the explanatory statement have been adjusted to account for this funding realignment.

INFECTIOUS DISEASES

Immunization and respiratory diseases

Within the total for Infectious Diseases, the amended bill includes a program level total of $595,306,000 for immunization and respiratory diseases instead of $628,585,000 as proposed by the House and $520,076,000 as proposed by the Senate.

Within the total for immunization and respiratory diseases, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Section 317 Immunization Program	$509,587,000	$450,837,000	$476,334,000
Program Operations	81,700,000	81,726,000	61,967,000
Funds to States to Increase Demand for Influenza Vaccine	19,733,000	20,000,000	19,733,000
Influenza Activities	37,272,000	7,272,000	37,272,000
Repository of Pandemic Virus Reference Strains	19,733,000	20,000,000	19,733,000
Stock of Diagnostic Reagents for Influenza	14,849,000	15,000,000	14,849,000

HIV/AIDS, Viral Hepatitis, STD, and TB Prevention

Within the total for Infectious Diseases, the amended bill includes $1,019,948,000 for HIV/AIDS, Viral Hepatitis, STD, and TB prevention, instead of $1,034,625,000 as proposed by the House and $1,012,513,000 as proposed by the Senate.

Within the total for HIV/AIDS, Viral Hepatitis, STD, and TB prevention, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Domestic HIV/AIDS Activities	$712,867,000	$695,454,000	$704,161,000
Domestic HIV/AIDS Testing	62,321,000	44,321,000	53,321,000
Viral Hepatitis	18,354,000	17,354,000	17,895,000
Tuberculosis	148,367,000	144,668,000	142,855,000

Zoonotic, Vector-borne, and Enteric Diseases

Within the total for Infectious Diseases, the amended bill includes $69,052,000 for zoonotic, vector-borne, and enteric diseases as proposed by the Senate, instead of $69,324,000 as proposed by the House.

Preparedness, Detection, and Control of Infectious Diseases

Within the total for Infectious Diseases, the amended bill includes $152,591,000 for preparedness, detection, and control of infectious diseases, instead of $161,123,000 as proposed by the House and $153,591,000 as proposed by the Senate.

Within the total for preparedness, detection, and control of infectious diseases, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Antimicrobial Resistance	$18,968,000	$17,220,000	$17,220,000
All Other Emerging Infectious Diseases	139,382,000	133,598,000	132,598,000

HEALTH PROMOTION

Chronic Disease Prevention, Health Promotion, and Genomics

Within the total for Health Promotion, the amended bill includes $848,653,000 for chronic disease prevention, health promotion, and genomics instead of $859,243,000 as proposed by the House and $842,944,000 as proposed by the Senate.

Within the total for chronic disease prevention, health promotion, and genomics, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Heart Disease and Stroke	$47,993,000	$49,993,000	$50,993,000
Mississippi Delta Region	0	2,000,000	1,500,000
Diabetes	68,118,000	63,831,000	63,826,000
Cancer Prevention and Control	320,813,000	320,662,000	314,989,000
Breast and Cervical Cancer	206,749,000	208,353,000	204,403,000
Comprehensive Cancer	16,622,000	25,772,000	16,639,000
Johanna's Law	9,000,000	0	6,581,000
Ovarian Cancer	6,439,000	4,434,000	5,363,000
Cancer Survivorship	793,000	891,000	793,000
Arthritis and Other Chronic Diseases	22,425,000	22,661,000	24,340,000
Epilepsy	8,239,000	7,975,000	7,904,000
National Lupus Patient Registry	917,000	1,417,000	3,167,000
Tobacco	102,016,000	104,016,000	106,016,000
Nutrition, Physical Activity, and Obesity	41,489,000	43,590,000	42,941,000
Fruit and Vegetable Program (5-A-Day)	2,300,000	2,400,000	2,351,000
Sodium Intake Study	0	1,000,000	1,000,000
Health Promotion	27,044,000	27,595,000	29,492,000
Sleep Disorders	1,000,000	0	833,000
Mind-Body Research	0	1,750,000	1,750,000
Glaucoma	3,403,000	3,403,000	3,403,000
Visual Screening Education	3,431,000	2,681,000	2,431,000
Alzheimer's Disease	1,604,000	1,754,000	1,604,000
Inflammatory Bowel Disease	679,000	779,000	679,000
Interstitial Cystitis	670,000	770,000	670,000
Pioneering Healthier Communities	1,411,000	1,411,000	3,000,000
Chronic Kidney Disease	1,750,000	1,925,000	2,000,000
School Health	55,289,000	54,789,000	55,289,000
Food Allergies and Anaphylaxis	500,000	0	500,000
Safe Motherhood and Infant Health	47,512,000	43,150,000	43,100,000
Sudden Infant Death Syndrome	211,000	261,000	211,000
Demonstration Grants for Teen Pregnancy. Prevention	10,000,000	0	3,000,000
Oral Health	12,956,000	11,456,000	12,643,000
Prevention Centers	29,119,000	29,649,000	29,649,000
Racial and Ethnic Approaches to Community Health (REACH)	37,053,000	33,639,000	34,462,000
Genomics	11,811,000	12,308,000	12,308,000
Primary Immune Deficiency Syndrome	2,468,000	2,965,000	2,965,000

The additional funds for the heart disease and stroke Mississippi Delta program will enable an expansion of these activities throughout the Mississippi Delta region as proposed by the Senate. The House did not propose similar language.

Funding is available to continue and expand the National Lupus Patient Registry to operate seven sites, including a coordinating site. The Appropriations Committees are concerned by the lack of reliable epidemiological data on the incidence and prevalence of all forms of lupus among various ethnic and racial groups. These sites should have an expertise in lupus epidemiology and represent the geographic regions of the U.S. that have a sufficient number of individuals of racial and ethnic groups that are disproportionately affected by lupus, principally African Americans, Hispanics/Latinos, Asian Americans, and Native Americans.

The increase for the Office of Smoking and Health should be used to support a stepped up effort by the Environmental Health Laboratory to analyze tobacco products and cigarette smoke as proposed by the Senate. The House did not propose similar language.

Sufficient funds are included for CDC to conduct a study of the impact of school nutrition and physical activity programs on academic outcomes as proposed by the Senate. The House did not propose similar language.

Funding is for the National Academy of Sciences' Institute of Medicine to examine and make recommendations regarding various means that could be employed to reduce dietary sodium intake to levels recommended by the Dietary Guidelines for

Americans as proposed by the Senate. The House did not propose similar language.

Funding is included within community health promotion for activities related to sleep disorders including CDC's participation in the national sleep awareness roundtable as proposed by the House. The Senate did not propose similar language.

Funding is included to develop a policy to manage the risk of food allergies and anaphylaxis in schools and to provide parents with enhanced information on these conditions via the Internet as proposed by the House. The Senate did not propose similar language.

Birth Defects, Developmental Disabilities, Disability and Health

Within the amount available for Health Promotion, the amended bill includes $129,631,000 for birth defects, developmental disabilities, disability and health instead of $130,311,000 as proposed by the House and $126,274,000 as proposed by the Senate.

Within the total for birth defects, developmental disabilities, disability and health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Birth Defects and Developmental Disabilities	$37,968,000	$37,941,000	$38,247,000
Craniofacial Malformation	1,378,000	1,578,000	1,578,000
Alveolar Capillary Dysplasia	0	0	250,000
Folic Acid	2,431,000	2,204,000	2,260,000
Human Development and Disability	71,694,000	68,500,000	71,601,000
Tourette Syndrome	1,927,000	1,924,000	1,749,000
Early Hearing Detection and Intervention	10,305,000	6,317,000	10,047,000
Muscular Dystrophy	6,929,000	6,387,000	6,287,000
Paralysis Resource Center	5,829,000	6,329,000	5,829,000
Attention Deficit/Hyperactivity Disorder	1,858,000	1,787,000	1,777,000
Fragile X	947,000	1,860,000	1,860,000
Spina Bifida	5,437,000	5,434,000	5,298,000
Autism	16,208,000	16,208,000	16,500,000
Blood Disorders	20,649,000	19,833,000	19,783,000

Within the total for environmental health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Environmental Health Laboratory	$39,888,000	$27,397,000	$34,397,000
Newborn Screening Quality Assurance	7,000,000	0	7,000,000
Newborn Screening for Severe Combined Immunodeficiency Disease	0	1,000,000	1,000,000
Environmental Health Activities	55,720,000	56,010,000	56,292,000
Arctic Health	0	297,000	297,000
Volcanic Emissions	0	99,000	100,000
Environmental and Health Outcome Tracking Network	26,080,000	23,674,000	24,255,000
National Amyotrophic Lateral Sclerosis Registry	871,000	2,871,000	2,871,000
Landmine Survivors	4,075,000	4,375,000	4,075,000

Within the funds provided for the Environmental Health Laboratory, CDC is encouraged to provide funding for States with existing biomonitoring programs to expand laboratory capacity; conduct subpopulation studies; conduct representative analyses of routinely collected blood, cord blood and other biospecimens; develop protocols for conducting biomonitoring of sensitive subpopulations such as children; and support biomonitoring field operations such as participant enrollment, sample collection, data analysis, report generation and results communications. CDC also is encouraged to begin developing new methods for identifying chemical sources and routes of exposure using model exposure questionnaires and collection of relevant household and other environmental samples.

Within the funds provided for the environmental and health outcome tracking network, CDC is encouraged to make funding available to State environmental health tracking programs to develop replicable models for disease, hazard and exposure data sharing at the local, State and national levels that incorporate data confidentiality protections. CDC is further encouraged to include non-governmental organizations representing health-affected constituencies, environmental health and environmental justice in their advisory groups.

The funds included for the amyotrophic lateral sclerosis registry are intended to expand the registry to include other neurodegenerative disorders.

Injury Prevention and Control

Hemophilia	$17,899,000	$17,033,000	$17,033,000
Cooley's Anemia	1,893,000	1,943,000	1,893,000

Funds are included for the development and distribution of awareness materials on alveolar capillary dysplasia (ACD) to neonatologists and intensive care pediatricians to assist in the proper diagnosis of ACD. Neither the House nor the Senate proposed funding for these activities. The Appropriations Committees are aware of a congenital malformation of the lungs affecting infants, known as ACD, in which the normal diffusion process of oxygen from the air sacs to the blood in the lungs fails to develop properly. Life expectancy for infants with ACD is extremely short, and anecdotal evidence indicates that ACD is often misdiagnosed. Proper recognition and diagnosis of the disease are essential first steps to obtaining accurate prevalence data for ACD.

HEALTH INFORMATION AND SERVICE

Within the program level total for health information and service, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Health Statistics	$118,121,000	$114,979,000	$113,636,000
Public Health Informatics	95,815,000	73,764,000	95,720,000
Vaccine Registry	14,550,000	15,000,000	14,550,000
Real-time Assessment and Evaluation of Flu Interventions	9,867,000	10,000,000	9,867,000
Health Marketing	90,512,000	94,330,000	90,722,000

Included within the amount for health statistics is an additional $200,000, as proposed by the House, to make necessary improvements to the National Survey of Family Growth. The Senate did not propose similar language.

Within the total for public health informatics is $325,000, as proposed by the House, to continue to fund the establishment of a nationwide database of contact information for practicing physicians that can be used by Federal agencies and State and local health departments in the event of a public health emergency. The Senate did not propose similar language.

ENVIRONMENTAL HEALTH AND INJURY PREVENTION

Environmental Health

Within the total for Environmental Health and Injury Prevention, the amended bill includes $157,233,000 for environmental health instead of $162,152,000 as proposed by the House and $149,951,000 as proposed by the Senate.

Within the funds provided for Environmental Health and Injury Prevention, the amended bill includes $137,234,000 for injury prevention and control, instead of $137,647,000 as proposed by the House and $145,204,000 as proposed by the Senate.

Within the total for injury prevention and control the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Youth Violence Prevention	$23,681,000	$25,663,000	$23,681,000
Rape Prevention	42,763,000	44,698,000	42,763,000
Traumatic Brain Injury	5,724,000	6,195,000	5,811,000

Within the funds provided, sufficient funds are included to support an additional injury control research center that will conduct research on injury and injury prevention related to children and adolescents, as proposed by the House. The Senate did not propose similar language.

OCCUPATIONAL SAFETY AND HEALTH

Within the program level total for occupational safety and health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Personal Protective Technology	$12,732,000	$13,648,000	$13,032,000
National Occupational Research Agenda	113,243,000	104,595,000	110,154,000
World Trade Center	50,000,000	55,000,000	109,000,000
Mining Research	25,200,000	49,200,000	50,000,000
Miner's Choice Health Screening	352,000	652,000	652,000
National Mesothelioma Registry and Tissue Bank	1,007,000	1,107,000	1,007,000

The total provided for the NIOSH includes sufficient funding to maintain staffing levels at the Morgantown facility and to increase research funding at that facility as proposed by the Senate. Funding also is included to continue the farm health and safety initiative as proposed by the Senate. The House did not propose either of these programs.

For the mining research program, the Appropriations Committees expect that additional funding will ensure that the mine safety research agenda in areas such as dust monitoring, roof control, and disaster prevention are not abandoned. As proposed by the Senate, NIOSH is directed to expand the required progress reports on grant-making and research findings for research goals such as dust monitoring, roof control, and disaster prevention. The House did not propose such language.

The amended bill includes sufficient funds for NIOSH to conduct, in collaboration with the University of Utah and West Virginia University, a study of the recovery of coal pillars through retreat room and pillar mining practices in underground coal mines at depths greater than 1500 feet. The study should examine the safety implications of retreat room and pillar mining practices, with emphasis on the impact of full or partial pillar extraction mining. The study should include, but not be limited to, analyses of (1) the conditions under which retreat mining is used, including conditions relating to seam thickness; depth of cover; strength of the mine roof, pillars, and floor; and the susceptibility of the mine to seismic activity; and

(2) the procedures used to ensure miner safety during retreat mining. NIOSH is directed to submit a report, not later than two years after beginning the study, containing the results of the study to the Committees on Appropriations of the House of Representatives and the Senate. The report shall include recommendations to enhance the safety of miners working in underground coal mines where retreat mining in room and pillar operations is utilized. Among other things, the recommendations should identify means of adapting any practical technology to the mining environment to improve miner protections during mining at depths greater than 1500 feet, and research needed to develop improved technology to improve miner protections during mining at such depths.

GLOBAL HEALTH

Within the funds provided for global health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Global AIDS Program	$120,985,000	$120,985,000	$121,541,000
Rapid Outbreak Response for High Priority Countries	17,740,000	18,000,000	17,740,000
Human-Animal Interface Studies	3,960,000	4,000,000	3,960,000
International Surveillance, Diagnosis, and Epidemic Investigations	47,339,000	48,000,000	47,339,000

TERRORISM PREPAREDNESS AND RESPONSE

Within the funds provided for terrorism preparedness and response, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Upgrading State and Local Capacity	$772,266,000	$805,556,000	$759,304,000
Bioterrorism Cooperative Agreement	725,881,000	751,815,000	712,919,000
Centers for Public Health Preparedness	29,063,000	29,063,000	29,063,000
Advanced Practice Centers	5,355,000	5,355,000	5,335,000
All Other State and Local Capacity	11,967,000	19,323,000	11,967,000
Botulinum Toxin Research	0	2,963,000	0
Biosurveillance Initiative	73,842,000	71,249,000	64,194,000
BioSense	44,665,000	52,005,000	35,000,000
Quarantine Stations	19,995,000	20,062,000	20,012,000

Funding is provided for the Centers for Public Health Preparedness at accredited schools of public health to ensure continuity of planned education and training commitments to State, local, and tribal health departments during the fifth and final year of the existing cooperative agreements. CDC is encouraged to manage this program and work with appropriate public health organizations to begin implementation of the provisions of the Pandemic and All-Hazards Preparedness Act during fiscal year 2008.

PUBLIC HEALTH IMPROVEMENT AND LEADERSHIP

Within the total for Public Health Improvement and Leadership, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Leadership and Management	$161,069,000	$161,734,000	$161,069,000
Director's Discretionary Fund	6,000,000	7,851,000	6,000,000
Public Health Workforce Development	33,639,000	36,105,000	34,614,000
Applied Epidemiology Fellowship Training Program	0	2,000,000	975,000

Funds provided for the Director's Discretionary Fund are to support activities deemed by the Director as having high scientific and programmatic priority and to respond to emergency public health requirements. The amended bill does not include language proposed by the Senate regarding the Director's authority to reallocate management savings to the Director's Discretionary Fund.

The amended bill includes funds within public health improvement and leadership to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
A Voice for All, Wilmington, DE, for speech and language evaluations for persons with disabilities	316,000
Adler Aphasia Center, Maywood, NJ for a program to improve communication and other life skills for people with aphasia	121,000
Advocate Good Shepard Hospital, Barrington, IL for the expansion of an ongoing pilot project to address the growing problem of childhood obesity among elementary schools in Lake County, IL	29,000
Alameda County Public Health Department, Office of AIDS Administration, Oakland, CA for an HIV/AIDS prevention and testing initiative	292,000
Alaska Department of Health and Social Services, Juneau, AK, for an Obesity Prevention and Control project in Alaska	487,000
Alaska Department of Health and Social Services, Juneau, AK, for continuation and expansion of a program to detect and control tuberculosis in Alaska	487,000
Alaska Multiple Sclerosis Center, Anchorage, AK, for multiple sclerosis related activities	146,000
Albert Einstein Healthcare Network, Philadelphia, PA, for college student screening programs	165,000
American Optometric Association, Alexandria, VA, for the InfantSee program	438,000
Baylor College of Medicine, Houston, TX for epidemiological research and educational outreach related to childhood cancer in cooperation with the Vannie E. Cook Jr. Cancer Foundation in McAllen, TX	312,000
Bayside Community Center, San Diego, CA for its STEPS health education and outreach program for senior citizens	170,000
Berean Community & Family Life Center, Brooklyn, NY for obesity prevention programs and community health and wellness education	268,000
Bienestar Human Services, Inc., Los Angeles, CA to expand a mobile HIV rapid testing program in East Los Angeles	121,000
Boys and Girls Club of Delaware County, Jay, OK for equipment and operating expenses for programs to improve diet, physical activity, and emotional health	438,000
Brown County Oral Health Partnership, Green Bay, WI, to expand an oral health program	248,000
California State University-Fullerton, Fullerton, CA for programs aimed at preventing obesity and promoting health in children	390,000
Camden County, Camden, NJ, to purchase, equip and staff a mobile health van	331,000
Cascade AIDS, Portland, Oregon, to conduct HIV/AIDS awareness and prevention programs	165,000
Center for Asbestos Related Disease Clinic, Libby, MT to create an epidemiological data repository on tremolite asbestos	253,000
Center for International Rehabilitation, Chicago, IL, for the Disability Rights Monitor	195,000
Charles R. Drew Wellness Center, Columbia, SC for an obesity focused wellness program	229,000
Charter County of Wayne, Michigan, Detroit, MI for Infant Mortality Prevention services	195,000
Chez Panisse Foundation, Berkeley, CA for the school lunch initiative to integrate lessons about wellness, sustainability and nutrition into the academic curriculum	243,000
Children's Hunger Alliance, Columbus, OH for programs to prevent childhood obesity	195,000
Colorado School of Mines, Golden, CO, for the development and deployment of Mine safety and Rescue through Sensing Networks and Robotics Technology (Mine-SENTRY)	165,000
Columbus Children's Research Institute, Columbus, OH for the Center for Injury Research and Policy	195,000
Community Health Centers in Hawaii for Childhood Rural Asthma Project, for childhood rural asthma project	121,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
County of Marin, San Rafael, CA for research and analysis related to breast cancer incidence and mortality in the county and breast cancer screening	292,000
CREATE Foundation, Tupelo, MS for childhood obesity prevention programs	438,000
DuPage County, Wheaton, IL for a county-wide physical fitness assessment pilot project	146,000
East Carolina University, Brody School of Medicine, Greenville, NC for a project to study the problem of racial disparities in cardiovascular diseases	243,000
El Puente, Brooklyn, NY for an obesity, diabetes, STD, and HIV/AIDS prevention program for adolescents and their families as well as control and management of asthma and other environmentally connected diseases	214,000
ExemplaSaint Joseph Hospital Foundation, Denver, CO, for the mobile mammography program	82,000
Fletcher Allen Health Care, Burlington, VT, to develop chronic disease registries	165,000
Food Allergy and Anaphylaxis Network, Fairfax, VA, for the Iowa Food Allergy Education program	117,000
Friends of the Congressional Glaucoma Caucus Foundation, Lake Success, NY to provide glaucoma screenings and follow-up in the Phoenix, AZ area	73,000
Friends of the Congressional Glaucoma Caucus Foundation, Lake Success, NY to provide glaucoma screenings and follow-up in the Virgin Islands	316,000
Georgia Chapter of the American Lung Association, Smyrna, GA to study the relationship between residential floor coverings and distributive patterns of airborne particulates	341,000
Georgia Rural Water Association, Barnesville, GA, for the National Fluoridation Training Institute	82,000
Haitian American Association Against Cancer, Inc., Miami, FL for cancer education, outreach, screening and related programs	234,000
Health Care Network, Inc, Racine, WI, to coordinate dental services for low-income patients	82,000
Healthy Eating Lifestyle Principles, Monterey, CA for a program to improve nutrition by promoting the accessibility and consumption of fresh fruits and vegetables in schools	170,000
Healthy Futures, Columbia, SC, to educate the community to recognize the health concerns, specifically obesity, of youth in the minority community	205,000
Healthy Northeast Pennsylvania Initiative, Clarks Summit, PA, for health education	87,000
Henderson, NV, for a diabetes screening, education and counseling program for seniors	195,000
Home Instruction Program for Preschool Youngsters - Florida, Coral Gables, FL to create a preventative health care model	170,000
Ingalls Development Foundation, Harvey, IL for a comprehensive cancer prevention and early detection program, focusing on minority populations	219,000
Institute of Medical Humanism, Inc, Bennington, VT, for an end-of-life care initiative	146,000
International Rett Syndrome Association, Clinton, MD for education and awareness programs regarding Rett syndrome	146,000
Iowa Chronic Care Consortium, Des Moines, Iowa, for a preventative health demonstration program	146,000
Iowa Department of Public Health to continue the Harkin Wellness Grant program	1,462,000
Iowa Games, Ames, IA, to continue the Lighten Up Iowa program	97,000
Iowa Health Foundation, for wellness activities for dementia patients	97,000
Iowa State University, Ames, IA, for the Iowa Initiative for Healthier Schools and Student Wellness	390,000
Kennedy Health System, Voorhees, NJ, for the Women and Children's Health Pavilion's Advanced Cancer Prevention and Treatment Initiative	370,000
Kids Kicking Cancer, Inc., Detroit, MI, for cancer treatment support activities	580,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Kips Bay Boys and Girls Club, Bronx, NY for a nutrition and anti-obesity demonstration program for 6- to 12-year-old children	316,000
Long Island University, Brooklyn, NY for asthma education, counseling, and prevention programs	355,000
Louisville Department of Public Health and Wellness, Louisville, KY for improving and providing preventative healthcare to men to address disease and obesity prevention, oral health, and stress management	97,000
Lower Bucks Hospital, Bristol, PA, for autism therapy evaluation	87,000
Mary Bird Perkins Cancer Center, Baton Rouge, LA, for additional C.A.R.E Network screenings and program development	97,000
Michigan Health and Hospital Association, Lansing, MI, to improve quality of care and patient safety in hospital surgery settings	414,000
Middle Tennessee State University, Murfreesboro, TN for research and education regarding ways of increasing physical activity and fitness among children and adolescents	341,000
Myositis Association, Washington, DC to develop a national patient registry for individuals afflicted with myositis	170,000
Natividad Medical Center, Salinas, CA for a diabetes care management program	121,000
Nazareth Hospital, Philadelphia, PA, for health outreach	87,000
Nevada Cancer Institute, Las Vegas, NV for a comprehensive program to reduce cancer incidence and mortality rates and address cancer health disparities	292,000
North Shore Health Project, Gloucester, MA for outreach and education on hepatitis C	146,000
Northeast Regional Cancer Institute, Scranton, PA, for cancer screening evaluation	87,000
Nueva Esperanza, Philadelphia, PA, for HIV/AIDS programs	87,000
Pennsylvania Breast Cancer Coalition, Ephrata, PA, for education, awareness and publication production	87,000
Pittsburgh Regional Health Initiative, Pittsburgh, PA, for an infection control training program	87,000
Plymouth State University, Plymouth, NH for the Partners Enabling Active Rural Living Institute to develop an evidence-based model for promoting and enabling appropriate daily physical activity in rural communities	146,000
Potter County Human Services, Roulette, PA, for health promotion programs	87,000
Providence Cancer Center, Portland, OR for the rural and underserved cancer outreach project	112,000
Providence Multiple Sclerosis Center, Portland, Oregon, to develop a registry for multiple sclerosis	82,000
Pulmonary Hypertension Association, Silver Spring, MD for public education and outreach	195,000
Saint Michael's Medical Center, Newark, NJ, for heart disease screening	146,000
San Antonio Metropolitan Health District, San Antonio, TX for further studies and public health outreach regarding environmental health concerns at and near the former Kelly Air Force Base	429,000
SHAREing and CAREing, Astoria, NY to provide culturally sensitive breast health education, referrals for screenings/diagnostic and support services for medically underserved and uninsured minority women	121,000
Silent Spring Institute, Newton, MA for studies of the impact of environmental pollutants on breast cancer and women's health	121,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Sister to Sister - Everyone Has a Heart Foundation to increase women's awareness of heart disease, Washington, D.C.	243,000
South Dakota State University, Brookings, SD, for interdisciplinary research on obesity prevention and treatment	121,000
Southeastern Center for Emerging Biologic Threats, Emory University, Atlanta, GA for programs related to bioterrorism and emerging biological threats	390,000
Spinal Muscular Atrophy Foundation, New York, NY, for outreach, patient education and registries	487,000
St. Elizabeth's Medical Center, Wabasha, MN to support a disease prevention pilot program to reduce the incidence of heart disease	97,000
St. Francis Medical Center Foundation, Lynwood, CA for health education and outreach	136,000
St. John's Regional Medical Center, Oxnard, CA for diabetes prevention and management programs	390,000
St. John's Well Child and Family Center, Los Angeles, CA for a patient education program to address obesity, diabetes, and hypertension	121,000
Supporting Autism Families Everywhere, Wilkes-Barre, PA, for Autism programs and education	87,000
Texas Tech University Health Sciences Center at El Paso, El Paso, TX, for the Center for Research and Re-Emerging Infectious Diseases	365,000
United Mine Workers of America, Fairfax, VA, for a fuel-cell coalmine vehicle demonstration project	87,000
University of Arizona College of Medicine, Tucson, AZ for diabetes educational outreach programs	263,000
University of Findlay Center for Public Health Preparedness, Findlay, OH for training programs on school safety and workplace violence avoidance	268,000
University of Kansas, Lawrence, KS, for the biodiversity research center	1,141,000
University of Montana Rehabilitation, Research, and Training Center, Missoula, MT, to develop program Living Well and Working Well with a Disability: Improving Health, Promoting Employment, and Reducing Medical Costs	117,000
University of Montana, Missoula, MT, for Methamphetamine Detection and Health Effects Research	175,000
University of North Carolina at Chapel Hill with East Carolina University, Chapel Hill, North Carolina, for the Program in Racial Disparities in Cardiovascular Disease	570,000
University of North Texas Health Science Center, Fort Worth, TX for the Center for Minority Health, Education, Research and Outreach	390,000
University of Pittsburgh Medical Center, Pittsburgh, PA, for health outreach	165,000
University of South Florida, Tampa, FL to create, implement, and evaluate programs to assist school-aged children in becoming physically active and healthy	536,000
University of Texas Pan American, Edinburg, TX for the South Texas Border Health Disparities Center's program on preventing obesity in minority populations	312,000
University of Texas, Brownsville, TX for studies regarding the health of the Hispanic population in the Rio Grande Valley	390,000
University of Wisconsin Milwaukee, Milwaukee, WI, for evidence based adolescent pregnancy prevention programs	195,000
Virgin Islands Perinatal Inc., Christiansted, VI for implementation of chronic disease management and prevention modalities to minimize adverse outcomes related to diabetes and hypertension	307,000
Voorhees College, Denmark, SC for a demonstration program on reversing diabetes in minority communities	131,000
Wayne County Department of Public Health, Detroit, MI for a lead poisoning assessment, prevention, and intervention program	292,000
WellSpan Health, York, PA, for health outreach	87,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
WestCare Foundation, Las Vegas, NV, for the Batterers Intervention Program in Needles, CA and surrounding communities	487,000
Yale New Haven Hospital, New Haven, CT to develop a comprehensive ovarian cancer prevention and early detection program	292,000
YBH Project, Inc., Albany, GA for nutrition, fitness, and education programs for middle school students and their families	97,000
Youth and Family Services, Rapid City, SD, for the Health Connections Program	146,000

NATIONAL INSTITUTES OF HEALTH

The amended bill includes $29,748,241,000 for the 26 accounts that comprise the National Institutes of Health total appropriation instead of $29,669,712,000 as proposed by the House and $29,899,887,000 as proposed by the Senate. Appropriation levels for individual institutes and centers are described in the table at the end of this explanatory statement. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The National Cancer Institute is urged to fund a study of the Trinity nuclear test that estimates the number of fatal and non-fatal radiogenic illnesses compared to a baseline of what would be expected to occur naturally in the surrounding community.

NATIONAL INSTITUTE OF DIABETES AND DIGESTIVE AND KIDNEY DISEASES

NIDDK is encouraged to conduct hemodialysis clinical trials on a regular basis that produce the optimum benefit for patients.

NATIONAL CENTER FOR RESEARCH RESOURCES

The amended bill does not include language proposed by the Senate regarding the prohibition of funds to pay indirect expenses for general research support grants. This provision is no longer necessary. The House bill did not contain a similar provision.

The amended bill provides funding for clinical and translational science awards divided between the Common Fund and NCRR in the same proportion as the Senate-passed bill. The Appropriations Committees remain supportive of this program as it matures, but are concerned about the abrupt changes in program funding policies implemented in 2007.

The amended bill provides $220,500,000 for the Institutional Development Award (IDeA) program, rather than $223,607,000 as proposed by the Senate. The House had not identified specific funding for this program.

OFFICE OF THE DIRECTOR

The amended bill provides $25,000,000 in bill language for the flexible research authority authorized in section 215 of this Act as proposed by the Senate instead of $14,000,000 as proposed by the House.

The amended bill provides $112,872,000 for continuation of the National Children's Study instead of $110,900,000 as proposed by both the House and the Senate.

The amended bill does not include language proposed by the House regarding the amount identified for the Common Fund being in addition to funds allocated by the institutes for activities that are related to Fund activities. The Senate bill did not have similar language.

The amended bill does not include language proposed by both the House and the Senate limiting the funding for the Foundation for the National Institutes of Health to $500,000. The amended bill permits NIH the flexibility to determine the funding to be transferred to the Foundation within the limits set by the authorizing statute.

The amended bill provides funding for a low percent increase in the average cost of new as well as non-competing grants. The Senate report indicated that sufficient funds were included to pay full committed levels on existing grants and to provide a three percent increase in the average cost of new grants. The House report provided sufficient funding for a two percent increase in the average cost of new grants, but did not include an assumption about commitment levels for existing grants.

The amended bill provides the same funding as the fiscal year 2007 level for the Director's Pioneer awards, New Innovator awards, and Bridge awards. Funding for the Pathways to Independence program, which is funded through all institutes and centers, is funded at the President's fiscal year 2008 request level. The House provided similar amounts for these programs. The Senate provided similar amounts for all the programs except Pathways to Independence, for which the Senate did not identify a funding level. The amended bill includes $96,030,000 for research on chemical, radiological and nuclear countermeasures instead of $95,310,000 as proposed by the House and $96,130,000 as proposed by the Senate.

The amended bill provides up to $10,000,000 for the Director's Discretionary Fund as proposed by the House. The Senate did not specifically identify funding for the Discretionary Fund.

As required in the House report, NIH is required to notify the House and Senate Appropriations Committees each time the Director uses the one percent transfer authority provided in the NIH reauthorization.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The amended bill includes $3,414,206,000 for substance abuse and mental health services, of which $3,291,543,000 is provided through budget authority and $122,663,000 is provided through the evaluation set-aside. The House proposed $3,393,841,000 for the Substance Abuse and Mental Health Services Administration (SAMHSA), of which $120,913,000 was from the evaluation set-aside and the Senate proposed $3,404,798,000, of which $126,663,000 was from the evaluation set-aside.

The amended bill includes language, as proposed by the Senate, that permits a State to receive more than one grant or cooperative agreement for youth suicide early intervention and prevention strategies. The House did not propose similar language.

Within the total provided, the amended bill includes $114,880,000 for activities throughout SAMHSA that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders. The House proposed $128,514,000 for these activities. The Senate did not include similar language.

Within the total provided, the amended bill includes $56,916,000 for activities throughout SAMHSA to address the needs of the homeless. The House proposed $57,123,000 for these activities. The Senate did not include similar language.

Within the total provided, the amended bill includes $3,520,000 for treatment programs for mental illness and substance abuse for tribes and tribal organizations instead of $4,070,000 as proposed by the House. The Senate did not propose similar language.

Center for Mental Health Services

Within the total provided for mental health programs of regional and national significance, the amended bill includes $94,656,000 to continue and expand violence prevention programs in schools, including the Safe Schools/Healthy Students interdepartmental program, instead of $96,156,000 as proposed by the House and $93,156,000 as proposed by the Senate. Included within this amount, the amended bill provides $1,500,000 for a jointly funded initiative administered by the Department of Education and SAMHSA to support competitive grants to institutions of higher education to develop and implement emergency management plans for preventing campus violence. The House proposed $3,000,000 for this initiative. The Senate did not propose similar language.

Within the total for mental health programs of regional and national significance, the amended bill includes $33,680,000 for the National Child Traumatic Stress Initiative instead of $32,360,000 as proposed by the House and $35,000,000 as proposed by the Senate. In funding new grants, SAMHSA is directed to give high priority to centers providing services in areas impacted by Hurricanes Katrina and Rita and who have previous experience in providing such services.

Within the total for mental health programs of regional and national significance, the amended bill includes $7,500,000 for a wellness initiative, instead of $15,000,000 as proposed by the Senate, to assist local communities in the coordination and improvement of the integration of behavioral/mental and physical health services. In carrying out this wellness initiative, SAMHSA is expected to collaborate with HRSA and CDC. The Appropriations Committees intend that funding provided will allow local communities to undertake a range of prevention and health promotion activities and expect that grantees must be able to evaluate the success of the program based on their ability to provide evidence-based services. The House did not propose funding for this initiative.

For programs addressing youth suicide prevention and early intervention programs within the mental health programs of regional and national significance, the amended bill includes the following amounts as proposed by the Senate: $30,000,000 for grants to States and tribes; $5,000,000 for campus-based programs; and, $5,000,000 for the Suicide Prevention Resource Center. The House did not include similar language.

The Center for Mental Health Services is expected to support multi-year grants to five consumer and consumer-supported national technical assistance centers as proposed by the Senate. The House did not propose similar language. The amended bill also provides funding at last year's level for the consumer-run statewide networking grants.

The amended bill includes funds within mental health programs of regional and national significance to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Access Community Health Center, Bloomingdale, IL for mental health services	243,000
Access Community Health Network, Chicago, IL,for behavioral health integration programs	390,000
Advocate Health Care, Oak Brook, IL for specialized and comprehensive psychotherapy and support to abused and neglected children and their families	316,000

Youthville, Wichita, KS for an adoption and trauma resource center	438,000

Center for Substance Abuse Treatment

Within funds provided for substance abuse treatment programs of regional and national significance, the amended bill includes $98,208,000 for the access to recovery program as proposed by the Senate instead of $98,000,000 as proposed by the House.

Within funds provided for substance abuse treatment programs of regional and national significance, the amended bill includes $24,114,000 for criminal justice activities instead of $37,823,000 as proposed by both the House and Senate. Within this amount, the amended bill provides $10,117,000 for treatment drug court grants instead of $23,826,000 as proposed by the House and $31,817,000 as proposed by the Senate.

Within funds provided for substance abuse treatment programs of regional and national significance, the amended bill includes $9,242,000 for the Addiction Technology Transfer Centers as proposed by the Senate instead of $10,742,000 as proposed by the House.

Within funds provided for substance abuse treatment programs of regional and national significance, the amended bill provides $12,000,000 for residential treatment programs for pregnant and postpartum women and their children instead of $20,000,000 as proposed by the Senate. The House did not include similar language.

Within funds provided for substance abuse treatment programs of regional and national significance, the amended bill includes $29,624,000 for the screening, brief intervention, referral and treatment program. This includes $2,000,000 provided through the evaluation set-aside and is the same funding level as fiscal year 2007, as proposed by the Senate. The House did not include similar language.

The amended bill includes funds within substance abuse treatment programs of regional and national significance to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Akeela, Inc., Anchorage, AK, for the Re-Entry Program in Anchorage, Alaska	195,000
Anchorage Dept. of Health and Social Services, Anchorage, AK, for the Pathways to Sobriety Project in Anchorage, Alaska	390,000
Asian American Recovery Services, Inc., San Francisco, CA, for substance abuse treatment programs	165,000
City of Las Vegas, NV for the EVOLVE program	390,000
City of Oxford, Oxford, MS for a substance abuse treatment program	341,000
Fulton County, Atlanta, GA for Project Excell, an intensive outpatient treatment program serving homeless males with co-occurring substance abuse and mental health disorders	97,000
Gavin Foundation, South Boston, MA for substance abuse treatment services at its Cushing House facility for adolescents	341,000
Glide Foundation, San Francisco, CA for substance abuse services	243,000
Heartland Family Services, Inc., Omaha, NE, for the Sarpy County Methamphetamine Treatment Program for women and children	97,000
Maine Lighthouse Corp., Bar Harbor, ME, for the Therapeutic Community for the Substance Abuse Treatment project	97,000
Maniilaq, Inc., Kotzebue, AK, for the Mavsigviq Family Recovery Program in Northwest Arctic Borough Alaska	487,000
Marin Services for Women, Inc., Greenbrae, CA, for substance abuse treatment for low-income women and their children	165,000
Martin Addiction Recovery Center, Martin, SD, to enhance and expand substance abuse intervention and treatment services	195,000
Metro Homeless Youth Services of Los Angeles, Los Angeles, CA to expand services for homeless youth with substance abuse problems	292,000
Minnesota Indian Women's Resource Center, Minneapolis, MN for a dual diagnosis outpatient treatment program	97,000
Nassau University Medical Center, East Meadow, NY for substance abuse treatment services	292,000
Nicasa in Round Lake, IL, Round Lake, IL, for evening outpatient substance abuse treatment program for women	316,000
Sandhills Teen Challenge, Carthage, NC for substance abuse treatment services	97,000
Sheriffs Youth Program of Minnesota, Inver Grove Heights, MN for chemical dependency treatment services	121,000
Talbert House, Cincinnati, OH for a substance abuse treatment program	292,000
Trumbull County Lifelines, Warren, OH for behavioral health services	195,000
Union Station Foundation, Pasadena, CA for services to homeless families	146,000
United Way of Treasure Valley, Boise, ID for a substance abuse treatment program	390,000
Wayne County Academy, Alpha, KY for a substance abuse counseling program	195,000
WestCare Kentucky, Ashcamp, KY for a substance abuse treatment and voucher program	682,000

Center for Substance Abuse Prevention

Within funds provided for substance abuse prevention programs of regional and national significance, the amended bill includes $5,500,000 to carry out programs authorized by the Sober Truth on Preventing (STOP) Underage Drinking Act, of which:

$1,000,000 is for the Advertising Council's underage drinking campaign as proposed by both the House and Senate;

$4,000,000 is for community-based coalition enhancement grants instead of $5,000,000 as proposed by the House and $3,000,000 as proposed by the Senate; and,

$500,000 is for the Intergovernmental Coordinating Committee on the Prevention of Underage Drinking instead of $1,000,000 as proposed by the House—the Senate did not propose similar language.

The amended bill includes funds within substance abuse prevention programs of regional and national significance to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Cheyenne River Sioux Tribe, Eagle Butte, SD, for a methamphetamine prevention program	390,000
Clinton County Office of District Attorney, Lock Haven, PA, for substance abuse prevention programs	87,000
Community Foundation for Greater New Haven, New Haven, CT to support innovative multi-disciplinary intervention programs serving children and families exposed to violence and trauma	487,000
Community Health Center on the Big Island of Hawaii	97,000
Fighting Back Partnership, Vallejo, CA for an intervention program targeting elementary and high school students who are at risk for substance abuse and misuse	243,000
Institute for Research, Education and Training in Addictions (IRETA), Pittsburgh, PA, for substance abuse prevention programs	87,000
Institute for the Advanced Study of Black Families, Oakland, CA for integrated HIV/AIDS and substance abuse prevention with African American women and teenagers	146,000
Iowa Office of Drug Control Policy, Des Moines, IA, to educate parents about drug use by teenagers	97,000
Municipality of Anchorage, Anchorage, AK, for methamphetamine education project in Alaska	390,000
Operation SafeHouse, Riverside, CA for a substance abuse prevention program	97,000
Seton Hill University, Greensburg, PA, for substance abuse prevention programs	87,000
Shiloh Economic Development Center, Bryan, TX for a substance abuse prevention program	146,000
South Boston Community Health Center, South Boston, MA for substance abuse prevention services	146,000
Standing Rock Sioux Tribe, Fort Yates, ND, for a methamphetamine prevention program	390,000
Tanana Chiefs Conference, Fairbanks, AK, for the Ch'eghutsen Children's Mental Health Program in Interior Alaska	487,000
The Partnership for a Drug-Free America, New York, NY for educational awareness programs on prescription and over-the-counter drug abuse	243,000
YMCA of the East Bay, Richmond, CA for substance abuse prevention activities	97,000

Program Management

Within the evaluation set-aside for program management, the amended bill includes $1,500,000, as proposed by the Senate, to include mental health questions in CDC's National Health Interview Survey (NHIS) and to carry out studies necessary to ensure the validity and reliability of the NHIS data. The House did not propose similar language.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The amended bill includes a program level of $334,564,000 for the Agency for Healthcare Research and Quality (AHRQ) instead of $329,564,000 as proposed by the House and Senate. The amended bill makes these funds fully available through the policy evaluation set-aside. The House proposed providing $282,500,000 of the total for AHRQ through budget authority and $47,064,000 through the evaluation set-aside. The Senate proposed providing $329,564,000 entirely through budget authority.

Within the funds provided, $5,000,000 is included for activities to reduce infections for methicillin-resistant staphylococcus aureus and related infections as proposed by the Senate. The House did not include similar language.

AHRQ is encouraged to look favorably on proposals that would proactively detect medical errors and preemptively control injury via compact medical devices that acquire, analyze and filter data from multiple, disparate, wireless and wired sources.

AHRQ is encouraged to investigate the feasibility of an open-source, no-cost license computer model capable of predicting the effects of health care policy alternatives for the purpose of improving health care quality and cost-effectiveness. The model should be developed with a consortium of university partners and be capable of predicting costs and health impacts.

CENTERS FOR MEDICARE AND MEDICAID SERVICES

GRANTS TO STATES FOR MEDICAID

The amended bill provides $141,628,056,000 for grants to States for Medicaid as proposed by the Senate instead of $141,630,056,000 as proposed by the House. Within this total, $2,761,957,000 is provided for the Vaccines for Children program as proposed by the Senate instead of $2,763,957,000 as proposed by the House.

PAYMENTS TO HEALTH CARE TRUST FUNDS

The amended bill provides $188,445,000,000 for payments to health care trust funds instead of $188,828,000,000 as proposed by the House and the Senate.

PROGRAM MANAGEMENT

The amended bill includes $3,207,690,000 for program management instead of $3,230,163,000 as proposed by the House and $3,248,088,000 as proposed by the Senate. An additional appropriation of $720,000,000 has been provided for the Medicare Integrity Program through the Health Insurance Portability and Accountability Act of 1996.

The amended bill includes bill language providing $193,000,000, available through fiscal year 2009, for Medicare contractor reform activities. The House bill provided $163,800,000 for this purpose; the Senate bill provided $253,775,000.

The amended bill does not include language proposed by the Senate providing the Secretary of HHS the authority to charge fees associated with the cost of conducting survey and certification revisits of health care facilities that receive Medicare reimbursement. The House bill contained no similar provision.

The amended bill includes funds within research, demonstration and evaluation to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Access Health, Inc., Muskegon, MI, for a small business health coverage program	195,000
Bedford Ride, Bedford, VA for a program to assist seniors	68,000
Bi-State Primary Care Association, Concord, NH to treat uninsured patients	316,000
City and County of San Francisco Department of Public Health, San Francisco, CA for enhancements to the HIV/AIDS service delivery system in San Francisco	1,267,000
City of Detroit, MI for the Detroit Primary Care Access Project	341,000
City of Waterbury, CT for a health access program	195,000
Gadsden County, FL, Quincy, FL for a prescription assistance medical services program	97,000
Jefferson Area Board for Aging, Charlottesville, VA to address nursing assistant shortages in long-term care settings	97,000
Medicare Chronic Care Practice Research Network, Sioux Falls, SD, to evolve and continue the Medicare Coordinated Care Demonstration project	658,000
Mosaic, Des Moines, IA, for the Iowa Community Integration Project	292,000
Orange County's Primary Care Access Network, Orlando, FL for a health care access network	312,000
Piedmont Hospital, Atlanta, GA for a project regarding the transition of older patients from hospital to home.	195,000
Thurston-Mason County Medical Society, Olympia, WA for Project Access for the uninsured	195,000
University of Mississippi, University, MS, for the Medication Use and Outcomes Research Group	292,000
University of North Carolina School of Pharmacy, Chapel Hill, NC, to study the impact of a primary care practice model utilizing clinical pharmacist practitioners to improve the care of Medicare-eligible populations in NC	97,000
Valley Hospice, Inc., Steubenville, OH to develop best practices for hospices across the State	390,000

Within the total funding for research, demonstration, and evaluation, the amended bill includes $10,000,000 for Real Choice Systems Change Grants to States, as proposed by the Senate. The House bill did not include funding for this purpose.

The amended bill provides $40,000,000 for the State Health Insurance Program instead of $45,000,000 as proposed by the House and $35,000,000 as proposed by the Senate. The amended bill provides funds to support the National Center on Senior Benefits Outreach and Enrollment within the Administration on Aging rather than in the Centers for Medicare and Medicaid Services (CMS) as proposed by the Senate. The House did not provide funding for this activity within CMS.

The Government Accountability Office is requested to submit a report to Congress by November 30, 2008: (1) assessing State efforts to reexamine health care delivery and expand access; and (2) providing recommendations regarding the potential role of Congress in supporting State-based efforts. The Senate proposed a similar report in section 228 of H.R. 3043, as passed by the Senate. The House had no similar provision.

The Secretary of HHS is directed to submit a report to the Appropriations Committees of the House of Representatives and the Senate no later than 30 days after enactment of this Act on workers' compensation set-asides under the Medicare secondary payer set-aside provisions under title XVIII of the Social Security Act. The Senate proposed a similar report in section 240 of H.R. 3043, as passed by the Senate. The House had no similar provision.

The Secretary of HHS is directed to maintain "deemed status" coverage under the Medicare program for clinical trials that are Federally funded or reviewed, as provided for by the Executive Memorandum of June, 2000. The Senate expressed a similar view in section 241 of H.R. 3043, as passed by the Senate. The House had no similar provision.

CMS is directed to include in the next publication of "Medicare & You" information regarding: (1) the importance of writing and updating advance directives and living wills; and (2) access to laboratory findings and medical records and encouraging patients to be more proactive in asking for copies of these important pieces of health information.

HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

The amended bill does not provide funding from the Medicare trust funds for health care fraud and abuse control. The House and Senate proposed $383,000,000 for this activity.

ADMINISTRATION FOR CHILDREN AND FAMILIES

LOW-INCOME HOME ENERGY ASSISTANCE

The amended bill includes $2,611,585,000 for low-income home energy assistance instead of $2,662,000,000 as proposed by the House and $2,161,170,000 as proposed by the Senate.

Of the amount provided, $596,379,000 is provided for the contingency fund, instead of $682,000,000 as proposed by the House and $181,170,000 as proposed by the Senate. Bill language is included designating $250,000,000 as an emergency.

REFUGEE AND ENTRANT ASSISTANCE

The amended bill includes $667,288,000 for the refugee and entrant assistance programs instead of $650,630,000 as proposed by the House and $654,166,000 as proposed by the Senate. The amended bill does not include language that would expand the victims of trafficking program to include domestic victims of trafficking.

Within the total for social services, $19,000,000 is for support to communities with large concentrations of Cuban and Haitian entrants as proposed by the House. The Senate did not include similar language.

As proposed by both the House and Senate, the amended bill does not include funds for expanded background checks within the unaccompanied minors program. After addressing increased shelter and medical costs, Office of Refugee Resettlement is directed to use the increase provided for the unaccompanied minors program to expand the pro bono legal services initiative, as proposed by both the House and Senate.

PAYMENTS TO STATES FOR THE CHILD CARE AND DEVELOPMENT BLOCK GRANT

The amended bill includes $2,098,746,000 for the Child Care and Development Block Grant, instead of $2,137,081,000 as proposed by the House bill and $2,062,081,000 as proposed by the Senate bill. The amended bill designates $982,080 for the Child Care Aware toll-free hotline; this provision was included in the House bill. The Senate bill included funds for this purpose but did not name the entity.

SOCIAL SERVICES BLOCK GRANT

The amended bill includes language allowing States to transfer up to 10 percent of Temporary Assistance to Needy Families (TANF) funds to the Social Services Block Grant. This provision was not included in either the House or the Senate bill.

CHILDREN AND FAMILIES SERVICES PROGRAMS

The amended bill includes $9,140,490,000 for Children and Families Services Programs, of which $10,500,000 is provided through the evaluation set-aside. The House bill proposed $9,157,440,000 for these programs and the Senate proposed $9,223,832,000. The amended bill includes language, as proposed by the Senate, identifying the amount available for the projects identified in this statement.

Child Abuse State Grants and Discretionary Activities

The amended bill includes $64,802,000 for Child Abuse State Grants and child abuse discretionary programs, instead of $63,840,000 as proposed by the House and $64,745,000 as proposed by the Senate.

Within this amount, $10,178,000 is provided for a home visitation initiative to support competitive grants to States to encourage investment of existing funding streams into evidence-based home visitation models, instead of $10,000,000 as proposed by the House and the Senate. The Administration for Children and Families shall ensure that States use the funds to support models that have been shown, in well-designed randomized controlled trials, to produce sizeable, sustained effects on important child outcomes such as abuse and neglect. Funds shall support activities to assist a range of home visitation programs to replicate the techniques that have met these high evidentiary standards. In carrying out this new initiative, the Department is instructed to adhere closely to evidence-based models of home visitation and not to incorporate any additional initiatives that have not met these high evidentiary standards or might otherwise dilute the emphasis on home visitation.

The amended bill includes funds within child abuse discretionary activities to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (In dollars)
Boys and Girls Town of Missouri, St. James, MO, to expand services to abused and neglected children	412,000
Catholic Community Services of Juneau, Juneau, AK, to continue operations at its Family Resource Center for child abuse prevention and treatment in Juneau, Alaska	390,000
Children Uniting Nations, Los Angeles, CA for a foster child mentoring program in Los Angeles	292,000
Darkness to Light, Charleston, SC, to expand and disseminate the Stewards of Children program in consultation with the CARE House of Dayton, OH	292,000
Jefferson County, Golden, CO for child abuse prevention and treatment programs	97,000
New York Center for Children, New York, NY for comprehensive support and services to abused children and their families	170,000
Shelter for Abused Women, Winchester, VA to enhance community efforts to address domestic violence	97,000
Young Women's Christian Association (YWCA), Williamsport, PA, for abused and neglected children's CASA programs	87,000

Adoption Incentives

The amended bill includes $4,400,000 for the Adoption Incentive Program, rather than $9,500,000 as proposed by both the House and the Senate. The decrease reflects available carry-over from the previous fiscal year, due to the fact that bonus amounts earned by the States have fallen significantly, causing the Department to revise its estimate of funds needed to pay incentives earned by the States in fiscal year 2007.

Social Services and Income Maintenance Research

The amended bill includes $21,464,000 for social services and income maintenance research, of which $6,000,000 is provided through the evaluation set-aside. The House proposed $14,635,000 for this activity, of which $6,000,000 was funded through the evaluation set-aside, and the Senate proposed $11,825,000, of which $6,000,000 was from the evaluation set-aside.

The amended bill also includes funds within social services research to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
A+ For Abstinence, Waynesboro, PA, for abstinence education and related services	24,000
Abyssinian Development Corporation, New York, NY, to support and expand youth and family displacement prevention programs	146,000
Alaska Children's Services, Anchorage, AK, for its program to serve low income youth in Anchorage, Alaska	243,000
Alaska Statewide Independent Living Council, Inc., Anchorage, AK, to continue and expand the Personal Care Attendant Program and to expand outreach efforts to the disabled living in rural Alaska	195,000
Anna Maria College, Paxton, MA, for program development at the Molly Bish Center for the Protection of Children and the Elderly	82,000
Arrowhead Economic Opportunity Agency, Virginia, MN for the Family-to-Family community based mentoring program to assist low-income families	292,000
Augusta Levy Learning Center, Wheeling, WV for services to children with Autism	97,000
Beth El House, Alexandria, VA for social services and transitional housing for formerly homeless women and their children	73,000
Boston Medical Center, Boston, MA	170,000
Catholic Family Center, Rochester, NY, for the Kinship Caregiver Resource Network	243,000
Catholic Social Services, Wilkes-Barre, PA, for abstinence education and related services	36,000
Child Care Resource and Referral Network, Tacoma, WA, for a child care quality initiative	877,000
Children's Home Society of Idaho, Boise, ID, for the Bridge Project to place Idaho children-in-care in foster care	219,000
Children's Home Society of South Dakota, Sioux Falls, SD for services related to domestic violence, child abuse, and neglect	292,000
Christian Outreach of Lutherans, Waukegan, IL for Latino leadership development in underserved areas	121,000
City of Chester, Bureau of Health, Chester, PA, for abstinence education and related services	29,000
City of Detroit, MI for an Individual Development Account initiative	390,000
City of Fort Worth, TX for programming at neighborhood-based early childhood resource centers	195,000
City of San Jose, CA for its Services for New Americans program, including assistance with job seeking skills, citizenship, family safety and resettlement	195,000
Cliff Hagan Boys and Girls Club - Mike Horn Unit, Owensboro, KY for purchase of equipment	170,000
Communities In Schools, Bell-Coryell Counties, Inc., Killeen, TX for youth counseling services	253,000
Community Partnership for Children, Inc., Silver City, NM, for a child care quality initiative	165,000
Community Services for Children, Inc., Allentown, PA, for early childhood development services	87,000
Connecticut Council of Family Service Agencies, Wethersfield, CT, for the Empowering People for Success initiative	331,000
Covenant House Florida, Ft. Lauderdale, FL for a program for pregnant and parenting teens and young adults	195,000
Crisis Nursery of the Ozarks, Springfield, MO for a child abuse prevention program	239,000
Crozer Chester Medical Center, Upland, PA, for abstinence education and related services	29,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Eisner Pediatric and Family Medical Center, Los Angeles, CA for the Parent-Child Home Program	121,000
Every Citizen Has Opportunities, Inc., Leesburg, VA for services to disabled individuals	243,000
Family Center of Washington County, Montpelier, VT for childcare and related services	487,000
Family Service & Childrens Aid Society, Oil City, PA, for abstinence education and related services	25,000
Fathers and Families Center, Indianapolis, IN	76,000
First 5 Alameda County, San Leandro, CA for development and support of postsecondary early childhood education and training programs, which may include student scholarships	268,000
Friends Association for Care and Protection of Children, West Chester, PA, for programs to provide safe, secure housing for children through an emergency shelter for families, transitional housing, specialized foster care and adoption programs	87,000
Friendship Circle of the South Bay, Redondo Beach, CA for services for children with developmental disabilities	453,000
Greater New Britain Teen Pregnancy Prevention, Inc., New Britain, CT for the Pathways/Senderos Center for education and outreach	121,000
Guidance Center, Ridgeway, PA, for abstinence education and related services	25,000
Hamilton-Madison House, New York, NY for services and equipment for a social services program	97,000
Healthy Learners Dillon, Columbia, SC for social services for economically disadvantaged children	195,000
Heart Beat, Millerstown, PA, for abstinence education and related services	38,000
Helping Children Worldwide, Herndon, VA to assist students and families	243,000
Hennepin County Human Services and Public Health Department, Minneapolis, MN for the Family Healing and Restoration Network Project	414,000
Hillside Family of Agencies, Rochester, NY for the Hillside Children's Center for adoption services	97,000
Hope Village for Children, Meridian, MS for a program to assist foster children	209,000
Horizons for Homeless Children, Boston, MA for Playspace Programs for homeless children in the 7th Congressional District	73,000
Horizons for Homeless Children, Boston, MA to continue and expand the Playspace program	156,000
Keystone Central School District, Mill Hall, PA, for abstinence education and related services	33,000
Keystone Economic Development Corporation, Johnstown, PA, for abstinence education and related services	33,000
Kingsborough Community College, Brooklyn, NY for the New American's Center	185,000
L.I.F.T. Women's Resource Center, Detroit, MI for services to improve self-sufficiency and life skills of women transitioning from substance abuse, domestic violence, or homelessness	97,000
LaSalle University, Philadelphia, PA, for abstinence education and related services	45,000
Lawrence County Social Services, New Castle, PA for early childhood, parental training, and life skills programs	121,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Lutheran Social Services, Duluth, MN for services to runaway, homeless, and other at-risk youth and their families	390,000
Marcus Institute, Atlanta, GA for services for children and adolescents with developmental disabilities and severe and challenging behaviors	390,000
Mary's Family, Orlean, VA to develop a respite program for Winchester-area special needs families	97,000
Mecklenburg County, Charlotte, NC, for a program to combat domestic violence	195,000
Mercy Hospital of Pittsburgh, Pittsburgh, PA, for abstinence education and related services	45,000
Missouri Bootheel Regional Consortium, Portageville, MO for the Fatherhood First program	341,000
Monterey County Probation Department, Salinas, CA for the Silver Star gang prevention and intervention program	438,000
My Choice, Inc., Athens, PA, for abstinence education and related services	21,000
Nashua Adult Learning Center, Nashua, NH for a Family Resource Center	97,000
National Energy Assistance Directors' Association, Washington, DC for research and information dissemination related to the Low-Income Home Energy Assistance Program	195,000
Neighborhood United Against Drugs, Philadelphia, PA, for abstinence education and related services	38,000
Network for Instructional TV, Inc., Reston, VA for a training program for child care providers	48,000
New Brighton School District, New Brighton, PA, for abstinence education and related services	29,000
Northeast Guidance Center, Detroit, MI, Detroit, MI, for the Family Life Center project	204,000
Northwest Family Services, Alva, OK, to establish behavioral health services and family counseling programs.	83,000
Nueva Esperanza, Philadelphia, PA, for abstinence education and related services	29,000
Nurses for Newborns Foundation, St. Louis, MO for nurse home visiting program	463,000
Organization of the NorthEast, Chicago, IL for development of a local homeless services continuum	78,000
Our Piece of the Pie, Hartford, CT, for social outreach services to grandparents raising teenagers	204,000
Partners for Healthier Tomorrows, Ephrata, PA, for abstinence education and related services	21,000
Pediatric Interim Care Center, Kent, WA for the Drug-Exposed Infants Outreach and Education program	146,000
Pennsylvania Coalition Against Domestic Violence, Harrisburg, PA, for domestic violence programs	87,000
Positively Kids, Las Vegas, NV, to create a program to provide home, respite, and medical day care for severely-disabled children	97,000
Progressive Believers Ministry, Wynmoor, PA, for abstinence education and related services	25,000
Public Health Department, Solano County, Fairfield, CA for a program to support pregnant women and new mothers	97,000
Real Commitment, Gettysburg, PA, for abstinence education and related services	45,000
School District of Philadelphia, Philadelphia, PA, for abstinence education and related services	38,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Sephardic Bikur Holim of Monmouth County, Deal, NJ for social services programs	136,000
Services, Immigrant Rights and Education Network, San Jose, CA for assistance to immigrants seeking citizenship	97,000
Shepherd's Maternity House, Inc., East Stroudsburg, PA, for abstinence education and related services	25,000
Southern Illinois University, Carbondale, IL for the Center for Autism Spectrum Disorders	234,000
Stephen F. Austin State University, Nacogdoches, TX for coordination of family and child services	292,000
Susan Wesley Family Learning Center, East Prairie, MO for programs to assist at-risk youth and their families	97,000
TLC for Children and Families, Inc., Olathe, KS for a transitional living program for at-risk and homeless youth	312,000
Tuscarora Intermediate Unit, McVeytown, PA, for abstinence education and related services	38,000
United Way Southeastern Michigan, Detroit, MI for the Communities of Early Learning initiative	292,000
University of Central Missouri, Warrensburg, MO for the treatment of autism spectrum disorders	292,000
Urban Family Council, Philadelphia, PA, for abstinence education and related services	68,000
Visitation Home, Inc., Yardville, NJ for programs to assist developmentally disabled residents	97,000
Washington Hospital Teen Outreach, Washington, PA, for abstinence education and related services	38,000
Women's Care Center of Erie County, Inc., Erie, PA, for abstinence education and related services	38,000
York County Human Life Services, York, PA, for abstinence education and related services	38,000
YWCA of Greater Los Angeles, Los Angeles, CA for a project providing coordinated assistance to victims of sexual assault and domestic violence	97,000

Developmental Disabilities

Within developmental disabilities programs, the amended bill includes $17,720,000 for voting access for individuals with disabilities, instead of $36,720,000 as proposed by the House and $16,720,000 as proposed by the Senate. Within the funds provided, $12,370,000 is for payments to States to promote access for voters with disabilities and $5,350,000 is for State protection and advocacy systems. The House proposed $25,890,000 and $10,830,000 respectively for these two activities, while the Senate proposed $11,390,000 and $5,330,000.

For developmental disabilities projects of national significance, the amended bill includes $14,414,000, instead of $11,414,000 as proposed by the House and $15,414,000 as proposed by the Senate. Within this amount, $2,000,000 is provided for a National Clearinghouse and Technical Assistance Center, as proposed by the Senate. The House did not include similar language.

Native Americans

The amended bill includes $46,332,000 for Native American programs, instead of $47,332,000 as proposed by the House and $49,332,000 as proposed by the Senate. Within this total, $2,000,000 is included for Native language immersion and other revitalization programs, instead of $3,000,000 as proposed by the House and $5,000,000 as proposed by the Senate.

Community Services

The amended bill includes $665,425,000 for the Community Services Block Grant (CSBG), instead of $660,425,000 as proposed by the House and $670,425,000 as proposed by the Senate. The amended bill includes a technical correction, as proposed by the House, to reflect a total for the programs authorized under the CSBG Act. Additional programs in this account are funded under other authorities.

Abstinence Education

The amended bill includes $115,336,000 for community-based abstinence education, instead of $141,164,000 as proposed by the House and $84,916,000 as proposed by the Senate. Within this amount, $4,500,000 is provided through the evaluation set-aside.

The amended bill includes a provision, proposed by the House regarding the definition of abstinence education contained in section 510(b)(2) of the Social Security Act. Also included is language, proposed by the House, precluding grantees who receive funding under this section from discussing with adolescents any other education regarding sexual conduct in the same setting as abstinence education. The Senate contained no similar provisions.

The Appropriations Committees direct the Secretary of Health and Human Services to require that each applicant for financial assistance under the abstinence education program certify that all materials proposed in the application and funded during the project period of the grant are medically accurate, and direct that a panel of medical experts shall review such grant applications and assess whether the materials proposed are medically accurate, as proposed by the House. Bill language concerning scientific accuracy, as proposed by the Senate, is not included.

The amended bill also provides that up to $10,000,000 may be used to carry out a national abstinence education campaign as proposed by the House. The Senate contained no similar provision.

Program Direction

The amended bill includes $187,776,000 for program direction as proposed by the House, instead of $197,225,000 as proposed by the Senate. This amount does not include the additional request for $6,200,000 for improper payments activities as proposed by the Senate.

PROMOTING SAFE AND STABLE FAMILIES

The amended bill includes $64,437,000 for the discretionary grant program of promoting safe and stable families instead of $89,100,000 as proposed by the House and the Senate.

PAYMENTS TO STATES FOR FOSTER CARE AND ADOPTION ASSISTANCE

The amended bill includes $5,067,000,000 for Payments to States for Foster Care and Adoption Assistance, the same level as the Senate bill instead of $5,082,000,000 as proposed by the House bill.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The amended bill includes $1,438,567,000 for aging services programs instead of $1,417,189,000 as proposed by the House and $1,451,585,000 as proposed by the Senate. The amended bill includes language designating $5,500,000 for medication management, screening, and education to prevent incorrect medication and adverse drug reactions as proposed by the Senate. The House did not propose similar language.

Within the total for the protection of vulnerable older Americans, $15,854,000 is for the ombudsman services program instead of $16,010,000 as proposed by the Senate and $5,146,000 is for the prevention of elder abuse program as proposed by the Senate. The House did not propose specific funding amounts for these programs.

Within the total for program innovations, funding is provided at no less than the fiscal year 2007 levels for national programs scheduled to be refunded in fiscal year 2008. Also within the funding for program innovations, the amended bill includes $1,000,000 to continue the Alzheimer's disease 24-hour call center as proposed by the Senate. The House did not include similar language.

The Administration on Aging is encouraged to allocate funding for a national program of statewide Senior Legal Hotlines (also called Senior Legal Helplines) at a minimum at least at their current levels and ideally to provide an increase in the number of States in which these services are available for seniors. Statewide Senior Legal Hotlines/Helplines provide free, legal advice, information, referrals and a variety of additional services to older Americans over 60, enabling more seniors to maintain healthy, independent lives, free from the threats of poverty, exploitation or abuse.

The amended bill includes funds within program innovations to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Allied Jewish Federation of Colorado, Denver, CO for a naturally occurring retirement communities demonstration project	292,000
Amalgamated Warbasse Houses, Inc., Brooklyn, NY for a demonstration project focusing on supportive service programs in naturally occurring retirement communities	243,000
California Senior Legal Hotline, Sacramento, CA for a demonstration project to increase services to non-English-speaking seniors	78,000
Coalition of Wisconsin Aging Groups, Madison, WI, to conduct outreach and education for law enforcement and financial industry on financial elder abuse	165,000
Disability Rights Wisconsin, Madison, WI, for nursing home support services	151,000
Durham-Chapel Hill Jewish Federation, Durham, NC for a demonstration program to improve assistance to family caregivers	126,000
Good Samaritan Village of Hastings, Sioux Falls, SD, for the continuation of the Sensor Technology Project for Senior Independent Living and Home Health	97,000
Howard Brown Health Center, Chicago, IL for the Chicago Elder Project	390,000
Jewish Community Services of South Florida, North Miami, FL for a naturally occurring retirement communities demonstration project	121,000
Jewish Family & Child Services, Portland, Oregon, for seniors programs and services at a Naturally Occurring Retirement Community	82,000
Jewish Family and Children's Service of Greater Philadelphia, Philadelphia, PA, for Naturally Occurring Retirement Communities demonstration project	87,000
Jewish Family and Children's Service of Minneapolis, Minnetonka, MI for a naturally occurring retirement community demonstration project	195,000
Jewish Family Service of New Mexico, Albuquerque, NM for a naturally occurring retirement community demonstration project	292,000
Jewish Family Service, Los Angeles, CA for a naturally occurring retirement communities demonstration project in Park La Brea and the San Fernando Valley	341,000
Jewish Family Services of Delaware, Inc., Wilmington, DE for a naturally occurring retirement community demonstration project	292,000
Jewish Federation of Central New Jersey, Scotch Plains, NJ for the naturally occurring retirement community demonstration project	292,000
Jewish Federation of Greater Atlanta, Atlanta, GA, for a Naturally Occurring Retirement Community	62,000
Jewish Federation of Greater Indianapolis, Indianapolis, IN for a Naturally Occurring Retirement Community	614,000
Jewish Federation of Greater Monmouth County, NJ for a naturally occurring retirement communities demonstration project	292,000
Jewish Federation of Greater New Haven, Woodbridge, CT to develop, test, evaluate, and disseminate an innovative community-based approach to caregiver support services	146,000
Jewish Federation of Las Vegas, NV for the Las Vegas Senior Lifeline Program	585,000
Jewish Federation of Middlesex County, South River, NJ for a naturally occurring retirement communities demonstration project	243,000
Jewish Social Service Agency, Fairfax, VA for a naturally occurring retirement community demonstration project	146,000
Nevada Rural Counties RSVP, Carson City, NV, to provide home services to seniors in rural areas	97,000
Shenandoah Area Agency on Aging, Front Royal, VA for a model group respite center for persons with Alzheimer's disease and dementia	146,000
UJA Federation of Northern NJ, River Edge, NJ, for a Naturally Occurring Retirement Community	165,000
United Jewish Communities of MetroWest, NJ, Parsippany, NJ for the Lifelong Involvement for Vital Elders Aging in Place initiative	487,000
United Jewish Federation of Greater Pittsburgh, Pittsburgh, PA, for Naturally Occurring Retirement Communities demonstration project	87,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
University of Florida, Gainesville, FL for a technology demonstration project to assist seniors	97,000

Within the total for aging network support activities, the amended bill includes the following amounts:

$1,676,000, as proposed by the Senate, for the pension counseling and information program in order to expand the number of regional counseling projects from five to six—the House did not specify a funding level for this program;

$16,500,000 for the choices for independence initiative as proposed by the House instead of $28,000,000 as proposed by the Senate; and,

$2,000,000 for the establishment of a National Center on Senior Benefits Outreach and Enrollment instead of $1,000,000 as proposed by the Senate—the House did not include funding for this program.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $361,310,000 for General Departmental Management instead of $348,075,000 as proposed by the House and $404,237,000 as proposed by the Senate, including $5,792,000 from Medicare trust funds, instead of $5,851,000 provided by both the House and Senate. In addition, $46,756,000 in program evaluation funding is provided, which was proposed by both the House and Senate.

The amended bill does not provide $4,000,000 proposed by the Senate to establish a new discretionary fund for the Secretary. The House did not include a similar provision. The amended bill does not include language proposed by the Senate designating $9,500,000 for a health diplomacy initiative and permitting funds to be used to carry out health diplomacy activities such as health training, services, education, and program evaluation, provided directly, through grants, or through contracts. The House did not include a similar provision.

The Appropriations Committees concur that funds are included for a feasibility study for a National Registry of Substantiated Cases of Child Abuse or Neglect, as described in section 633(g) of the Adam Walsh Child Protection Act; however, the amended bill does not designate an amount for this purpose as proposed by the Senate. The House did not include a similar provision.

The Appropriations Committees concur that funds are available to support the National Commission on Children and Disasters, as authorized in Title VI of this Act.

The amended bill does not include language designating $2,000,000 for dental workforce programs within this account as proposed by the Senate. The House did not include a similar provision. The Appropriations Committees have instead provided funding for these activities within the Allied Health and Other Disciplines program within the Health Resources and Services Administration.

The amended bill provides $1,000,000 for the Interagency Autism Coordinating Committee (IACC) as proposed by the Senate. The House recommended funds for the IACC but did not specify an amount. The agreement includes bill language not included in either House or Senate bills specifying that these funds shall be transferred to the National Institute of Mental Health. The amended bill does not specify an amount for the transformation of the Commissioned Corps instead of $19,157,000 as proposed by the House and $30,000,000 as proposed by the Senate.

The Appropriations Committees concur that not more than the fiscal year 2007 funding level shall be available for the Office of Legislative Affairs.

The Appropriations Committees concur that the amended bill includes sufficient funds to continue support of the national and multiple area poverty centers at no less than the fiscal year 2007 level.

The amended bill includes funds within general departmental management to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Alma Family Services, Monterey Park, CA to increase access to culturally competent health information to minority populations, which may include the purchase of a fully equipped mobile computer lab/resource unit	73,000
Bronx-Lebanon Hospital, New York, NY for demonstration project to increase access to health care for low-income minority men in South and Central Bronx	390,000
Community Health Partnership, Santa Clara, CA for its Healthy Women, Healthy Choices project to provide comprehensive health education to underserved women	195,000
Community Transportation Association of America, Washington, DC, for technical assistance to human services transportation providers on ADA requirements	828,000
Hunterdon Medical Center, Flemington, NJ for its Latino Healthcare Initiative	87,000
Louisiana State University Health Sciences Center, Shreveport, LA for a health literacy program	243,000
Marymount University, Arlington, VA for a project to provide health screenings, referrals and health education at a nurse managed health center for minority populations	58,000
Nassau University Medical Centers, East Meadow, NY for a minority health institute	312,000
National Hispanic Medical Association, Washington, DC for a Hispanic health portal to provide online health education materials	487,000
Palmer College on Chiropractice, Consortial Center for Chiropractic Research in Davenport, Iowa, and the Policy Institute for Integrative Medicine in Philadelphia, PA for a best practices initiative on lower back pain	316,000
Prince George's County, Upper Marlboro, MD for a media campaign for pregnant women about health insurance for prenatal care	136,000
St. Luke's Community Free Clinic, Front Royal, VA for activities focused on adult hypertension and dental care	341,000
Thurston-Mason County Medical Society, Olympia, WA for a demonstration project to increase care for non-English-speaking patients	87,000

For the Office of Minority Health, the Appropriations Committees include additional resources over the request to expand the number of participating institutions in the New Minority Males Consortium, Inc., as well as to enhance the resources received by each of the institutions to increase their activities and to conduct the national comparative study of the incidence of certain health conditions and diseases among minority males.

The Appropriations Committees are encouraged by the progress that the Office of Minority Health made in fiscal year 2007 on the multi-year effort to address health disparities issues in the Gulf Coast region, and look forward to further progress in this area in fiscal year 2008.

The amended bill includes funds within the Office of Minority Health to support the following project in the following amount:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Saint Francis Hospital, Wilmington, DE, to expand prenatal, maternity, pediatric, and other primary care services to indigent populations	575,000

The Appropriations Committees have provided sufficient funds for the Office of Women's Health to work with the advocacy community to develop and implement a sustained lupus awareness and education campaign aimed at reaching health care professionals and the general public with an emphasis on reaching women at greatest risk for developing lupus. The amended bill also includes $1,000,000 for the Institute of Medicine to conduct a comprehensive review of the status of women's health research, summarize what has been learned about how diseases specifically affect women, and report to the Congress on suggestions for the direction of future research.

With regard to Minority HIV/AIDS, the Appropriations Committees expect that activities that are targeted to address the growing HIV/AIDS epidemic and its disproportionate impact upon communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders, will be supported at no less than last year's funding level.

For the Embryo Adoption Awareness Campaign, the amended bill includes language as proposed by the Senate permitting funds to be used to provide to individuals adopting embryos, through grants or other mechanisms, medical and administrative services deemed necessary for such adoptions consistent with 42 CFR 59.5(a)(4).

The amended bill includes language proposed by the Senate to direct that specific information requests from the chairmen and ranking members of the Subcommittees on Labor, Health and Human Services, and Education, and Related Agencies, on scientific research or any other matter, be transmitted to the Committees on Appropriations in a prompt, professional manner and within the time frame specified in the request. In addition, the amended bill modifies language proposed by the Senate to require that scientific information provided in congressional testimony requested by the Committees on Appropriations and prepared by government researchers and scientists be transmitted to the Committees on Appropriations, uncensored and without delay. The House did not include a similar provision.

OFFICE OF MEDICARE HEARINGS AND APPEALS

The amended bill includes $65,000,000 for this activity as proposed by the House instead of $70,000,000 as proposed by the Senate.

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

The amended bill includes $61,302,000 for this activity, of which $42,402,000 is provided in budget authority and $18,900,000 is made available through the Public Health Service program evaluation tap. The House provided a combined total of $61,302,000 for this activity; the Senate provided a combined total of $71,000,000. The Appropriations Committees encourage the Department to develop an interoperability standard, tool set, and validation protocol that facilitates seamless medical device information sharing and device connectivity.

OFFICE OF INSPECTOR GENERAL

The amended bill includes $44,000,000 for the Office of Inspector General instead of $44,687,000 as proposed by the House and $45,687,000 as proposed by the Senate.

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

The amended bill includes $742,226,000 for the Public Health and Social Services Emergency Fund (PHSSEF) instead of $1,705,382,000 as proposed by the House and $1,729,556,000 as proposed by the Senate.

The amended bill includes language designating $666,087,000 to support activities related to countering potential biological, disease, nuclear, radiological and chemical threats to civilian populations and for other public health emergencies instead of $757,291,000 as proposed by the House and $786,556,000 as proposed by the Senate.

Funding for World Trade Center treatment and monitoring is provided within the CDC appropriation as proposed by the House and not the PHSSEF account as proposed by the Senate. The Secretary of Health and Human Services is directed to provide a comprehensive Federal plan, as proposed by the House, for monitoring, screening, analysis, and medical treatment for all individuals who were exposed to the toxins at the World Trade Center site. The amended bill expands the World Trade Center monitoring and treatment program administered by NIOSH to residents, students, and others, therefore the plan also should address how HHS intends to implement this expansion.

The amended bill does not include funding for Security Coordination and Improvement or Healthcare Provider Credentialing within the programs funded through PHSSEF administered by the Office of the Secretary as proposed by the House. The Senate proposed $3,300,000 for Healthcare Provider Credentialing.

Office of the Assistant Secretary for Preparedness and Response

The amended bill includes $647,275,000 for the Office of the Assistant Secretary for Preparedness and Response (ASPR) instead of $738,909,000 as proposed by the House. The Senate did not propose a funding level for ASPR in total, but did propose funding for specific activities within the office. Within the total, sufficient funds are included for the Office of Security and Strategic Information. The amended bill includes language designating $21,804,000 for BioShield management instead of $22,363,000 as proposed by the House and $22,338,000 as proposed by the Senate.

Within the total for ASPR, the amended bill includes $47,000,000 for the National Disaster Medical System instead of $53,000,000 as proposed by both the House and Senate.

Within the total for ASPR, the amended bill includes $427,150,000 for the hospital preparedness cooperative agreement grants program instead of $450,991,000 as proposed by the House and $438,843,000 as proposed by the Senate. Funds are not included for a surge capacity demonstration program as proposed by the House. The Senate proposed $25,000,000 for this demonstration program. Additionally, the amended bill does not include funding for a partnership grant program. Sufficient funds are included to maintain the fiscal year 2007 funding level provided through the formula grant program.

Within the total for ASPR, the amended bill includes $3,960,000 for the emergency systems for advance registration of volunteer health professionals program instead of $6,000,000 as proposed by both the House and Senate.

Within the total for ASPR, the amended bill includes $103,921,000 for advanced research and development instead of $139,500,000 as proposed by the House and $189,000,000 as proposed by the Senate.

Cyber-Security

Within the PHSSEF total, the amended bill includes $9,064,000 for an information technology cyber-security program administered by the Office of the Chief Information Officer as proposed by the House instead of $9,482,000 as proposed by the Senate.

Medical Reserve Corps

Within the PHSSEF total, the amended bill includes $9,748,000 for the medical reserve corps administered by the Office of Public Health and Science instead of $9,318,000 as proposed by the House and $14,113,000 as proposed by the Senate.

Office of the Secretary—Pandemic Influenza Preparedness

The amended bill includes language designating $76,139,000 for ongoing activities to prepare for and respond to an influenza pandemic instead of $948,091,000 as proposed by the House and $888,000,000 as proposed by the Senate. The amended bill does not include language providing funds to be available until expended. The House proposed $870,000,000 to be available until expended and the Senate proposed $652,000,000. The amended bill does not include language proposed by both the House and the Senate that products purchased from available funds may be deposited into the Strategic National Stockpile, that funds appropriated for pandemic influenza may be transferred to other appropriations accounts of the Department of Health and Human Services, and that funds may be used for the construction or renovation of privately owned vaccine and biological production facilities. The Appropriations Committees continue to support the Department's pandemic influenza preparedness activities, but note that approximately $1,200,000,000 remains available to be obligated from funds provided in prior appropriations for pandemic influenza preparedness.

COVERED COUNTERMEASURE PROCESS FUND

The amended bill does not provide an appropriation for the Covered Countermeasure Process Fund as proposed by the Senate. The House proposed $5,000,000 for this program.

GENERAL PROVISIONS

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The amended bill includes a general provision similar to that proposed by the Senate providing the Secretary of HHS with the authority to transfer up to one percent of discretionary funds between a program, project, or activity, but no such program, project or activity shall be increased by more than three percent by any such transfer. This transfer is available only to meet emergency needs. The Committees are to be notified 15 days in advance of any transfer. The House bill included a similar provision, but allowed the authority to transfer between appropriations for unanticipated needs.

COUNCIL ON GRADUATE MEDICAL EDUCATION

The amended bill includes a general provision proposed by the Senate allowing for the continued operation of the Council on Graduate Medical Education. The House bill contained no similar provision.

DELTA HEALTH ALLIANCE AUTHORIZATION

The amended bill includes a general provision proposed by the Senate creating the authority for HHS to award a grant to the Delta Health Alliance for research, educational programs, services, job training, and construction of health facilities. The House bill contained no similar provision.

THIMEROSAL IN INFLUENZA VACCINES

The amended bill does not include a provision restricting the use of funds for the administration of influenza vaccine containing thimerosal for children under three years of age as proposed by the House. The Senate did not have a similar provision.

NIH RESEARCH TRAINING TRANSFER

(TRANSFER OF FUNDS)

The amended bill includes a general provision proposed by the Senate restoring the authority to transfer one percent of the amounts made available for National Research Service Awards to the Health Resources and Services Administration and the Agency for Healthcare Research and Quality. The House bill contained no similar provision.

CDC OMBUDSMAN PROGRAM AND FITNESS EQUIPMENT

The amended bill includes a general provision proposed by the Senate prohibiting funding for the CDC Ombudsman Program and certain equipment for the CDC fitness center. The House proposed a similar provision in title V of the bill.

NONRECURRING EXPENSES FUND

The amended bill includes a general provision not in either the House or Senate bill establishing an HHS Nonrecurring Expenses Fund. The Fund is to be created from unobligated balances of expired discretionary funds appropriated for this or any succeeding fiscal year. The Fund may be used for capital acquisition purposes, including facilities and information technology infrastructure. Amounts may only be obligated 15 days after notification of the Appropriations Committees of the House of Representatives and the Senate.

HEALTH PROFESSIONS STUDENT LOAN RESCISSION

RESCISSION OF FUNDS

The amended bill includes a general provision rescinding $15,000,000 of funds returned by institutions of higher education to the Health Professions Student Loan program. Neither the House nor Senate included a similar provision.

MEDICARE PROGRAM RESIDENCY POSITIONS

The amended bill includes a general provision concerning medical residency positions under the Medicare program, with costs offset through the Physician Assistance and Quality Initiative Fund. Neither the House nor the Senate included similar provisions.

FEDERAL OCCUPATIONAL HEALTH

The amended bill does not include a general provision proposed by the Senate allowing the Division of Federal Occupational Health to use personal services contracting. The House bill contained no similar provision. This authority has previously been provided on a permanent basis.

USE OF CDC AIRCRAFT

The amended bill does not include a general provision proposed by the Senate allowing the Secretary of HHS and HHS employees accompanying the Secretary to use the CDC aircraft. The House bill contained no similar provision.

CURRENT FEDERAL LAW ON ABORTION FUNDING

The amended bill does not include a general provision proposed by the Senate stating that nothing in the Act shall be construed to effect or otherwise modify provisions of current Federal law with respect to the funding of abortion. The House bill did not contain this restatement of current law.

EMERGENCY DEFIBRILLATORS

The amended bill does not include a general provision proposed by the Senate setting aside $200,000 for a clearinghouse for schools regarding emergency defibrillators. The House bill contained no similar provision.

TELEHEALTH PROGRAMS

The amended bill does not include a general provision proposed by the Senate providing funding for telehealth programs, financed by an administrative reduction. The agreement provides funding for telehealth activities in the HRSA account. The House bill contained no similar provision.

GAO REPORT ON STATE HEALTH CARE ACCESS EFFORTS

The amended bill does not include a general provision proposed by the Senate requiring the Comptroller General to provide a report to Congress on State health care reform efforts. Instead, this statement contains a similar directive in the CMS section. The House bill contained no similar provision.

CDC STROKE AND HEART DISEASE

The amended bill does not include a general provision proposed by the Senate that would provide funding for CDC stroke and heart disease programs, financed by an administrative reduction. Funding for these programs is addressed in the CDC portion of the bill. The House contained no similar provision.

ADMINISTRATIVE REDUCTION

The amended bill does not include a general provision proposed by the Senate that would reduce administrative funding throughout the bill. The House contained no similar provision.

PATIENT NAVIGATOR OUTREACH

The amended bill does not include a general provision proposed by the Senate that would provide funding for patient navigator outreach activities, financed by an administrative reduction. Funding is addressed in the HRSA portion of the bill. The House contained no similar provision.

TRAUMA CARE

The amended bill does not include a general provision proposed by the Senate that would provide funding for trauma care programs, financed by an administrative reduction. The House contained no similar provision.

ALLIED HEALTH TRAINING PROGRAMS

The amended bill does not include a general provision proposed by the Senate that would provide funding for allied health training programs, financed by an administrative cut. Funding for allied health is addressed in the HRSA portion of the bill. The House contained no similar provision.

HEMODIALYSIS CLINICAL TRIALS

The amended bill does not include a general provision proposed by the Senate that would express the sense of the Senate regarding hemodialysis clinical trials supported by the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK). This issue is addressed in the NIDDK section of this statement. The House contained no similar provision.

SMALL BUSINESS CHILD CARE GRANT PROGRAM

The amended bill does not include a general provision proposed by the Senate that would fund a small business child care grant program, financed by an administrative reduction. The House contained no similar provision.

RYAN WHITE FUNDING FORMULAS

The amended bill does not include a general provision proposed by the Senate that would prohibit Ryan White HIV/AIDS funds provided in the Act from being used to modify the formulas under title XXVI of the Public Health Service Act. The House contained no similar provision.

ADMINISTRATION ON AGING PROGRAMS

The amended bill does not include a general provision proposed by the Senate that would provide funding for aging programs, financed by an administrative reduction. Funding for this program is addressed in the AoA portion of the bill. The House contained no similar provision.

VIOLENT DEATH REPORTING SYSTEM

The amended bill does not include a general provision proposed by the Senate that would provide funding for the National Violent Death Reporting System, financed by an administrative reduction. Funding for this program is included in the CDC portion of the bill. The House contained no similar provision.

WORKERS' COMPENSATION SET-ASIDES

The amended bill does not include a general provision proposed by the Senate that would require HHS to report on workers' compensation set-asides under the Medicare Secondary Payer program. This issue is addressed in the CMS section of this statement. The House contained no similar provision.

DEEMED STATUS ON CLINICAL TRIALS

The amended bill does not include a general provision proposed by the Senate that would express the sense of the Senate that HHS should maintain "deemed status" coverage under the Medicare program for Federally funded clinical trials. This issue is addressed in the CMS section of this statement. The House contained no similar provision.

NIOSH COAL PILLARS STUDY

The amended bill does not include a general provision proposed by the Senate that would increase CDC funding, financed by an administrative reduction, and require NIOSH to conduct a study of the recovery of coal pillars and pillar mining practices. This issue is addressed in the CDC section of this statement. The House contained no similar provision.

DRUG REIMPORTATION

The amended bill does not include a general provision proposed by the Senate that prohibits funds appropriated in this Act from being used to prevent an individual not in the business of importing prescription drugs from importing a prescription drug from Canada that complies with certain requirements of Federal law and is not a controlled substance or a biological product. The House contained no similar provision.

TITLE III—DEPARTMENT OF EDUCATION

EDUCATION FOR THE DISADVANTAGED

The amended bill includes $15,755,083,000 for the Education for the Disadvantaged account instead of $15,969,818,000 as proposed by the House and $15,867,778,000 as proposed by the Senate. The amended bill provides $7,820,327,000 in fiscal year 2008 and $7,934,756,000 in fiscal year 2009 funding for this account. The Appropriations Committees expect that the Department will strengthen professional development partnerships for early childhood educators through grants awarded under Early Reading First.

IMPACT AID

The amended bill includes $1,262,778,000 for the Impact Aid account instead of $1,278,453,000 as proposed by the House and $1,248,453,000 as proposed by the Senate. In addition, the bill includes language to provide two-year funding for Impact Aid construction grants on a competitive basis as proposed by the Senate. The House had proposed one-year funding for these grants on a formula basis.

SCHOOL IMPROVEMENT PROGRAMS

The amended bill includes $5,383,119,000 for the School Improvement Programs account instead of $5,693,668,000 as proposed by the House and $5,198,525,000 as proposed by the Senate. The amended bill provides $3,948,119,000 in fiscal year 2008 and $1,435,000,000 in fiscal year 2009 funding for this account.

Within the amount for 21st Century Community Learning Centers, the Appropriations Committees intend that the Department encourage States to use 40 percent of their additional allocations over fiscal year 2007, as practicable, to provide supervised and supportive after-school activities to middle and high school students.

For the Foreign Language Assistance program, the amended bill includes a set-aside of $2,400,000 for five-year grants to local educational agencies. The Senate did not propose this set-aside. The Appropriations Committees intend that this set-aside of funds and other funds provided for this program be used as outlined in House Report 110–424.

Within the amount provided for State Assessments, the Appropriations Committees recommend not more than $8,732,000 for enhanced assessment instruments to improve the implementation of the No Child Left Behind Act. The Education Department is urged to continue to place a high priority on grant applications that aim to improve the quality of State assessments for students with disabilities and students with limited English proficiency, and to ensure the most accurate means of measuring their performance on those assessmentsy.

The amended bill includes language that allows funds under the Education of Native Hawaiians program to be used for construction, renovation and modernization of any elementary school, secondary school, or structure related to an elementary school or secondary school run by the Department of Education of the State of Hawaii that serves a predominantly Native Hawaiian student body as proposed by the Senate. The amended bill also includes language, as proposed by the Senate, which designates, within the amount provided for the Education of Native Hawaiians program, not less than $1,250,000 to the Hawaii Department of Education for school construction/renovation activities, and $1,250,000 for the University of Hawaii's Center of Excellence in Native Hawaiian Law. The House bill did not include a similar provision.

The amended bill includes language that allows funds for the Alaska Native Educational Equity program to be used for construction, as proposed by the Senate. The House bill did not include a similar provision.

With regard to the Rural Education program, the Appropriations Committees expect that funding will be equally divided between the Small, Rural Schools Achievement Program, which provides funds to school districts that serve a small number of students, and the Rural and Low-Income Schools Program, which provides funds to school districts that serve concentrations of poor students, regardless of the number of students served.

INDIAN EDUCATION

The amended bill includes $121,690,000 for Indian Education instead of $124,000,000 as proposed by the House and $118,690,000 as proposed by the Senate.

INNOVATION AND IMPROVEMENT

The amended bill includes $1,003,040,000 for programs in the Innovation and Improvement account, instead of $992,354,000 as proposed by the House and $962,889,000 as proposed by the Senate.

For the Teaching of Traditional American History program, the Appropriations Committees recommend that the Department provide initial three-year grants, with two additional years if a grantee is performing effectively.

The Appropriations Committees concur that funds provided for the Advanced Credentialing program in the amended bill are for a continuing award authorized under section 2151(c)(3)(c) of the Elementary and Secondary Education Act.

The amended bill modifies language for the Charter Schools program proposed by the House and the Senate to permit the Secretary to use funds in excess of $190,000,000 to carry out the State Facilities Incentive and Credit Enhancement for Charter Facilities programs.

Fund for the Improvement of Education (FIE)

The amended bill includes $258,059,000 for the Fund for the Improvement of Education instead of $205,402,000 as proposed by the House and $218,699,000 as proposed by the Senate.

The amended bill includes funding for the following activities authorized under section 5411 of the Elementary and Secondary Education Act:

Evaluation and data quality initiative	$1,823,000
National Institute of Building Sciences for the National Clearinghouse for Educational Facilities	700,000
Peer review	6,000
Reach Out and Read	4,000,000
Teach for America	12,000,000
Full Service Community Schools Demonstration	5,000,000

The Appropriations Committees direct that funds for the Full Service Community Schools Demonstration be used as specified in House Report 110–231.

Within the total amount provided for FIE, the amended bill also includes funding for separately authorized programs under title V, part D of the Elementary and Secondary Education Act in the following amounts:

Reading is Fundamental	$25,043,000
Ready to Teach	10,890,000
Education through Cultural and Historical Organizations	8,910,000
Arts in Education	38,200,000
Parental Information and Resource Centers	39,600,000
Excellence in Economic Education	1,473,000
Mental Health Integration Grants	5,000,000
Women's Educational Equity	1,879,000
Presidential and Congressional American History and Civics Academies	1,980,000
Foundations for Learning Grants	982,000

For Arts in Education, the Appropriations Committees concur in the distribution of funds as follows: $8,095,000 is for Very Special Arts, $6,293,000 for the John F. Kennedy Center for the Performing Arts, $13,158,000 for model arts programs, $7,960,000 for model professional development programs for music, drama, dance and visual arts educators, and $494,000 for evaluation activities. The Senate proposed a different allocation of funds and the House did not specify a detailed allocation of funds within this program.

In addition, the amended bill provides $2,200,000 within this program for the Fast Response Survey System to collect data for the report of Arts Education in Public Elementary and Secondary Schools during the 2008–2009 school year, as described in Senate Report 110–107. The survey is to be administered by the National Center for Education Statistics, but with the Office of Innovation and Improvement and the Institute of Education Sciences (IES) jointly determining the scope of work of the project. The House proposed this funding level within IES. The Senate proposed $500,000 within the Fund for the Improvement of Education for the survey and additional funding within IES.

The amended bill includes funds within FIE to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
ABC Unified School District, Cerritos, CA for an after-school program at Melbourne Elementary School	195,000
Academy for Urban School Leadership, Chicago, IL for Chicago Academy and Chicago Academy High School, which may include support for resident teachers	195,000
Action for Bridgeport Community Development, Inc., Bridgeport, CT for teacher training programs	487,000
African-American Male Achievers Network, Inc., Inglewood, CA for its Project STEP program for at-risk youth	39,000
Akron Public Schools, OH for a Math, Science, and Technology Community Learning Center, which may include equipment	243,000

Montgomery County Public Schools, Rockville, MD to recruit and certify postdoctoral scientists, mathematicians, or engineers from the National Institutes of Health to become teachers	292,000
Mote Marine Laboratory, Sarasota, FL for marine science curriculum development	195,000
Mount Hood Community College, Gresham, OR for early childhood education and training activities, which may include equipment	312,000
National American Indian, Alaskan and Hawaiian Educational Development Center, Sheridan, WY, to train teachers serving Native American students in an early literacy learning and math framework	817,000
National Center for Electronically Mediated Learning, Inc., Milford, CT for the P.E.B.B.L.E.S. Project, which may include equipment and technology	146,000
National Council on Crime and Delinquency, Oakland, CA for a school-based model on violence prevention	195,000
National Cued Speech Association, Bethesda, MD for parent, teacher, and transliterator training and certification in cued speech for preschool and school-aged children	170,000
National Flight Academy, Naval Air Station Pensacola, FL for technology upgrades	146,000
National Teacher's Hall of Fame, Emporia, KS for teacher professional development and retention programs	146,000
Neighborhood Youth Association, Venice, CA for academic support to ensure college readiness	97,000
New Mexico Military Institute, Roswell, NM, for a character development leadership camp at the New Mexico Military Institute	48,000
New Mexico Public Education Department, Santa Fe, NM for summer reading and math institutes throughout the State	487,000
New Mexico State University, Las Cruces, NM, for the Southern New Mexico Science, Engineering, Mathematics and Aerospace Academy	195,000
New Mexico State University, Las Cruces, NM, to continue a program to transition high school students into technical careers	331,000
New School University, New York, NY, for the Institute for Urban Education	926,000
New York Hall of Science, Queens, NY, for science exhibits and educational programming	585,000
Newton Public Schools, Newton, KS for an educational technology initiative, including purchase of equipment	97,000
North Carolina Agricultural and Technical University, Greensboro, NC for a project to reduce suspension rates of students in the Guilford County School System	390,000
North Carolina Central University, Durham, NC for academic enrichment activities, including parental involvement	165,000
North Carolina Symphony, Raleigh, NC for musical and artistic residency activities for elementary and secondary students	170,000
North Carolina Technology Association Education Foundation, Raleigh, NC for school technology demonstration projects, including subgrants	97,000
North Country Education Services Agency, Gorham, NH, for the North Country Gear Up College Prep Initiative, including online curriculum development	136,000
North Philadelphia Youth Association, Philadelphia, PA for education and enrichment services for youth	48,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
North Slope Borough, Anchorage, AK, for an early education program	292,000
Northeast Louisiana Family Literacy Interagency Consortium to provide children's literacy services	195,000
Northern Tier Industry & Education Consortium, Dimock, PA for the activities of its Advisory and Assessment Committees	48,000
Northwest Center, Seattle, WA, to provide and expand academic and vocational resources to developmentally delayed or disabled persons in King County	195,000
Norwich Public School System, Norwich, CT for English language instruction	268,000
Oakland School of the Arts, Oakland, CA, for educational equipment	409,000
Oakland Unified School District, Oakland, CA for a technology integration project to implement a new data system, which may include equipment	195,000
Oelwein Community School District, Oelwein, IA, for technology and program needs for a math and science academy	110,000
Ogden City Schools, Ogden, Utah, to enhance the aerospace, math, and science curriculum	48,000
Omaha, Nebraska, for expansion of the Omaha's after school initiative	97,000
O'Neill Sea Odyssey, Santa Cruz, CA for science education programs for elementary school children	97,000
OneWorld Now!, Seattle, WA for after-school programs and student scholarships	243,000
Ossining Union Free School District, Ossining, NY for after-school, literacy, or school reform initiatives	219,000
Ouachita Parish School Board, Monroe, LA, for acquisition of equipment technology upgrades	103,000
Pacific Islands Center for Educational Development in American Samoa, for a mentoring program aimed at college prep	487,000
Parent Institute for Quality Education, San Diego, CA for a parent training program	438,000
Parents as Teachers National Center, St. Louis, MO, for expanded outreach to support school readiness in the Gateway Parents as Teachers program in the City of St. Louis	185,000
PE4life Foundation, Kansas City, MO, for expansion and assessment of PE4life programs across Iowa	390,000
PE4life, Kansas City, MO for physical education programs in the Titusville, Pennsylvania School District, including purchase of equipment	195,000
PE4life, Kansas City, MO to establish a P.E. program in Mississippi, including purchase of equipment	341,000
People for People, Philadelphia, PA for after-school programs	73,000
Peru State College, Peru, NE for the Adopt a High School initiative	195,000
Philadelphia Academies, Inc., Philadelphia, PA for a longitudinal study on the impact of the organization's career-based education model	97,000
Philadelphia Martin Luther King, Jr. Association for Nonviolence Inc., Philadelphia, PA, for its College for Teens program	87,000
Pinal County Education Service Agency, Florence, AZ for a teacher training initiative	97,000
Polk County Public Schools, Bartow, FL for purchase of assistive technologies	97,000
Polynesian Voyaging Society, Honolulu, HI, for cultural education programs	146,000
Port Chester--Rye Union Free School District, Port Chester, NY for academic enrichment, professional development, family engagement, or other activities to implement full service community schools	219,000
Project GRAD USA, Philadelphia, PA for college readiness programs	97,000
Project HOME, Philadelphia, PA, for an after school program	87,000
Provo City, Provo, Utah, to expand education programs at the Arts Center	48,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Purdue University Calumet, Hammond, IN for equipment and start-up expenses for a magnet school	243,000
Queens Theatre in the Park, Flushing, NY for a project to provide youth with career planning and development in the performing arts industry	146,000
Rapides Parish School Board, Alexandria, LA, for acquisition of equipment technology upgrades	65,000
Renwick Public Schools, Andale, KS for an educational technology initiative, including purchase of equipment	195,000
Rio Rancho Public Schools, Rio Ranch, NM for distance learning, which may include equipment	487,000
Riverside Community College, Riverside, CA for the Fast-Track to the Associate Degree Nursing Program	341,000
Riverside County Office of Education, Riverside, CA for the High School Science Initiative	341,000
Robert H. Clampitt Foundation, Inc., New York, NY, to train elementary and secondary students in journalism in New Orleans, LA	146,000
Rockdale County Public Schools, Conyers, GA for a credit recovery program, which may include the purchase of software	429,000
Rose-Hulman Institute of Technology, Terre Haute, IN for a K-12 STEM Immersion Initiative	195,000
Saint Joseph's University, Philadelphia, PA, to develop a Public Education Partnership to provide professional development to area principals and teachers	87,000
Saint Louis SCORES, St. Louis, MO, to expand after school programs	81,000
Salesian Boys and Girls Club of Los Angeles, CA for education and support services for middle and high school students	97,000
San Bernardino Boys and Girls Club, San Bernardino, CA, to expand programs that are available in education, health and the arts	229,000

Washington State University, Tacoma, WA for education and enrichment services for youth at its Center for Community Education, Enrichment and Urban Studies	243,000
Washoe County School District, Reno, NV, for equipment for a parental notification system	341,000
Washoe County School District, Reno, NV, to expand the Classroom on Wheels Program for low-income students	390,000
WE CARE San Jacinto Valley, Inc., San Jacinto, CA for the after school tutoring program	97,000
West Contra Costa Unified School District, Richmond, CA for high school architecture, construction, and engineering curricula	97,000
West River Foundation, Rapid City, SD, for K-12 administrator development	97,000
West Valley City, West Valley City, Utah, to expand the after school learning program	48,000
White-Williams Scholars, Philadelphia, PA for a college preparation initiative, which may include student scholarships	73,000
Widener University, Chester, PA for school-readiness programs	204,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Wildlife Information Center, Inc., Slatington, PA for an environmental education initiative	341,000
Williamsburg County First Steps, Kingstree, SC for a school-readiness program	84,000
YMCA of Greater Saint Louis, St. Louis, MO, to expand after school programming at the Monsanto Family YMCA	205,000
Yonkers Public Schools, Yonkers, NY for after-school and summer academic enrichment, literacy, and professional development services, and for parental involvement activities	243,000
Youngstown City School District, OH for a Pathways to Building Trades Program in the Youngstown and Warren, OH school districts	219,000
Youngstown State University, Youngstown, OH for a pilot K-12 attention enhancement for learning project	97,000
Youth Advocate Programs, Inc., Harrisburg, PA, for alternative school services	87,000
YWCA of Gary, Gary, IN for after-school and summer programs, which may include equipment	195,000

Other programs

The Appropriations Committees expect the increase over fiscal year 2007 for the Ready to Learn Program to be used for Ready to Learn outreach programs at the Corporation for Public Broadcasting.

The Appropriations Committees intend that funds provided for the Advanced Placement program be used first for the Advanced Placement Test Fee Program, estimated to require $10,000,000 in fiscal year 2008. The remaining funds shall be used for continuing and new awards under the Advanced Placement Incentive Program Grants. The Department is encouraged to incorporate a priority for projects focused on the sciences, mathematics, and foreign languages in the fiscal year 2008 competition for new awards under the Advanced Placement Incentive Program.

SAFE SCHOOLS AND CITIZENSHIP EDUCATION

The amended bill includes $705,733,000 for programs in the Safe Schools and Citizenship Education account instead of $760,575,000 as proposed by the House and $697,112,000 as proposed by the Senate.

The amended bill includes funding for the following national activities:

School Emergency Preparedness Initiative	$32,374,000
Safe Schools/Healthy Students	79,200,000
Drug Testing Initiative	10,828,000
Postsecondary Ed Drug and Violence Prevention (including $850,000 for the recognition program)	6,083,000
Violence prevention impact evaluation	1,146,000
National Institute of Building Sciences for the National Clearinghouse for Educational Facilities	300,000
Project SERV	1,500,000
Other activities	8,681,000

The Appropriations Committees continue to be concerned about the increasing problems of alcohol and drug abuse on college campuses. The Department is directed to use $850,000 within the amount provided for Safe and Drug-Free Schools and Communities National Programs to identify, and provide recognition of, promising and model alcohol and drug abuse education programs in higher education.

The Appropriations Committees intend that funding recommended for school emergency preparedness activities be used for new grant awards to higher education institutions, in addition to school districts currently eligible, to develop and implement emergency management plans for preventing campus violence (including assessing and addressing the mental health needs of students) and for responding to threats and incidents of violence or natural disaster in a manner that ensures the safety of the campus community. The Appropriations Committees intend that these funds be used to help institutions of higher education plan and prepare for the entire constellation of threats (terrorist attacks, natural disasters, shootings, and gang-related activity).

The amended bill also modifies language proposed by the House to permit Project SERV funds appropriated in fiscal year 2008 and in previous fiscal years to be used to provide services to school districts and institutions of higher education in which the learning environment has been disrupted due to a violent or traumatic crisis. The Senate bill did not include bill language allowing Project SERV funds to be awarded to institutions of higher education.

In addition, the recommended funding for the Office of Safe and Drug Free Schools will permit the Department to expand its examination of a variety of other school safety initiatives. The Appropriations Committees request that the Department update the 2002 Department of Education and U.S. Secret Service guidance titled "Threat Assessment in Schools: A Guide to Managing Threatening Situations and to Creating Safe School Climates" to reflect the recommendations contained in the report titled "Report to the President on Issues Raised by the Virginia Tech Tragedy." Within a year of the enactment of this Act, the Department shall disseminate the updated guidance to institutions of higher education and to State departments of education for distribution to all local education agencies.

For the Carol M. White Physical Education program, the Appropriations Committees affirm the original intent of the Physical Education program with respect to the use of funds for the purchase of equipment.

Within the funds provided for the Civic Education program, the amended bill includes $20,413,000 for the We the People programs, including $2,950,000 to continue the comprehensive program to improve public knowledge, understanding, and support of American democratic institutions, which is a cooperative project among the Center for Civic Education, the Center on Congress at Indiana University, and the Trust for Representative Democracy at the National Conference of State Legislatures. The amended bill also includes $12,072,000 for the Cooperative Education Exchange program.

ENGLISH LANGUAGE ACQUISITION

The amended bill includes $712,848,000 for the English Language Acquisition account instead of $774,614,000 as proposed by the House and $670,819,000 as proposed by the Senate.

SPECIAL EDUCATION

The amended bill includes $12,181,473,000 for the Special Education account instead of $12,362,831,000 as proposed by the House and $12,330,374,000 as proposed by the Senate. The agreement provides $5,325,029,000 in fiscal year 2008 and $6,856,444,000 in fiscal year 2009 funding for this account.

The bill includes $40,000,000 for technology and media services as proposed by the Senate instead of $36,928,000 as proposed by the House. Within this amount, $1,500,000 is available for Public Telecommunications Information and Training Dissemination as proposed by the Senate. The House did not include funding for this activity. Also within this amount, the amended bill includes $13,000,000 for the production and circulation of recorded textbooks and acceleration of digital technology as proposed by the Senate. The House provided $11,880,000 for activities authorized by section 674(c)(1)(D) of the Individuals with Disabilities Education Act.

The amended bill includes language proposed by the Senate intended to improve the operation and performance of the National Instructional Materials Access Center. The House bill did not contain similar language.

Of the funding provided for the Special Olympics program, $4,500,000 is for education activities authorized by the Special Olympics Sport and Empowerment Act and $7,500,000 is designated for the 2009 Special Olympics World Winter Games.

REHABILITATION SERVICES AND DISABILITY RESEARCH

The amended bill includes $3,283,929,000 for Rehabilitation Services and Disability Research instead of $3,279,743,000 as proposed by the House and $3,286,942,000 as proposed by the Senate.

The amended bill specifies $8,300,000 within the National Institute on Disability and Rehabilitation Research to carry out the traumatic brain injury model systems of care program and to fund two additional centers that submitted applications for the last grant competition.

The amended bill provides $1,000,000 to improve the quality of applied orthotic and prosthetic research and to help meet the demand for provider services as proposed by the Senate. The House bill did not include a similar provision.

The amended bill includes funds within demonstration and training programs to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Advocating Change Together, Inc., St. Paul, MN for a disability rights training initiative	97,000
Alaska Center for the Blind and Visually Impaired, Anchorage, AK, for a partnership with the Lions Club to expand low vision services to Alaskans	243,000
City of North Miami Beach, FL, North Miami Beach, FL for fitness and other programs for the disabled	331,000
Darden Rehabilitation Foundation, Gadsden, AL, for programs serving individuals with disabilities who seek to enter the work force	123,000
Deaf Blind Service Center, Seattle, WA, to support the National Support Service Provider Pilot Project	341,000
Enable America, Inc., Tampa, Florida, for civic/citizenship demonstration project for disabled adults	487,000
Jewish Vocational and Career Counseling Service, San Francisco, CA for a Transition Services Project to provide vocational training and job placement for youth and adults with disabilities	243,000
Kenai Peninsula Independent Living Center, Homer, AK, for the Total Recreation and Independent Living Services (TRAILS) project	195,000
National Ability Center, Park City, Utah, to provide transportation for individuals with cognitive and physical disabilities to participate independently in therapeutic recreational programs	206,000
Rainbow Center for Communicative Disorders, Blue Springs, MO, to expand programs available to individuals with severe disabilities	247,000
Southeast Alaska Independent Living, Inc, Juneau, AK, to continue a joint recreation and employment project with the Tlingit-Haida Tribe	195,000
Special Olympics of Iowa, Des Moines, IA, for technology upgrades	97,000
University of Northern Colorado National Center for Low-Incidence Disabilities, Greeley, CO, for support to local schools, educational professionals, families of infants, children, and youth with low-incidence disabilities	165,000
Vocational Guidance Services, Cleveland, OH for equipment and technology in order to increase employment for persons with disabilities	185,000

Within funds provided for assistive technology, the amended bill includes the funding levels provided by the House for State grants, protection and advocacy, and national activities rather than the levels provided by the Senate.

SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

AMERICAN PRINTING HOUSE FOR THE BLIND

The amended bill includes $22,000,000 for the American Printing House for the Blind as proposed by the Senate instead of $17,573,000 as proposed by the House.

NATIONAL TECHNICAL INSTITUTE FOR THE DEAF

The amended bill includes $60,757,000 for the National Technical Institute for the Deaf as proposed by the House instead of $59,000,000 as proposed by the Senate.

GALLAUDET UNIVERSITY

The amended bill includes $115,400,000 for Gallaudet University instead of $109,952,000 as proposed by the House and $111,000,000 as proposed by the Senate.

CAREER, TECHNICAL, AND ADULT EDUCATION

The amended bill includes $1,976,166,000 for Career, Technical, and Adult Education instead of $2,046,220,000 as proposed by the House and $1,894,788,000 as proposed by the Senate. The amended bill provides $1,185,166,000 in fiscal year 2008 funding, of which $1,181,089,000 is available on July 1, 2008 and $4,077,000 is available on October 1, 2007, and $791,000,000 in fiscal year 2009 funding.

The amended bill specifies that $67,896,000 is provided for integrated English literacy and civics education services to immigrants as specified by the Senate rather than $71,622,000 as specified by the House.

The amended bill requires the Department to use Smaller Learning Communities program funds only for activities related to establishing smaller learning communities within large high schools or small high schools that provide alternatives for students enrolled in large high schools as proposed by the House. The Department should follow the requirements contained in House Report 110–424 regarding consultation on the fiscal year 2008 Smaller Learning Communities grant competition and the submission of an operating plan.

The Department is encouraged to support initiatives that foster applied research, program improvement and evaluation, technology transfer and research-based institutional practices to improve adult and adolescent basic education and literacy instruction.

STUDENT FINANCIAL ASSISTANCE

(INCLUDING RESCISSION)

The amended bill includes $16,114,317,000 for the Student Financial Assistance account instead of $17,464,883,000 as proposed by the House and $16,368,883,000 as proposed by the Senate.

The amended bill includes $14,215,000,000 for Pell Grants to support a $4,241 maximum award for the 2008–2009 award year. Under the College Cost Reduction Act, Public Law 110–84, an additional $2,000,000,000 in mandatory funds is available for the Pell Grant program in fiscal year 2008. These mandatory funds, together with the discretionary funds provided in this amended bill, will support a total maximum Pell Grant of $4,731 in the 2008–2009 award year, a $421 increase over the 2007–2008 award year.

The amended bill also rescinds $525,000,000 from unobligated balances under the mandatory Academic Competitiveness and SMART grants program. These balances are not needed to pay Academic Competitiveness and SMART grant awards in the 2008–2009 award year and will offset additional costs in the Pell Grant program.

The Appropriations Committees direct the Department to provide the same funding as in fiscal year 2007 for the Work Colleges program authorized under section 448 of the Higher Education Act from the Federal Work-Study Programs appropriation.

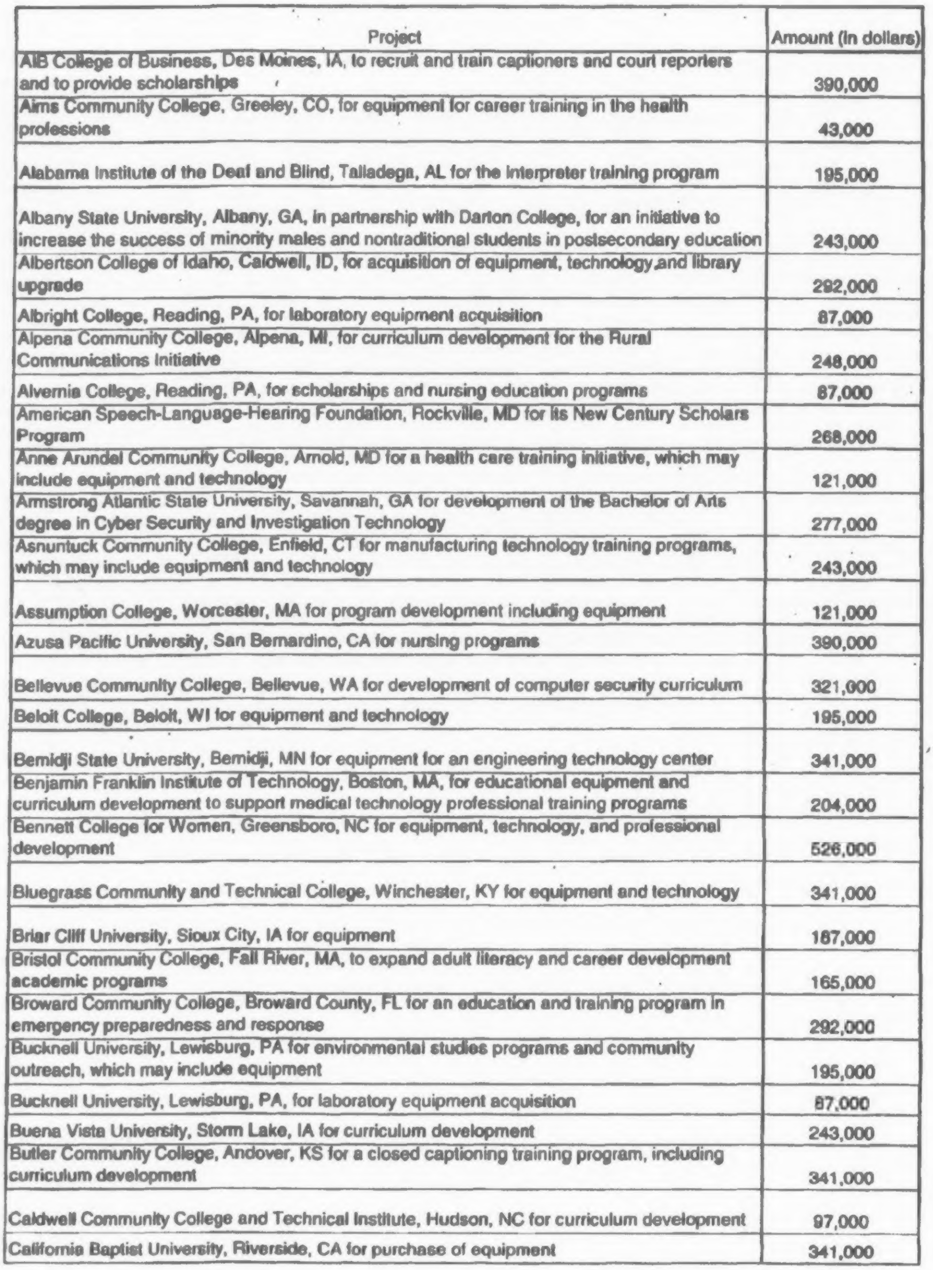
HIGHER EDUCATION

The amended bill includes $2,057,801,000 for the Higher Education account instead of $2,176,533,000 as proposed by the House and $2,040,302,000 as proposed by the Senate.

For Title VI International Education and Foreign Languages Studies programs, the Appropriations Committees concur in the direction in House Report 110–231 with regard to actions to respond to the National Research Council study on Title VI and Fulbright-Hays. The Department shall use one-third of the funding increase over fiscal year 2007 for Title VI domestic programs to expand the number of academic year and summer foreign language and area studies fellowships. A portion of the increase shall also be used to assist Title VI grantees to enhance databases and develop web portals to improve the dissemination of information produced under these programs to the public. Further, the Appropriations Committees direct that no funds shall be available for an e-learning clearinghouse and any funds diverted from Title VI programs for this purpose shall be restored.

The amended bill includes funds within the Fund for the Improvement of Postsecondary Education to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.



Project	Amount (in dollars)
AIB College of Business, Des Moines, IA, to recruit and train captioners and court reporters and to provide scholarships	390,000
Aims Community College, Greeley, CO, for equipment for career training in the health professions	43,000
Alabama Institute of the Deaf and Blind, Talladega, AL for the interpreter training program	195,000
Albany State University, Albany, GA, in partnership with Darton College, for an initiative to increase the success of minority males and nontraditional students in postsecondary education	243,000
Albertson College of Idaho, Caldwell, ID, for acquisition of equipment, technology and library upgrade	292,000
Albright College, Reading, PA, for laboratory equipment acquisition	87,000
Alpena Community College, Alpena, MI, for curriculum development for the Rural Communications Initiative	248,000
Alvernia College, Reading, PA, for scholarships and nursing education programs	87,000
American Speech-Language-Hearing Foundation, Rockville, MD for its New Century Scholars Program	268,000
Anne Arundel Community College, Arnold, MD for a health care training initiative, which may include equipment and technology	121,000
Armstrong Atlantic State University, Savannah, GA for development of the Bachelor of Arts degree in Cyber Security and Investigation Technology	277,000
Asnuntuck Community College, Enfield, CT for manufacturing technology training programs, which may include equipment and technology	243,000
Assumption College, Worcester, MA for program development including equipment	121,000
Azusa Pacific University, San Bernardino, CA for nursing programs	390,000
Bellevue Community College, Bellevue, WA for development of computer security curriculum	321,000
Beloit College, Beloit, WI for equipment and technology	195,000
Bemidji State University, Bemidji, MN for equipment for an engineering technology center	341,000
Benjamin Franklin Institute of Technology, Boston, MA, for educational equipment and curriculum development to support medical technology professional training programs	204,000
Bennett College for Women, Greensboro, NC for equipment, technology, and professional development	526,000
Bluegrass Community and Technical College, Winchester, KY for equipment and technology	341,000
Briar Cliff University, Sioux City, IA for equipment	167,000
Bristol Community College, Fall River, MA, to expand adult literacy and career development academic programs	165,000
Broward Community College, Broward County, FL for an education and training program in emergency preparedness and response	292,000
Bucknell University, Lewisburg, PA for environmental studies programs and community outreach, which may include equipment	195,000
Bucknell University, Lewisburg, PA, for laboratory equipment acquisition	87,000
Buena Vista University, Storm Lake, IA for curriculum development	243,000
Butler Community College, Andover, KS for a closed captioning training program, including curriculum development	341,000
Caldwell Community College and Technical Institute, Hudson, NC for curriculum development	97,000
California Baptist University, Riverside, CA for purchase of equipment	341,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
California Community Colleges, Sacramento, CA, for Math and Science Teacher Initiative	165,000
California Polytechnic State University, San Luis Obispo, CA for purchase of equipment	146,000
California State University - Channel Islands, Camarillo, CA for purchase of equipment	146,000
California State University - Fullerton, Fullerton, CA for technology upgrades at the Ruby Gerontology Center	341,000
California University of Pennsylvania, California, PA, for curriculum development and teacher training to enhance math and science instruction	87,000
Campbell University, Buies Creek, NC for its Advancement for Underrepresented Minority Pharmacists and Pharmaceutical Scientists Program	312,000
Cardinal Stritch University, Milwaukee, WI, to establish a bachelors of science nurse degree program	268,000
Carroll College, Helena, MT, for curriculum development in Civil Engineering	195,000
Cedar Crest College, Allentown, PA, for nursing education programs	87,000
Central Arizona College, Coolidge, AZ for nursing programs, including curriculum development	292,000
Central Florida Community College, Ocala, FL for curriculum development	97,000
Central Maine Community College, Auburn, ME, for nursing education expansion and outreach	104,000
Central Methodist University, Fayette, MO for a science, technology, engineering and math teacher training program	341,000
Central Piedmont Community College, Charlotte, NC, for curriculum development at the Center for Integrated Emergency Response Training	195,000
Central Washington University, Ellensburg, WA for curriculum development	195,000
Chemeketa Community College, Salem, OR for equipment and technology for health sciences education and training programs	550,000
City College of New York, NY for the Charles B. Rangel Center for Public Service to prepare individuals for careers in public service, which may include establishing an endowment, library and archives for such center	1,950,000
Clark State Community College, Springfield, OH for curriculum development and purchase of equipment	292,000
Clayton College and State University, Morrow, GA for development of a Master of Arts in Archive degree program, which may include student scholarships and community outreach	316,000
Clinton School of Public Service at the University of Arkansas, Little Rock, AR, for curriculum development	975,000
Clover Park Technical College, Lakewood, WA for an institute for environmental sustainability in the workforce	146,000
College of Lake County, Grayslake, IL for curriculum development	341,000
College of Southern Idaho, Twin Falls, ID for the Pro-Tech program	243,000
College of Southern Maryland, LaPlata, MD for nursing education programs	97,000
College of the Canyons, Santa Clarita, CA for creation of the medical lab technician degree program, including curriculum development and purchase of equipment	97,000
College Success Foundation, Issaquah, WA for the Leadership 1000 Scholarship Program	487,000
Community College of Allegheny County, Pittsburgh, PA for a technical education initiative	390,000
Community College of Beaver County, Monaca, PA for equipment and technology	97,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Community College of Southern Nevada, Las Vegas, NV, to purchase equipment and other support for Internet-based course offerings	731,000
Connecticut State University, Hartford, CT, for nursing education programs	331,000
Consensus Organizing Center, San Diego, CA, for its Step Up college preparation initiative	97,000
Coppin State University, Baltimore, MD for its nursing education program, which may include equipment and technology	219,000
Dartmouth College, Hanover, NH, for a new interdisciplinary initiative on engineering and medicine	292,000
Darton College, Albany, GA for a biotechnology education and training collaboration with Albany State University and Albany Technical College	292,000
Deaf West Theatre, North Hollywood, CA, for cultural experiences for the deaf	243,000
Dean College, Franklin, MA, to develop programs and procure equipment for the Learning Center	195,000
Delaware County Community College, Media, PA for equipment and instrumentation for science, engineering, and technology laboratories	170,000
Des Moines Area Community College, Des Moines, IA for the Jasper County Career Academy, which may include equipment	97,000
DeSales University, Center Valley, PA for the Digital Campus Initiative, including purchase of equipment	487,000
Dillard University, New Orleans, LA for recruitment and training of nursing assistants	731,000
Duquesne University of the Holy Spirit, Pittsburgh, PA, for equipment and technology acquisition for a supercomputing facility	87,000
East Stroudsburg University, East Stroudsburg, PA, for forensic science education programs	87,000
Eastern Illinois University, Charleston, IL for nursing programs	146,000
Eastern Iowa Community College, Davenport, IA, for the creation of a center on sustainable energy, including equipment	292,000
Eastern New Mexico University, Portales, NM, for technological equipment upgrades	975,000
Eastern Shore Community College Industrial Maintenance Program, Melfa, VA for curriculum development	243,000
Eckerd College, St. Petersburg, FL for purchase of equipment	195,000
Edinboro University of Pennsylvania, Edinboro, PA, to support a computer forensics training program at its Western Pennsylvania High Tech Crime Training Center	87,000
Edison College, Charlotte County Campus, Punta Gorda, FL for a nursing education program	73,000
El Camino College, Torrance, CA for nursing, engineering and nontraditional education and training programs	195,000
Elmira College, Elmira, NY for technology upgrades	195,000
Emerson College, Boston, MA, for educational equipment and program development	331,000
Emmanuel College, Boston, MA, for the procurement of educational equipment and program development	248,000
Flathead Valley Community College, Kalispell, MT, for program development at the Center for Community Entrepreneurship Education	273,000
Florida Campus Compact, Tallahassee, FL for a project to enhance service learning on college campuses throughout Florida	243,000
Florida Gulf Coast University, Ft. Myers, FL for the Coastal Watershed Institute	195,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Focus: HOPE, Detroit, MI for an experiential learning laboratory and related equipment and technology to support undergraduate education and training	585,000
Franklin Pierce College, Rindge, NH for a nursing education program, which may include equipment	146,000
Franklin Pierce College, Rindge, NH, for technology-based educational programs and services	341,000
Frontier Community College, Fairfield, IL for purchase of equipment	146,000
Ft. Valley State University, Ft. Valley, GA for a teacher preparation program, which may include equipment and technology	170,000
Gadsden State Community College, Gadsden, AL for technology upgrades	341,000
Gateway Community and Technical College, Ft. Mitchell, KY for the Center for Advanced Manufacturing Competitiveness, including purchase of equipment	292,000
Gateway Community College, New Haven, CT, for radiography and radiation therapy training programs, which may include equipment	97,000
George Meany Center for Labor Studies- the National Labor College for curriculum development	731,000
George Washington University, Washington, DC, for health professions training for students from the District of Columbia	308,000
Georgia State University, Atlanta, GA, for science education partnership programs between colleges, universities, schools and life science community educational organizations	82,000
Gila County Community College, Globe, AZ for the registered nursing program, including purchase of equipment	195,000
Golden Apple Foundation, Chicago, IL, for a math and science teacher training initiative	341,000
Grace College, Winona Lake, IN for technology upgrades	195,000
Greenfield Community College, Greenfield, MA for education and training programs in the arts, which may include equipment and student scholarships	170,000
Harcum College, Bryn Mawr, PA for purchase of equipment	292,000
Harrisburg Area Community College, Harrisburg, PA for curriculum development	146,000
Harrisburg University of Science and Technology, Harrisburg, PA for instructional programs, which may include equipment and technology	292,000
Henry Kuualoha Giugni Archives at the University of Hawaii at Manoa, to establish an archival facility of historical Native Hawaiian records and stories	195,000
Herkimer County Community College, Herkimer, NY for equipment and technology for science laboratories	97,000
Hermiston, Hermiston, OR, to support programs and systems for Latino education	248,000
Hiwassee College, Madisonville, TN for a dental hygiene program, including curriculum development	390,000
Holy Family University, Philadelphia, PA for nurse education programs	195,000
Holyoke Community College, Holyoke, MA, for educational equipment and information technology	165,000
Houston Community College, Houston, TX, for the Accelerated Nursing Proficiency Center	146,000
Hudson Valley Community College, Troy, NY, to expand the nursing program	487,000
Huntington Junior College, WV for an initiative to recruit and train students in closed captioning	1,053,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Huston-Tillotson University, Austin, TX for a math and science education initiative, which may include equipment	243,000
Indiana University of Pennsylvania, Indiana, PA, for equipment acquisition and curriculum development for a mine safety course	87,000
Institute for Advanced Learning and Research, Danville, VA for professional development for teachers in the field of nanotechnology	195,000
Iowa Lakes Community College, Estherville, IA, for equipment to support the Sustainable Energy Education program	243,000
Ivy Tech Community College, Evansville, IN for equipment and technology	73,000
Jackson State University, Jackson, MS for establishment of an osteopathic medical school	487,000
James Rumsey Technical Institute, Martinsburg, WV for the Automotive Technology Program, including purchase of equipment	97,000
Kansas City Kansas Community College, Kansas City, KS, to provide workforce development training to improve economic conditions and to reduce prisoner recidivism	487,000
Kent State University, New Philadelphia, OH for equipment and technology for its Tuscarawas County campus	146,000
Keystone College, LaPlume, PA, for classroom and laboratory equipment upgrades and acquisition	87,000
King's College, Wilkes-Barre, PA to provide educational opportunities for students through civic engagement and service learning	334,000
La Sierra University, Riverside, CA	204,000
Lackawanna College, Scranton, PA for equipment, furnishings and operating expenses for an extension center in Susquehanna County	170,000
Lackawanna College, Scranton, PA, for laboratory equipment and technology upgrades and acquisition	87,000
Lake City Community College, Lake City, FL for a math skills initiative	97,000
Latino Institute, Inc., Newark, NJ for its Latino Scholars Program	136,000
Lesley University, Cambridge, MA, for educational and research equipment to support new science instruction laboratories	204,000
Lewis and Clark Community College, Godfrey, IL, for its National Great Rivers Research and Education Center	390,000
Lewis-Clark State College, Lewiston, ID, to continue and expand the American Indian Students in Leadership of Education (AISLE) program	187,000
Lincoln College, Lincoln, IL for training, material acquisition and purchase of equipment	97,000
Lincoln Memorial University College of Osteopathic Medicine, Harrogate, TN for curriculum development	487,000
Lincoln University, Lincoln University, PA, for campus-wide technology upgrades and wiring	87,000
Linn-Benton Community College, Albany, OR for science and health equipment and technology	526,000
Lock Haven University, Lock Haven, PA, to provide professional development partnerships and related services	87,000
Lorain County Community College, Elyria, OH for its library and community resource center, which may include equipment and technology	341,000
Los Angeles Valley College, Valley Glen, CA for its Solving the Math Achievement Gap program	195,000
Lyon College, Batesville, AR, to purchase and install equipment	73,000
MacMurray College, Jacksonville, IL for technology upgrades	341,000
Madonna University, Livonia, MI for curriculum development for a disaster relief and recovery program	263,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Maricopa County Community College, Tempe, AZ for the Bilingual Nursing Program at Gateway Community College in Phoenix, AZ	341,000
Maryland Association of Community Colleges, Annapolis, MD, to expand and improve nursing programs at Maryland's community colleges	2,281,000
Marymount Manhattan College, New York, NY for a minority teacher preparation initiative	341,000
McNeese State University, Lake Charles, LA for the Louisiana Academy for Innovative Teaching and Learning	146,000
Mesa Community College, Mesa, AZ for an online registered nurse recertification program	121,000
Mesa Community College, Mesa, AZ for the Enfermeras En Escalera program to address a shortage of nurses	170,000
Messiah College, Grantham, PA, for wireless technology acquisition and technology infrastructure improvements	87,000
Metro State College, Denver, CO, for training and equipment acquisition	123,000
Metropolitan State University, St. Paul, MN for nursing education programs	487,000
MidAmerica Nazarene University, Olathe, KS, for equipment acquisition to expand distance education for teachers in western Kansas	292,000
Middle Tennessee State University, Murfreesboro, TN, for the comprehensive math and science teacher training program	487,000
Midland College, Midland, TX for purchase of equipment at the Advanced Technology Center	146,000
Midwestern University Chicago College of Pharmacy, Downers Grove, IL for the Advanced Career Explorers Program	97,000
Minnesota State Colleges and Universities, Office of the Chancellor, St. Paul, MN for a statewide veterans re-entry education program	1,119,000
Mira Costa Community College District, Oceanside, CA for a nursing education program, including purchase of equipment	341,000
Mississippi Gulf Coast Community College, Gautier, MS for equipment and furnishings for a marine technology center and estuarine education center	195,000
Mississippi State University, Mississippi State, MS, for a leadership training program at the Appalachian Leadership Honors Program	97,000
Mississippi State University, Mississippi State, MS, for acquisition of equiment and curriculum development at the Wise Center-Broadcast Facility Conversion to Digital	975,000
Missouri State University, Springfield, MO, for program development and expansion, equipment and technology for the Distance Learning Project on the West Plains Campus	825,000
Missouri State University-West Plains, West Plains, MO for technology upgrades and programming at the Academic Support Center	195,000
Monroe Community College, Rochester, NY for a special needs preparedness training program	438,000
Montana Committee for the Humanities, Missoula, MT, to continue civic educational programs	78,000
Montana State University - Billings, Billings, MT, for the Montana Energy Workforce Training Center	126,000
Montana State University-Billings, Billings, MT, to develop job-training programs	156,000
Montana State University-Billings, Billings, MT, to expand professional development education programs for the health care industry	156,000
Montgomery County Community College, Blue Bell, PA for curricula, equipment and technology, faculty, and outreach for its advanced technologies initiative	429,000
Moravian College, Bethlehem, PA, for equipment and technology acquisition and curriculum development for a science initiative	87,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Morehouse College, Atlanta, GA, to establish a research initiative to improve college graduation of minority students	82,000
Mott Community College - Center for Advanced Manufacturing (CAM), Flint, MI, for a clearinghouse and pilot program for new technology	414,000
Mount Ida College, Newton, MA, for a veterinary technology program, which may include equipment	146,000
Muhlenberg College, Allentown, PA, for education and outreach services to support undergraduate students with disabilities	87,000
Murray State University, Hopkinsville, KY for purchase of equipment at the Veterinary Center	195,000
Nevada State College, Henderson, NV for the accelerated nursing program	438,000
Nevada State College, Henderson, NV, for math and science teacher initiatives	316,000
New College of Florida, Sarasota, FL for equipment at the Jane Bancroft Cook Library	243,000
New College of Florida, Sarasota, FL for the Public Archaeology Laboratory, including purchase of equipment	219,000
New College of Florida, Sarasota, FL for the Strategic Languages Resource Center, including purchase of equipment	292,000
New Hampshire Community Technical College System, Concord, NH, to expand and modernize engineering technology programs	247,000
New Hampshire Community Technical College System, Concord, NH, to standardize technology and learning across seven community colleges	146,000
New Hampshire Community Technical College-Manchester, Manchester, NH for equipment for nursing and allied health education and training programs	146,000
Niagara County Community College, Sanborn, NY for equipment	341,000
North Arkansas College, Harrison, AR for technology upgrades	209,000
North Carolina Center for Engineering Technologies, Hickory, NC for purchase of equipment at the Center for Engineering Technologies	146,000
North Dakota State College of Science, Wahpeton, ND for a Center for Nanoscience Technology Training	975,000
Northeast Community College, Norfolk, NE, for nurse training, including the purchase of equipment	165,000
Northern Essex Community College, Lawrence, MA, for equpment for allied health program	199,000
Northern Illinois University, DeKalb, IL for its College of Engineering and Engineering Technology	243,000
Northern Kentucky University Research Foundation, Highland Heights, KY for the METS Center, including purchase of equipment	195,000
Northern Kentucky University, Highland Heights, KY, for the Infrastructure Management Institute	487,000
Northern Kentucky University, Highland Heights, KY, for the nursing education program	123,000
Northern Rockies Educational Services, Twin Bridges, MT, to develop Taking Technology to the Classroom program	78,000
Northwest Shoals Community College, Phil Campbell, AL for technology upgrades	341,000
Northwestern State University of Louisiana, Natchitoches, LA, for a nursing education program	195,000
Norwich University, Northfield, VT for equipment and technology for a nursing program	341,000
Oakland Community College, Bloomfield Hills, MI for international education programs	331,000
Oklahoma Panhandle State University, Goodwell, OK for purchase of equipment	97,000
Onondaga Community College, Syracuse, NY for purchase of equipment	243,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Oregon Health and Science University, Portland, OR for academic programs in the OGI School of Science and Engineering	390,000
Oregon Institute of Technology, Klamath Falls, OR for development of associate's and bachelor's degree programs in the health professions	341,000
Owens Community College, Toledo, OH for a first responder training initiative, including curriculum development	146,000
Palm Beach Community College, Lake Worth, FL for equipment and technology	316,000
Paula and Anthony Rich Center for the Study and Treatment of Autism, Youngstown, OH for distance learning technology and programs	429,000
Pennsylvania Highlands Community College, Johnstown, PA, for laboratory equipment and technology upgrades and acquisition	87,000
Philadelphia School District, Philadelphia, PA for the CORE Philly Scholarship Program	560,000
Philadelphia University, Philadelphia, PA, for the Scientific Reasoning / Inquiry Based Education (SCRIBE) initiative	87,000
Pierce College, Tacoma, WA for the Center of Excellence for Homeland Security, including curriculum development and training	181,000
Pittsburg State University, Pittsburg, KS for equipment for its Kansas Technology Center	268,000
Plymouth State University, Plymouth, NH, for a collaborative research institute for sustainable rural economics	195,000
Polk Community College, Winter Haven, FL for advanced manufacturing training programs	292,000
Portland State University, Portland, OR for equipment and technology for its science research and teaching center	390,000
Prince George's Community College, Largo, MD for equipment and technology to upgrade a management information system	341,000
Purchase College, State of University of New York, Purchase, NY, for science and math education programs, including teacher preparation programs	195,000
Radford University, Radford, VA for a study of the feasibility of establishing a graduate school in the medical sciences	390,000
Redlands Community College, El Reno, OK, for nursing programs	97,000
Rhode Island College, Providence, RI for development of a Portuguese and Lusophone Studies Program	97,000
Richard Stockton College of New Jersey, Pomona, NJ for curriculum development	341,000
Richland Community College, Decatur, IL for development of an alternative fuels education and training program	312,000
Richmond Community College, Hamlet, NC for equipment and programs at the Industrial Training Center	195,000
Robert Morris University, Moon Township, PA, for health care professional education programs in the use of electronic health records	87,000
Rochester Area Colleges, Rochester, NY, for Excellence in Math and Science	975,000
Rockford College, Rockford, IL for technology upgrades and other equipment	195,000
Round Rock Higher Education Center, Round Rock, TX for nursing programs, including purchase of equipment	438,000
Rust College, Holly Springs, MS, for acquisition of equipment for the Science and Mathematics Annex	467,000
Rutgers University School of Law - Camden, NJ for student scholarships and loan repayment, internships and public interest programming	624,000
Ryan Foundation, Wayne, PA, for civic education programs	87,000
Saint Anselm College, Manchester, NH, for a civic education program	195,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Salt Lake Community College, Salt Lake City, Utah, to train health care professionals	413,000
Salve Regina University, Newport, RI, for historic preservation education programs including equipment	828,000
San Jacinto College, Pasadena, TX for a health care education and training initiative, which may include equipment and technology	243,000
Santa Clara University, Santa Clara, CA for equipment, technology, and training for its library and information commons initiative	487,000
Security on Campus, Inc., King of Prussia, PA, for campus safety peer education programs	29,000
Seminole State College, Seminole, OK, for the Medical Laboratory Technology Program, including technology acquisition	97,000
Seton Hall University, South Orange, NJ for equipment and technology for its science and technology center	511,000
Shippensburg University, Shippensburg, PA, for technology upgrades and acquisition	87,000
Siena Heights University, Adrian, MI for nursing programs	195,000
Silver Lake College, Manitowoc, WI for nursing programs, including curriculum development	180,000
Simpson College, Indianola, IA for purchase of equipment	292,000
South Carolina Technical College System, Columbia, SC, to fund apprenticeship pilot programs in economically distressed areas	165,000
Southeastern Pennsylvania Consortium for Higher Education, Glenside, PA, for equipment	414,000
Southern Utah University, Cedar City, Utah, to enchance academic skills and training of science teachers in southern Utah through mobile classrooms	48,000
Southwestern Indian Polytechnic Institute, Albuquerque, NM, to expand a renewable energy training program	331,000
Sparks College, Shelbyville, IL for a closed captioner training program	195,000
Spelman College, Atlanta, GA, for programs to recruit and increase graduation rates for African-American females pursuing sciences, mathematics, or dual-engineering degrees	82,000
Springfield Public Schools Academy of Arts and Academics, Springfield, OR, for classroom equipment and technology	82,000
St. Bonaventure University, St. Bonaventure, NY for equipment at the science facility	341,000
St. Bonaventure University, St. Bonaventure, NY for technology upgrades	292,000
St. Clair County Community College, Port Huron, MI for purchase of equipment	146,000
St. Francis College, Brooklyn, NY for equipment and technology to support its science, technology, engineering and math initiative	750,000
St. Petersburg College, St. Petersburg, FL for a distance learning program, including technology upgrades and purchase of equipment	292,000
State University of New York at New Paltz, NY, for curriculum development in economic development and governance	292,000
State University of New York at Potsdam, Potsdam, NY for teacher training initiatives	97,000
Stonehill College, Easton, MA, to procure equipment and develop programs for the Center for Non-Profit Management	165,000
Susquehanna University, Selinsgrove, PA, for laboratory equipment and technology acquisition	87,000
Sweetwater Education Foundation, Chula Vista, CA, for its Compact for Success program, which may include student scholarships	292,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Texas Chiropractic College, Pasadena, TX for health professions training.	97,000
Texas State Technical College, Waco, TX, for equipment for education and training programs	146,000
Texas Tech University, Lubbock, TX for the Center for the Study of Addiction and Recovery	146,000
Texas Woman's University, Denton, TX, for the Institute of Health Sciences Dallas Center, for acquisition of technology	170,000
Thiel College, Greenville, PA, for technology infrastructure upgrades and acquisition	87,000
Tohono O'odham Community College, Sells, AZ for computer, science and mathematics equipment, technology and instructional materials	121,000
Tougaloo College, Tougaloo, MS, for an international study abroad program	195,000
Tri-County Community College, Murphy, NC for equipment and technology	48,000
Trident Technical College, Charleston, SC for nursing curriculum development	195,000
Trinity University, San Antonio, TX for purchase of equipment	146,000
Turtle Mountain Community College, Belcourt, ND, to develop a vocational and technical training curriculum	624,000
Univ. of Utah Health Sciences Center, Salt Lake City, UT for the Health Sciences LEAP Program to expand the pipeline of underrepresented students in health professions	82,000
University of Alaska, Anchorage, Anchorage, AK, for the 49th State Scholars program	341,000
University of Alaska, Anchorage, Anchorage, AK, for the Alaska Native Students Science and Engineering program	975,000
University of Arizona, Tucson, AZ for development of a pilot project to provide instructional and support services to ensure the academic success of disabled veterans	341,000
University of Arizona, Tucson, AZ, for the Integrative Medicine in Residency program	195,000
University of Arkansas for Medical Sciences, Little Rock, AR, for equipment and curriculum development for genetic counseling and other health care programs	390,000
University of California at Berkeley, Berkeley, CA for the Matsui Center for Politics and Public Service, which may include establishing an endowment, and for cataloguing the papers of Congressman Robert Matsui	975,000
University of Central Arkansas, Conway, AR, for a technology training and instruction initiative, which may include equipment	609,000
University of Central Florida, Orlando, FL for the Lou Frey Institute of Politics	243,000
University of Dubuque in Dubuque, Iowa for the establishment of a nursing education program	438,000
University of Florida, Gainesville, FL for purchase of equipment at the College of Education	195,000
University of Hawaii at Hilo for an Applied Rural Science program and a Clinical Pharmacy Training Program, for clinical pharmacy training program	780,000
University of Hawaii School of Law, for a health policy center and cultural education programs	195,000
University of Idaho, Moscow, ID, for the Gateway to Math Program, for continued outreach to pre-college math students	121,000
University of Louisiana at Monroe, Monroe, LA for technology upgrades at the College of Pharmacy	390,000
University of Michigan Depression Center, Ann Arbor, MI for the Postsecondary Education Campus Support project	390,000
University of Mississippi, Oxford, MS, for program development, start-up costs and curriculum	2,478,000
University of Montevallo, Montevallo, AL for the Teacher Leadership Initiative for School Improvement	195,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
University of New Hampshire, Manchester Campus, Manchester, NH, to expand business and high technology academic programs	330,000
University of New Mexico, Albuquerque, NM for the American Indian Language Policy Research and Teacher Training Center	292,000
University of North Carolina at Wilmington, Wilmington, NC for development of an assistive technology center, which may include equipment	380,000
University of North Carolina at Wilmington, Wilmington, North Carolina, for nursing programs including military veterans, clinical research and distance learning	205,000
University of North Florida, Jacksonville, FL for the Virtual School Readiness Incubator	243,000
University of Northern Iowa, Cedar Falls, IA, for the development of math and science programs	154,000
University of Scranton, Scranton, PA, for equipment acquisition to support nursing and allied health education programs	87,000
University of Southern Mississippi, Hattiesburg, MS, for curriculum development and acquisition of equipment	826,000
University of Tennessee, Knoxville, TN, for the Baker Center for Public Policy	4,875,000
University of Texas at Tyler, Tyler, TX for a science, technology, engineering and mathematics program, including teacher training	146,000
University of Texas Medical Branch at Galveston, Galveston, TX for nursing programs	146,000
University of Texas Medical Branch at Galveston, Galveston, TX for the Centralized Clinical Placement system, including purchase of equipment	97,000
University of Tulsa, Tulsa, OK, for acquisition of equipment at the Center for Information Security	97,000
University of Vermont of Burlington, Burlington, VT, to establish advanced practice graduate nursing program in psychiatric-mental health nursing	195,000
University of Vermont of Burlington, VT, Burlington, VT, to establish a child psychiatry fellowship program	195,000
University of Virginia Center for Politics, Charlottesville, VA for the Youth Leadership Initiative	419,000
University of Washington at Bothell, WA for an initiative to train nursing faculty in partnership with a consortium of colleges	292,000
University of Wisconsin Eau Claire, Eau Claire, WI, to provide educational programs in nanotechnology	156,000
University of Wisconsin Platteville, Platteville, WI, to establish an English as a Second Language teacher certification program	121,000
University of Wisconsin Whitewater, Whitewater, WI, to establish a certification program for science teachers	121,000
University of Wisconsin-Marshfield, Marshfield, WI for equipment and technology for science laboratories	195,000
Urban College of Boston, Boston, MA, to support higher education programs serving low-income and minority students	619,000
Utah Valley State College, Orem, UT for a civic education program, including purchase of equipment	195,000
Utah Valley State College, Orem, Utah, to expand nursing education, including technology acquisition and curriculum development	48,000
Vanguard University Nursing Center, Costa Mesa, CA for teacher and nurse training programs	146,000
Vermont Technical College, Randolph Center, VT, for equipment for Fire Science Program	414,000
Villa Julie College, Stevenson, MD, to expand the Nursing Distance Learning Program	487,000
Virginia Polytechnic Institute and State University, Blacksburg, VA, for equipment	390,000
Waldorf College, Forest City, IA for purchase of equipment	117,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Washburn University, Topeka, KS, for equipment acquisition to train students in science and health-related fields	236,000
Washington & Jefferson College, Washington, PA, for foreign language programs	87,000
Washington State University, Pullman, WA, for mentoring programs women in science programs	341,000
Weber State University, Ogden, UT for the TAPT program to recruit additional teachers	146,000
Weber State University, Ogden, Utah, for stipends and tuition asssistance for faculty to pursue advanced nursing degree	413,000
Weber State University, Ogden, Utah, to provide mentoring for minority disadvantaged students	48,000
West Central Technical College, Waco, GA for purchase of equipment	146,000
West Chester University, West Chester, PA for nursing program development	243,000
West Chester University, West Chester, PA, for technology infrastructure upgrades and acquisition	87,000
Western Iowa Tech Community College, Sioux City, IA, for equipment	97,000
Western Kentucky University Research Foundation, Bowling Green, KY, for equipment acquisition for the science, technology and engineering facility	1,462,000
Western Oregon University, Monmouth, OR, for equipping a nursing simulation laboratory	204,000
Wheaton College, Norton, MA, to procure educational equipment and information technology to support science center expansion	165,000
Wheelock College, Boston, MA, for educational equipment and curriculum development for the K-9 science teachers program	204,000
William Paterson University, Wayne, NJ, for curriculum development and other activities to establish the Center for the Study of Critical Languages	204,000
Wisconsin Association of Independent Colleges and Universities, Madison, WI for continued implementation of the WAICU Collaboration Project	336,000
Wittenberg University, Springfield OH for a teacher training initiative	390,000
York College of Pennsylvania, York, PA, for laboratory equipment and technology upgrades and acquisition	87,000
York College, City University of New York, Jamaica, NY for activities to prepare students for careers in aviation management	312,000
York College, York, NE, for training of clinical social workers in central and western Nebraska, including curriculum development	97,000

The Appropriations Committees are concerned about the reduced level of participation of Hispanic students in the TRIO Talent Search program, and encourage the Secretary of Education to enhance program outreach efforts to Hispanics with the goal of increasing the participation rates of Hispanic students in Talent Search.

With regard to Teacher Quality Enhancement Grants, the Appropriations Committees intend that the increase provided over the amount needed for continuing awards in fiscal year 2008 be used solely for partnership grants to institutions of higher education, schools of arts and sciences, and high-need school districts that are focused on teacher pre-service preparation.

Institute of Education Sciences

The amended bill includes $555,815,000 for the Institute of Education Sciences (IES) instead of $535,103,000 as proposed by the House and $589,826,000 as proposed by the Senate. The agreement provides $293,155,000 of total funding to be available through fiscal year 2009.

The amended bill includes language that permits funds available under the Statewide Data Systems program to be used for grants to States for data coordinators, who will increase State capacity to more seamlessly collect data from LEAs, utilize that data within state policy and educational improvement initiatives, and ensure that complete and proper data is reported to the Education Department and the public, in accordance with NCLB and other statutes. The bill language also allows for the Secretary to make an award or awards to improve data collection and coordination through a state education data center.

The Appropriations Committees request a report from the Department before any funds are obligated for these newly-authorized purposes that includes an assessment of the impact on funding available to States for the original purpose of the program's authorization; how the state education data center will ensure state and local reporting burden will be reduced; how the Department will maintain accountability provisions of the federal statutes under a third-party data collection regime; and the policies established or proposed to ensure that non-governmental organizations continue to have appropriate access to data collections.

The amended bill does not include funding requested by the Administration for a pilot study to develop a student unit record data system as proposed by the House. The Senate did not include similar language.

The Appropriations Committees support the expansion of the number of urban districts participating in the trial urban district assessment, as well as the administration of scheduled assessments in subjects approved by the National Assessment Governing Board (NAGB) and 12th grade State reading and math assessments. The amended bill provides funding flexibility if the NAGB is able to identify resources for these initiatives.

The National Assessment Governing Board is requested to make particular certifications regarding the National Assessment of Educational Progress 2009 science test, as described in section 310 of H.R. 3043, as passed by the Senate. The House bill did not include a similar provision.

The Government Accountability Office is requested to conduct a study on strategies used to prepare students to meet State academic standards, as described in section 313 of H.R. 3043, as passed by the Senate. The House bill did not include a similar provision.

Departmental Management

PROGRAM ADMINISTRATION

The amended bill includes $418,587,000 for Departmental program administration instead of $219,487,000 as proposed by the House and $420,631,000 as proposed by the Senate.

The Secretary of Education is required to assess the impact on education felt by students in States with a high proportion of Federal lands compared to students in non-public land States and to submit a report no later than one year after enactment of this Act. The Senate had a similar requirement in bill language. The House did not have similar language.

OFFICE FOR CIVIL RIGHTS

The amended bill includes $91,205,000 for the Office for Civil Rights instead of $93,771,000 as proposed by both the House and the Senate.

OFFICE OF THE INSPECTOR GENERAL

The amended bill provides $51,753,000 for the Office of the Inspector General instead of $53,239,000 as proposed by the House and $54,239,000 as proposed by the Senate.

General Provisions

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The amended bill includes a general provision similar to that proposed by the Senate providing the Secretary of Education with the authority to transfer up to one percent of discretionary funds between appropriations, but no appropriation shall be increased by more than three percent by any such transfer. This transfer is available only to meet emergency needs. The Appropriations Committees are to be notified 15 days in advance of any transfer. The House bill included a similar provision, but allowed transfers for unanticipated needs and allowed an appropriation to be increased up to an additional two percent subject to approval of the Appropriations Committees.

INTEGRITY AND ETHICAL VALUES IN DEPARTMENT OF EDUCATION

The amended bill modifies a general provision proposed by the House requiring the Secretary of Education to establish procedures to assess whether covered individuals or entities have potential financial interest in or impaired objectivity regarding a product or service purchased with or guaranteed or insured by the Department of Education or one of its contracted entities. The Secretary is directed to disclose any such potential financial interest. The Department of Education Inspector General is directed to report on the adequacy of the procedures established by the Department and to conduct a review within one year to ensure that the procedures are effective. The Senate did not have a similar provision.

IMPACT AID

The amended bill modifies a general provision proposed by the Senate regarding Impact Aid to several school districts in Illinois by expanding eligibility for these districts for two years. The House did not have a similar provision.

VOLUNTARY FLEXIBLE AGREEMENT

The amended bill includes a general provision proposed by the Senate that requires the Secretary of Education to renegotiate the existing "voluntary flexible agreements" under the Higher Education Act, which allow student loan guaranty agencies to be compensated by the Federal government for preventing student loan defaults, rather than collecting on defaulted loans. The provision requires the Secretary to negotiate new, cost-neutral agreements by March 31, 2008 with any guaranty agency that had a voluntary flexible agreement that was determined not to be cost-neutral in October 2007, unless such guaranty agency does not wish to enter into such agreement. The House did not include a similar provision.

DEFINITION OF A HIGHER EDUCATION INSTITUTION

The amended bill includes a general provision not in either the House or Senate bill permitting continued student financial aid eligibility to an institution of higher education affiliated with an entity that filed a bankruptcy petition in 2001.

STUDENT FINANCIAL AID ADMINISTRATION

(RESCISSION OF FUNDS)

The amended bill includes a general provision rescinding $25,000,000 from excess student aid administration balances. The House and Senate bills did not contain this rescission.

Impact Aid

The amended bill includes a general provision regarding eligibility for Impact Aid basic support payments to heavily impacted school districts in fiscal year 2008. The House and Senate bills did not include this provision.

UNDERGROUND RAILROAD

The amended bill does not include a general provision proposed by the Senate providing funding for the Underground Railroad Educational and Cultural Program, to be funded through an administrative reduction. The House did not have a similar provision. Funding for this activity is included in the Higher Education account.

UPWARD BOUND EVALUATION

The amended bill does not include a provision in Title III regarding a prohibition of funds to implement an evaluation of the Upward Bound program until after the authorizing committees have reviewed the regulation as proposed by the Senate. A similar provision was included in the House bill, and is included in Title V of the amended bill.

ANNUAL REPORT CARD

The amended bill does not include a provision included in the Senate bill requiring the Secretary of Education to submit to the appropriate committees of Congress and post on the internet an annual report card pertaining to Department personnel and programs. The House bill did not contain a similar provision.

SCIENCE ASSESSMENT

The amended bill does not include a general provision proposed by the Senate expressing the sense of the Senate regarding science teaching and the National Assessment of Educational Progress 2009 science test. The House did not have a similar provision. Language relating to this provision is included in the IES section of this statement.

STEM PROGRAMS

The amended bill does not include a general provision proposed by the Senate that provides funding for programs that assist teachers acquiring degrees in science, technology, engineering, math (STEM) or critical foreign languages. The Senate proposed an administrative reduction to support these program increases. The House did not include a similar provision. Funding for these programs is included in the Higher Education account.

THREAT ASSESSMENTS

The amended bill does not include a general provision proposed by the Senate that requires the Secretary of Education to update the 2002 guidance on threat assessment in schools to reflect the recommendations of the report to the President regarding the legal sharing of personal information under various statutes. The House did not include a similar provision. This issue is discussed in the Safe Schools and Citizenship Education section of this statement.

GAO REPORT ON ACHIEVEMENT STANDARDS

The amended bill does not include a general provision proposed by the Senate requiring the Government Accountability Office to submit a report to Congress on student preparation techniques to meet State academic achievement standards. The House did not include a similar provision. This issue is discussed in the IES section of this statement.

TITLE IV—RELATED AGENCIES

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $796,662,000 for the operating expenses of the programs administered by the Corporation for National and Community Service (CNCS) instead of $768,905,000 as proposed by the House and $804,489,000 as proposed by the Senate. The amended bill includes language specifying funding amounts for domestic volunteer service programs and national and community service programs as proposed by the House. The Senate did not specify funding levels in the bill. As proposed by the House, the amended bill includes language allowing one percent of grant funds also to be used for electronic management of the grants cycle. The Senate did not propose similar bill language.

DOMESTIC VOLUNTEER SERVICE PROGRAMS

The amended bill includes language that none of the funds provided for program operating expenses may be used to provide stipends or monetary incentives to program participants or volunteer leaders who exceed the income guidelines in the Domestic Volunteer Service Act. Both the House and Senate bills proposed similar language.

The amended bill does not include language proposed by the Senate that all prior year unobligated balances from the "Domestic Volunteer Service Programs, Operating Expenses" account shall be transferred to and merged with this appropriation. The House bill did not propose similar language.

NATIONAL AND COMMUNITY SERVICE PROGRAMS

National Service Trust

Within the total for National and Community Service programs, the amended bill includes language, as proposed by the House, designating that not more than $55,000,000 of grants under the National Service Trust may be used to administer, reimburse, or support national service programs instead of $65,000,000 as proposed by the Senate.

AMERICORPS GRANTS

The amended bill includes language, similar to Senate report language, allowing the transfer of any deobligated funds from closed out AmeriCorps grants to the National Service Trust. The House did not propose similar language.

The amended bill does not include language proposed by the Senate setting aside funding for grants under the National Service Trust program for activities under the AmeriCorps Education Awards Program. The House bill did not propose similar language.

The amended bill does not include language proposed by the Senate that up to $4,000,000 shall be to support national service scholarships for high school students performing community service. The House did not propose similar language.

The amended bill does not include language proposed by the Senate that of the amount provided for educational awards, $7,000,000 shall be held in reserve as defined by the Strengthen AmeriCorps Program Act. The House did not propose similar language.

Innovation, Assistance, and Other Activities

Within the amount for Innovation, Assistance, and Other Activities, the amended bill includes the following: $500,000 for Martin Luther King grants; $5,000,000 for Disability grants; $850,000 for the Service-Learning Clearinghouse and Exchange; and $4,879,000 for National Service Outreach and Innovation activities.

Also within the total for Innovation, Assistance, and Other Activities, the amended bill includes $8,000,000 for merit-based competitive grants for supporting and expanding volunteerism. The Appropriations Committees expect that previous partnership grantees, such as the Points of Light Foundation, America's Promise, and Communities in Schools, will be eligible to compete for these grants and recommend that consideration be given to national programs that build alignment among youth-serving organizations and other sectors to promote coordination of services for disadvantaged youth to achieve better outcomes.

The amended bill does not include language proposed by the Senate setting aside not more than $10,466,000 for quality and innovation activities. The House did not propose similar language.

National Civilian Community Corps

The amended bill includes language designating that funding for the National Civilian Community Corps (NCCC) shall be available until September 30, 2009. Neither the House nor the Senate proposed similar language.

The amended bill includes language, as proposed by the Senate, that of the amount provided for NCCC, no less than $5,000,000 shall be for the acquisition, renovation, equipping, and startup costs for campuses—one located in Vinton, Iowa and the other in Vicksburg, Mississippi. As proposed by the Senate, these center sites should be restored based on CNCS' 2005 geographic assessment and its more specific site evaluation in October 2006. The Appropriations Committees expect that an NCCC class will be operating out of each facility by the end of fiscal year 2008 as proposed by the Senate. The House did not propose similar language.

Learn and Serve America

The amended bill does not include language proposed by the House designating funding for service-learning programs to remain available until September 30, 2009. The Senate bill did not include similar language.

SALARIES AND EXPENSES

The amended bill includes $68,964,000 for the Corporation for National and Community Service salaries and expenses, as proposed by the House, instead of $69,520,000 as proposed by the Senate.

OFFICE OF INSPECTOR GENERAL

The amended bill includes $5,932,000 for the Office of Inspector General (OIG) instead of $5,512,000 as proposed by the House and $6,900,000 as proposed by the Senate. The OIG is directed to continue reviewing the management of the National Service Trust and to continue reviewing the annual Trust reports and to notify the Committees on Appropriations of the House of Representatives and the Senate on the accuracy of the reports as proposed by the Senate. The House did not propose similar language.

ADMINISTRATIVE PROVISIONS

CHANGES THROUGH RULEMAKING

The amended bill includes language that CNCS shall make any changes to program requirements, service delivery, or policy only through public notice and comment rulemaking to include service delivery changes in the administration and/or governance of national service programs. Both the House and Senate proposed similar language.

PROFESSIONAL CORPS

The amended bill includes language proposed by the House allowing professional corps programs to apply for a certain waiver to allow applicants to apply through State formula. The Senate did not propose similar language.

DONATED SERVICES

The amended bill includes language proposed by the House to allow CNCS to solicit and accept compensated and commercial services of organizations and individuals (other than participants) to assist in carrying out the duties of CNCS under the national service laws and that such an individual shall be subject to the same protections and limitations as volunteers. The Senate did not propose similar language.

COMBINED MATCHING OF GRANTS

The amended bill includes language proposed by the House specifying that AmeriCorps programs receiving grants under the National Service Trust program shall meet an overall minimum share requirement of 24 percent for the first three years that they receive funding and thereafter shall meet certain requirements as provided in the Code of Federal Regulations, without regard to the operating costs match requirement. The Senate did not propose similar language.

MANAGING STATE FORMULA GRANTS

The amended bill includes language that formula-based grants to States and territories to operate AmeriCorps programs may be made if the application describes certain criteria related to positions and qualifications and makes assurances with regard to subgrants prior to the execution of any subgrants. Neither the House nor the Senate proposed similar language.

OFFICE OF INSPECTOR GENERAL AUDITS

The amended bill does not include language proposed by both the House and Senate that the Inspector General shall conduct random audits of grantees that administer activities under the AmeriCorps programs and shall levy sanctions. The Appropriations Committees expect the Inspector General to continue conducting independent and objective audits and investigations to prevent and detect fraud, waste, and abuse as established in the Inspector General Act of 1978.

TRANSFER AUTHORITY

The amended bill does not include language proposed by the Senate to permit CNCS to transfer not to exceed one percent of any discretionary funds between activities. The House did not propose similar language.

CORPORATION FOR PUBLIC BROADCASTING

The amended bill includes language as proposed by the House that prohibits funds made available to the Corporation for Public Broadcasting by this Act to be used to apply any political test or qualification in selecting, appointing, promoting, or taking any other personnel action with respect to officers, agents, and employees of the Corporation. The Senate bill did not include a similar provision.

The amended bill also prohibits the use of fiscal years 2008, 2009, and 2010 funds available to CPB for the Television Future Fund as proposed by the House. The Senate bill included a similar provision.

FEDERAL MEDIATION AND CONCILIATION SERVICE

SALARIES AND EXPENSES

The amended bill provides $43,800,000 for the Federal Mediation and Conciliation Service instead of $44,450,000 as proposed by both the House and the Senate. Within the total the amended bill does not provide any funds for the Federal Mediation and Conciliation Service's Labor-Management Grants Program as proposed in both the House and Senate bills.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

OFFICE OF MUSEUM AND LIBRARY SERVICES: GRANTS AND ADMINISTRATION

The amended bill provides $268,193,000 for the Institute of Museum and Library Services instead of $264,812,000 as proposed by the House and $265,680,000 as proposed by the Senate. The Appropriations Committees concur with language included in the House report that gives the Institute of Museum and Library Services the authority and resources to carry out the mission of the National Commission on Libraries and Information Science. The Senate report did not include similar language. The amended bill also includes language allowing funds to be made available for grants to commemorative Federal commissions that support museum and library activities, similar to language proposed by the Senate.

Within the total for the Institute, the amended bill includes the following activities in the following amounts:

Program	Amended bill
Museums for America	$17,152,000
Museum Assessment	442,000
Museum Conservation Projects	2,772,000
Museum Conservation Assessment	807,000
Museum National Leadership Project	7,920,000
Native American Museum Services	911,000
21st Century Museum Professionals	982,000
Museum Grants, African American History and Culture	842,000
Library Services State Grants	163,746,000
Native American Library Services	3,638,000
Library National Leadership Grants	12,375,000
Laura Bush 21st Century Librarian Program	23,760,000
Policy, Research, and Statistics	2,000,000
Administration	12,236,000

The amended bill includes funds within the Office of Museum and Library Services to support the following projects in the following amounts:

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Aerospace Museum of California Foundation, McClellan, CA for exhibits	341,000
Alabama School of Math and Science, Mobile, AL for purchase of library materials	141,000
Alaska Native Heritage Center, Anchorage, AK, for a partnership with Koahnic Broadcasting for a Native Values project	243,000
America's Black Holocaust Museum, Milwaukee, WI for exhibits and education programs, which may include acquisition of interactive media center kiosks	73,000
American Airpower Museum, Farmingdale, NY for exhibits and education programs	292,000
American Jazz Museum, Kansas City, MO for exhibits and education programs, and an archival project	312,000
American West Heritage Center, Wellsville UT for the Lifelong Learning Initiative	195,000
Anne Arundel County Trust for Preservation, Inc., Annapolis, MD for exhibits and preservation	48,000
Archives Partnership Trust, New York, NY, to digitize fragile artifacts	82,000
Armory Center for the Arts, Pasadena, CA for educational programming	73,000
Bandera County, Bandera, TX for library enhancements	195,000
Bellevue Arts Museum, Bellevue, WA	487,000
Bibliographical Society of America, New York, NY, for the First Ladies Museum in Canton, OH for the First White House Library Catalogue	126,000
Bishop Museum in Honolulu, HI, to enhance library services	97,000
Bishop Museum, Honolulu, HI, to provide Filipino cultural education	243,000
Boston Children's Museum, Boston, MA, for the development of exhibitions	165,000
Boyle County Public Library, Danville, KY for educational materials and equipment	195,000
Burpee Museum for educational programming and exhibits	146,000
Charlotte County, FL, Port Charlotte, FL for archiving and equipment	292,000
Children's Museum of Indianapolis, Indianapolis, IN for exhibits and equipment	238,000
Children's Museum of Los Angeles, Van Nuys, CA for exhibits and education programs	292,000
Cincinnati Museum Center, Cincinnati, OH for a digital records initiative	243,000
City of Chino Hills, Chino Hills, CA for library facility improvements	195,000
College Park Aviation Museum, College Park, MD for exhibits and educational programs	146,000
Connecticut Historical Society Museum, Hartford, CT for educational programs and interactive school programs at the Old State House	97,000
Contra Costa County, Martinez, CA for library services and its Technology for Teens in Transition volunteer mentor program at the Juvenile Hall Library	121,000
Corporation for Jefferson's Poplar Forest, Forest, VA for expansion of exhibits and outreach	195,000
County of San Bernardino, San Bernardino, CA for exhibits and programming	243,000
Dallas, Texas, Dallas, TX, for the Women's Museum to expand outreach and programming efforts	195,000
Des Moines Art Center, IA, for exhibits	292,000
Discovery Center of Idaho, Boise, ID for a science center	243,000
Everson Museum of Art of Syracuse, Syracuse, NY for expansion of the Visual Thinking Strategies and Arts Education program	243,000
Fairfield County Public Library, Winnsboro, SC, for acquisition of equipment to upgrade the library facilities	82,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project.	Amount (in dollars)
Figge Foundation, Davenport, Iowa, for exhibits, education programs, community outreach, and/or operations	292,000
Florida Holocaust Museum, St. Petersburg, FL for exhibits and programming	292,000
Florida Memorial University, Miami Gardens, FL, for upgrades to the Nathan W Collier Library	165,000
Florida Southern College, Lakeland, FL to digitize holdings and create an online exhibit	243,000
Free Library of Philadelphia Foundation, Philadelphia, PA, for technology upgrades and acquisition	87,000
George and Eleanor McGovern Library, Dakota Wesleyan University, Mitchell, SD for cataloging, preparing, and archiving documents and artifacts relating to the public service of Senator Francis Case and Senator George McGovern	341,000
George C. Marshall Foundation, Lexington, VA for research activities	146,000
George Washington University, Washington, DC for the Eleanor Roosevelt Papers Project	370,000
Great Basin College, Elko, NV, to develop exhibits and conduct outreach to education programs	341,000
Heard Museum, Phoenix, AZ for web-based exhibits and educational programming	97,000
Heckscher Museum of Art, Huntington, NY for digitalization of collections and related activities	97,000
Historic Hudson Valley, Tarrytown, NY for education programs	48,000
Historic Hudson Valley, Tarrytown, NY, for education programs at Philipsburg Manor	219,000
History Museum of East Ottertail County, Perham, MN for exhibits and equipment	146,000
Holbrook Public Library, Holbrook, MA, for the development of exhibits	121,000
Impression 5 Science Center, Lansing, MI for exhibits	146,000
Iola Public Library, Iola, Kansas for educational programs, outreach, and materials	48,000
Iowa Radio Reading Information Service (IRRIS), to expand services	195,000
Italian-American Cultural Center of Iowa in Des Moines, IA for exhibits, multi-media collections, display	146,000
James A. Michener Art Museum, Doylestown, PA for equipment, salaries and supplies	97,000
James K. Polk Association, Columbia, TN, for exhibit preparation at Polk Presidential Hall	243,000
Jefferson Barracks Heritage Foundation Museum, St. Louis, MO for exhibits	146,000
Kansas Regional Prisons Museum, Lansing, KS for educational and outreach programs	97,000
Kellogg Hubbard Library, Montpelier, VT, for education and outreach	390,000
Los Angeles Craft and Folk Art Museum, Los Angeles, CA, for education and outreach	82,000
Massie Heritage Center, Savannah, GA for exhibit upgrades and purchase of equipment	243,000
Metropolitan Library System, Chicago, IL for educational programming and materials	234,000
Mid-America Arts Alliance, Kansas City, MO, for the HELP program	97,000
Monterey Bay Aquarium, Monterey, CA for educational programming and outreach	73,000
Morris Museum, Morristown, NJ for development of the Interactive Educational Workshop Center Exhibit	243,000
Museum of Afro-American History, Boston, MA, for the development of youth educational programs	204,000
Museum of Aviation Foundation, Warner Robins, GA for education programs	341,000

The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.

Project	Amount (in dollars)
Museum of Science and Technology, Syracuse, NY for museum exhibits and operations	243,000
Museum of Utah Art & History, Salt Lake City, Utah, to improve technology and exhibit preparation	206,000
Newport News, Virginia, Newport News, VA, to enhance library services	146,000
Oklahoma City National Memorial Foundation, Oklahoma City, OK, for educational programs and services	97,000
Onondaga County Public Library, Syracuse, NY for technology upgrades	243,000
Orem, Utah, for technological upgrades, equipment and resource sharing for the Orem public library	247,000
Overton County Library, Livingston, TN for collections, technology, and education programs	243,000
Pennsylvania State Police Historical, Educational and Memorial Museum, Hershey, PA for exhibits and educational materials	146,000
Pico Rivera Library, Pico Rivera, CA for books and materials, equipment, and furnishings	234,000
Portfolio Gallery and Education Center, St. Louis, MO for educational programming	87,000
Putnam Museum of History and Natural Science, Davenport, IA, for exhibits and community outreach	292,000
Ralph Mark Gilbert Civil Rights Museum, Savannah, GA for exhibits, education programs, and equipment	48,000

Tubman African American Museum, Macon, GA for exhibits and education programs	68,000
Twin Cities Public Television, St. Paul, MN for the Minnesota Digital Public Media Archive	487,000
University of Puget Sound, Tacoma, WA for the James R. Slater Museum of Natural History for collections, education programs, and outreach	243,000
University of Vermont of Burlington, VT, Burlington, VT, for a digitization project	390,000
Yolo County Library, Woodland, CA for an after-school assistance and literacy program	136,000
Young At Art Children's Museum, Davie, FL for the Global Village Project	170,000

NATIONAL COMMISSION ON LIBRARIES AND INFORMATION SCIENCE

SALARIES AND EXPENSES

The amended bill includes $400,000 for the National Commission on Libraries and Information Science as proposed by the Senate. The House did not include funds for this activity. The Appropriations Committees instruct that these funds be used for the close out activities of the Commission.

NATIONAL LABOR RELATIONS BOARD

SALARIES AND EXPENSES

The amended bill includes $256,238,000 for the National Labor Relations Board instead of $256,988,000 as proposed by the Senate and $257,488,000 as proposed by the House.

NATIONAL MEDIATION BOARD

SALARIES AND EXPENSES

The amended bill includes $12,911,000 for the National Mediation Board instead of $12,992,000 as proposed by both the House and Senate. Within the total for the National Mediation Board, $669,000 is included to supplement the budget request for arbitration. These funds are provided for arbitrator salaries and should be used to address the backlog of section 3 arbitration cases. The House and Senate reports included similar language.

RAILROAD RETIREMENT BOARD

DUAL BENEFITS PAYMENT ACCOUNT

The amended bill includes language in the House bill providing that 2 percent of the amount available for payment of vested dual benefits will be available for the dual benefits contingency reserve. The Senate bill contained a similar provision that specifically designated the amount available.

LIMITATION ON THE OFFICE OF INSPECTOR GENERAL

The amended bill includes $7,173,000 for the Office of Inspector General instead of $7,606,000 included in the House bill and $8,000,000 included in the Senate bill. The amended bill includes language proposed by the Senate bill that prohibits the transfer of funds to the Office of the Inspector General. The House bill did not include similar language. The bill also includes a provision that allows the Office of Inspector General to conduct audits, investigations, and reviews of the Medicare programs. The House bill did not include similar language.

SOCIAL SECURITY ADMINISTRATION

SUPPLEMENTAL SECURITY INCOME PROGRAM

The amended bill includes $27,000,191 for the Supplemental Security Income Program instead of $26,948,525,000 as proposed by the House and $27,005,500,000 as proposed by the Senate.

The amended bill provides funds to support the National Center on Senior Benefits Outreach and Enrollment within the Administration on Aging rather than in the Social Security Administration (SSA) as proposed by the Senate. The House did not provide funding for this activity within SSA.

LIMITATION ON ADMINISTRATIVE EXPENSES

The amended bill includes $9,917,842,000 for the limitation on administrative expenses, instead of $9,696,953,000 as proposed by the House and $9,871,953,000 as proposed by the Senate. SSA is expected to utilize these funds to ensure that the backlog of initial disability claims grows no larger and to pursue actions that will begin the reduction in the current appeals hearings backlog and processing times. The Appropriations Committees note that funding above the President's request is required in order to prevent such negative outcomes.

While the President's request did include resources above the fiscal year 2007 level for additional program integrity work, such as continuing disability reviews and redeterminations of eligibility, the amended bill does not include language requiring that funds be used for this purpose. Instead, the Appropriations Committees intend for SSA to allocate any funds not needed for timely processing of new disability claims and the hearings backlog reduction plan to such program integrity work.

The Appropriations Committees request that the Government Accountability Office (GAO) evaluate the Social Security Administration's plan to reduce the hearing backlog for disability claims at the Social Security Administration, as described in the report submitted by the Commissioner on September 13, 2007, pursuant to Senate Report 110–107. The Appropriations Committees further request that GAO also recommend any legislative changes based on its evaluation of the plan. The House did not propose similar language.

The Appropriations Committees also request that GAO assess existing authorities to hire, manage, and ensure accountability of administrative law judges in the proper administration of their duties and make recommendations for legislative changes that will support those findings. The Senate bill proposed similar language. The House did not propose similar language in either the bill or report.

OFFICE OF INSPECTOR GENERAL

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $93,549,000 for the Office of Inspector General, instead of $95,047,000 as proposed by the House and $96,047,000 as proposed by the Senate.

TITLE V—GENERAL PROVISIONS

NORMAL AND RECOGNIZED EXECUTIVE-CONGRESSIONAL COMMUNICATIONS

The amended bill includes a general provision as proposed by the House prohibiting the use of funds in the Act to promote the legalization of a drug or substance on the controlled substance list except for normal and recognized executive-congressional communications. The Senate bill included a similar prohibition, but deleted the exception for normal and recognized executive-congressional communications.

AGENCY OPERATING PLANS

The amended bill includes a general provision proposed by the House that requires each department and related agency funded through this Act to submit a fiscal year 2008 operating plan within 45 days of enactment of this Act. The Senate bill did not include a similar provision.

UPWARD BOUND EVALUATION

The amended bill includes a general provision proposed by the House that prohibits the use of funds to carry out the evaluation of the Upward Bound program described in the absolute priority for Upward Bound Program participant selection and evaluation published by the Department of Education in the Federal Register on September 22, 2006. The Senate bill contained a similar provision.

EMPLOYMENT OF UNAUTHORIZED WORKERS

The amended bill includes a provision proposed by the House that prohibits the use of funds in this Act to employ workers described in section 274A(h)(3) of the Immigration and Nationality Act. The Senate bill did not contain a similar provision.

NONCOMPETITIVE CONTRACTS AND GRANTS

The amended bill includes a provision proposed by the Senate that requires the Secretaries of Labor, Health and Human Services, and Education to submit a quarterly report to the Committees on Appropriations of the House of Representatives and the Senate containing certain information on noncompetitive contracts, grants and cooperative agreements exceeding $100,000 in value. The House bill did not include a similar provision.

INSPECTOR GENERAL WEBSITES

The amended bill includes a general provision proposed by the Senate that requires departments, agencies, and commissions funded in the Act to maintain a direct link on their websites to the websites of their Inspector General. The House bill did not include a similar provision.

CONTRACTOR AND GRANTEE FEDERAL TAX LIABILITY CERTIFICATIONS

The amended bill includes a general provision proposed by the Senate that prohibits the use of funds in this Act for a contract or grant exceeding $5,000,000 unless the prospective contractor or grantee makes certain certifications regarding Federal tax liability.

PHYSICIAN QUALITY INCENTIVE PAYMENTS

The amended bill modifies a general provision proposed by the Senate to amend the Social Security Act by reducing the amount available for the physician quality incentive payments by $150,000,000. The Senate provision also increased funding for the Social Security Administration by $150,000,000. The amended bill allocates these funds under the Social Security Administration account. The House bill did not include this provision.

IRAQI AND AFGHAN SPECIAL IMMIGRANTS

The amended bill includes a general provision proposed by the Senate that authorizes resettlement assistance, entitlement programs, and other benefits for a period of up to six months to Iraqi and Afghan aliens granted special immigration status. The House bill did not include a similar provision.

FRAUDULENT SOCIAL SECURITY NUMBERS

The amended bill includes a general provision proposed by the Senate that prohibits funds in this Act to process claims for credit for quarters of coverage based on work performed under a Social Security number that was not the claimant's number if such use of the Social Security number has been found to be an offense prohibited under section 208 of the Social Security Act. The House bill did not include a similar provision.

ACROSS THE BOARD REDUCTION

The amended bill includes rescission of approximately 1.7 percent of the budget authority provided for fiscal year 2008 for any discretionary account in this Act. This reduction shall be applied proportionately to each such discretionary account and each item of budget authority, and within each such account and item, to each program, project, and activity, pursuant to section 528. Within 30 days of enactment of this Act, the Director of the Office of Management and Budget shall submit to the Committees on Appropriations a report specifying the account and amount of each rescission made pursuant to this section.

PROHIBITION OF PRIVATE ENTITY TO DISBURSE RAILROAD RETIREMENT BENEFITS

The amended bill does not include a general provision proposed by the Senate that prohibits the Railroad Retirement Board from using funds in this Act to utilize a nongovernmental financial institution to disburse railroad retirement benefits. The enactment of Public Law 109-305 makes this provision unnecessary. The House bill did not include a similar provision.

AGENCY BUDGET JUSTIFICATIONS

The amended bill does not include a general provision proposed by the House that requires the Departments of Labor and Health and Human Services to provide Congressional budget justifications in the format used by the Department of Education. The Senate bill did not include a similar provision.

EMPLOYMENT VERIFICATION PILOT PROGRAM

The amended bill does not include a general provision that prohibits the use of funds to enter into a contract with an entity that does not participate in the basic pilot program described in section 403(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996. The Senate bill did not contain a similar provision.

DEPUTY COMMISSIONER OF THE SOCIAL SECURITY ADMINISTRATION

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in this Act to pay the basic pay of the Deputy Commissioner of the Social Security Administration if such individual has not been confirmed by a vote of the Senate. The Senate bill did not contain a similar provision.

HUMAN PAPILLOMAVIRUS VACCINE

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in this Act to implement any requirement that individuals receive vaccination for human papillomavirus (HPV) as a condition of school admittance or matriculation. The Senate bill did not contain a similar provision.

SCHOOL IMPROVEMENT PROGRAMS

The amended bill does not include a general provision proposed by the House that reduces funds for the Department of Labor management expenses and increases funds for Department of Education school improvement programs. The Senate bill did not contain a similar provision.

ORGAN TRANSPLANT REGULATION

The amended bill does not include a general provision proposed by the House that prohibits the use of funds by the Centers for Medicare & Medicaid Services to implement certain portions of the final rule published on March 30, 2007 pertaining to organ transplant centers. The Senate bill did not contain a similar provision.

DEPARTMENT OF EDUCATION OFFICE OF CIVIL RIGHTS

The amended bill does not include a general provision proposed by the House that increases and decreases funds for the Department of Education Office of Civil Rights. The amended bill reflects funding for this office under the appropriate account. The Senate bill did not include a similar provision.

EDUCATION FOR THE DISADVANTAGED

The amended bill does not include a general provision proposed by the House that increases and decreases funds for the Department of Education, Education for the Disadvantaged account. The amended bill provides funding for these programs under the appropriate account. The Senate bill did not include a similar provision.

CENTERS FOR DISEASE CONTROL

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in this Act for the Entertainment Education Program, the Ombudsman Program of the Centers for Disease Control (CDC), and for certain equipment for its fitness center. A similar prohibition of funds proposed by the Senate for the CDC Ombudsman Program and for certain equipment for CDC's fitness center is included under the Title II General Provisions.

USE OF ENERGY STAR LIGHT BULBS

The amended bill does not include a provision proposed by the House to prohibit the use of funds in this Act to purchase light bulbs without an "ENERGY STAR" designation. The Senate bill did not contain a similar provision.

ATTENDANCE AT INTERNATIONAL CONFERENCES

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in this Act for the attendance of more than 50 employees from a Federal agency at any international conference. The Senate bill did not include a similar provision.

DEPARTMENT OF LABOR TRAINING AND EMPLOYMENT SERVICES AND THE NATIONAL INSTITUTES OF HEALTH

The amended bill does not include a general provision proposed by the House that reduces amounts otherwise provided in this Act for the Department of Labor for training and employment services and increases amounts for certain institutes of the National Institutes of Health (NIH). The amended bill provides funds for the NIH under the appropriate accounts. The Senate bill did not include a similar provision.

SUNDANCE FILM FESTIVAL

The amended bill does not include a general provision proposed by the House that prohibits the use of funds by the Public Broadcasting Service to sponsor events at the Filmmaker Lodge at the Sundance Film Festival. The Senate bill did not include a similar provision.

HOSPITAL INPATIENT PROSPECTIVE PAYMENT REGULATION

The amended bill does not include a general provision proposed by the House that prohibits the use of funds in the Act to implement certain provisions in a proposed regulation published on May 3, 2007 pertaining to a hospital inpatient prospective payment system based on the use of a Medicare severity diagnosis related group, or to implement a prospective behavioral offset in response to implementation of such a payment system. The Senate bill did not include a similar provision.

CONGRESSIONAL PROJECTS

The amended bill does not include a general provision proposed by the Senate that prohibits the use of funds in the Act for Congressionally directed projects, unless the specific project has been disclosed in accordance with the rules of the Senate or House of Representatives. The Appropriations Committees concur that such projects are already subjected to the rules of each body. The House bill did not include a similar provision.

BETHEL PERFORMING ARTS CENTER

The amended bill does not include a general provision proposed by the Senate that prohibits the use of funds by the Institute for Museum and Library Services (IMLS) for the Bethel Performing Arts Center and make certain other funding adjustments within the IMLS and Health Resources and Services Administration accounts. The House bill did not include a similar provision.

GAO REPORT ON SOCIAL SECURITY ADMINISTRATION DISABILITY CLAIMS BACKLOG

The amended bill does not include a provision proposed by the Senate that requires the Government Accountability Office to submit a report to Congress evaluating the Social Security Administration's plan to reduce its hearing backlog for disability claims and to improve the disability process. This reporting requirement is included under the Social Security Administration account. The House bill did not include a similar provision.

GAO REPORT ON ADMINISTRATIVE LAW JUDGES

The amended bill does not include a provision proposed by the Senate that requires the Government Accountability Office to submit a report to Congress making recommendations on ways to improve the hiring and managing of administrative law judges. This reporting requirement is included under the Social Security Administration account. The House bill did not include a similar provision.

SOCIAL SECURITY OFFICE CLOSURE IN BRISTOL, CT

The amended bill does not include a provision proposed by the Senate that prohibits funds in this or any other Act to close the Bristol, CT Social Security Administration field office before the date on which the Commissioner of the Social Security Administration submits a detailed report outlining and justifying the process for selecting field offices to be closed. The House bill did not include a similar provision.

ILLEGAL DRUG INJECTION FACILITIES

The amended bill deletes without prejudice a general provision proposed by the Senate that prohibits funds in the Act from being allocated, directed, or otherwise made available to cities that provide safe haven to illegal drug users through the use of illegal drug injection facilities. The House bill did not include a similar provision.

SUPPLEMENTAL H-1B VISA FEES

The amended bill does not include a general provision proposed by the Senate to amend the Immigration and Nationality Act to require a supplemental H-1B visa fee, authorize a scholarship program at the National Science Foundation (NSF), and dedicate funds collected from such fees to the new NSF scholarship program and the Jacob K. Javits Gifted and Talented Students Education Act of 2001. The House bill did not contain a similar provision.

RECAPTURE OF UNUSED IMMIGRANT VISAS

The amended bill does not include a general provision proposed by the Senate to amend the American Competitiveness in the Twenty-first Century Act of 2000 to recapture prior year unused employment-based immigrant visas for nurses and require the Secretary of Homeland Security to establish a process for reviewing and acting on petitions for these visas. The House bill did not contain a similar provision.

NURSES AND OTHER HEALTH CARE PROFESSIONALS

The amended bill does not include a general provision proposed by the Senate to amend the American Competitiveness in the Twenty-first Century Act of 2000 to establish a fee for recaptured nurse visas, amend the Public Health Service Act to authorize a program of capitation grants to schools of nursing using such fees, and amend the Immigration and Nationality Act to provide for the temporary absence of aliens providing health care in developing countries. The House bill did not contain a similar provision.

PREMIUM AIRLINE TRAVEL

The amended bill does not include a general provision proposed by the Senate that prohibits funds in this Act for the purchase of first class or premium airline travel that would not be consistent with sections 301-10.123 and 301-10.124 of title 41 of the Code of Federal Regulations. The House did not contain a similar provision.

TITLE VI—NATIONAL COMMISSION ON CHILDREN AND DISASTERS

The amended bill includes language establishing a National Commission on Children and Disasters to conduct a study and make recommendations on the needs of children as they relate to preparation for, response to, and recovery from all hazards, including major disasters and emergencies.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in the House or Senate versions of H.R. 3043 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

LABOR / HHS / EDUCATION

[The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.]

Account	Project	Amount (in dollars)	Member
AOA	Allied Jewish Federation of Colorado, Denver, CO for a naturally occurring retirement communities demonstration project	292,000	DeGette, Diana; Salazar

FIPSE	Ivy Tech Community College, Evansville, IN for equipment and technology	73,000	Ellsworth, Brad; Lugar
FIPSE	Jackson State University, Jackson, MS for establishment of an osteopathic medical school	487,000	Thompson (MS), Bennie
FIPSE	James Rumsey Technical Institute, Martinsburg, WV for the Automotive Technology Program, including purchase of equipment	97,000	Capito, Shelley
FIPSE	Kansas City Kansas Community College, Kansas City, KS, to provide workforce development training to improve economic conditions and to reduce prisoner recidivism	487,000	Brownback
FIPSE	Kent State University, New Philadelphia, OH for equipment and technology for its Tuscarawas County campus	146,000	Space, Zachary
FIPSE	Keystone College, LaPlume, PA, for classroom and laboratory equipment upgrades and acquisition	87,000	Specter
FIPSE	King's College, Wilkes-Barre, PA to provide educational opportunities for students through civic engagement and service learning	334,000	Kanjorski, Paul; Specter, Casey
FIPSE	La Sierra University, Riverside, CA	204,000	Calvert, Ken
FIPSE	Lackawanna College, Scranton, PA for equipment, furnishings and operating expenses for an extension center in Susquehanna County	170,000	Carney, Christopher
FIPSE	Lackawanna College, Scranton, PA, for laboratory equipment and technology upgrades and acquisition	87,000	Specter
FIPSE	Lake City Community College, Lake City, FL for a math skills initiative	97,000	Crenshaw, Ander
FIPSE	Latino Institute, Inc., Newark, NJ for its Latino Scholars Program	136,000	Sires, Albio
FIPSE	Lesley University, Cambridge, MA, for educational and research equipment to support new science instruction laboratories	204,000	Kennedy, Kerry
FIPSE	Lewis and Clark Community College, Godfrey, IL, for its National Great Rivers Research and Education Center	390,000	Costello, Jerry
FIPSE	Lewis-Clark State College, Lewiston, ID, to continue and expand the American Indian Students in Leadership of Education (AISLE) program	187,000	Craig, Crapo
FIPSE	Lincoln College, Lincoln, IL for training, material acquisition and purchase of equipment	97,000	LaHood, Ray
FIPSE	Lincoln Memorial University College of Osteopathic Medicine, Harrogate, TN for curriculum development	487,000	Wamp, Zach
FIPSE	Lincoln University, Lincoln University, PA, for campus-wide technology upgrades and wiring	87,000	Specter
FIPSE	Linn-Benton Community College, Albany, OR for science and health equipment and technology	526,000	DeFazio, Peter; Hooley, Darlene; Wyden
FIPSE	Lock Haven University, Lock Haven, PA, to provide professional development partnerships and related services	87,000	Specter
FIPSE	Lorain County Community College, Elyria, OH for its library and community resource center, which may include equipment and technology	341,000	Kaptur, Marcy; Sutton, Betty
FIPSE	Los Angeles Valley College, Valley Glen, CA for its Solving the Math Achievement Gap program	195,000	Waxman, Henry
FIPSE	Lyon College, Batesville, AR, to purchase and install equipment	73,000	Berry, Marion; Lincoln, Pryor
FIPSE	MacMurray College, Jacksonville, IL for technology upgrades	341,000	LaHood, Ray
FIPSE	Madonna University, Livonia, MI for curriculum development for a disaster relief and recovery program	263,000	McCotter, Thaddeus; Levin
FIPSE	Maricopa County Community College, Tempe, AZ for the Bilingual Nursing Program at Gateway Community College in Phoenix, AZ	341,000	Pastor, Ed
FIPSE	Maryland Association of Community Colleges, Annapolis, MD, to expand and improve nursing programs at Maryland's community colleges	2,281,000	Mikulski
FIPSE	Marymount Manhattan College, New York, NY for a minority teacher preparation initiative	341,000	Maloney (NY), Carolyn; Schumer
FIPSE	McNeese State University, Lake Charles, LA for the Louisiana Academy for Innovative Teaching and Learning	146,000	Boustany, Charles; Landrieu, Vitter
FIPSE	Mesa Community College, Mesa, AZ for an online registered nurse recertification program	121,000	Mitchell, Harry
FIPSE	Mesa Community College, Mesa, AZ for the Enfermeras En Escalera program to address a shortage of nurses	170,000	Mitchell, Harry
FIPSE	Messiah College, Grantham, PA, for wireless technology acquisition and technology infrastructure improvements	87,000	Specter, Casey, Jr.
FIPSE	Metro State College, Denver, CO, for training and equipment acquisition	123,000	Allard
FIPSE	Metropolitan State University, St. Paul, MN for nursing education programs	487,000	McCollum (MN), Betty; Klobuchar, Coleman
FIPSE	MidAmerica Nazarene University, Olathe, KS, for equipment acquisition to expand distance education for teachers in western Kansas	292,000	Brownback; Moore (KS), Dennis
FIPSE	Middle Tennessee State University, Murfreesboro, TN, for the comprehensive math and science teacher training program	487,000	Alexander; Gordon, Bart
FIPSE	Midland College, Midland, TX for purchase of equipment at the Advanced Technology Center	146,000	Conaway, K.
FIPSE	Midwestern University Chicago College of Pharmacy, Downers Grove, IL for the Advanced Career Explorers Program	97,000	Roskam, Peter
FIPSE	Minnesota State Colleges and Universities, Office of the Chancellor, St. Paul, MN for a statewide veterans re-entry education program	1,119,000	Klobuchar, Coleman; Walz (MN), Timothy; Peterson (MN), Collin
FIPSE	Mira Costa Community College District, Oceanside, CA for a nursing education program, including purchase of equipment	341,000	Issa, Darrell
FIPSE	Mississippi Gulf Coast Community College, Gautier, MS for equipment and furnishings for a marine technology center and estuarine education center	195,000	Taylor, Gene; Lott

LABOR / HHS / EDUCATION—Continued

[The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.]

Account	Project	Amount (in dollars)	Member
FIPSE	Mississippi State University, Mississippi State, MS, for a leadership training program at the Appalachian Leadership Honors Program	97,000	Cochran; Pickering, Charles
FIPSE	Mississippi State University, Mississippi State, MS, for acquisition of equiment and curriculum development at the Wise Center-Broadcast Facility Conversion to Digital	975,000	Cochran
FIPSE	Missouri State University, Springfield, MO, for program development and expansion, equipment and technology for the Distance Learning Project on the West Plains Campus	825,000	Bond
FIPSE	Missouri State University-West Plains, West Plains, MO for technology upgrades and programming at the Academic Support Center	195,000	Emerson, Jo Ann
FIPSE	Monroe Community College, Rochester, NY for a special needs preparedness training program	438,000	Kuhl (NY), John; Clinton, Schumer
FIPSE	Montana Committee for the Humanities, Missoula, MT, to continue civic educational programs	78,000	Baucus
FIPSE	Montana State University - Billings, Billings, MT, for the Montana Energy Workforce Training Center	126,000	Tester
FIPSE	Montana State University-Billings, Billings, MT, to develop job-training programs	156,000	Baucus
FIPSE	Montana State University-Billings, Billings, MT, to expand professional development education programs for the health care industry	156,000	Baucus, Tester
FIPSE	Montgomery County Community College, Blue Bell, PA for curricula, equipment and technology, faculty, and outreach for its advanced technologies initiative	429,000	Schwartz, Allyson
FIPSE	Moravian College, Bethlehem, PA, for equipment and technology acquisition and curriculum development for a science initiative	87,000	Specter
FIPSE	Morehouse College, Atlanta, GA, to establish a research initiative to improve college graduation of minority students	82,000	Chambliss, Isakson
FIPSE	Mott Community College - Center for Advanced Manufacturing (CAM), Flint, MI, for a clearinghouse and pilot program for new technology	414,000	Levin , Stabenow
FIPSE	Mount Ida College, Newton, MA, for a veterinary technology program, which may include equipment	146,000	Frank (MA), Barney; Kennedy, Kerry
FIPSE	Muhlenberg College, Allentown, PA, for education and outreach services to support undergraduate students with disabilities	87,000	Specter, Casey, Jr.; Dent, Charles
FIPSE	Murray State University, Hopkinsville, KY for purchase of equipment at the Veterinary Center	195,000	Whitfield, Ed
FIPSE	Nevada State College, Henderson, NV for the accelerated nursing program	438,000	Porter, Jon
FIPSE	Nevada State College, Henderson, NV, for math and science teacher initiatives	316,000	Reid
FIPSE	New College of Florida, Sarasota, FL for equipment at the Jane Bancroft Cook Library	243,000	Buchanan, Vern
FIPSE	New College of Florida, Sarasota, FL for the Public Archaeology Laboratory, including purchase of equipment	219,000	Buchanan, Vern; Nelson, Bill
FIPSE	New College of Florida, Sarasota, FL for the Strategic Languages Resource Center, including purchase of equipment	292,000	Buchanan, Vern
FIPSE	New Hampshire Community Technical College System, Concord, NH, to expand and modernize engineering technology programs	247,000	Sununu, Gregg
FIPSE	New Hampshire Community Technical College System, Concord, NH, to standardize technology and learning across seven community colleges	146,000	Gregg
FIPSE	New Hampshire Community Technical College-Manchester, Manchester, NH for equipment for nursing and allied health education and training programs	146,000	Shea-Porter, Carol
FIPSE	Niagara County Community College, Sanborn, NY for equipment	341,000	Reynolds, Thomas; Clinton, Schumer
FIPSE	North Arkansas College, Harrison, AR for technology upgrades	209,000	Boozman, John; Lincoln, Pryor
FIPSE	North Carolina Center for Engineering Technologies, Hickory, NC for purchase of equipment at the Center for Engineering Technologies	146,000	McHenry, Patrick
FIPSE	North Dakota State College of Science, Wahpeton, ND for a Center for Nanoscience Technology Training	975,000	Dorgan, Conrad; Pomeroy, Earl
FIPSE	Northeast Community College, Norfolk, NE, for nurse training, including the purchase of equipment	165,000	Hagel, Ben Nelson
FIPSE	Northern Essex Community College, Lawrence, MA, for equpment for allied health program	199,000	Kennedy, Kerry; Meehan, Martin
FIPSE	Northern Illinois University, DeKalb, IL for its College of Engineering and Engineering Technology	243,000	Lipinski, Daniel
FIPSE	Northern Kentucky University Research Foundation, Highland Heights, KY for the METS Center, including purchase of equipment	195,000	Davis (KY), Geoff
FIPSE	Northern Kentucky University, Highland Heights, KY, for the Infrastructure Management Institute	487,000	McConnell
FIPSE	Northern Kentucky University, Highland Heights, KY, for the nursing education program	123,000	Bunning
FIPSE	Northern Rockies Educational Services, Twin Bridges, MT, to develop Taking Technology to the Classroom program	78,000	Baucus
FIPSE	Northwest Shoals Community College, Phil Campbell, AL for technology upgrades	341,000	Aderholt, Robert; Shelby
FIPSE	Northwestern State University of Louisiana, Natchitoches, LA, for a nursing education program	195,000	Landrieu, Vitter; McCrery, Jim
FIPSE	Norwich University, Northfield, VT for equipment and technology for a nursing program	341,000	Welch (VT), Peter
FIPSE	Oakland Community College, Bloomfield Hills, MI for international education programs	331,000	Levin, Sander; Levin
FIPSE	Oklahoma Panhandle State University, Goodwell, OK for purchase of equipment	97,000	Lucas, Frank
FIPSE	Onondaga Community College, Syracuse, NY for purchase of equipment	243,000	Walsh (NY), James; Clinton, Schumer
FIPSE	Oregon Health and Science University, Portland, OR for academic programs in the OGI School of Science and Engineering	390,000	Wu, David; Wyden
FIPSE	Oregon Institute of Technology, Klamath Falls, OR for development of associate's and bachelor's degree programs in the health professions	341,000	Walden (OR), Greg; Smith

LABOR/HHS/EDUCATION—Continued

[The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.]

Account	Project	Amount (in dollars)	Member
FIPSE	Owens Community College, Toledo, OH for a first responder training initiative, including curriculum development	146,000	Gillmor, Paul
FIPSE	Palm Beach Community College, Lake Worth, FL for equipment and technology	316,000	Klein (FL), Ron; Hastings (FL), Alcee; Wexler, Robert
FIPSE	Paula and Anthony Rich Center for the Study and Treatment of Autism, Youngstown, OH for distance learning technology and programs	429,000	Ryan (OH), Tim
FIPSE	Pennsylvania Highlands Community College, Johnstown, PA, for laboratory equipment and technology upgrades and acquisition	87,000	Specter
FIPSE	Philadelphia School District, Philadelphia, PA for the CORE Philly Scholarship Program	560,000	Fattah, Chaka
FIPSE	Philadelphia University, Philadelphia, PA, for the Scientific Reasoning / Inquiry Based Education (SCRIBE) initiative	87,000	Specter
FIPSE	Pierce College, Tacoma, WA for the Center of Excellence for Homeland Security, including curriculum development and training	181,000	Reichert, David; Dicks, Norm; Cantwell
FIPSE	Pittsburg State University, Pittsburg, KS for equipment for its Kansas Technology Center	268,000	Boyda (KS), Nancy
FIPSE	Plymouth State University, Plymouth, NH, for a collaborative research institute for sustainable rural economics	195,000	Gregg; Hodes, Paul
FIPSE	Polk Community College, Winter Haven, FL for advanced manufacturing training programs	292,000	Putnam, Adam
FIPSE	Portland State University, Portland, OR for equipment and technology for its science research and teaching center	390,000	Wyden, Smith; Wu, David; Walden (OR), Greg
FIPSE	Prince George's Community College, Largo, MD for equipment and technology to upgrade a management information system	341,000	Wynn, Albert
FIPSE	Purchase College, State of University of New York, Purchase, NY, for science and math education programs, including teacher preparation programs	195,000	Lowey, Nita; Schumer
FIPSE	Radford University, Radford, VA for a study of the feasibility of establishing a graduate school in the medical sciences	390,000	Boucher, Rick
FIPSE	Redlands Community College, El Reno, OK, for nursing programs	97,000	Inhofe; Lucas, Frank
FIPSE	Rhode Island College, Providence, RI for development of a Portuguese and Lusophone Studies Program	97,000	Kennedy, Patrick; Reed, Whitehouse
FIPSE	Richard Stockton College of New Jersey, Pomona, NJ for curriculum development	341,000	LoBiondo, Frank
FIPSE	Richland Community College, Decatur, IL for development of an alternative fuels education and training program	312,000	Hare, Phil; Johnson (IL), Timothy
FIPSE	Richmond Community College, Hamlet, NC for equipment and programs at the Industrial Training Center	195,000	Hayes, Robin
FIPSE	Robert Morris University, Moon Township, PA, for health care professional education programs in the use of electronic health records	87,000	Specter; Murphy, Tim
FIPSE	Rochester Area Colleges, Rochester, NY, for Excellence in Math and Science	975,000	Schumer, Clinton
FIPSE	Rockford College, Rockford, IL for technology upgrades and other equipment	195,000	Manzullo, Donald
FIPSE	Round Rock Higher Education Center, Round Rock, TX for nursing programs, including purchase of equipment	438,000	Carter, John
FIPSE	Rust College, Holly Springs, MS, for acquisition of equipment for the Science and Mathematics Annex	487,000	Cochran
FIPSE	Rutgers University School of Law - Camden, NJ for student scholarships and loan repayment, internships and public interest programming	624,000	Andrews, Robert; Lautenberg
FIPSE	Ryan Foundation, Wayne, PA, for civic education programs	87,000	Specter
FIPSE	Saint Anselm College, Manchester, NH, for a civic education program	195,000	Gregg
FIPSE	Salt Lake Community College, Salt Lake City, Utah, to train health care professionals	413,000	Bennett
FIPSE	Salve Regina University, Newport, RI, for historic preservation education programs including equipment	828,000	Reed, Whitehouse
FIPSE	San Jacinto College, Pasadena, TX for a health care education and training initiative, which may include equipment and technology	243,000	Lampson, Nick
FIPSE	Santa Clara University, Santa Clara, CA for equipment, technology, and training for its library and information commons initiative	487,000	Honda, Michael; Eshoo, Anna
FIPSE	Security on Campus, Inc., King of Prussia, PA, for campus safety peer education programs	29,000	Specter
FIPSE	Seminole State College, Seminole, OK, for the Medical Laboratory Technology Program, including technology acquisition	97,000	Inhofe; Fallin, Mary
FIPSE	Seton Hall University, South Orange, NJ for equipment and technology for its science and technology center	511,000	Payne, Donald; Rothman, Steven; Lautenberg, Menendez
FIPSE	Shippensburg University, Shippensburg, PA, for technology upgrades and acquisition	87,000	Specter, Casey, Jr.; Platts, Todd
FIPSE	Siena Heights University, Adrian, MI for nursing programs	195,000	Walberg, Timothy; Levin
FIPSE	Silver Lake College, Manitowoc, WI for nursing programs, including curriculum development	180,000	Petri, Thomas
FIPSE	Simpson College, Indianola, IA for purchase of equipment	292,000	Latham, Tom; Grassley
FIPSE	South Carolina Technical College System, Columbia, SC, to fund apprenticeship pilot programs in economically distressed areas	165,000	Graham
FIPSE	Southeastern Pennsylvania Consortium for Higher Education, Glenside, PA, for equipment	414,000	Casey, Jr.
FIPSE	Southern Utah University, Cedar City, Utah, to enchance academic skills and training of science teachers in southern Utah through mobile classrooms	48,000	Hatch
FIPSE	Southwestern Indian Polytechnic Institute, Albuquerque, NM, to expand a renewable energy training program	331,000	Bingaman
FIPSE	Sparks College, Shelbyville, IL for a closed captioner training program	195,000	Shimkus, John; Obama

LABOR / HHS / EDUCATION—Continued

[The amounts provided for projects displayed in this table are prior to the reduction in Section 528 of this bill.]

Account	Project	Amount (in dollars)	Member
FIPSE	Spelman College, Atlanta, GA, for programs to recruit and increase graduation rates for African-American females pursuing sciences, mathematics, or dual-engineering degrees	82,000	Chambliss
FIPSE	Springfield Public Schools Academy of Arts and Academics, Springfield, OR, for classroom equipment and technology	82,000	Smith, Wyden
FIPSE	St. Bonaventure University, St. Bonaventure, NY for equipment at the science facility	341,000	Kuhl (NY), John; Walsh, James T.
FIPSE	St. Bonaventure University, St. Bonaventure, NY for technology upgrades	292,000	Kuhl (NY), John; Schumer
FIPSE	St. Clair County Community College, Port Huron, MI for purchase of equipment	146,000	Miller (MI), Candice; Levin
FIPSE	St. Francis College, Brooklyn, NY for equipment and technology to support its science, technology, engineering and math initiative	750,000	Clarke, Yvette; Towns, Edolphus; King (NY), Peter; Clinton, Schumer
FIPSE	St. Petersburg College, St. Petersburg, FL for a distance learning program, including technology upgrades and purchase of equipment	292,000	Young (FL), C.W.
FIPSE	State University of New York at New Paltz, NY, for curriculum development in economic development and governance	292,000	Schumer, Clinton
FIPSE	State University of New York at Potsdam, Potsdam, NY for teacher training initiatives	97,000	McHugh, John; Clinton, Schumer
FIPSE	Stonehill College, Easton, MA, to procure equipment and develop programs for the Center for Non-Profit Management	165,000	Kennedy, Kerry
FIPSE	Susquehanna University, Selinsgrove, PA, for laboratory equipment and technology acquisition	87,000	Specter, Casey
FIPSE	Sweetwater Education Foundation, Chula Vista, CA, for its Compact for Success program, which may include student scholarships	292,000	Filner, Bob; Feinstein
FIPSE	Texas Chiropractic College, Pasadena, TX for health professions training.	97,000	Lampson, Nick
FIPSE	Texas State Technical College, Waco, TX, for equipment for education and training programs	146,000	Edwards, Chet
FIPSE	Texas Tech University, Lubbock, TX for the Center for the Study of Addiction and Recovery	146,000	Neugebauer, Randy
FIPSE	Texas Woman's University, Denton, TX, for the Institute of Health Sciences Dallas Center, for acquisition of technology	170,000	Hutchison
FIPSE	Thiel College, Greenville, PA, for technology infrastructure upgrades and acquisition	87,000	Specter
FIPSE	Tohono Oodham Community College, Sells, AZ for computer, science and mathematics equipment, technology and instructional materials	121,000	Grijalva, Raul
FIPSE	Tougaloo College, Tougaloo, MS, for an international study abroad program	195,000	Cochran
FIPSE	Tri-County Community College, Murphy, NC for equipment and technology	48,000	Shuler, Heath; Burr
FIPSE	Trident Technical College, Charleston, SC for nursing curriculum development	195,000	Brown (SC), Henry
FIPSE	Trinity University, San Antonio, TX for purchase of equipment	146,000	Smith (TX), Lamar
FIPSE	Turtle Mountain Community College, Belcourt, ND, to develop a vocational and technical training curriculum	624,000	Dorgan, Conrad; Pomeroy, Earl
FIPSE	Univ. of Utah Health Sciences Center, Salt Lake City, UT for the Health Sciences LEAP Program to expand the pipeline of underrepresented students in health professions	82,000	Hatch
FIPSE	University of Alaska, Anchorage, Anchorage, AK, for the 49th State Scholars program	341,000	Stevens
FIPSE	University of Alaska, Anchorage, Anchorage, AK, for the Alaska Native Students Science and Engineering program	975,000	Stevens
FIPSE	University of Arizona, Tucson, AZ for development of a pilot project to provide instructional and support services to ensure the academic success of disabled veterans	341,000	Grijalva, Raul
FIPSE	University of Arizona, Tucson, AZ, for the Integrative Medicine in Residency program	195,000	Harkin
FIPSE	University of Arkansas for Medical Sciences, Little Rock, AR, for equipment and curriculum development for genetic counseling and other health care programs	390,000	Lincoln, Pryor
FIPSE	University of California at Berkeley, Berkeley, CA for the Matsui Center for Politics and Public Service, which may include establishing an endowment, and for cataloguing the papers of Congressman Robert Matsui	975,000	Lee, Barbara
FIPSE	University of Central Arkansas, Conway, AR, for a technology training and instruction initiative, which may include equipment	609,000	Lincoln, Pryor; Snyder, Vic
FIPSE	University of Central Florida, Orlando, FL for the Lou Frey Institute of Politics	243,000	Keller, Ric
FIPSE	University of Dubuque in Dubuque, Iowa for the establishment of a nursing education program	438,000	Harkin
FIPSE	University of Florida, Gainesville, FL for purchase of equipment at the College of Education	195,000	Mica, John
FIPSE	University of Hawaii at Hilo for an Applied Rural Science program and a Clinical Pharmacy Training Program, for clinical pharmacy training program	780,000	Inouye
FIPSE	University of Hawaii School of Law, for a health policy center and cultural education programs	195,000	Inouye
FIPSE	University of Idaho, Moscow, ID, for the Gateway to Math Program, for continued outreach to pre-college math students	121,000	Craig, Crapo
FIPSE	University of Louisiana at Monroe, Monroe, LA for technology upgrades at the College of Pharmacy	390,000	Alexander, Rodney; Landrieu, Vitter
FIPSE	University of Michigan Depression Center, Ann Arbor, MI for the Postsecondary Education Campus Support project	390,000	Knollenberg, Joe; Levin
FIPSE	University of Mississippi, Oxford, MS, for program development, start-up costs and curriculum	2,478,000	Lott
FIPSE	University of Montevallo, Montevallo, AL for the Teacher Leadership Initiative for School Improvement	195,000	Aderholt, Robert; Shelby
FIPSE	University of New Hampshire, Manchester Campus, Manchester, NH, to expand business and high technology academic programs	330,000	Sununu
FIPSE	University of New Mexico, Albuquerque, NM for the American Indian Language Policy Research and Teacher Training Center	292,000	Wilson (NM), Heather; Domenici

House bill, fiscal year 2008	-6,294,325
Senate bill, fiscal year 2008	-4,380,607

DIVISION H—LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Legislative Branch Appropriations Act, 2008, H.R. 2771 passed by the House of Representatives, and S. 1686 reported by the Senate Appropriations Committee.

Many items in both versions of the Legislative Branch Appropriations bills are identical and are included in the amended bill without change. The Appropriations Committees have endorsed statements of policy contained in the House and Senate reports accompanying the respective Legislative Branch Appropriations bills unless amended or restated herein. With respect to those items in the amended bill that differ between House and Senate Legislative Branch bills, the Committees have agreed to the following with the appropriate section numbers, punctuation, and other technical corrections:

TITLE I

SENATE

The Appropriations Committees agree to appropriate $834,031,000 for Senate operations. Inasmuch as these items relate solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the House has accepted the proposal of the Senate.

HOUSE OF REPRESENTATIVES

The Appropriations Committees agree to appropriate $1,188,211,000 for House operations. Inasmuch as these items relate solely to the House, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the Senate has accepted the proposal of the House.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

The amended bill includes $4,398,000 as proposed by the House and the Senate.

JOINT COMMITTEE ON TAXATION

The amended bill includes $9,220,000 instead of $9,416,000 as proposed by the House and the Senate.

JOINT CONGRESSIONAL COMMITTEE ON INAUGURAL CEREMONIES OF 2009

The amended bill includes $1,240,000 instead of $1,250,000 as proposed by the Senate.

OFFICE OF THE ATTENDING PHYSICIAN

The amended bill includes $2,798,000 instead of $2,820,000 as proposed by the House and the Senate.

CAPITOL GUIDE SERVICE AND SPECIAL SERVICES OFFICE

The amended bill includes $5,348,000 for the Capitol Guide Service and Special Services Office instead of $4,448,000 as proposed by the House and $7,864,000 as proposed by the Senate.

STATEMENTS OF APPROPRIATIONS

The amended bill includes $30,000 as proposed by the House and the Senate.

CAPITOL POLICE

SALARIES

The amended bill provides $232,800,000 for salaries and benefits of the United States Capitol Police (USCP), instead of $224,500,000 as proposed by the House and $225,930,000 as proposed by the Senate. This level will support current sworn staffing of 1,671 and 10 new officers associated with Library of Congress attrition. An additional 21 new officers for the Capitol Visitor Center are authorized for fiscal year 2008, providing total sworn personnel of 1,702. In addition, funding is provided to support 391 civilian personnel. The Chief of Police is to submit a prioritized listing of the current authorized 414 civilian personnel to the Appropriations Committees no later than February 1, 2008.

The amended bill includes costs associated with additional duty hours. Section 1003 transfers funds from the Architect of the Capitol to the USCP for security costs associated with the utility tunnel repairs and asbestos abatement. Understanding this is a multi-year project, the Chief of Police is to provide the Appropriations Committees with a cost-benefit analysis of continuing to provide this security with overtime versus additional new officers by March 3, 2008. The Committees have denied $500,500 in overtime associated with the new requirement of staffing the New Visitor Experience at the Library of Congress beginning April 1, 2008. Should the Librarian of Congress open this facility prior to the public opening of the Capitol Visitor Center, associated overtime must be funded within the Library of Congress appropriation.

GENERAL EXPENSES

The amended bill provides $48,900,000 for general expenses of the Capitol Police, instead of $61,500,000 as proposed by the House and $58,070,000 as proposed by the Senate. The Committees direct that $4,600,000 for general expenses in support of the 2008 conventions be funded with available unobligated balances, subject to the approval of the Appropriations Committees.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The Committees have included an administrative provision, section 1001, which authorizes transfers between various accounts upon the approval of the Appropriations Committees. Sec. 1002 provides advance payment authority for subscription services, subject to prior notification. In regard to any advance payment for subscription services, a discount offered to the USCP must exceed the cost of the funds per the rate published by the United States Treasury (I TFM 6-8040.40). Section 1003 provides for security costs associated with the utility tunnel project. Section 1004 includes language that finalizes the merger of the Library of Congress Police into the Capitol Police.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

The amended bill includes $3,350,000 instead of $3,806,000 as proposed by the House and the Senate.

ADMINISTRATIVE PROVISION

Section 1101 authorizes increased compensation for the board and officers of the Office of Compliance.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

The amended bill includes $37,399,000 for salaries and expenses of the Congressional Budget Office instead of $37,805,000 as proposed by the House and $38,510,000 as proposed by the Senate.

ADMINISTRATIVE PROVISION

The amended bill includes language permitting the Director of the Congressional Budget Office to conduct an executive exchange program with the private sector.

ARCHITECT OF THE CAPITOL

GENERAL ADMINISTRATION

The amended bill includes $79,897,000 of which $400,000 shall remain available until September 30, 2012 for General Administration instead of $81,733,000 of which $400,000 would remain available until September 30, 2012 as proposed by the House, and $81,584,000 of which $1,119,000 would remain available until September 30, 2012 as proposed by the Senate.

With respect to operations and projects, the Appropriations Committees have agreed to the following:

Operating Budget	$78,133,000
Project Budget:	
1. UPSs, Spare Hardware, and Software for AOC BASNet	84,000
2. Recertification of Lightning Protection Systems	130,000
3. Switchgear, Generator, and ATS Maintenance	550,000
4. Arc Flash Labeling of Electrical Distribution Equipment	600,000
5. Energy Survey of Congressional Buildings (Study)	400,000
Total, General Administration	79,897,000

CAPITOL BUILDING

The amended bill includes $24,090,000, of which $8,290,000 shall remain available until September 30, 2012, for maintenance, care and operation of the Capitol, instead of $24,567,000 of which $8,790,000 would remain available until September 30, 2012 as proposed by the House, and $25,247,000 of which $8,790,000 would remain available until September 30, 2012 as proposed by the Senate.

With respect to the Emergency Exit Signs and Lighting, Phase III, the Architect is directed to fund this high-priority project from unobligated balances of prior year funds. With respect to operations and other projects, the Appropriations Committees have agreed to the following:

Operating Budget	$15,112,000
Project Budget:	
1. Computer, Telecom, & Electrical Support	298,000
2. Legislative Call System Upgrade, Phase II	150,000

3. Elevator Modernization S-4	240,000
4. Conservation of Wall Paintings	500,000
5. Inaugural Support, 2009	3,600,000
6. West Grand Stair Enclosure	1,190,000
7. Minor Construction	3,000,000
Total, Capitol Building	24,090,000

CAPITOL GROUNDS

The amended bill includes $10,090,000 for the care and improvements of the grounds surrounding the Capitol, House and Senate office buildings, and the Capitol Power Plant, of which $500,000 will remain available until September 30, 2012, instead of $9,310,000 of which $500,000 would remain available until September 30, 2012 as proposed by the House, and $9,915,000 of which $325,000 would remain available until September 30, 2012 as proposed by the Senate.

With respect to operations and projects, the Appropriations Committees have agreed to the following:

Operating Budget	$9,010,000
Project Budget:	
1. Perimeter Fence Replacement, Parking Lots	40,000
2. Stabilization and Life Safety Projects, Summer House	540,000
3. Greening of the Capitol Initiative	500,000
Total, Capitol Grounds	10,090,000

SENATE OFFICE BUILDINGS

The amended bill includes $70,283,000, of which $14,400,000 would remain available until September 30, 2012, for the maintenance, care and operation of the Senate office buildings. Inasmuch as these items relate solely to the Senate, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the House has accepted the proposal of the Senate.

Operating Budget	$54,858,000
Project Budget:	
1. Legislative Call System Replacement 3	350,000
2. Refinish Historic Woodwork	175,000
3. Repair Marble Floors & Clean Arch Surfaces	250,000
4 Seal Fire Wall Penetrations, HSOB, DSOB	250,000
5. Emergency Generator System	6,040,000
6. Exterior Envelope, RSOB (study)	250,000
7. Replace Modular Furniture, HSOB	3,000,000
8. Steam Pressure Reducing Valve Replacement, HSOB (design)	100,000
9. Fire Alarm System Replacement (DWPD)	650,000
10. Fire Alarm System Replacement (SECC)	400,000
11. Minor Construction	3,960,000
Total, Senate Office Buildings	70,283,000

HOUSE OFFICE BUILDINGS

The amended bill includes $65,635,000, of which $25,400,000 would remain available until September 30, 2012, for the maintenance, care and operation of the House office buildings. Inasmuch as these items relate solely to the House, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the Senate has accepted the proposal of the House.

The Committees note the initiation of a pilot project at the Cannon and Longworth House Office Buildings to evaluate green roof technology. Green roofs have been shown to reduce storm water runoff, reduce cooling and heating costs, and protect the underlying roof systems to extend their useful life.

Operating Budget	$39,835,000
Project Budget:	
1. Legislative Call System Replacement	400,000
2. Emergency Lighting Upgrade, RHOB (Phase 2)	4,390,000
3. Minor Construction	4,910,000
4. Greening of the Capitol Initiative	100,000
5. FDA Building	16,000,000
Total, House Office Buildings	65,635,000

CAPITOL POWER PLANT

In addition to the $8,000,000 made available from receipts credited as reimbursements to this appropriation, the amended bill includes $85,310,000 for maintenance, care and operation of the Capitol Power Plant, instead of $83,017,000 as proposed by the House and $83,447,000 as proposed by the Senate. Of this amount, $3,155,000 would remain available until September 30, 2012, instead of $4,945,000 to remain available until September 30, 2012 as proposed by the House and $3,755,000 to remain available until September 30, 2012 as proposed by the Senate.

With respect to operations and projects, the Appropriations Committees have agreed to the following:

Operating Budget (net)	$78,620,000
Project Budget:	
1. Spare Gearbox and Hub & Blade Assembly for the West Plant	75,000
2. Electrical Breaker Materials	190,000
3. Hazardous Materials Survey (Study)	75,000
4. Back-Up Blow-Down System Installation & Blowdown Heat Recovery (Design)	110,000
5. East Refrigeration Plant Chillers Relocation (Design)	150,000
6. Wickes Boilers Useful Life (Study)	200,000
7. OSHA Analysis of Plant Buildings (Study)	220,000
8. Condensate and Water Piping & Valve Replacement (Design)	400,000
9. Greening of the Capitol Initiative	3,270,000
10. Minor Construction	2,000,000
Total, Capitol Power Plant (net)	85,310,000

LIBRARY BUILDINGS AND GROUNDS

The amended bill includes $27,553,000 for structural and mechanical care, Library buildings and grounds, instead of $31,638,000 as proposed by the House and $28,061,000 as proposed by the Senate. Of this amount, $4,890,000 would remain available until September 30, 2012, instead of $10,140,000 to remain available until September 30, 2012 as proposed by the House and $3,900,000 to remain available until September 30, 2012 as proposed by the Senate.

With respect to the following high-priority projects: Egress Improvements (Library-wide), Sprinkler System Expansion (Thomas Jefferson building), and Smoke Detector Upgrades (James Madison building), the Architect is directed to fund these projects from unobligated balances of prior year funds. With respect to operations and other projects, the Appropriations Committees have agreed to the following:

Operating Budget	$20,381,000
Project Budget	
1. Sidewalk Replacement, LOC Campus	100,000
2. Electrical Vault Repairs	225,000
3. Painting Arches, TJB	237,000
4. 95% Filtration LOC—Phase 1 of 3	250,000
5. Backflow Preventer Installation	250,000
6. Upgrade Power Data Center, JMMB	250,000
7. Life Safety Deficiencies Abatement	390,000
8. Transite Panel Abatement, TJB	580,000
9. Return Air System Modifications, Ground Floor Corridors, JAB	830,000
10. Elevator and Escalator Modernization, TJB-1 & 2, JMMB D-1 through D-4, and ESC 1 & 2	2,560,000
11. Minor Construction	1,500,000
Total, Library Buildings and Grounds	27,553,000

CAPITOL POLICE BUILDINGS, GROUNDS, AND SECURITY

The amended bill includes $14,966,000 instead of $16,109,000 as proposed by the House and $15,116,000 as proposed by the Senate. Of this amount, $1,000,000 would remain available until September 30, 2012, instead of $2,500,000 to remain available until September 30, 2012 as proposed by the House and $1,000,000 to remain available until September 30, 2012 as proposed by the Senate.

With respect to operations and projects, the Appropriations Committees have agreed to the following:

Operating Budget	$13,966,000
Project Budget:	
1. Minor Construction	1,000,000
Total, Capitol Police Buildings and Grounds	14,966,000

BOTANIC GARDEN

The amended bill includes $8,808,000 for the Botanic Garden, instead of $8,310,000 as proposed by the House and $9,363,000 of which $855,000 would remain available until September 30, 2012 as proposed by the Senate.

With respect to operations and projects, the Appropriations Committees have agreed to the following:

Operating Budget	$8,308,000
Project Budget:	
1. Partnership Support	300,000
2. Administration Building Repairs	200,000
Total, Botanic Garden	8,808,000

CAPITOL VISITOR CENTER

The amended bill includes $28,753,000 for the Capitol Visitor Center as proposed by the

Senate instead of $27,545,000 as proposed by the House. Of this amount, $8,500,000 may be used for operations.

With respect to operations and projects, the Appropriations Committees have agreed to the following:

Operating Budget	$8,500,000
Project Budget:	
1. Capitol Visitor Center Construction	20,253,000
Total, Capitol Visitor Center	28,753,000

ADMINISTRATIVE PROVISIONS

The amended bill includes several administrative provisions related to the operations of the Architect of the Capitol (AOC). Section 1301 establishes the Office of the Inspector General. Section 1302 provides authorization for a pilot program for flexible work schedules. Section 1303 authorizes the payment of travel and transportation expenses of new appointees. Section 1304 provides advance payment authority for subscription services, subject to prior notification. In regard to any advance payment for subscription services, a discount offered to the AOC must exceed the cost of the funds per the rate published by the United States Treasury (1 TFM 6-8040.40). Section 1305 provides for the maintenance of the Capitol Visitor Center. Section 1306 adjusts the approval process for leasing authority. Section 1307 provides authority for the Architect of the Capitol to grant easements for rights-of-way on all property designated as Capitol Grounds. Section 1308 provides authority for the Architect to award design-build construction contracts. Section 1309 provides for the appointment of the assistant to the Chief Executive Officer for Visitor Services.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

The amended bill includes $395,784,000 for salaries and expenses, Library of Congress instead of $401,000,000 as proposed by the House and $407,811,000 as proposed by the Senate. Of this amount $6,350,000 is made available from receipts collected by the Library of Congress and is to remain available until expended, and up to $16,451,000 is to remain available until September 30, 2010 for partial acquisition of books, periodicals, newspapers, and all other library materials. The amended bill also includes specific amounts for designated purposes. The amount provided includes $50,000 for the digitization of the Theodore Roosevelt papers.

As a result of cumulative operating plan funding realignments between pay and nonpay, the relationship between the pay base and authorized FTEs has become out of balance. To correct this imbalance, with the submission of the fiscal 2008 operating plans, appropriations adjustments must be reflected in the authorized FTE base to coincide with the base funding reflected in pay. The Committees expect the authorized FTE base for the Library to be supported by the pay base reflected in the Fiscal Year 2008 operating plans.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The amended bill includes $5,334,000, and an additional $44,224,000 made available from receipts, for salaries and expenses, Copyright Office instead of $5,603,000, with an additional $44,224,000 made available from receipts as proposed by the House and $4,906,000 with an additional $45,196,000 made available from receipts as proposed by the Senate. The Appropriations Committees have agreed to language proposed by the House requiring the salaries of Copyright Royalty Judges to be paid from appropriated funds.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

The amended bill includes $102,601,000 for salaries and expenses, Congressional Research Service, Library of Congress instead of $104,518,000 as proposed by the House and $102,892,000 as proposed by the Senate.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

The amended bill includes $67,091,000 instead of $67,741,000 as proposed by the House and $67,690,000 as proposed by the Senate. Of this amount $20,704,000 is to remain available until expended. The Appropriations Committees have included $650,000 for distribution of newspaper services to the blind and $12,500,000 for the Digital Talking Book project.

ADMINISTRATIVE PROVISIONS

The amended bill includes several administrative provisions. Section 1401 provides for expenses related to official representation for the incentive awards program. Section 1402 provides obligation authority for various Library programs. Section 1403 changes the audit requirements for the Cooperative Acquisitions Program Revolving Fund. Section 1404 provides authority to transfer funds between Library accounts, subject to the approval of the Appropriations Committees.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $90,000,000, instead of $84,692,000 as proposed by the House and $95,365,000 as proposed by the Senate.

OFFICE OF THE SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $35,000,000, instead of $35,434,000 as proposed by the House and $38,231,000 as proposed by the Senate.

GOVERNMENT PRINTING OFFICE REVOLVING FUND

The amended bill provides no additional funding, instead of $2,450,000 proposed by the House and $5,000,000 proposed by the Senate. The amended bill includes language insuring that GPO police officers are responsible for the security of the GPO passport production facility. GPO is directed to initiate an independent review of security at this facility and develop an implementation plan within 180 days of enactment to improve security using existing sworn officer positions, for approval by the Appropriations Committees and the Joint Committee on Printing.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The amended bill includes $508,510,000 of which $7,510,000 is from offsetting collections, for salaries and expenses, Government Accountability Office instead of $510,838,000 as proposed by the House and $517,830,000 as proposed by the Senate.

The amended bill includes up to $2,500,000 for technology assessment studies. As technology continues to change and expand rapidly it is critical that the consequences of technological applications be anticipated, understood, and fully considered in determinations of public policy regarding existing and emerging national issues. The Committees direct the Comptroller General to make certain that GAO is able to provide effective means for securing competent, timely and unbiased information to Congress regarding the effects of scientific and technical developments.

ADMINISTRATIVE PROVISIONS

Section 1501 authorizes a contract appeals board for legislative branch agencies in GAO. Section 1502 repeals a number of outmoded Congressional mandates for GAO audits.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The amended bill includes $9,000,000 for payment to the Open World Leadership Center Trust Fund. The House had proposed $6,000,000 and the Senate had proposed $13,500,000.

ADMINISTRATIVE PROVISIONS

The amended bill includes a provision requiring the Board of Trustees of the Open World Leadership Center to develop potential options for transfer of that agency to the executive branch, establishment of the Center as an independent establishment under the executive branch, or other appropriate options. The Committees include this provision instead of transferring the agency to the Department of State, as proposed by the House.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

The amended bill includes $430,000 as proposed by both the House and the Senate.

TITLE II—GENERAL PROVISIONS

In Title II—General Provisions, the amended bill includes eight general provisions that were in both the House and Senate bills.

The Committees direct the Capitol Guide Service and the Architect of the Capitol to take no action to eliminate staff-led tours of the U.S. Capitol. Members view staff-led tours as an important part of their constituent service duties and feel strongly that they must be allowed to continue after the Capitol Visitor Center opens. Obviously, temporary curtailments are allowed, as they are now, in the event of an emergency or to accommodate large events in the Capitol (such as the State of the Union Address, inaugurals, state funerals, joint addresses).

The Committee directs that all staff members who conduct tours of the Capitol be required to receive training on the history of the Capitol and Congress. The Committee directs the Chief Executive Officer for Visitor Services to submit for approval by the Committee on House Administration, the Senate Committee on Rules, and the House and Senate Committees on Appropriations, within 60 days of enactment of this Act, a plan to allow for the continuation of staff-led tours. The plan must include an out-year funding plan to facilitate the tours and also identify any training or certification recommendations. Any life safety or security concerns should also be identified in this report.

Section 210 applies an across-the-board cut to all agencies of .25%.

BUDGET AUTHORITY TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2008 recommended by the Appropriations Committees, with comparisons to the fiscal year 2007 amount, the 2008 budget estimates, and the House and Senate bills for 2008 follows:

[In thousands of dollars]

New budget (obligational) authority, fiscal year 2007	$3,852,184

Budget estimates of new (obligational) authority, fiscal year 2008	4,360,003
House bill, fiscal year 2008	3,100,509
Senate bill, fiscal year 2008	2,786,454
Conference agreement, fiscal year 2008	3,983,000
Conference agreement compared with—	
New budget (obligational) authority, fiscal year 2007	+130,816
Budget estimates of new (obligational) authority, fiscal year 2008	−377,003
House bill, fiscal year 2008	+882,491
Senate bill, fiscal year 2008	+1,196,546

DISCLOSURE OF EARMARKS AND CONGRESSIONAL DIRECTED SPENDING ITEMS

Following is a list of Congressional earmarks and Congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in H.R. 2771 or S. 1686 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules. All of the items on this list appeared in the House or Senate versions of H.R. 2771 or the accompanying committee reports; there are no "new" earmarks in this division of the House amendment or explanatory statement.

AMENDED BILL TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for fiscal year 2008 provided in the amended bill, with comparisons to the fiscal year 2007 amount, the 2008 budget estimates, and the House and Senate bills for 2008 follow:

[In thousands of dollars]

New budget (obligational) authority, fiscal year 2007	$3,852,184
Budget estimates of new (obligational) authority, fiscal year 2008	4,361,253
House bill, fiscal year 2008	3,100,509
Senate bill, fiscal year 2008	2,786,454
Amended bill, fiscal year 2008	3,969,915
Amended bill compared with:	
New budget (obligational) authority, fiscal year 2007	+117,731
Budget estimates of new (obligational) authority, fiscal year 2008	−391,338
House bill, fiscal year 2008	+869,406
Senate bill, fiscal year 2008	+1,183,461

DIVISION I—MILITARY CONSTRUCTION AND VETERANS AFFAIRS AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effect of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2008 (H.R. 2642) as passed by the House of Representatives and the Senate. References to amounts or language proposed by the House of Representatives or the Senate refer to amounts and language in the House or Senate passed versions of H.R. 2642 or in the accompanying committee reports (House Report 110–186 and Senate Report 110–85).

Matters Addressed by Only One Committee.—The language and allocations set forth in House Report 110–186 and Senate Report 110–85 should be complied with unless specifically addressed to the contrary in the amended bill and this explanatory statement. Report language included by the House, which is not changed by the report of the Senate or this explanatory statement, and Senate report language, which is not changed by this explanatory statement is approved by the Appropriations Committees of both Houses of Congress. This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate have directed the submission of a report, such report is to be submitted to both Houses of Congress.

TITLE I

DEPARTMENT OF DEFENSE

ITEMS OF GENERAL INTEREST

"*Grow the Force*".—The Appropriations Committees note that the President, in the fiscal year 2008 budget submission to Congress, did not identify individual projects associated with the Administration's $2,820,898,000 "Grow the Force" initiative, instead requesting lump sum funding for the initiative. Detailed information on individual projects was not provided by the Army and Marine Corps until weeks after the budget submission. The amended bill provides full funding for this initiative, by project, and identifies the "Grow the Force" projects in the table at the end of this division of this explanatory statement. The Appropriations Committees remind the Department that the "Grow the Force" projects for which the President requested lump sum funding are part of the regular military construction program and are therefore subject to the same notification and reprogramming requirements that apply to all military construction appropriations.

Construction Inflation.—The Appropriations Committees are concerned by the continuing impact of high inflation rates for construction material prices and labor costs. These high rates have made it increasingly difficult for the services and Defense agencies to execute their military construction and family housing construction programs in a timely manner without scope reductions, project cancellations, and reprogramming requests. Given the enormous volume of construction to be completed over the next five years due to BRAC, global rebasing, end-strength increases for the Army and Marine Corps, and numerous smaller initiatives, realistic budgeting for construction inflation is necessary if the quality of life and quality of service for military personnel and their families are to be maintained at a high level. The Appropriations Committees are dismayed by the failure of the Office of Management and Budget and the Department of Defense to incorporate realistic inflation estimates in the budget submissions, even though the consequences of this failure are predictable. The Appropriations Committees support and encourage current efforts to more accurately account for regional variations in construction inflation; however, the Committees also believe that such efforts will be of limited value if the overall inflation figure used by the Administration to build the military construction program is unrealistically low. The Department of Defense is directed to report to the Committees on Appropriations of both Houses of Congress on the baseline construction inflation rate incorporated in the fiscal year 2009 military construction and family housing budget request, as well as a justification for that rate, no later than seven days following the submission of that request to Congress.

Integrated Construction Plans for the "Grow the Force," Global Basing, and Base Realignment and Closure Initiatives.—The Appropriations Committees remain concerned about the ability of the Department of Defense to effectively coordinate and integrate the significant construction demands of the "Grow the Force" initiative with the equally daunting construction programs associated with the Department's global rebasing plan and the 2005 Base Realignment and Closure program, particularly within the short timeframe allotted for the completion of each of these initiatives. The Secretary of Defense shall submit a separate report to the Committees on Appropriations of both Houses of Congress by January 31, 2008, identifying the installations at which there is any overlap of military construction and/or family housing construction among any or all of the three initiatives. In addition to a detailed list of the projects by installation, the report should include the projected timeline for completing each of the identified projects and the projected timeline for the movement of military personnel associated with the initiatives into the affected installations.

Government Accountability Office (GAO) Review of Global Defense Posture Report.—The Appropriations Committees agree that the GAO review of the status of the Defense Department's Global Defense Posture should be submitted to the Committees on Appropriations of both Houses of Congress no later than April 15, 2008.

Failure to Comply With Report Deadlines.—The Appropriations Committees note the Department of Defense's failure to comply with deadlines for several reports directed by the Committees on Appropriations of both Houses of Congress. These deadlines have passed without the reports being delivered, or even notice from the Department as to why it has been unable to meet the deadlines. Some of these reports are merely collections of data that are readily available. The Appropriations Committees find this delay unacceptable. These reports are directed to ensure proper congressional oversight and to inform congressional decisions on the Department's budget requests. The Department of Defense is directed to submit all reports required by House Report 110–186 and Senate Report 110–85 that are currently overdue, or an explanation of why these reports have not been delivered along with the expected date of delivery, no later than seven days after the enactment of this Act. The Department and the services are also directed to meet future reporting deadlines. If future deadlines are not met, the Department or service shall submit an explanation for the failure to deliver and the expected date of delivery no later than seven days after the deadline.

Incrementally Funded Projects.—The Appropriations Committees note that the Administration requested several large military construction projects that can be incrementally funded, but were instead submitted as large single-year requests, in accordance with a directive from the Office of Management and Budget to the Department of Defense to severely restrict the use of incremental funding for military construction. The Committees on Appropriations of both Houses of Congress have previously notified the Administration that they reserve the prerogative to provide incremental funding where appropriate, in accordance with authorizing legislation. The Appropriations Committees continue to believe that military construction projects should be fully funded or separated into stand-alone phases when practical. In some cases, however, incremental funding makes fiscal and programmatic sense. The Appropriations Committees have therefore agreed that the following projects will be incrementally funded: Fuel Storage Facilities, Point Loma, California; Southern Command Headquarters, Miami, Florida; Submarine Drive-in Magnetic Silencing Facility, Pearl Harbor, Hawaii; SOF Operations Facility, Dam Neck Annex, Virginia; Kilo Wharf, Naval Base Guam; and Brigade Operations Support Facility and Brigade Barracks/Community Facility, Vicenza, Italy.

Guam Master Plan.—The Appropriations Committees agree that the massive construction program planned to expand the presence of the U.S. military on Guam presents a major challenge to the Department of Defense, and requires a well-planned execution strategy. However, the Appropriations Committees are concerned that the Senate provision requiring the Secretary of Defense to submit a master plan for Guam by December 29, 2007, does not give the Department adequate time to complete the plan, particularly in view of the ongoing environmental assessments being conducted on Guam. The Appropriations Committees do not concur with the Senate position and instead direct the Secretary of Defense to submit to the Committees on Appropriations of both Houses of Congress no later than September 15, 2008, a report on the Department's planning efforts for Guam. The report should identify in detail the size and makeup of the U.S. military forces to be located on Guam, the number of dependents expected to accompany those forces, and the infrastructure required to support the troops and their families. The report should also outline the Department's plan to accomplish the projected level of construction associated with the build-up, within the constrained construction capacity of Guam, and the infrastructure required to support the anticipated increase in the construction workforce. The Department is further directed to provide an updated funding plan for both the military and family housing construction, and the associated Defense education and Defense logistics infrastructure needed, and a status report on the availability and funding mechanism of the $6.1 billion that the Government of Japan has agreed to contribute.

MILITARY CONSTRUCTION, ARMY

(INCLUDING RESCISSION OF FUNDS)

The amended bill appropriates $3,936,583,000 for Military Construction, Army, instead of $4,070,959,000 as proposed by the House and $3,928,149,000 as proposed by the Senate. Within this amount, the amended bill provides $321,983,000 for study, planning, design, architect and engineer services, and host nation support instead of $481,468,000 as proposed by the House and $317,149,000 as proposed by the Senate. The amended bill rescinds $8,690,000 from funds previously appropriated to this account due to bid savings as follows:

Public Law/Location	Project title	Amended Bill
PL 110–5 (FY 2007):		
TX: Fort Hood	Combined Arms Collective Training Facility.	−8,690,000
Total		−8,690,000

Aviation Maintenance Hangar, Phase I, Fort Rucker, Alabama.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,513,000 be made available for the design of this facility.

Chapel Center, Fort Campbell, Kentucky.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $450,000 be made available for the design of this facility.

Component Rebuild Shop, Anniston Depot, Alabama.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $800,000 be made available for the design of this facility.

Emergency Services Center, Fort Belvoir, Virginia.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $288,000 be made available for the design of this facility.

Medical Parking Garage, Fort Bliss, Texas.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,000,000 be made available for the design of this facility.

Regional Training Institute, Fort Leonard Wood, Missouri.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $500,000 be made available for the design of this facility.

Sapper Leader Course General Instruction Building, Fort Leonard Wood, Missouri.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $360,000 be made available for the design of this facility.

Training Support Center, Phase I, Fort Eustis, Virginia.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $594,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

(INCLUDING RESCISSIONS OF FUNDS)

The amended bill appropriates $2,198,394,000 for Military Construction, Navy and Marine Corps, instead of $2,125,138,000 as proposed by the House and $2,168,315,000 as proposed by the Senate. Within this amount, the amended bill provides $113,017,000 for study, planning, design, architect and engineer services instead of $110,167,000 as proposed by the House and $115,258,000 as proposed by the Senate.

The amended bill rescinds $10,557,000 from funds previously appropriated to this account due to bid savings and unexecuted construction as follows:

Public Law/location	Project title	Amended Bill
PL 108–132 (FY 2004):		
AL: Barin OLF	Clear Zone Land Acquisition	−2,420,000
NC: Camp Lejeune	Consolidated Armories	−3,442,000
Subtotal, PL 108–132		−5,862,000
PL 108–324 (FY 2005):		
NC: Washington County	Outlying Landing Field	−2,069,000
PL 110–5 (FY 2007):		
NC: Washington County	Outlying Landing Field	−2,626,000
Total		−10,557,000

Bachelor Quarters Addition, Naval Station Newport, Rhode Island.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $750,000 be made available for the design of this facility.

Dry Dock #3 Waterfront Support Facility, Portsmouth NSY, Maine.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,200,000 be made available for the design of this facility.

Fitness Center, Naval Station Newport, Rhode Island.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $900,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, AIR FORCE

(INCLUDING RESCISSIONS OF FUNDS)

The amended bill appropriates $1,159,747,000 for Military Construction, Air Force, instead of $927,428,000 as proposed by the House and $1,048,518,000 as proposed by the Senate. Within this amount, the amended bill provides $43,721,000 for study, planning, design, architect and engineer services instead of $51,587,000 as proposed by the House and $64,958,000 as proposed by the Senate.

The amended bill rescinds $10,470,000 from funds previously appropriated to this account due to bid savings as follows:

Public Law/location	Project title	Amended Biall
P.L. 108–324 (FY 2005):		
Greenland: Thule AB	Dormitory	−5,319,000
PL 110–5 (FY 2007):		
VA. Langley AFB	DCGS Operations Operations Facility.	−5,151,000
Total		−10,470,000

Joint Security Forces Building, Lackland AFB, Texas.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $900,000 be made available for the design of this facility.

Logistics Readiness Center, 366th Wing, Mountain Home AFB, Idaho.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,593,000 be made available for the design of this facility.

Multi-Purpose Education Facility, Little Rock AFB, Arkansas.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $882,000 be made available for the design of this facility.

Runway Paving, Dyess AFB, Texas.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,710,000 be made available for the design of this facility.

Security Forces Operations Building, Wright-Patterson AFB, Ohio.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $640,000 be made available for the design of this facility.

Taxiway, Randolph AFB, Texas.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $554,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING RESCISSION AND TRANSFER OF FUNDS)

The amended bill appropriates $1,609,596,000 for Military Construction, Defense-Wide, instead of $1,806,928,000 as proposed by the House and $1,758,755,000 as proposed by the Senate. Within this amount, the amended bill provides $155,569,000 for study, planning, design, architect and engineer services instead of $154,728,000 as proposed by both the House and the Senate.

The amended bill provides $70,000,000 for the Energy Conservation Investment Program as proposed by the House, instead of $85,000,000 as proposed by the Senate. The amended bill also provides $5,000,000 for contingency construction, instead of $10,000,000 as proposed by both the House and the Senate.

The amended bill rescinds $10,192,000 from funds previously appropriated to this account as follows:

Public Law / location	Project title	Amended Bill
PL 110–5 (FY 2007):		
Kwajalein Atoll	Launch Control Facility Upgrades.	−7,592,000
Worldwide: Unspecified	Contingency Construction	−2,600,000
Total		−10,192,000

Of the funds rescinded from Public Law 110–5, the amended bill rescinds $7,592,000 from a Missile Defense Agency (MDA) project on Kwajalein Atoll and directs MDA to fund this project using its research, development, testing and evaluation construction authority. The amended bill also rescinds $2,600,000 from contingency construction in Public Law 110–5. The fiscal year 2007 National Defense Authorization Act authorized a project to replace a fuel truck loading facility on Wake Island. The Department of Defense opted not to execute this project, shifting the funds to the contingency construction sub-account. A cancellation notice for the Wake Island project was not submitted until October 16, 2007 even though Pacific Air Forces had decided to place the island in caretaker status in March 2007. The Appropriations Committees remind the Department that timely notification of project cancellations is mandatory in accordance with 10 U.S.C. 2853.

SOF C–130 Fuel Cell and Corrosion Control Hangars, Cannon AFB, New Mexico.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $855,000 be made available for the design of this facility.

SOF CV-22 Simulator Facility, Cannon AFB, New Mexico.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $711,000 be made available for the design of this facility.

Wilford Hall Medical Center, Ambulatory Care Center, Lackland AFB, Texas.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $130,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The amended bill appropriates $536,656,000 for Military Construction, Army National Guard, instead of $439,291,000 as proposed by the House and $478,836,000 as proposed by the Senate.

Add/Alter Readiness Center, Hamilton, Alabama.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,164,000 be made available for the design of this facility.

Armed Forces Reserve Center/Security Forces Facility, Klamath Falls, Oregon.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,452,000 be made available for the design of this facility.

Combined Support Maintenance Facility, Camp Smith, New York.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $2,727,000 be made available for the design of this facility.

Combined Support Maintenance Shop, Camp Lincoln, Illinois.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $666,000 be made available for the design of this facility.

Field Maintenance Shop, Mankato, Minnesota.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,366,000 be made available for the design of this facility.

Joint Forces Headquarters, New Castle County Air National Guard Base, Delaware.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,020,000 be made available for the design of this facility.

Joint Forces Headquarters and Emergency Operations Center, Arden Hills Army Training Site, Minnesota.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $3,536,000 be made available for the design of this facility.

Readiness Center, Cabot, Arkansas.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $840,000 be made available for the design of this facility.

Readiness Center, Dundalk, Maryland.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $829,000 be made available for the design of this facility.

Readiness Center, Ethan Allen Range, Vermont.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $792,000 be made available for the design of this facility.

Readiness Center, Miles City, Montana.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $906,000 be made available for the design of this facility.

Readiness Center, Tacoma, Washington.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $152,000 be made available for the design of this facility.

Readiness Center, The Dalles, Oregon.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $960,000 be made available for the design of this facility.

Readiness Center, Tullahoma, Tennessee.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $264,000 be made available for the design of this facility.

Readiness Center Rehabilitation, Wilkes-Barre, Pennsylvania.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $263,000 be made available for the design of this facility.

Training Facility, Phase V, Camp Gruber, Oklahoma.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $2,705,000 be made available for the design of this facility.

United States Property and Fiscal Office, North Kingstown, Rhode Island.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $810,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

The amended bill appropriates $287,537,000 for Military Construction, Air National Guard, instead of $95,517,000 as proposed by the House and $228,995,000 as proposed by the Senate.

Replace Squadron Operations and Relocate Security Perimeter, McGhee Tyson Airport, Tennessee.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $1,120,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, ARMY RESERVE

The amended bill appropriates $148,133,000 for Military Construction, Army Reserve, instead of $154,684,000 as proposed by the House and $138,424,000 as proposed by the Senate.

Army Reserve Center, Letterkenny Army Depot, Pennsylvania.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $675,000 be made available for the design of this facility.

Tactical Training Base, Phase I, Fort Dix, New Jersey.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $531,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, NAVY RESERVE

The amended bill appropriates $64,430,000 for Military Construction, Navy Reserve, instead of $69,150,000 as proposed by the House and $59,150,000 as proposed by the Senate.

Marine Corps Reserve Center, Windy Hill, Georgia.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $310,000 be made available for the design of this facility.

MILITARY CONSTRUCTION, AIR FORCE RESERVE

(INCLUDING RESCISSION OF FUNDS)

The amended bill appropriates $28,359,000 for Military Construction, Air Force Reserve, instead of $39,628,000 as proposed by the House and $27,559,000 as proposed by the Senate.

The amended bill rescinds $3,069,000 from funds previously appropriated to this account due to a cancelled project as follows:

Public Law/location	Project title	Amended Bill
PL 109–114 (FY 2006):		
AK: Elmendorf AFB	C–17 Convert Hangar for AFRC Group HQ.	–3,069,000
Total	....	–3,069,000

Joint Deployment Processing Facility, March ARB, California.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $972,000 be made available for the design of this facility.

Visiting Quarters, Phase I, Pittsburgh Air Reserve Station, Coraopolis, Pennsylvania.—Of the funds provided for planning and design in this account, the Appropriations Committees direct that $828,000 be made available for the design of this facility.

NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

The amended bill appropriates $201,400,000 for the North Atlantic Treaty Organization Security Investment Program as proposed by both the House and the Senate.

Missile Defense.—The Appropriations Committees do not agree to a Senate provision requiring prior approval from the Committees on Appropriations of both Houses of Congress before NATO Security Investment Program (NSIP) funds can be obligated for the construction of missile defense facilities in Poland or the Czech Republic. Instead, the Committees on Appropriations of both Houses of Congress shall be notified in writing 21 days in advance of the obligation or expenditure of NSIP funds for missile defense studies, planning and design, or other activities related to the construction of missile defense facilities in Poland or the Czech Republic.

FAMILY HOUSING OVERVIEW

Incorporation of Additional Information Into Semi-Annual Reports on Family Housing Privatization.—The Department of Defense is directed to include data on the maintenance of family housing units and the contributions of housing privatization entities to the recapitalization accounts of each ongoing family housing privatization project in each future semi-annual progress report on the privatization program.

Transfer of Funds Between Family Housing Construction and Operation and Maintenance Sub-Accounts.—The services and Defense agencies are directed to notify the Committees on Appropriations of both Houses of Congress within 30 days of a transfer of funds between sub-accounts within the family housing construction and family housing operation and maintenance accounts, if such transfer is in excess of 10 percent of the funds appropriated to the sub-account to which the funds are being transferred. Notifications to the Committees shall indicate the sub-accounts and amounts that are being used to source the transfer.

FAMILY HOUSING CONSTRUCTION, ARMY

(INCLUDING RESCISSION OF FUNDS)

The amended bill appropriates $424,400,000 for Family Housing Construction, Army, instead of $419,400,000 as proposed by both the House and the Senate. The amended bill rescinds $4,559,000 from funds previously appropriated to this account due to cancelled or reduced projects as follows:

Public Law/location	Project title	Amended Bill
PL 110–5 (FY 2007):		
AR: Pine Bluff	Replacement Construction ..	–500,000
AR: Pine Bluff	Improvements	–4,059,000

Public Law/location	Project title	Amended Bill
Total	....	−4,559,000

FAMILY HOUSING OPERATION AND MAINTENANCE, ARMY

The amended bill appropriates $731,920,000 for Family Housing Operation and Maintenance, Army, instead of $742,920,000 as proposed by both the House and the Senate.

FAMILY HOUSING CONSTRUCTION, NAVY AND MARINE CORPS

The amended bill appropriates $293,129,000 for Family Housing Construction, Navy and Marine Corps, instead of $298,329,000 as proposed by the House and $288,329,000 as proposed by the Senate.

FAMILY HOUSING OPERATION AND MAINTENANCE, NAVY AND MARINE CORPS

The amended bill appropriates $371,404,000 for Family Housing Operation and Maintenance, Navy and Marine Corps as proposed by both the House and the Senate.

FAMILY HOUSING CONSTRUCTION, AIR FORCE

(INCLUDING RESCISSION OF FUNDS)

The amended bill appropriates $327,747,000 for Family Housing Construction, Air Force, instead of $362,747,000 as proposed by both the House and the Senate.

The amended bill includes a general rescission of $15,000,000 from funds provided to this account by Public Law 108–132, due to savings generated by privatization.

FAMILY HOUSING OPERATION AND MAINTENANCE, AIR FORCE

The amended bill appropriates $688,335,000 for Family Housing Operation and Maintenance, Air Force as proposed by both the House and the Senate.

FAMILY HOUSING OPERATION AND MAINTENANCE, DEFENSE-WIDE

The amended bill appropriates $48,848,000 for Family Housing Operation and Maintenance, Defense-Wide as proposed by both the House and the Senate.

DEPARTMENT OF DEFENSE FAMILY HOUSING IMPROVEMENT FUND

The amended bill appropriates $500,000 for the Department of Defense Family Housing Improvement Fund as proposed by both the House and the Senate.

CHEMICAL DEMILITARIZATION CONSTRUCTION, DEFENSE-WIDE

The amended bill appropriates $104,176,000 for Chemical Demilitarization Construction, Defense-Wide as proposed by the Senate, instead of $86,176,000 as proposed by the House.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 1990

The amended bill appropriates $295,689,000 for the Department of Defense Base Closure Account 1990, instead of $270,689,000 as proposed by the House and $320,689,000 as proposed by the Senate. The amended bill includes an increase of $75,000,000 above the budget request, of which $25,000,000 is provided for the Army and $50,000,000 is provided for the Navy. The Appropriations Committees direct the Army and Navy to submit an expenditure plan for the additional funds provided no later than 30 days following the enactment of this Act. The Committees further direct the services to notify the Committees on Appropriations of both Houses of Congress 14 days prior to obligating an amount for a site or closure package that exceeds or reduces the amount identified for that site or closure package in the fiscal year 2008 budget submission (plus additional funds as identified by the expenditure plan) by 20 percent or $2,000,000, whichever is less. This direction shall not apply to sites or closure packages for which the requested amount is less than $5,000,000.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 2005

The amended bill appropriates $7,235,591,000 for the Department of Defense Base Closure Account 2005, instead of $8,174,315,000 as proposed by both the House and the Senate. The decrease from the request is a general reduction. The funds requested for this account, which are appropriated by lump sum, are allocated among 189 BRAC projects earmarked for funding by the President for fiscal year 2008. The requested projects and related planning and design total $6,419,748,000. Additional funding provided in this account is for environmental, operations and maintenance, personnel, and related programs associated with the BRAC process. A detailed listing of the individual projects earmarked for funding by the President is provided in Senate report 110–85, and a list of the President's earmarks by BRAC closure package is provided in House report 110–186.

The Appropriations Committees note that it is the practice of the Committees to not add congressional earmarks for BRAC construction because of the complicated and inter-related nature of the BRAC construction program. The Appropriations Committees reaffirm this policy, and have included no congressionally directed earmarks in the BRAC 2005 account.

ADMINISTRATIVE PROVISIONS

The amended bill includes section 101 as proposed by both the House and the Senate limiting the use of funds under a cost-plus-a-fixed-fee contract.

The amended bill includes section 102 as proposed by both the House and the Senate allowing the use of construction funds in this title for hire of passenger motor vehicles.

The amended bill includes section 103 as proposed by both the House and the Senate allowing the use of construction funds in this title for advances to the Federal Highway Administration for the construction of access roads.

The amended bill includes section 104 as proposed by both the House and the Senate prohibiting construction of new bases in the United States without a specific appropriation.

The amended bill includes section 105 as proposed by both the House and the Senate limiting the use of funds for the purchase of land or land easements that exceed 100 percent of the value.

The amended bill includes section 106 as proposed by both the House and the Senate prohibiting the use of funds, except funds appropriated in this title for that purpose, for family housing.

The amended bill includes section 107 as proposed by both the House and the Senate limiting the use of minor construction funds to transfer or relocate activities.

The amended bill includes section 108 as proposed by both the House and the Senate prohibiting the procurement of steel unless American producers, fabricators, and manufacturers have been allowed to compete.

The amended bill includes section 109 as proposed by both the House and the Senate prohibiting the use of construction and family housing funds available to pay real property taxes in any foreign nation.

The amended bill includes section 110 as proposed by both the House and the Senate prohibiting the use of funds to initiate a new installation overseas without prior notification.

The amended bill includes section 111 as proposed by the House establishing a preference for American architectural and engineering services for overseas projects. The Senate bill included a similar provision, but exempted countries that have increased their defense spending by at least three percent in calendar year 2005.

The amended bill includes section 112 as proposed by both the House and the Senate establishing a preference for American contractors in certain locations.

The amended bill includes section 113 as proposed by the House requiring congressional notification of military exercises where construction costs exceed $100,000. The Senate bill included a similar provision, but increased the threshold to $750,000.

The amended bill includes section 114 as proposed by both the House and the Senate limiting obligations in the last two months of the fiscal year.

The amended bill includes section 115 as proposed by both the House and the Senate allowing funds appropriated in prior years for new projects authorized during the current session of Congress.

The amended bill includes section 116 as proposed by both the House and the Senate allowing the use of lapsed or expired funds to pay the cost of supervision for any project being completed with lapsed funds.

The amended bill includes section 117 as proposed by both the House and the Senate allowing military construction funds to be available for five years.

The amended bill modifies section 118 requiring an annual report on actions taken to encourage other nations to assume a greater share of the common defense burden to include a classified report option, if necessary.

The amended bill includes section 119 as proposed by both the House and the Senate allowing the transfer of proceeds between BRAC accounts.

The amended bill includes section 120 as proposed by both the House and the Senate allowing the transfer of funds from Family Housing Construction accounts to the Family Housing Improvement Fund.

The amended bill includes section 121 as proposed by both the House and the Senate requiring congressional notification prior to issuing a solicitation for a contract with the private sector for family housing.

The amended bill includes section 122 as proposed by both the House and the Senate allowing transfers to the Homeowners Assistance Fund.

The amended bill includes section 123 as proposed by the House limiting the source of operation and maintenance funds for flag and general officer quarters. The Senate bill included a similar provision, but also allowed the use of gift funds.

The amended bill includes section 124 as proposed by the House to require the Department of Defense to respond to a question or inquiry, in writing, within 21 days of the request. The Senate bill contained no similar provision.

The amended bill includes section 125 as proposed by both the House and the Senate extending the availability of funds in the Ford Island Improvement Fund.

The amended bill includes section 126 as proposed by both the House and the Senate placing limitations on the expenditure of funds for projects impacted by BRAC 2005.

The amended bill includes section 127 as proposed by the House allowing the transfer of expired funds to the Foreign Currency Fluctuation, Construction, Defense account. The Senate bill contained no similar provision.

The amended bill includes section 128 as proposed by the House prohibiting the use of funds for any activity related to the construction of an Outlying Landing Field in Washington County, North Carolina. The Senate bill contained no similar provision.

The amended bill does not include a provision as proposed by the House (Sec. 121) limiting the obligation of funds for Partnership for Peace programs. The Senate bill contained no similar provision.

The amended bill does not include a provision as proposed by the Senate (Sec. 126) related to reprogramming and notification requirements of "Grow the Force" projects. The House bill contained no similar provision. The issue is addressed under Department of Defense, Items of General Interest.

TITLE II—DEPARTMENT OF VETERANS AFFAIRS

ITEMS OF GENERAL INTEREST

Veterans Rights and Feedback.—The Appropriations Committees are encouraged by the progress the Department has made in providing veterans with the opportunity to offer feedback and obtain assistance through the Internet and the use of toll-free telephone numbers. The Appropriations Committees agree there are additional measures the Department should take to enhance these programs and to ensure that the Secretary, the Under Secretary for Health, the Under Secretary for Benefits, and the Office of Inspector General are kept informed of the feedback that is provided. The amended bill includes sufficient funding to ensure the Department is able to provide a clearly marked, direct link that allows veterans to seek assistance and provide feedback on the Veterans Affairs Internet home page; provide a separate toll-free telephone number for the Veterans Health Administration and for the Veterans Benefits Administration that allows a veteran to check on his or her eligibility, seek assistance in obtaining services and/or resolving difficulties, and provide feedback; and provide the Secretary, the Under Secretary for Health, the Under Secretary for Benefits, and the Office of Inspector General with a report that informs them of the types of issues that are being addressed through these systems so that they may more easily identify evolving problems and take early corrective action. The Secretary is directed to report to the Committees on Appropriations of both Houses of Congress by February 1, 2008, on the actions that have been taken to implement this direction. Further, the Under Secretary for Health is directed to report to the Committees on Appropriations of both Houses of Congress by March 3, 2008, on the actions that have been taken to ensure that patient advocate contact information, including a telephone number, is clearly posted in all clinics, on all inpatient wards, and at the entrance of every Veterans Health Administration facility.

Services for Women Veterans.—The Appropriations Committees agree more can be done by the Department to refine its programs, services and outreach efforts in order to inform women veterans of their eligibility status and improve their access to services. While the amended bill does not retain the provision proposed by the House under General Operating Expenses, the amended bill includes sufficient funds for the operation of both the Advisory Committee on Women Veterans and the Center for Women Veterans. Additionally, the Appropriations Committees direct the Department to report to the Committees on Appropriations of both Houses of Congress by February 1, 2008, on the actions that have been taken to implement the recommendations of the Advisory Committee on Women Veterans 2006 Report. The Appropriations Committees further direct the Government Accountability Office (GAO) to report to the Committees on Appropriations of both Houses of Congress by September 1, 2008, an assessment of the adequacy of mental health services provided by the Departments of Veterans Affairs to women veterans.

Reprogrammings.—The Appropriations Committees would like to emphasize that reprogrammings permitted by this Act are to be transmitted to Congress in a timely manner.

Quarterly Financial Report.—The quarterly financial report required by this Act shall contain, at a minimum, both the planned and actual expenditure rates, unobligated balances, potential financial shortfalls, any transfers between major accounts (medical services, medical administration, and medical facilities), and status of any equipment or non-recurring maintenance funds—including whether they have been used to pay for operating expenses. In addition, the service portion of the report will contain, at a minimum, the time required for new patients to get their first appointment, the time required for established patients to get their next appointment, and the number of unique veterans and patients being served. Each report should address data for the system total and for each VISN. Further, the Appropriations Committees direct that the Department include progress reports on the revision of the International Classification of Diseases-9th Revision (ICD-9) codes with respect to Traumatic Brain Injury.

Contracting Out.—The Appropriations Committees note that the competition requirement provided in this Act already applies to the Department of Veterans Affairs. For any function performed by more than ten employees, the Department, like other agencies covered by this competition requirement, must conduct a public-private competition, involving both a Most Efficient Organization plan and a Minimum Cost Differential, before that function can be converted to contractor performance. Unless specifically excluded, the Department of Veterans Affairs would be held to any successor public-private competition requirements included in legislation, as well as 38 U.S.C. 8110(a)(5).

VETERANS BENEFITS ADMINISTRATION

COMPENSATION AND PENSIONS

(INCLUDING TRANSFER OF FUNDS)

The amended bill appropriates $41,236,322,000 for Compensation and Pensions as proposed by both the House and the Senate. Of the amount provided, not more than $28,583,000 is to be transferred to General Operating Expenses and Medical Administration for reimbursement of necessary expenses in implementing provisions of title 38.

READJUSTMENT BENEFITS

The amended bill appropriates $3,300,289,000 for Readjustment Benefits as proposed by both the House and the Senate.

VETERANS INSURANCE AND INDEMNITIES

The amended bill appropriates $41,250,000 for Veterans Insurance and Indemnities as proposed by both the House and the Senate.

VETERANS HOUSING BENEFIT PROGRAM FUND PROGRAM ACCOUNT

The amended bill appropriates such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund Program Account as proposed by both the House and the Senate. The amended bill limits obligations for direct loans to not more than $500,000 and provides that $154,562,000 shall be available for administrative expenses. The amended bill does not include a transfer provision as proposed by the House.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The amended bill appropriates $71,000 for the cost of direct loans from the Vocational Rehabilitation Loans Program Account as proposed by both the House and the Senate, plus $311,000 to be transferred to and merged with General Operating Expenses. The amended bill provides for a direct loan limitation of $3,287,000 as proposed by both the House and the Senate.

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT

The amended bill appropriates $628,000 for administrative expenses of the Native American Veteran Housing Loan Program Account as proposed by both the House and the Senate. The amended bill does not include a transfer provision or loan limitation as proposed by the House.

GUARANTEED TRANSITIONAL HOUSING LOANS FOR HOMELESS VETERANS PROGRAM ACCOUNT

The amended bill provides up to $750,000 of the funds available in General Operating Expenses and Medical Administration to carry out the Guaranteed Transitional Housing Loans for Homeless Veterans Program Account as proposed by both the House and the Senate.

VETERANS HEALTH ADMINISTRATION

Health Care Sharing Incentive Fund.—The amended bill includes language to allow a minimum of $15,000,000, to be transferred to the Health Care Sharing Incentive Fund to facilitate collaboration between the Departments of Defense and Veterans Affairs. The Appropriations Committees agree the most important area for collaboration and investment between these departments is to ensure a seamless transition for our veterans. While the Appropriations Committees do not intend to preclude the use of this fund for any joint project, the Committees strongly urge that priority for funding be given to the implementation of recommendations of the Report on the President's Commission on Care for America's Returning Wounded Warriors, July 2007. The Appropriations Committees further urge the Departments of Defense and Veterans Affairs to seek every opportunity to partner to improve the continuity of care for our veterans through joint clinics; joint Centers of Excellence for Post Traumatic Stress Disorder (PTSD) and Traumatic Brain Injury (TBI); joint research and/or treatment; and the development of joint clinical practice guidelines for polytrauma injury, traumatic brain injury (to include diagnostics), blast injury, mental health/PTSD, burn, and amputee patients based on evidence based medicine.

Traumatic Brain Injury (TBI).—Current data make it difficult for the Department to provide budget information on TBI as a Select Program. The Appropriations Committees are encouraged to learn the Department is working with the National Center for Health Statistics and the Department of Defense to refine current International Classification of Diseases-9th Revision (ICD-9) codes to better reflect the TBI patient population within the Departments of Defense and Veterans Affairs. The Department of Veterans Affairs is directed to include an update of progress on the revision of the ICD-9 codes for TBI within the quarterly reports provided to Congress during fiscal year 2008. The Department of Veterans Affairs is also directed to include TBI as a Select Program within the Medical Services account in the fiscal year 2009 budget submission and all future budget submissions thereafter.

Level I Polytrauma Centers and Centers of Excellence on Mental Health and Post Traumatic Stress Disorder (PTSD).—The Appropriations Committees agree that every effort must be made to ensure that the Level I polytrauma centers and the Centers of Excellence on Mental Health and PTSD are resourced to provide the very best in medical care to our veterans who have suffered multiple trauma injuries or require mental health services. The amended bill has increased funding within the Veterans Health Administration accounts to ensure that the current Level I polytrauma centers and the Centers of Excellence on Mental Health and PTSD will be fully staffed and operational in fiscal year 2008.

Credentialing and Privileging in Rural Health Care Facilities. The Appropriations Committees are concerned about potential quality of care issues that may exist in rural VA medical facilities, including the qualifications of medical professionals. The Appropriations Committees direct the Government Accountability Office to assess the standards that are being followed in rural VA hospitals, including the consistency with which VA standards are being applied across urban and rural facilities.

MEDICAL SERVICES

(INCLUDING TRANSFER OF FUNDS)

The amended bill appropriates $29,104,220,000 for Medical Services, instead of $29,031,400,000 as proposed by the House and $28,979,220,000 as proposed by the Senate. Additionally, the Senate had proposed an additional $125,000,000 in section 230 of the administrative provisions.

Of the amount provided, $1,350,000,000 is available for obligation until September 30, 2009 as proposed by the Senate, instead of $1,100,000,000 as proposed by the House. The Appropriations Committees also agree that the Department shall spend not less than $2,900,000,000 for specialty mental health services as proposed by the House and not less than $130,000,000 for the homeless grants and per diem program.

The amended bill includes a net increase of $1,936,549,000 above the budget request in order to address shortfalls anticipated in the Department's projection of health care demand and to address the Department's failure to adjust the beneficiary travel reimbursement rate despite consistently rising gasoline prices. The funding provided includes a 5.5 percent increase for workload and a 4.45 percent increase for inflation which the Appropriations Committees believe is necessary to ensure that sufficient funding is available to maintain services at their current level. The amended bill also includes an additional $125,000,000 to increase the beneficiary travel reimbursement mileage rate to 28.5 cents per mile; an additional $70,000,000 for substance abuse services; an additional $12,500,000 for expanded outpatient services for the blind; an additional $15,000,000 for Vet Centers; and provides sufficient funding to allow for additional personnel for the HUD-Veterans Affairs Supportive Housing Program to address any increase in the number of vouchers offered and directs the Department to increase the number of case workers as necessary to accommodate the increase in vouchers.

Mental Health and Substance Abuse.—The Appropriations Committees are concerned mental health and substance abuse services were not sufficiently addressed within the fiscal year 2008 budget submission which includes a reduction in the number of inpatient beds for psychiatric care and an anticipated increase of less than one percent for substance abuse services. The Appropriations Committees believe these projections are unrealistic and have increased funding within the Medical Services account in order to increase access to substance abuse services; ensure that adequate inpatient psychiatric care is maintained; and to allow the Department to pursue all opportunities to improve access to mental health services for all veterans. To this end, the Department is directed to re-examine the policy for a reduction in psychiatric inpatient care, taking into account the needs of returning Operation Enduring Freedom and Operation Iraqi Freedom (OEF/OIF) veterans and the recommendations of OIG Report: Implementing VHA's Mental Health Strategic Plan Initiatives for Suicide Prevention, May 10, 2007, and is further directed to report to the Committees on Appropriations of both Houses of Congress by February 29, 2008, the findings of this review and what additional resources have been utilized to ensure that adequate inpatient care is available. Further, the Appropriations Committees direct the Department not to reduce the number of inpatient psychiatric beds at any facility that currently has a waiting list. Additionally, the Department is directed to report to the Committees on Appropriations of both Houses of Congress by February 1, 2008, on its plan to better utilize all opportunities to improve access to mental health services for all veterans. This report should include, but not be limited to, the Department's plan to better utilize the services of the Community Mental Health Centers; implementation of peer training programs; additional fee-basis access to local mental health providers; mobile Vet Centers; and the development of Internet based services like the Network of Care for Mental Health recommended in the President's New Freedom Commission on Mental Health.

HIV/AIDS Among Veterans.—The Appropriations Committees concur with the Senate's recommendations on the VA health care system's HIV testing policy guidelines and direct the Department to submit a progress report to the Committees on Appropriations of both Houses of Congress by January 30, 2008.

Access to Medical Care in Remote Rural Areas.—The Appropriations Committees direct the Secretary of Veterans Affairs to report to the Committees on Appropriations of both Houses of Congress not later than six months after the date of the enactment of this Act, a description of: the unique challenges and costs faced by veterans in remote rural areas of contiguous and non-contiguous States when obtaining medical services from the Department of Veterans Affairs, and the need to improve access to locally administered care for veterans who reside in remote rural areas. The report should also identify the need to fund alternative sources of medical services in areas where facilities of the Department of Veterans Affairs are not accessible to veterans without leaving such areas; and in cases in which receipt of medical services by a veteran in a facility of the Department requires transportation of such veteran by air due to geographic and infrastructural constraints. The report should also contain an assessment of the potential for increasing local access to medical services for veterans in remote rural areas of contiguous and non-contiguous States through strategic partnerships with other government and local private health care providers.

MEDICAL ADMINISTRATION

The amended bill appropriates $3,517,000,000 for Medical Administration, instead of $3,510,600,000 as proposed by the House and $3,642,000,000 as proposed by the Senate.

Office of Rural Health.—The Appropriations Committees agree the Office of Rural Health is vital to ensuring that equal access to health care is provided to all of our returning Reserve and National Guard veterans. While the amended bill does not earmark a specific amount for the office, the Appropriations Committees have provided sufficient funding within Medical Administration to ensure a robust Office of Rural Health. The Appropriations Committees strongly encourage the Department to make full use of this office and direct the Secretary to submit a report to the Committees on Appropriations of both Houses of Congress on the actions that have been taken to improve access to health in rural areas by February 1, 2008.

MEDICAL FACILITIES

The amended bill appropriates $4,100,000,000 for Medical Facilities as proposed by the House, instead of $4,092,000,000 as proposed by the Senate. The amended bill also includes language allowing $350,000,000 of the funds to be available until September 30, 2009, as proposed by the Senate, instead of $250,000,000 as proposed by the House. The amended bill further specifies that $325,000,000 for non-recurring maintenance shall be allocated in a manner not subject to the Veterans Equitable Resource Allocation model, instead of $300,000,000 as proposed by the House and $350,000,000 as proposed by the Senate. The Appropriations Committees are in agreement that the funding provided above the budget request shall be used to address both facility condition assessment deficiencies and other essential requirements.

Non-Recurring Maintenance.—The Appropriations Committees remain concerned that the Department is not adequately addressing specific issues regarding obligation of non-recurring maintenance (NRM) funds raised in a May 16, 2007, GAO report. The Appropriations Committees fully expect that by fiscal year 2009 the Department will be obligating not more than twenty percent of its annual allocation of NRM funds in the last two months of the fiscal year. By May 16, 2008, the Department shall submit to the Committees on Appropriations of both Houses of Congress a report outlining these management objectives and a business plan to reach that goal.

Community Based Outpatient Clinics.—The Appropriations Committees direct the Department to provide the Committees on Appropriations of both Houses of Congress with a report on the actual number of Community Based Outpatient Clinics (CBOC) opened in fiscal year 2007 and the planned CBOC activations in fiscal year 2008. In addition, the Appropriations Committees further direct the Department to examine the need for, and report on the feasibility of and/or plans for clinics in the following locations: El Centro, California; rural Colorado; Brandon, Florida; Statesboro, Georgia; Belleville, Illinois; Moline, Illinois; Whiteside County, Illinois; Plymouth, Massachusetts; Dover-Foxcroft, Maine; Houlton, Maine; Lewiston-Auburn, Maine; Plattsburg, New York; Riverhead, New York; Southeastern Pennsylvania; Port Angeles, Washington; Wenatchee, Washington; Green Bay, Wisconsin; and Lynchburg, Virginia.

MEDICAL AND PROSTHETIC RESEARCH

The amended bill appropriates $480,000,000 for Medical and Prosthetic Research as proposed by the House, instead of $500,000,000 as proposed by the Senate.

NATIONAL CEMETERY ADMINISTRATION

The amended bill appropriates $195,000,000 for the National Cemetery Administration, instead of $170,000,000 as proposed by the House and $217,709,000 as proposed by the Senate. Of the amount provided, $20,000,000 is available until September 30, 2009, instead of $7,800,000 as proposed by the House and $25,000,000 as proposed by the Senate. The amount provided includes $900,000 from the Information Technology Systems account which was erroneously transferred during the recent reorganization of information technology programs.

The Appropriations Committees have provided $28,191,000 in additional funding for the National Cemetery Administration to correct gravesite deficiencies at VA's national cemeteries, including those identified in the 2002 Millennium Act report to Congress.These repairs include gravesite renovation projects to replace turf, repair sunken graves, and raise, realign and clean headstones.

DEPARTMENTAL ADMINISTRATION

GENERAL OPERATING EXPENSES

The amended bill appropriates $1,605,000,000 for General Operating Expenses, instead of $1,598,500,000 as proposed by the House and $1,612,031,000 as proposed by the Senate. The amended bill provides not less than $1,327,001,000 for the Veterans Benefits Administration, instead of $1,324,957,000 as proposed by the House and $1,329,044,000 as proposed by the Senate. Of the amount provided, $75,000,000 is available for obligation until September 30, 2009, as proposed by both the House and the Senate.

The amended bill also provides for a limitation on the purchase of passenger motor vehicles for use in operation by the Veterans Benefits Administration in Manila, Philippines.

The amended bill does not include language as proposed by the House, which would have provided $2,000,000 for the Advisory Committee on Women Veterans. This issue is addressed in the Departmental overview section of this explanatory statement.

Funding Increases.—The Appropriations Committees agree to provide an increase of $133,163,000 for General Operating Expenses when compared to the President's budget request. The Appropriations Committees agree to provide $124,219,000 for the hiring of additional claims processors. Based upon data provided by the Department to the Committees on Appropriations of both Houses of Congress in response to reporting requirements included in the report accompanying Public Law 110–28, the cost per new hire will enable the Department to hire more than 1,800 new claims processors with the funding provided. In addition, the Appropriations Committees have provided $2,000,000 for the leasing of office space to house these new employees. As the Department experiences an increase in the number of claims being filed, as well as an increase in the number of appeals, both the Board of Veterans Appeals and the Office of General Counsel will require additional personnel to handle these appeals. Therefore, the Appropriations Committees have provided an increase of $3,724,000 for the Board of Veterans Appeals and $3,220,000 for the Office of General Counsel.

INFORMATION TECHNOLOGY SYSTEMS

The amended bill appropriates $1,966,465,000 for Information Technology Systems, instead of $1,859,217,000 as proposed by the House and $1,898,000,000 as proposed by the Senate. The amended bill directs the Department to submit an expenditure plan to the Committees on Appropriations of both Houses of Congress within 30 days of enactment as proposed by the House, instead of 60 days of enactment as proposed by the Senate.

The amount provided includes a reduction of $1,100,000 which has been transferred to the Office of Inspector General. The Appropriations Committees have included an increase of $39,683,000 for computers and other information technology needs associated with the increase in claims processors for the Veterans Benefits Administration and for increased staff in other offices related to claims processing. Additionally, the Appropriations Committees agree to provide $8,000,000 for an insurance card buffer system and $8,000,000 for the Veterans Health Administration Chief Logistics Office information technology support. Both of these program shortfalls were identified by the Department subsequent to completion of the House and Senate action on their respective appropriations bills. The Appropriations Committees have also included $10,200,000 for the information technology costs associated with activation of new community based outpatient clinics, an expense that was underfunded in the budget submission.

On September 6, 2007, the Secretary of Veterans Affairs informed the Committees on Appropriations of both Houses of Congress of his intention to reorganize the information technology development functions within the Department of Veterans Affairs. The budget request for Information Technology Systems included a consolidation of all payroll-associated costs for operations and maintenance under the Information Technology account. The amended bill reflects this consolidation; however, the Appropriations Committees direct the VA to track payroll and non-pay costs separately in future budget submissions. In addition, to further the Department's consolidation objective, the Appropriations Committees have agreed to include an increase of $42,465,000 to preclude the need to transfer funds from the General Operating Expenses, Medical Services, Medical Facilities, and Medical and Prosthetic Research accounts.

The Appropriations Committees are in agreement that the Department should take all steps necessary to ensure that the entire information technology reorganization has no negative impact on providing vital services to veterans, nor should it impede the ability of health care providers and researchers in carrying out their duties.

Electronic Medical Record.—The Appropriations Committees direct the Departments of Defense and Veterans Affairs to issue a joint report to the Committees on Appropriations of both Houses of Congress (subcommittees on Defense and Military Construction/Veterans Affairs) by April 1, 2008, detailing the actions being taken by each Department to achieve an interoperable electronic medical record (EMR) system. The report should include, but not be limited to, a detailed spending plan for the use of funding provided in the Joint Incentive Fund as well as identify all other ongoing and planned projects and programs within each Department addressing interoperability, including funding provided. The report should clearly identify the Departments' goals for interoperability and how these projects and programs will address those goals.

OFFICE OF INSPECTOR GENERAL

The amended bill appropriates $80,500,000 for the Office of Inspector General, instead of $76,500,000 as proposed by the House and $88,700,000 as proposed by the Senate. Of the amount provided, $5,000,000 is available for obligation until September 30, 2009, instead of $3,630,000 as proposed by both the House and the Senate.

The amended bill includes an additional $7,901,000 above the budget request for the Office of Inspector General. The additional funding includes $1,100,000 for information technology systems unique to the Office of Inspector General, as well as additional funding for new positions so that the Inspector General can expand and improve its independent oversight in critical areas, including transitional health care for veterans returning from the wars in Iraq and Afghanistan and Department of Veterans Affairs information technology programs.

CONSTRUCTION, MAJOR PROJECTS

The amended bill appropriates $1,069,100,000 for Construction, Major Projects, instead of $1,410,800,000 as proposed by the House and $727,400,000 as proposed by the Senate. The amended bill includes a provision proposed by the House which places a limitation on the use of funds related to 18 facilities on the Capital Asset Realignment for Enhanced Services list requiring further study. The Senate bill contained no similar provision.

The Appropriations Committees are aware that the Department's budget request of $40,285,000 for the Advanced Planning Fund will not be sufficient to address projects on Department's 5-Year Capital Plan for fiscal years 2009 through 2012. Therefore, the Appropriations Committees have included an additional $9,200,000 in funding to begin the preliminary planning process to address identified construction needs.

Additionally, the Appropriations Committees agree to provide $322,500,000 for allocation to previously appropriated major construction projects, including necessary cost adjustments. The Department is directed to provide the Committees on Appropriations of both Houses of Congress with a detailed list of how these funds will be allocated, within 60 days of enactment of this Act.

New Orleans Veterans Medical Center.—The Appropriations Committees direct the Secretary of Veterans Affairs to report to the Committees on Appropriations of both Houses of Congress not later than October 1 and April 1 of each year, on the current status of the reconstruction of the Department of Veterans Affairs Medical Center in New Orleans, Louisiana. Each report shall include the status of any ongoing environmental assessments, the status of any current construction, and an assessment of the adequacy of funding necessary to complete the reconstruction. If reconstruction of the Medical Center is subject to any major delay, the report shall include a description of each such delay, an explanation for each such delay, and a description of actions being taken or planned to address the delay. Additionally, within 60 days of enactment of this Act, the Department shall report to the Committees on Appropriations of both Houses of Congress as to whether the New Orleans Medical Center should be designated as a Level I polytrauma rehabilitation center or a polytrauma network site.

The amended bill funds the following items ($000):

Veterans Health Administration:	
Pittsburgh, PA	$40,000
Denver, CO	61,300
Orlando, FL	35,000
Las Vegas, NV	341,400
Syracuse, NY	23,800
Lee County, FL	9,890
Advance Planning Fund	49,485
Asbestos Abatement	3,000
BRAC Land Acquisition	5,000
Claims Analyses	2,000
Facility Security	21,325
Hazardous Waste Abatement	2,000
Judgment Fund	30,000
Previously appropriated projects/cost adjustments	322,500
Reprogram prior years funds	−45,000
Total Veterans Health Admin.	901,700
National Cemetery Administration:	
Columbia/Greenville, SC area	$19,200
Sarasota, FL area	27,800
Jacksonville, FL area	22,400
Southeastern PA	29,600
Birmingham, AL area	18,500
Bakersfield, CA area	19,500
Ft. Sam Houston, TX	29,400
Advance Planning Fund	1,000
Total, National Cemetery Admin.	167,400
Total, Major Construction	1,069,100

CONSTRUCTION, MINOR PROJECTS

The amended bill appropriates $630,535,000 for Construction, Minor Projects, instead of $615,000,000 as proposed by the House and $751,398,000 as proposed by the Senate. The amended bill does not include a provision as proposed by the House, which would have established reprogramming procedures for this account. Of the amount provided, the Appropriations Committees agree that not less than $75,000,000 shall be used for gravesite expansion and infrastructure improvements for the National Cemetery Administration and not less than $8,000,000 shall be for minor construction for the Veterans Benefits Administration. In addition, the Appropriations Committees agree that the Department should begin an effort to modernize and upgrade research facilities. The Appropriations Committees are in agreement that the Department shall submit an expenditure plan to the Committees on Appropriations of both Houses of Congress which specifies how the Department intends to execute the funding provided by this amended bill.

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

The amended bill appropriates $165,000,000 for Grants for Construction of State Extended Care Facilities as proposed by the House, instead of $250,000,000 as proposed by the Senate.

GRANTS FOR CONSTRUCTION OF STATE VETERANS CEMETERIES

The amended bill appropriates $39,500,000 for Grants for Construction of State Veterans Cemeteries, instead of $37,000,000 as proposed by the House and $100,000,000 as proposed by the Senate.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes section 201 as proposed by both the House and the Senate allowing for transfers among various mandatory accounts. This provision is not extended beyond this Act as proposed by the Senate.

The amended bill includes section 202 as proposed by the Senate allowing for the transfer of funds among the three medical accounts for the purpose of perfecting the restructuring of the Veterans Health Administration accounts. The House bill contained no similar provision.

The amended bill includes section 203 as proposed by both the House and the Senate allowing for the use of salaries and expenses funds to be used for other authorized purposes.

The amended bill includes section 204 as proposed by both the House and the Senate restricting the use of funds for the acquisition of land.

The amended bill includes section 205 as proposed by both the House and the Senate limiting the use of funds in the Medical Services account to only entitled beneficiaries or unless reimbursement is made to the Department.

The amended bill includes section 206 as proposed by both the House and the Senate allowing for the use of certain mandatory appropriations accounts for payment of prior year accrued obligations for those accounts.

The amended bill includes section 207 as proposed by both the House and the Senate allowing for the use of appropriations available in this title to pay prior year obligations.

The amended bill includes section 208 as proposed by both the House and the Senate allowing funds for the administration of the National Service Life Insurance Fund, the Veterans' Special Life Insurance Fund, and the United States Government Life Insurance Fund.

The amended bill includes section 209 as proposed by both the House and the Senate allowing for the proceeds from enhanced-use leases to be obligated in the year in which the proceeds are received.

The amended bill includes section 210 as proposed by both the House and the Senate allowing for the use of funds in this title for salaries and other administrative expenses to be used to reimburse the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication.

The amended bill includes section 211 as proposed by both the House and the Senate limiting the use of funds for any lease with an estimated annual rental of more than $300,000 unless approved by the Committees on Appropriations of both Houses of Congress.

The amended bill includes section 212 as proposed by both the House and the Senate requiring the Secretary of the Department of Veterans Affairs to collect third-party payer information for persons treated for non-service connected disability.

The amended bill includes section 213 as proposed by both the House and the Senate allowing for the use of enhanced-use leasing revenues for Construction, Major Projects and Construction, Minor Projects.

The amended bill includes section 214 as proposed by both the House and the Senate allowing for the use of Medical Services funds to be used for recreational facilities and funeral expenses.

The amended bill includes section 215 as proposed by both the House and the Senate allowing for funds deposited into the Medical Care Collections Fund to be transferred to the Medical Services account.

The amended bill includes section 216 as proposed by both the House and the Senate which allows Alaskan veterans to use medical facilities of the Indian Health Service or tribal organizations at no additional cost to the Department of Veterans Affairs or the Indian Health Service.

The amended bill includes section 217 as proposed by both the House and the Senate providing for the transfer of funds from the Department of Veterans Affairs Capital Asset Fund to the Construction, Major Projects and Construction, Minor Projects accounts and makes those funds available until expended.

The amended bill includes section 218 as proposed by both the House and the Senate prohibiting the expenditure of funds to replace the current system by which VISNs select and contract for diabetes monitoring supplies and equipment.

The amended bill includes section 219 as proposed by both the House and the Senate prohibiting the use of funds on any policy prohibiting the use of outreach or marketing to enroll new veterans.

The amended bill includes section 220 as proposed by both the House and the Senate requiring the Secretary to submit quarterly reports on the financial status and service level status of the Veterans Health Administration. The amended bill does not include additional reporting requirements as proposed by the House.

The amended bill includes section 221 as proposed by the Senate allowing for the transfer of funds from various accounts to the Information Technology Systems account to complete the restructuring of this appropriations account. The House bill contained no similar provision.

The amended bill includes section 222 as proposed by both the House and the Senate providing for transfer of funds among projects within the Information Technology Systems account.

The amended bill includes section 223 as proposed by the House allowing for the transfer of any prior year balances and/or credits in the Reinstated Entitlement Program for Survivors account to the Compensation and Pensions account.

The amended bill includes section 224 as proposed by the Senate prohibiting the disposal of the land at the West Los Angeles Veterans Affairs Medical Center. The House bill contained no similar provision.

The amended bill includes section 225 as proposed by the Senate maintaining funding for Gulf War Illness Research at levels not less than those made available in fiscal year 2007. The House bill contained no similar provision.

The amended bill includes section 226 as proposed by the Senate directing the Office of Inspector General (OIG) to establish and maintain on the OIG Internet homepage a mechanism to allow for the anonymous reporting of fraud, waste and abuse. The House bill contained no similar provision.

The amended bill includes a modified section 227 as proposed by the Senate authorizing the transfer of not more than $5,000,000 to the Secretary of Health and Human Services for a Graduate Psychology Education Program which directly benefits veterans. The House bill contained no similar provision.

The amended bill includes section 228 as proposed by the Senate prohibiting any funds to be used to contract out any function performed by more than ten employees without a fair competition process. The House bill contained no similar provision.

The amended bill includes section 229 as proposed by the Senate authorizing the lease of a major medical facility. The House bill contained no similar provision.

The amended bill includes section 230 rescinding funding from the Medical Services account in Public Law 110-28 and re-appropriating the funding to Construction, Major Projects to enable the Department to move forward with direction included in the emergency supplemental conference report.

The amended bill includes section 231 extending the effective date of section 1710 of title 38, United States Code which allows for the collection of co-payments for certain services.

The amended bill includes section 232 extending the effective date of section 1729 of title 38, United States Code which provides for third-party collections.

The amended bill includes section 233 allowing funds previously appropriated for hurricane cleanup to be used for replacing doors and windows and roof repairs on buildings at the Veterans Affairs hospital site in Gulfport, Mississippi.

The amended bill includes section 234 maintaining the State Approving Agencies funding at the fiscal year 2007 level.

The amended bill does not include a provision proposed by the Senate (section 221) which would have allowed for the transfer of funds from the General Operating Expenses, National Cemetery Administration, and Office of Inspector General accounts to the Medical Services account.

The amended bill does not include a provision proposed by the House (section 222) which would have required the Department to notify and receive Congressional approval prior to transferring funds in excess of $1,000,000 between minor construction projects.

The amended bill does not include a provision proposed by the Senate (section 224) which would have provided additional direction on the obligation of non-recurring maintenance. This issue is instead addressed under Medical Facilities.

The amended bill includes section 235 designating $3,691,391,000 as contingent emergency funding, available for obligation only after submission to the Congress of a formal budget request by the President.

The amended bill does not include a provision proposed by the Senate (section 229) which would have required a report on the Department of Veterans Affairs Medical Center in New Orleans, Louisiana. This issue is instead addressed under Construction, Major Projects.

The amended bill does not include a provision proposed by the Senate (section 230) which would have increased the Medical Services account by $125,000,000 and reduced the Medical Administration account by $125,000,000 for the Veterans Beneficiary Travel program. This issue is addressed under Medical Services.

The amended bill does not include a provision proposed by the Senate (section 231) which would have required a report on access to medical services for veterans in rural areas. The issue is instead addressed under Medical Services.

The amended bill does not include a provision proposed by the Senate (section 232) which would have prohibited rounding down the dollar amounts to the next whole dollar for benefit payments.

The amended bill does not include a provision proposed by the Senate (section 234) which would have named a clinic in Alpena, Michigan.

TITLE III—RELATED AGENCIES

AMERICAN BATTLE MONUMENTS COMMISSION

SALARIES AND EXPENSES

The amended bill appropriates $44,600,000 for Salaries and Expenses, instead of $43,470,000 as proposed by the House and $45,600,000 as proposed by the Senate.

The Appropriations Committees agree that the increase above the budget request shall be used for capital improvements and infrastructure modernization. The Appropriations Committees agree with the direction of the Senate that the Commission submit a report to the Committees on Appropriations of both Houses of Congress by February 29, 2008, detailing funding required to correct maintenance and infrastructure deficiencies at all cemeteries and memorials for which the Commission is responsible.

In fiscal year 2006, the Commission contracted for a study on ground erosion surrounding the World War II Pointe du Hoc Ranger Monument in France. The Appropriations Committees direct the Commission to submit a report to the Committees on Appropriations of both Houses of Congress outlining the conclusions of the ground erosion study and the steps the Commission will take to implement any study recommendations.

FOREIGN CURRENCY FLUCTUATIONS ACCOUNT

The amended bill appropriates $11,000,000 for the Foreign Currency Fluctuations Account as proposed by both the House and the Senate.

UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS

SALARIES AND EXPENSES

The amended bill appropriates $22,717,000 for the Salaries and Expenses account, instead of $21,397,000 as proposed by the House and $24,217,000 as proposed by the Senate. The amount provided includes $1,210,000 for the pro bono program, instead of $1,300,000 as proposed by the House and $1,120,000 as proposed by the Senate.

The Appropriations Committees have agreed to provide additional resources for the Court in recognition of the probability that the Court's workload will increase as the Department of Veterans Affairs experiences a significant increase in disability claims being processed. The increase in funding will provide the Court with sufficient resources to hire two additional magistrate judges, three staff attorneys and clerical staff.

DEPARTMENT OF DEFENSE—CIVIL

CEMETERIAL EXPENSES, ARMY

SALARIES AND EXPENSES

The amended bill appropriates $31,230,000 for Salaries and Expenses, instead of $30,592,000 as proposed by the House and $31,865,000 as proposed by the Senate. The amended bill includes a provision as proposed by the Senate which will allow funds to be provided to Arlington County, Virginia for expenses related to the relocation of the federally owned water main at Arlington National Cemetery. The House bill contained no similar provision.

The Appropriations Committees agree that the increase of $4,338,000 above the budget request shall be used for the realignment of government-issued headstones, the construction of a heavy equipment storage facility, and costs not included in the budget request associated with the relocation of utilities at Arlington National Cemetery.

ARMED FORCES RETIREMENT HOME

TRUST FUNDS

The amended bill appropriates $55,724,000 for the Armed Forces Retirement Home (AFRH) as proposed by both the House and the Senate.

The Appropriations Committees maintain an interest in how the principles of the Green House approach can be incorporated into the new AFRH Gulfport campus while meeting construction milestones, fully restoring services and providing pre-Katrina number of resident spaces. The Appropriations Committees direct the AFRH to submit a report to the Committees on Appropriations of both Houses of Congress no later than March 1, 2008, detailing the planned onsite services and how the agency could implement the principles of the Green House approach on the Gulfport campus.

GENERAL FUND PAYMENT

The amended bill appropriates $800,000 as a General Fund Payment to the Armed Forces Retirement Home as proposed by the House, instead of $5,900,000 as proposed by the Senate. The funding is to be used for a study of funding sources for the Trust Fund to determine the long-term viability of the Trust Fund and the potential need for a recurring General Fund Payment to the Trust Fund.

ADMINISTRATIVE PROVISION

The amended bill does not include an administrative provision as proposed by the Senate (Sec. 301) which would have prohibited the American Battle Monuments Commission from making a payment to the Capital Security Cost Sharing program.

TITLE IV—GENERAL PROVISIONS

The amended bill includes section 401 as proposed by both the House and the Senate prohibiting the obligation of funds in the Act beyond the current fiscal year unless expressly so provided.

The amended bill includes section 402 as proposed by both the House and the Senate requiring pay raises to be absorbed within the levels appropriated in the Act.

The amended bill includes section 403 as proposed by both the House and the Senate prohibiting the use of the funds in this Act for programs, projects or activities not in compliance with Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

The amended bill includes section 404 as proposed by both the House and the Senate prohibiting the use of funds in the Act to support or defeat legislation pending before Congress.

The amended bill includes section 405 as proposed by the Senate encouraging all Departments to expand their use of "E-Commerce". The House bill contained a similar provision, but was more directive.

The amended bill includes section 406 as proposed by both the House and the Senate prohibiting the transfer of funds to any instrumentality of the United States Government without authority from an appropriations Act.

The amended bill includes section 407 as proposed by both the House and the Senate specifying the congressional committees that are to receive all reports and notifications.

The amended bill includes section 408 as proposed by the House directing the Congressional Budget Office to submit a report that projects the annual appropriations necessary for the Department of Veterans Affairs to continue providing health care to veterans. The Senate bill contained no similar provision.

The amended bill includes section 409 as proposed by both the House and the Senate prohibiting the use of funds in the Act for any action that is related to or promotes the expansion of the boundaries or size of the Pinon Canyon Maneuver Site, Colorado.

The amended bill includes section 410 as proposed by the Senate allowing the City of Aurora, Colorado to convey land to the United States to be used by the Department of Veterans Affairs for construction of a veterans' medical facility. The House bill contained no similar provision.

The amended bill does not include a provision as proposed by the House (section 409) which would have prohibited the use of funds in this Act to purchase light bulbs unless they have the "ENERGY STAR" designation. The Senate bill contained no similar provision.

The amended bill does not include a provision as proposed by the Senate (section 408) which would have required the Government Accountability Office to assess mental health care services for female servicemembers and veterans. This issue is addressed under the Department of Veterans Affairs in this explanatory statement. The House bill contained no similar provision.

The amended bill does not include a provision, as proposed by the Senate (section 409) which would have prohibited the use of funds in the Act to enter into a contract or award a grant in an amount greater than $5,000,000 unless the contractor or grantee certifies in writing that certain Federal requirements have been met. The House bill contained no similar provision.

The amended bill does not include a provision as proposed by the Senate (section 411) which would have appropriated $100,000,000, designated as an emergency requirement, for security and related costs associated with the Democratic National Convention and the Republican National Convention. The House bill contained no similar provision.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in the House or Senate versions of H.R. 2642 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor this explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

AMENDED BILL TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for fiscal year 2008 provided in the amended bill, with comparisons to the fiscal year 2007 amount, the 2008 budget estimates, and the House and Senate bills for 2008 follow:

[In thousands of dollars]

New budget (obligational) authority, fiscal year 2007	$97,630,909
Budget estimates of new (obligational) authority, fiscal year 2008	105,231,766
House bill, fiscal year 2008	109,231,766
Senate bill, fiscal year 2008	109,332,250
Amended bill, fiscal year 2008	108,391,250
Amended bill compared with:	
New budget (obligational) authority, fiscal year 2007	+10,760,341
Budget estimates of new (obligational) authority, fiscal year 2008	+3,159,484
House bill, fiscal year 2008	−840,516
Senate bill, fiscal year 2008	−941,000

DIVISION J

DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS

The following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2008 (H.R. 2764) passed by the House of Representatives and the Senate. In implementing this amended bill, the departments, agencies, organizations, and commissions should be guided by the directives and instructions set forth in House Report 110–197 and Senate Report 110–128 accompanying the bill H.R. 2764, unless specifically addressed in the accompanying amended bill and explanatory statement to the contrary.

TITLE I—DEPARTMENT OF STATE AND RELATED AGENCIES

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $5,359,802,000 for Diplomatic and Consular Programs, instead of $4,747,078,000 as proposed by the House and $4,729,973,000 as proposed by the Senate. Of this amount, $781,632,000 is designated emergency spending pursuant to section 5 preceding division A of this Act, of which $575,000,000 is for operations and $206,632,000 is for worldwide security protection.

The amended bill includes a total of $974,760,000 for worldwide security protection, instead of $964,760,000 as proposed by the House and $909,598,000 as proposed by the Senate.

The amended bill does not include a proviso proposed by the Senate regarding funding for the Office of the Director of United States Foreign Assistance. The Appropriations Committees are concerned that there are insufficient personnel to adequately explain the Department's budget request and respond to congressional inquiries. The Appropriations Committees support expanding the Department's budgetary operations. The Appropriations Committees request the Under Secretary of State for Management to assess the current capacity of resource management offices and make recommendations to develop an adequately staffed, integrated budget formulation, justification, and execution office. These recommendations should be submitted to the Appropriations Committees not later than May 1, 2008.

The amended bill includes $360,905,000 for public diplomacy international information programs under this heading and an additional $6,000,000 is available in fee revenue generated by the Border Security Program. This brings the estimated total for public diplomacy international information programs to $366,904,000 in fiscal year 2008, which is $2,000,000 above the budget request.

The amended bill includes $2,000,000 to establish and operate a public/private public diplomacy center as proposed by the House. The Senate did not include a similar provision.

The amended bill includes $5,000,000 for a demonstration program to expand access to consular services, including through the use of mobile consular services, as proposed by the Senate. The Department of State shall consult with the Appropriations Committees regarding this program prior to the initial obligation of funds.

The amended bill provides $4,000,000 for compensation to the families of members of the Foreign Service or other United States Government employees or their dependents who were killed in terrorist attacks since 1979, as proposed by the House. All funds for compensation are available for obligation only upon enactment of a specific authorization in a subsequent Act of Congress.

The amended bill includes a proviso to allow the Secretary of State to reemploy Foreign Service annuitants on a temporary basis where necessary to meet the demand for passport adjudication and processing, as proposed by the Senate. The amended bill does not include $40,000,000 for passport operations, facilities, and systems, as proposed by the Senate. As the Department of State has informed the Appropriations Committees that it intends to expend $1,898,540,000 from fee revenue for the Border Security Program in fiscal year 2008 (an increase of $612,213,000 above the fiscal year 2007 level), the Senate provision is not necessary at this time. The Appropriations Committees direct the Department of State to submit quarterly reports on obligations and expenditures for Consular Affairs including the level of personnel, personnel specifically for passport processing, the capacity of passport processing facilities, and projected and actual fee revenue, similar to the reporting requirements contained in House Report 110–197. The Committees will continue to closely monitor passport workload and backlogs to ensure that the Department has the resources, hiring authority and trained personnel necessary to provide timely passport services.

The amended bill does not include a proviso designating $3,000,000 for the operations of the Office on Right-Sizing the United States Government Overseas Presence, as proposed by the House.

The amended bill does not include a proviso making $5,000,000 available for the Program for Research and Training on Eastern Europe and the Independent States of the Former Soviet Union (title VIII), as proposed by the House. The funding and authority for this purpose are provided in section 634(q) of this Act.

The amended bill does not include a proviso granting the Secretary of State the authority to transfer up to $200,000,000 from appropriations in this Act and prior Acts making appropriations for the Department of State, foreign operations, and export financing to the Millennium Challenge Corporation (MCC), as proposed by the Senate.

The amended bill provides $5,000,000 for the Ambassador's Fund for Cultural Preservation, instead of $6,000,000 as proposed by the Senate. The House did not have a similar provision. Of this amount, not less than $1,500,000 shall be used for grants of not less than $500,000 for significant historic preservation projects, such as archeological restoration of Phnom Bakhen, Cambodia, and Mayan sites in the Peten region of Guatemala.

The Appropriations Committees support a pilot program to improve management and protection of United States Government properties overseas that have cultural, architectural, or historical value.

The amended bill includes a proviso, similar to that proposed by the House, prohibiting the use of funds under this heading to process licenses for the export of satellites of United States origin to the People's Republic of China.

The Department of State shall provide $18,000,000 for security enhancements to soft targets such as overseas schools and residential compounds. The Appropriations Committees expect that the additional funds will be prioritized to those countries and regions impacted by political and religious extremism.

The amended bill includes a new proviso withholding $500,000 in funds appropriated under this heading from obligation until the Secretary of State submits a report to the Appropriations Committees outlining a plan to increase the capacity of the United States Embassy Moscow to monitor human rights and Russian laws relating to the press and human rights and other civil society groups. The Department of State shall consult with the Appropriations Committees regarding this plan, prior to the obligation of funds.

The amended bill includes a new proviso giving the Secretary of State the authority to transfer certain unobligated balances of funds appropriated under the heading "Diplomatic and Consular Programs" to "Emergencies in the Diplomatic and Consular Service" for rewards payments.

The amended bill includes sufficient funds to maintain at not less than the current service level funding for the salaries and expenses of the Office of the Special Coordinator for Tibetan Issues.

The Appropriations Committees direct the Secretary to implement the Western Hemisphere Travel Initiative no earlier than the statutory deadline of June 1, 2009 and endorse the report required in Senate Report 110–128 related to travel document issuance.

The Bureau of Diplomatic Security should develop a comprehensive facility plan to consolidate and expand hard and soft skills training and report to the Appropriations Committees no later than May 1, 2008.

The Appropriations Committees are encouraged that the Department of State has provided access to Iraq for a small number of Government Accountability Office (GAO) personnel to conduct oversight; however, the Appropriations Committees are dismayed that the Department of State is attempting to limit access to Iraq by additional GAO temporary duty teams who may have need for extended field visits in the International Zone to conduct oversight. Section 3804 of Public Law 110–28, the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq

Accountability Appropriations Act of 2007, provides for the GAO to operate in Iraq for not less than 45 consecutive days and for the provision of necessary life support, which shall include housing, food, and transportation. The Appropriations Committees direct the Secretary of State to certify not later than 30 days after enactment of this Act that section 3804 has been implemented.
